**Road Logistics**

LTL eCommerce

Digitize, grow and manage your
heavy-freight LTL eCommerce business with
proven solutions that are customized for you.

LTL eCommerce

Each business moving heavy freight products online is different and your customers are demanding an experience similar to when purchasing small parcel items online.

Your systems. Your platform. Our shared solutions.

When you partner with Kuehne+Nagel, you are in control. Based on your challenges and needs, you choose the solutions that will help you digitize and enhance your heavy-freight eCommerce business.

1. Tell us about your business and what you're looking to accomplish
2. Choose from a software suite that can be adapted to your existing systems and processes
3. Provide your employees and customers instant LTL rates and real-time shipment information
4. Lean on your dedicated support team to solve problems and offer proactive solutions
5. Manage your business with genuine transportation data

How you benefit:

- Gain shipment visibility
- Reduce shopping cart abandonment
- Ship and procure more efficiently and with transparency
- Get committed pricing from top carriers
- Build customer loyalty by consistently providing superior heavy-freight shipping experiences

How your customers benefit:

- Experience frictionless, instant checkouts
- Enjoy online shopping experiences similar to small parcel
- Receive accurate shipment pricing at checkout
- Gain shipment visibility
- Get reliable, on-time deliveries
