

DIRECT ROUTING FOR MICROSOFT TEAMS

Leverage Microsoft Teams for a unified calling solution. The entire Microsoft Teams Calling lifecycle is supported by cloud-based Direct Routing from migration to deployment, capacity management, support, analytics, and integration. All this and cost savings over Microsoft's calling plans. Unified Communications Direct Routing makes it simpler to migrate your telecom to Teams.

- Native Teams call routing
- One phone number & Dynamic 911 included per user
- SMS integrations
- eFax & traditional fax solutions
- Call recording
- On-demand disaster planning

SMS INTEGRATIONS

Gain full functionality and SMS automation in Microsoft Teams. Each user can talk, text, picture message, and more. A powerful and flexible solution for your business with all the features of mobility, including voice, SMS, MMS, anytime, anywhere, and from any device.

ANALOG DEVICE SUPPORT

Direct Routing offers the freedom to continue using your traditional fax solutions, analog paging systems, and more. Our affordable ATA devices bridge the digital divide and allow for complete communication.
