The economy has had a drastic impact on the manufacturing environment, as well as the entire supply chain. With the increase of fuel cost and the limited supply of manufacturing materials we have to raise prices to meet the demands of our suppliers. We are adding 874 new items, deleting 472, reducing the price of 11,515 items with an average price decrease of 9% and increasing the price of 12,288 items.

Re-assessment of prices will be done in December, 2022 at which time if prices need to remain (or change), a new contract update will be re-submitted, otherwise prices will revert back to today's pricing after

December 31, 2022.
