MULTI-FAMILY INSURANCE CLAIM SPECIALISTS

WHAT WE DO

Ironclaim's public adjusters give you the confidence that an experienced team is representing you by fighting to maximize your settlement based on damage sustained. We're not lawyers and we're not insurance agents. We're licensed insurance adjusters -- just like the ones assigned from the insurance company. The only difference is that we work for you, the policyholder. As your advocate, we are here to level the playing field, protect your interests, and ensure that you receive the rightful compensation under your policy.
