

IS YOUR SCHOOL READY FOR 4 YEAR OLDS?

Starting in 2025, public schools in the state of California will be required to offer transitional kindergarten for all 4 year olds, and the program is already rolling out for the 2022-2023 school year.

What does that mean for your school and its playground?

Your kindergarten playground is likely designed for children ages 5-12. However, Consumer Products Safety Commission (CPSC) establishes guidelines necessary for children aged 2-5. To remain compliant, you will need to update your playground to ensure that the equipment is suitable and safe for ages 4+.

MITIGATE YOUR RISK MANAGEMENT

At KOMPAN, we have the perfect solutions for 4 year olds! We design playgrounds based on research in child development through our KOMPAN Play Institute and manufacture playground equipment that is CPSC compliant and specifically designed for younger children.

GET GRANT MONEY FOR UPDATING YOUR SCHOOL'S PLAYGROUND

There are several grants available for California school districts that can be used for costs associated with expanding TK enrollment, including retrofitting or building new facilities:

- Full-Day Kindergarten Facilities Grant Program: Two funding rounds are available April 1, 2022 – April 30, 2022, and April 1, 2023 – April 30, 2023.
- California Pre-Kindergarten Planning and Implementation Grant: Funds will be available until June 30, 2024.

Playground solutions for 4 year olds

TROUPER WITH ROOF

The Trouper offers a playful way to make friends with varied play for all.

ANGLED TRIPLE TOWER WITH U-NET

This fantastic play structure will inspire young children to play by stimulating their physical, social, and thinking skills.

MAKER WITH SHADE

The Maker is a fantastic structure loaded with play that is not only thrilling and challenging but will support children's development in all areas.

DOUBLE TOWER WITH DOUBLE SLIDE

The Double Tower is a truly inclusive play unit thanks to its rich choice of wilder and milder play activities—there is something for everyone.
