

## Request for Vendor Contract Update

Pursuant to the terms of your awarded vendor contract, all vendors must notify and receive approval from Region 4/OMNIA Partners, Public Sector when there is an update in the contract. No request will be officially approved without the prior authorization of Region 4. Region 4 reserves the right to accept or reject any request.

Instructure, Inc. hereby provides notice of the following update to  
(Vendor Name) Learning Management System  
Contract number: R201402 for on this date August 29, 2022  
Contract Title

**Instructions:** Vendors must check all that may apply and shall provide supporting documentation. Place your initials next to each item to confirm that documents are indeed included. Request received without supporting documentation will be returned. Be sure to sign prior to submitting your update for approval. This form is not intended for use if there is a material change in operations, which may adversely affect members, i.e. assignment, bankruptcy, change of ownership, merger, etc. Please contact a member of the OMNIA Partners Contracting Team to request a "Notice of Material Change to Vendor Contract" form.

## Mastery View Assessments & Item Banks

### Mastery View Overview

Mastery View Assessments and Item Banks by Instructure are a collection of rigorous, standards-aligned assessment content that provide educators with real-time, relevant data about student learning. These assessments can be implemented as a part of a balanced assessment system, ensuring meaningful data with minimal testing time.

### Mastery View Features

Feature	Description
Mastery View Formative Assessments*	Valid and reliable formative assessments designed to deliver a real-time, actionable view into students' mastery of standards, empowering educators to more effectively meet learning needs.
Mastery View Predictive Assessments*	Benchmark assessments that mirror state assessments, are predictive, and closely follow states' assessment blueprints, resulting in strong correlations between assessment scores and students' achievement on state summative tests.
Mastery View College Prep	Annual assessment that is aligned with and prepares students for the ACT®.
Mastery Item Bank	The Mastery Item Bank contains standards-aligned items across Math, ELA, Science, and Social Studies and can be used to create quick-checks, short formative tests, and quizzes in the intervals between benchmark/interim assessments.
Mastery Item Bank Supplemental*	The Supplemental Item Bank contains standards-aligned items specifically for the tested subject areas in the states in which the Mastery View Predictive Assessments are provided. These items are retired benchmark items from which teachers can create short formative assessments, giving students practice and experience with the item types and rigor they will see on the benchmarks and end of year tests.
Online and Paper Pencil Delivery Options	Assessments are available for online delivery via Mastery Connect, and are also available in a paper/pencil format if needed. Mastery View College Prep is only available paper/pencil.
Robust Reporting	Assessment results are shared in easy-to-use, standards-aligned, reports at the student, teacher, school, and district level. Example reports include standards mastery, item analysis, and growth reporting.

\*Denotes offering is available in select states

Requires Mastery Connect Implementation

## Elevate K12 Analytics

### Elevate K12 Analytics Overview

Instructure's Elevate K-12 Analytics solution provides a comprehensive set of analytics tools as a SaaS-based system. It includes a fully-managed Ed-Fi ODS, facilitating quick implementation by districts while normalizing each district's data to a national K12 standard. Elevate K-12 Analytics provides the capability to view and analyze real-time district data in dashboards, scorecards, and watchlists, enabling districts to make data-driven decisions. Its user-friendly interface requires no SQL knowledge to create and share powerful analytics, democratizing data access for district and school staff, while relieving the traditional bottleneck of custom report requests that usually beleaguers district data teams. Elevate K-12 Analytics provides access to hundreds of "out of the box" charts and dashboards for enrollment, attendance, behavior, academic achievement, grade reporting, and progress trend data. Cross-district data from disparate systems can be viewed and categorized in many ways, such as by demographics, program enrollment, student characteristics, schools, special populations, or teachers, to name a few. Elevate K-12 Analytics supports Single Sign On, can be accessed directly from Canvas and/or Mastery Connect (or an outside URL), and utilizes user-based permissions to ensure PII is protected.

## Elevate K12 Analytics Features

Feature	Description
Performance Level Normalization	Schools can configure performance levels for assessments from multiple vendors to normalize the data and enable side by side comparison and analysis
Flexible, dynamic, and user-friendly filters	Users can click to subcategorize, filter by category, find top n, disaggregate, or explain charts.
Role management	Schools can define custom roles and configure visibility of application features student PII.
Manual user management	Schools can manually create users and assign to a Role
Automated user management	Schools can map district roles to application roles and automatically create and maintain users as people change positions within the organization.
Library management	Schools have access to hundreds of charts/dashboards on day 1 and can manage visibility of library items by role.
Single Sign On	Schools can leverage SSO integration with any LTI or OpenID Connect corporate identify service.
Visuals and Dashboards	Schools can arrange tables and charts to create and share dashboards.
Chart Library	Users can choose from over 22 chart types including pie, line, bar, gauge, scatter, bullet and box plot
Watchlists	Enables users to easily identify and track students that meet specified thresholds on any metric(s). Watchlists can be static, dynamic or dynamic based on point assignment
Scorecards/perspectives	Ability to present student scorecards in a highly visual ways using charts, widgets, and grids.
Explorer	Users can access any category metric then filter, categorize, drill-down and analyze the data you're interested in.
KPIs	Districts and users have the ability to define KPIs on any metric in the operational data store (ODS)
Publishing	Users can publish charts and dashboards to roles and/or individuals
Exporting	Users can save and mail dashboards and charts as pdf, image or excel and also print
Ed-Fi certified	Elevate K12 Analytics is a fully hosted and managed interoperability platform certified by Ed-Fi
Longitudinal analysis	Districts can store data for 3 + years enabling them to view history and see trends
Integrates disparate data sources	Integration SIS, Assessments, Attendance, LMS and Behavior data
