KONICA MINOLTA OFFERINGS
FOR VIDEO SECURITY SOLUTIONS

The Video Security Solutions team offers an expansive portfolio of MOBOTIX IoT devices and security software solutions; knowledgeable sales consultants and world class support to help improve the physical security both inside your facility and around its perimeter. As many organizations recognize that they need to improve security from intruders, graffiti and other invasive elements -- Konica Minolta can guide you to the best solution for monitoring temperature-sensitive machinery to people counting at an entrance to visibility into hallways or low-lit parking lots. We have configured solutions for elevated body temperature needs and for providing your security team actionable alerts.

MOBOTIX IOT DEVICES

Interior Cameras
Benefit from the coverage and visibility our German-made devices can provide as you Rethink your security needs. Allay concerns about security and intruders or monitoring restricted areas.

- **Employee and Visitor Safety**
- **Better Coverage with 180°, 360° View**
- **Superior Image Technology**
- **Reliable Recording**
- **All-in-One System**

Exterior Cameras
Protect your premises: from loading dock to grounds to parking lots. Benefit from low-light technology and enjoy alerts for you to take action.

- **Arificial Intelligent Apps**
- **IoT Enabled/Reduces Crime**
- **4K Resolution**
- **Two-Way Audio**
- **All-in-One System**

Hemispheric Cameras
Eliminate the blind spots and gain visibility 'around the corner' or field of view as with the interior of a vehicle. Be prepared in schools for active shooters with clear images on hallway locations and prevent bullying by actively engaging on playgrounds and in school vehicles.

- **180 and 360 View**
- **Ideal for Public Buildings (Malls and Stores), Correctional Institutions, Parking Garages**
- **High Quality Images in Low Light**

SCREENING SOLUTIONS

Thermal Screening Stations

Use elevated body temperature to identify potential virus threats within your organization and stop the spread with first level screening.

- **Return-to-Work First Level Screening**
- **School Campus Student Thermal Screening**
- **MOBOTIX Camera + Screen + Cart**
- **On-screen Thermal Image for out of Compliance Detection**

Dual-Device Screening Pedestal

Prepare for high traffic volume at your facility with thermal devices to detect elevated body temperature and video to enable identification and tracking.

- **Rapid Thermal Device Elevated Body Temperature Screening**
- **Companion MOBOTIX Camera for Video**
- **Easy-to-Place Pedestal**
- **Cloud Access via MxLINQ™**
- **Supports Network Alerts, SMS, Compliance Reporting**

Thermal Cameras

Protect your premises from intruders. Screen for humans versus animals in your perimeter. Look to your cameras to provide alarms for temperature-sensitive machinery that must operate within a prescribed range.

- **Thermal Radiometry**
- **Moonlight Technology**
- **Dual-Lens**
- **Automatic Temperature Alarms**
- **Motion Detection**

CLOUD STORAGE AND VMS

Utilizing cloud for storage gives you the flexibility to access the data from any device. With a cloud VMS, you can network all of your cameras from any location, nationally or globally, to a single dashboard, and send SMS messages across your entire security network – informing your team anywhere on any device.

GLOBAL CLIENT SERVICE

Enjoy the world-class service our center provides for your system: from help desk to remote support & maintenance we help you solve your problems. And guide you through any resolution.

- **Help Desk**
- **Remote Device Configuration**
- **Remote Support and Maintenance**
- **Perform Level I & II Troubleshooting**

SPECIALIZED MONITORING

Software Analytics

You can utilize our software for numerous purposes to identify people out of compliance, cars in your area and traffic.

- **Mask Detection**
- **Facial Recognition**
- **People Counting**
- **License Plate Recognition**
