

PRIVATE OFFICES

With our comprehensive portfolio of desks, workstations, and storage solutions, Kimball International easily supports all types of learning environments. From administrative areas and private offices to spaces for shared work and interaction, professionals need relevant accommodations and working environments to fully engage with others or concentrate independently.

Kimball International offers a unique portfolio of brands to address today's evolving learning spaces. With a commitment to craftsmanship and insights-driven innovation, we offer stylish furniture at an exceptional value. Schools and universities across the country have selected Kimball International to furnish casual student areas, libraries, meeting spaces, classrooms, and administrative offices. We offer solutions to meet the needs of entire educational facilities.

EVERYSPACE

As the modern workplace changes, EverySpace supports users throughout their day. This modular platform offers adaptable architecture that combines personal elements with functional solutions to compose workstations for any situation. Create multi-height worksurfaces and large open plan configurations or single-user spaces in tight footprints. Build storage vertically or add screens for space division and to buffer acoustics. Incorporate height-adjustable worksurfaces for ergo support and utilize integrated wire management capabilities to maintain a clean aesthetic.

EverySpace is a comprehensive solution that puts the user at the center of its design. It can flex and flow as needs change and work styles evolve. Scalable by nature, its customizable platform is only limited by your imagination.

At Kimball, we have a dedicated government sales and customer service team to work through the nuances of government purchasing. From private offices and shared workstations to training areas and conference rooms, we offer a range of sustainable and durable solutions to outfit your government facility.
