6 Techniques to Dramatically Upgrade the Quality of Your Presentations

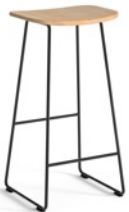

1. **Eliminate or use things** you're afraid to use because you're afraid of being judged. Use things that you're proud of.
2. **Customize your content** to be relevant to your audience, geography, or shared process.
3. **One actionable takeaway.** Avoid broad, generic advice.
- Better: "Communicate is Good!"
- Bad: "Communicate is Good!"
- Try this format: "You need to do _____ but after I show _____ you'll switch to doing _____ and get better results."
4. **Assume knowledge and make** folks to raise their hand if they don't know what you mean.
5. **Share what you know.** Don't be afraid to share what you know.
