HARPER HAWK

HK_{4400 & HK4200}

Don't spend another season working harder, work smarter with the Harper Hawk. This self-propelled turf sweeper is your solution for challenging collection needs. From fall clean up and dense debris, the Hawk hovers over material for true one-pass performance. The rotor and paddle technology keeps debris moving through the housing, preventing blockages and downtime. Cover rough terrain with confidence utilizing the only four-wheel drive system in the market. A superior performer for striking results in damp or dry conditions - that's Harper Turf.

CLEANER. FASTER. HARPER.

GAME CHANGER.

BEYOND EXPECTATIONS

Building on a legacy of debris management solutions for the turf industry, the Harper Hawk Turf Sweeper is backed by Harper's signature recirculating air technology, and designed for superior pick up performance. Engineered from the ground up, the new sweeper line solves common operator struggles with stability, visibility and complex mechanics identified in other machines. An efficient labor-saver that's cleaner & faster - that's Harper Turf.
