Parts and Service

Land Pride and our dealers are committed to Service after the sale. Through online parts ordering, phone support, or a personal visit if that's what it takes, Land Pride is willing to go the extra mile for our customers. We have over **1700 dealers** across the U.S. and Canada. And with over **40 dealers** in Georgia, there is always reliable help close by. All of our equipment is shipped from our facilities in Kansas to a local, authorized Dealer, set up, and then delivered to your member's location..

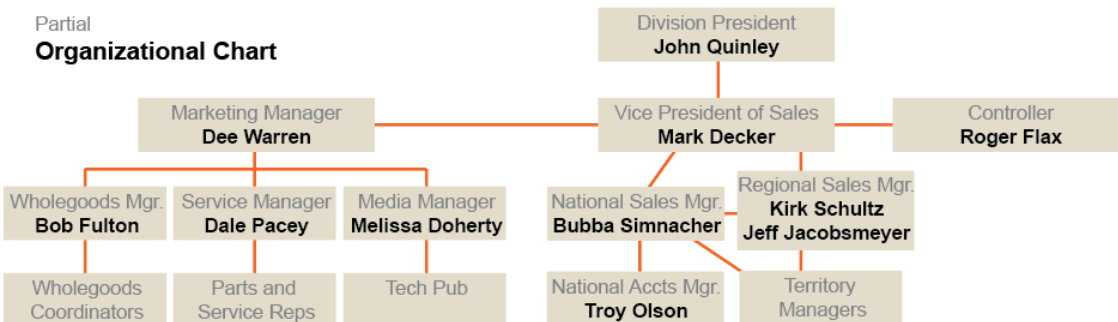

The enclosed pricebooks and product literature cover our full line of Land Pride Implements and Kubota Construction Attachments. Additional information, such as operator's manuals, parts manuals, warranty information, as well as a dealer locator, can also be found on our website, www.landpride.com. Additionally, Land Pride can be contacted direct for answers to any additional product questions.

This map represents Land Pride's territories across the US with Authorized Dealer locations marked by blue dot. A full list of US Dealers is included in Excel format.

A Division of Great Plains Mfg., Inc.

President

John Quinley

John started with Great Plains April 13, 1981, and has been in the industry over 35 years. He has held the positions of Great Plains Credit Manager, Land Pride Marketing Manager, and currently President of the Land Pride Division. John works closely with Marketing and Sales to promote the LP Product Line and develop the dealer network.

Vice President of Sales

Mark Decker

Mark has been with Land Pride since 1996. Previous to Land Pride, he worked in Sales at Goosen Industries of Beatrice, Nebraska (also in the Grounds Maintenance industry). Mark began as Sales Manager for Land Pride's Turf Division, moved to a Regional Manager in 1997 and was promoted to National Sales Manager in 1998. He became the VP of Sales in January, 2016. Mark reports directly to John Quinley.

National Sales Manager

Guarian (Bubba) Simnacher

Guarian began with Land Pride in March 2006 and has been in the industry for 30 years, beginning with FMC Corporation as a field service technician then later sales representative in 1996, he founded BUBCO, Inc. a distributing company specializing in vineyard and orchard equipment for the U.S. market, then later added turf products as a manufacturer's representative. Guarian has served as Regional Sales Manager and has recently been promoted to National Sales Manager. He reports to Mark Decker.

Marketing Manager

Dee Warren

Dee works closely with Sales – Mark and Guarian – as well as the Land Pride Territory Managers. Dee has over 25 years of marketing experience – 17 in a B2B agency environment and nearly six years as Land Pride Marketing Manager. He reports directly to John Quinley, President of Land Pride.

Regional Sales Managers

Kirk Schultz

Jeff Jacobsmeyer

Kirk and Jeff currently cover the entire US providing in the field support for our territory managers. They also provide support for all of our Land Pride dealers in regards to product training, transferring of equipment, ordering of equipment, and customer support..

National Accounts Manager

Troy L. Olson

Troy has been with Land Pride since 2017. Previous to that he worked in the banking sector as a mortgage loan officer, as well as the insurance industry where he was an insurance agent for 15 years. Troy works closely with our Land Pride dealers, and territory managers where he handles quoting of products, dealer credits, and administration of state and cooperative contracts.

Territory Managers/Reps

31 Territories are managed by over 40 Territory Managers. Many have long-term relationships with Land Pride.

FDR16 SERIES GROOMING MOWERS

HP REQUIRED
15-40 HP

HITCH
Cat. 1

MOWERS

The mower for a homeowner.

Land Pride Grooming Mowers are a rear-mount alternative to a belly-mount mower for your subcompact and compact tractor. With three fixed blades and a floating 3-Point hitch, these mowers give you a clean cut in fescue and other turf-type grasses.

Quick Hitch
SYSTEM
60" & 72" Only

The tapered rear discharge directs debris toward the ground eliminating the need for chains which provides for a more even distribution of clippings.

5 YEAR
LIMITED GEARBOX
WARRANTY*

The driveline storage hook keeps the driveline off the ground when not in use.

Top and bottom hitch points float up and down which allows the mower to float over uneven terrain.

Non-aligned rear gauge wheels don't track behind the front wheels to reduce laying grass over.

FDR25 SERIES GROOMING MOWERS

HP REQUIRED
15-60 HP

TYPE OF HITCH
Cat. 1

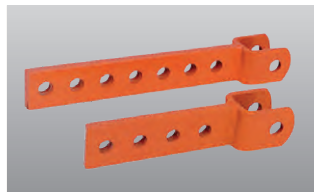

MOWERS

Full-size mower for compact tractors.

The FDR25 Series of Grooming Mowers offer the same 3-blade system and floating hitch as the FDR16 and provide professional results for larger acreage homeowners and municipalities. The 72" and 84" cutting widths are well-suited for most compact tractors. Their frame-over-deck design supports the deck, minimizing flex and provides superb cutting performance in turf-grass applications.

Call it "Contractor-duty"

Our FDR3690 Grooming Mower is built for commercial use by mowing contractors. Contractors will appreciate the ease of maintenance and the 6 free-swinging medium-lift blades that provide a uniform cut in heavy turf grasses. The tapered deck design allows operators to get close to obstacles while the rear discharge directs debris toward the ground, allowing for even distribution of clippings.

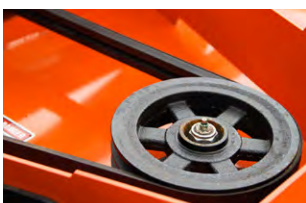

The FDR36 frame-over-deck design is engineered for maximum airflow, featuring a roll-formed 1/4" leading edge, 6 free-swinging blades and a tapered and sloped rear deflector.

5 YEAR
LIMITED GEARBOX
WARRANTY*

Rear discharge distributes an even layer of grass directly behind the mower, keeping grass from blowing in unwanted areas.

Main drive cast iron pulley offers superior strength and belt slippage control.

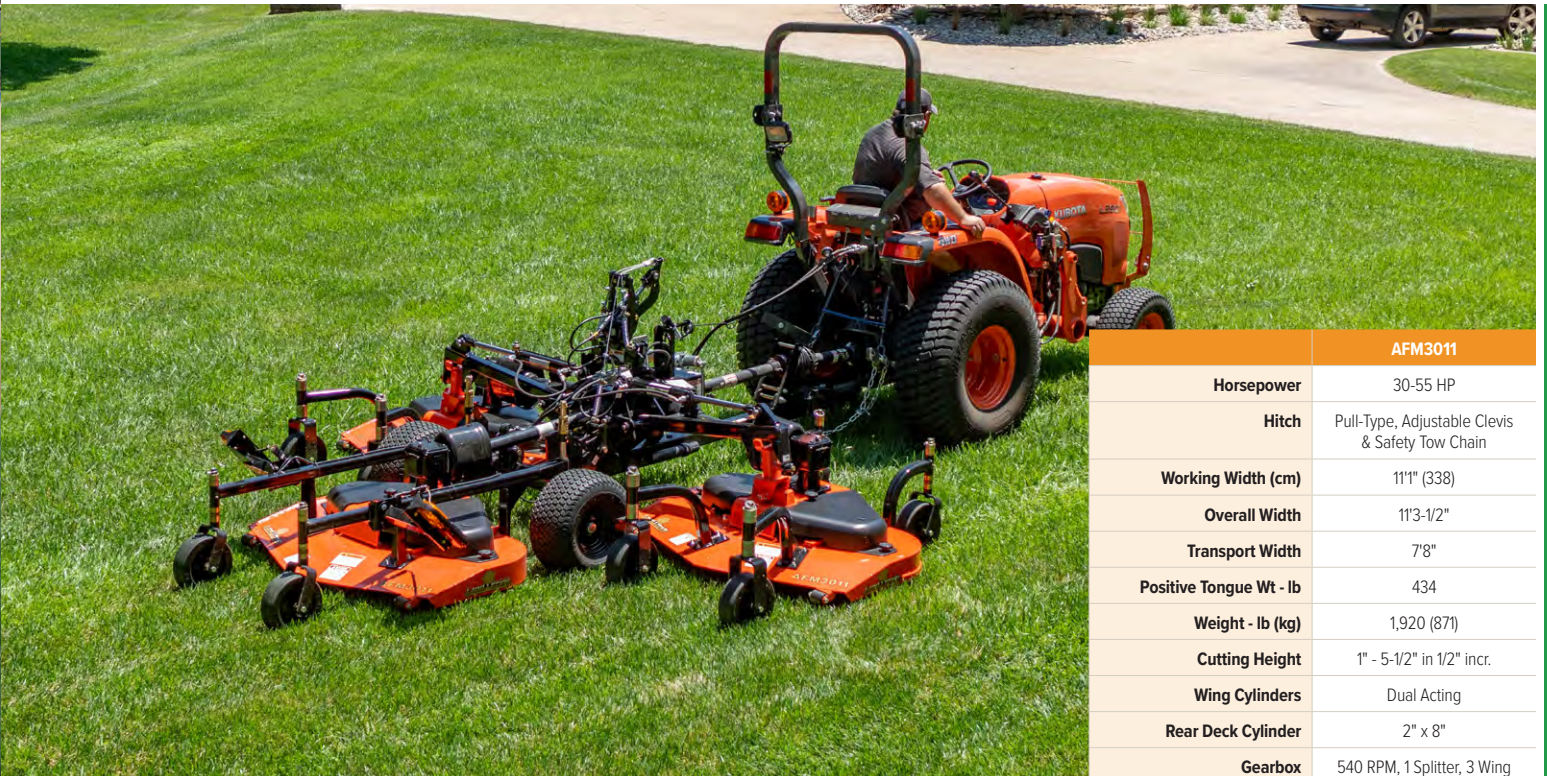

Clevis type lower hitch points allow for easy hook-up. Simply remove pins and back into clevises.

AFM3011 ESTATE ALL-FLEX MOWERS

HP REQUIRED
30-55 HP

HITCH
Pull-Type

Just right for estate mowing.

The weight on the AFM3011 has been reduced from our commercial series to fit compact tractors in the 30 to 55 HP range. With a cutting width of 11' and cutting height of 1" to 5-1/2", the AFM3011 will rival a zero-turn in volume and quality. The decks are 4' wide, 10 gauge steel with a 6" overlap; coupled with a single beam hitch and equal angle driveline this unit can make tight turns without streaking. The decks feature rear discharge and angled deflectors to eliminate the need for chains and to provide even distribution without clumping.

Counter blade rotation on the center and right decks prevent robbing horsepower of the tractor. Rear discharge leaves a thin even layer of grass directly behind the mower, keeping grass from blowing in unwanted areas.

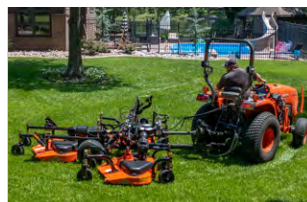

3 YEAR
LIMITED GEARBOX
WARRANTY

Angled deflectors on the decks eliminate the need for chains and provide even distribution without clumping.

Optional Hydraulic Wing Unlock allows user to unlock the wings from the tractor seat.

Single beam hitch and equal angle driveline allows the mower to make tight turns without streaking.

Unmatched Performance.

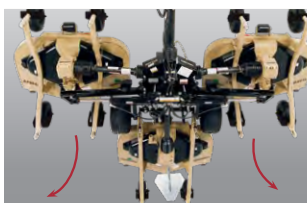

An 11' AFM is just right to use around the golf course, in the city park, or to maintain your five acre estate. Easy to use and maintain, keep your grass looking like it was cut with a walk-behind, but with a lot less time invested!

- Rear discharge
- Counter rotation
- Non-caster gauge wheels
- Single beam tongue

Dispensing cut grass is a key ingredient to maintaining healthy turf. The more evenly and completely the cut grass is dispersed, the quicker it works its way towards the soil for decomposition.

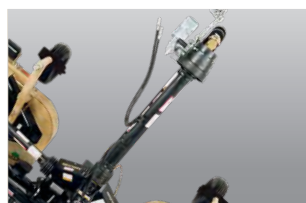

5 YEAR
LIMITED GEARBOX
WARRANTY

Counter rotation on left hand deck doesn't throw debris into the center deck.

Non-caster gauge wheels hold slopes better and assists with tight turns.

Single beam tongue design with 80° CV drive helps make extremely tight turns.

AFM42 SERIES ALL-FLEX MOWER

HP REQUIRED
40-70 HP

HITCH
Pull-Type

Get the results you deserve!

The AFM42 Series is perfect for golf course maintenance, large estates, city recreation areas and sports fields. Sleek enough to get under trees and agile enough to turn on a dime, the AFM42 Series is just right for all around turf maintenance. And the quality of cut is the best feature of all.

Over center release easily takes tension off the drive belts during extended off time, or for belt replacement.

5 YEAR
LIMITED GEARBOX
WARRANTY

Anti-scalp rollers on nose and trailing edges of decks protect the deck as well as the turf.

Optional Hydraulic Wing Unlock allows user to unlock the wings from the tractor seat.

Low deck pivot allows for greater side to side flotation on the wing decks.

Wide open spaces.

Land Pride's AFM4522 All Flex Mower is a commercial mower that can easily mow over 10 acres per hour. Contractors can make quick work of turf areas like parks, sports complexes, and sod farms. The high blade tip speed will produce a quality cut in bermuda, fescue, or rye turf grasses. The narrow transport width allows access to area with ease, easily fitting through any 10' gate.

- Anti-scalp rollers on each deck reduces turf damage
- 18" Deck tires with sealant mean fewer pounds per square inch
- Single C-section belt with spring-loaded belt tensioner on each deck
- Single beam tongue for tight turning radius
- Rear discharge decks for even dispersal
- Adjustable clevis hitch to fit various draw bar heights

The commercial duty 1-5/8" blade spindle features a cast iron housing, additional steel plate support, a 3/4" thick blade support bar and a remote greasing line.

2 YEAR
LIMITED GEARBOX
WARRANTY*

Transport width of 9'6" allows for safe transport from site to site.

FM25 SERIES FLAIL MOWERS

HP REQUIRED
30-80 HP

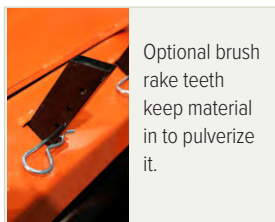

HITCH
Cat. 1 & 2

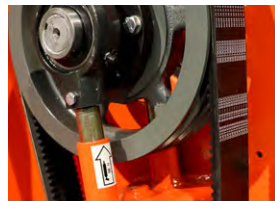

MOWERS

Sturdy and compact.

Land Pride's FM25 Series Flail Mowers are built for use in vineyards, orchards, and recreational areas and will fit a wide variety of tractors. The spring-loaded belt-tensioning system makes it easy to tension belts for longer life. Cutting height is variable from 0" to 6". The rear access door and quick-change D-ring system (Duckfoot knives only) simplifies blade changes.

Optional brush rake teeth keep material in to pulverize it.

The dynamically balanced rotor is driven by a three section PowerBand® belt and mounted on spherical roller bearings.

Unique spring-loaded belt-tensioning system brings belt to proper tension by turning a nut. (N/A on 48")

Three different blade options make quick work of grass, grapevine shoots, saplings, and tree prunings.

1"

HITCH
Cat. 1

CUTTERS

Ideal for cutting grass, weeds & light brush.

The RCR12 Series Rotary Cutter from Land Pride is an economical solution to grass maintenance on farms, rural areas, or vacant lots. The 1" cut capacity makes it a good solution for rough-cut areas that have small saplings and weeds. The RCR12 is a good match for a subcompact or compact tractor up to 60 HP and features a fully-welded deck and a 24" stump jumper.

3 YEAR
LIMITED GEARBOX
WARRANTY*

10 Gauge stump jumper allows cutter to slide over obstructions protecting the gearbox output shaft.

Bolt on skid shoes are available as an accessory for the 60" & 72".

Floating 3-Point permits deck to follow the terrain.

Round back design helps discharge grass better than enclosed or partially enclosed cutters. The fully welded deck adds additional strength.

5 YEAR LIMITED GEARBOX WARRANTY

Two position floating top link offers greater lifting leverage for subcompact tractors, and allows deck to hug the terrain.

10 Gauge stump jumper allows cutter to slide over obstructions protecting the gearbox output shaft.

Heavy-duty 1-1/4" spindle on the tailwheel gives strength to protect the tailwheel assembly.

HITCH
Cat. 1, 2 & 3

CUTTERS

Roundback with a Smooth Top.

The RCF27 Series Rotary Cutter is a smooth top version of our RCR26 Series, offering the same great cut and is ideal for grass, weeds, crops, brush, and small trees up to 3 inches in diameter. These units come equipped standard with a 3/16" thick heavy-duty stump jumper and replaceable bolt-on skid shoes.

- Smooth top design
- All welded deck
- Clevis style lower hitch
- Floating top hitch
- 84" Pull-type model available
- Dual wheels optional on 3-Point 84" model, Standard on Pull-Type

Replaceable bolt-on skid shoes provide sidewall reinforcement and protection to the bottom of sidewall.

Optional shields are available for the front and rear to protect against flying debris.

The laminated tailwheel is long lasting in rough conditions and 1-1/2" heavy-duty spindle protects the assembly.

RCD18 SERIES OFFSET ROTARY CUTTERS

HP REQUIRED
35-60 HP

CUTTING CAPACITY
1-1/2"

HITCH
Cat. 1

CUTTERS

Right for the Job.

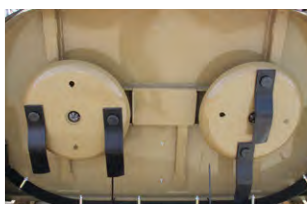

The RCD1884 is a smooth-top, offset cutter that performs best in grass-only applications. Being dual spindle, the cutter is shorter in length than single spindle 84" cutters; the reduced length allows for better maneuverability in tight spaces. The 10" offset makes the RCD1884 a good solution for applications that require cutting close to buildings, fences, or other obstacles that might be found in orchards, parks, or rights-of-way.

- Deep-deck design
- All-welded deck
- Short coupled for tight spaces
- Clevis-style hitches for easy hook-up

5 YEAR
LIMITED GEARBOX
WARRANTY

Hitch offsets 10" to the right to cover your tractor tire and get closer to obstructions.

Dual gearboxes allow lower horsepower tractors to cut 84" swaths.

Intermediate driveline transfers loads from center box to wing box to ensure proper cut quality.

RCR25 SERIES DUAL SPINDLE ROTARY CUTTERS

HP REQUIRED
40-110 HP

CUTTING CAPACITY
1-1/2"

HITCH
Cat. 1, 2 & 3

CUTTERS

A perfect fit for any size farm.

The RCR25 Series is well-suited for medium sized chores and is designed for performance in pastures, set aside acres, roadsides, and routine farm maintenance.

Pull-Type: The Pull-Type model features two leveling rods that connect the rear axle to the front tongue. This enables the deck to stay level over uneven ground conditions. The height controlling axle cylinder is attached to two deck springs that help cushion the cutter in rough terrain. A narrow tongue on Pull-Type allows for tight turns.

3-Point: The 3-Point unit utilizes two casting laminated tailwheels for smooth, trouble-free performance. The easy to attach clevis hitch is designed to fit Cat. 1 or 2 tractors on the 96" model, and Cat. 2 or 3 tractors on the 10' model.

- Slip-clutch and impact absorbing cross shafts to outer gearboxes
- Constant Velocity U-Joint option on 10' Pull-Type
- Slip-clutch protection on main driveline
- Fully welded 10 Gauge deck
- Round back design
- Chain or rubber shield option
- Replaceable skid shoes
- 1" x 4" Blade bar

Performance in a Medium-Duty Cutter.

The RCF30 Series is the perfect medium-duty cutter for pastures and roadside applications. Available in 3-Point, semi-mount or pull-type, the RCF30 features a 2-1/2" cutting capacity and 1/4" side skirts. Plus, every RCF30 comes with the rugged dependability that Land Pride Rotary Cutters are known for.

3-Point with Dual Beam Axle

Dual heavy-duty standard stump jumpers aide in sliding over obstructions which helps protect the gearbox output shaft.

5 YEAR
LIMITED GEARBOX
WARRANTY*

Splined rubber flex-couplers between the center and outboard gearboxes protect the driveline and gearboxes from shock loads.

Mow Like the Big Boys!

Designed with smaller tractors and smaller acres in mind, our 12' Rotary Cutter is packed with a lot of the features found in our larger folding cutters. The 12' width, tight turning radius, and low tongue weight makes this an ideal rotary cutter for compact tractor owners.

5 YEAR
LIMITED GEARBOX
WARRANTY*

Center spring on the cylinder cushions load on drawbar.

Dual leveling rods enable the cutter to pull equally on the rear axle during travel over rough terrain.

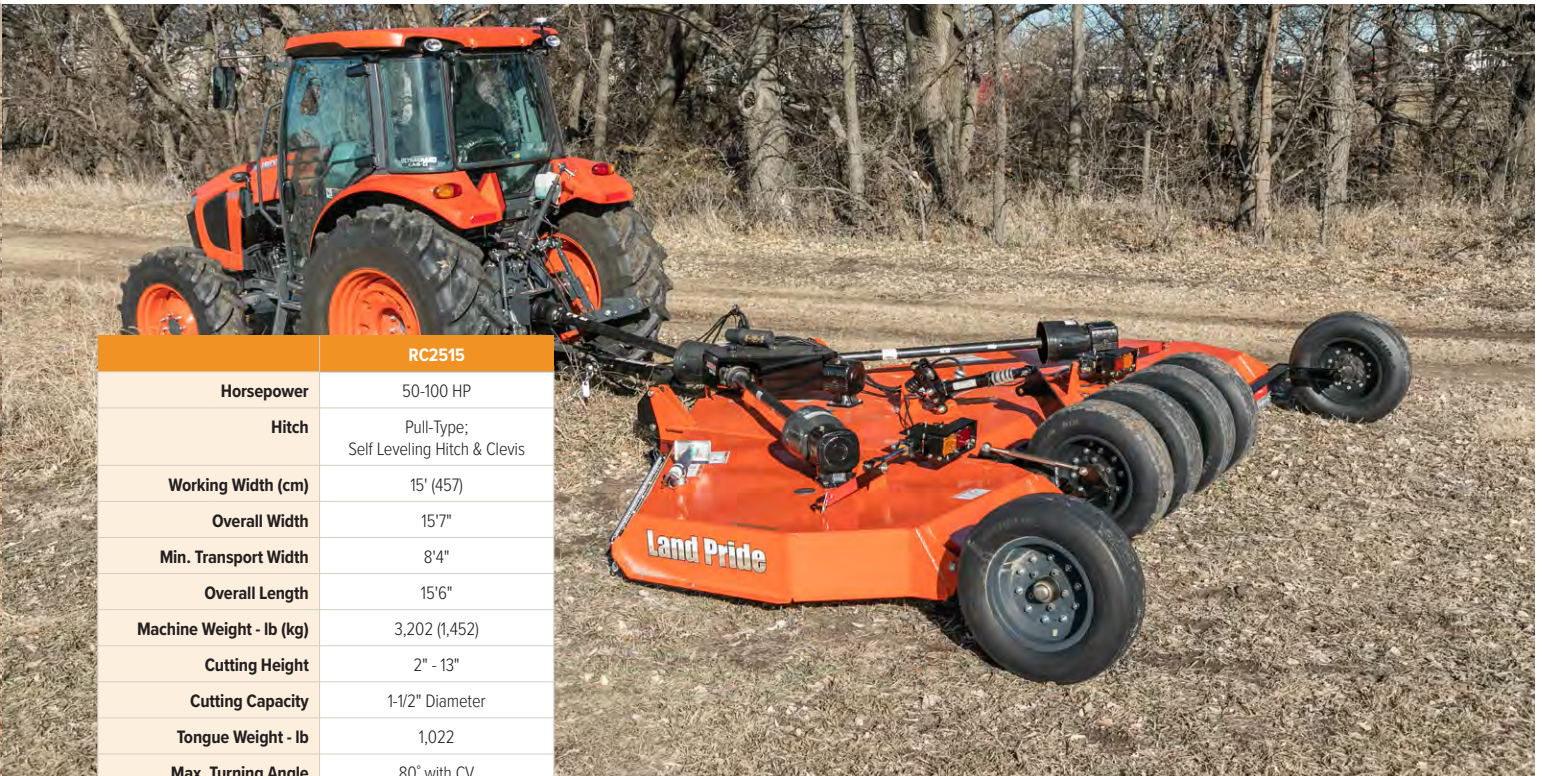

Narrow tongue design handles tight turns - great size for country estates.

Quality with value built in.

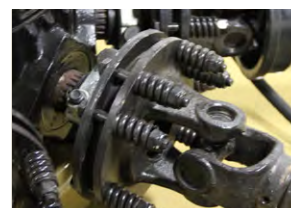

Land Pride has packaged our renowned quality and dependability into an economy 15' Cutter. With a 1 year hitch-to-tailwheel warranty, plus a 5 year gearbox warranty, the RC2515 will give you years of dependable service and acres and acres of cut grass.

Optional 29" Aircraft tires provide extra cushioning versus laminated tires.

Wings are leveled with easy-to-access and easy-to-adjust turnbuckles.

All three connecting drivelines offer two-plate slip clutch protection.

Deck-mounted spring cushion provides a smooth ride in rough terrain.

Tough Enough.

The RC3712 Folding Rotary Cutter expands on the popularity of our RC2512 by offering a heavy duty 12-foot cutter. It features a 3" cutting capacity with a cut height of 1.25" to 14". The cutter is available for 540 or 1000 RPM tractors, with 4 or 6 tires in 3 sizes, and 5 hitch options. Standard equipment includes transportation lights, wing transport locks and replaceable skid shoes.

Low hitch weight on tractor drawbar is ideal for smaller horsepower tractors. Narrow A-frame hitch allows for tighter turns.

5 YEAR
LIMITED GEARBOX
WARRANTY^a

Greasable hinged wing sections have 1" solid hinge rods and allow the cutter to follow rough ground, alleviating uneven cutting.

Beveled skid shoes on wings reduces gouging of the ground when turning.

3/16" Thick stump jumper protects the gearbox output shaft.

Tame the Plains.

The RC3715 is identical to the RC3712, simply 3 feet wider. It features a 3" cutting capacity, 12" deep deck, 1/4" side skirts, and is available in 540 or 1000 RPM. The tire offering on the RC3715 is expanded to 4, 6, or 8 tires in 4 sizes, including our new 26" laminated tire. Height adjustment utilizes flip over spacers as opposed to the donuts commonly used by competitors. The blades are 1/2" x 4" with a 6" overlap.

5 YEAR
LIMITED GEARBOX
WARRANTY

Fold options allow for narrow transport or independent control of the wings.

Sliding center shield offers ease-of maintenance for slip-clutches and U-joints.

Optional deck rings keep blades from damaging the cutter deck.

**Varies by tire option

Make pasture and roadside maintenance a simple and efficient task.

The RC4715 is a heavy-duty folding rotary cutter with a 4" cutting capacity and 15' cutting width designed to make pasture and roadside maintenance a simple and efficient task. The unit comes with ease of maintenance features that you've come to expect from Land Pride like greaseless pivot points, endcap grease zerks, easy-off shields and a patented sliding guard over the splitter gearbox, making maintenance easy to perform. There are multiple axle options, including Land Pride's parallel pivot that gives you unmatched ground contact for improved holding power on hills and inclines, as well as 5 tire options in 6 or 8 tire configurations.

Land Pride's patent pending parallel pivot axle gives you unmatched ground contact for improved holding power on hills and inclines.

7 YEAR
LIMITED GEARBOX
WARRANTY

Spring cushioned axles improve ride and are available options on both center and wing axles.

Easy-off shields and a patented sliding guard over the splitter gearbox make maintenance easy to perform.

Forged diamond blade bar provides strength where it's needed most.

Smooth on top. Smooth on bottom.

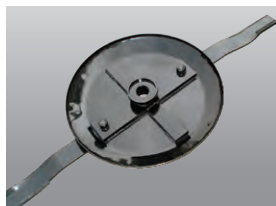

Land Pride's RC5615-2 features a smooth top for easy cleaning and a smooth bottom for better airflow and less caked-on debris. Contractors and roadside maintenance crews will enjoy the sliding center shield, driveline end-cap grease zerks, and easy-off wing shields that all combine to make maintenance fast and efficient – less time maintaining means more time mowing. Standard features like the heavy-duty dishpan, replaceable side skirts and skid shoes, and LED transport lights add value.

Wing skid shoes are flanged up along length of outside edge. This allows operator to turn without leading edge of wing digging into the ground.

LED lights are bright, long lasting and resistant to vibration and are standard equipment on all Land Pride folding cutters.

The heavy-duty dishpan is spin balanced for smooth operation.

The optional LP Performance Hitch is self-leveling & swivels up and down, and rotates side to side for uneven terrain.

CUTTERS

Nothing stands in its way!

The RC6615-2 Rotary Cutter from Land Pride has extra muscle to tackle extreme conditions. Built for contractors and roadside maintenance, the 250/225 HP gearboxes make quick work of grass, saplings, and trees up to 4-1/2". The 7-gauge bottom deck and 10-gauge top deck make for an extremely durable machine. Heavy-duty blade bar, heavy-duty level rods and heavy-duty axles add up to a create an extra-heavy-duty cutter.

Optional full welded deck rings keep blades from damaging the deck.

Land Pride strongly recommends that front and rear shielding be used with any Rotary Cutter. However, they can be purchased with or without shielding. Please understand how your cutter is to be equipped for you.

CUTTERS

Making roadside cutting safe and efficient.

The RC4710, RC5610-2, and RC6610-2 Rotary Cutters are single wing mowers that are ideal for roadside mowing. The left-hand wing is replaced with a weight box and allows the operator to travel next to the road's shoulder, remaining on more level ground. All the features you love from our 15-foot cutters are there too, in a 10-foot single wing mode!!

- Left hand weight box
- Optional hitch configurations
- Optional deck rings
- Replaceable 1/4" sideskirt with replaceable skid shoe (RC56/66 only)
- Smooth top design
- Heavy-duty dishpans (RC56/66 only)

Holds up to Tough Conditions.

Land Pride's RC3620 is the ideal Rotary Cutter for grassy fields, pastures, waterways, buffer strips, and set-aside acres and handles saplings up to 2" in diameter. With tip speeds of 16,000 to 16,500, gearboxes rated at 250 HP and 150 HP, 1-3/4" input shafts, 2" output shafts, and optional CV drivelines, this unit will make quick and efficient work of the largest jobs.

Also available as a 14' offset model: RC3614.

10 Gauge stump jumper is backed with a 1" x 4-1/2" thick blade mounting bar to protect the gearbox seal and output shaft.

CUTTERS

At home in wide open spaces.

Right of ways, roadsides, pastures, open areas, and row crop fields are all candidates for the RC4620. It handles brush up to 3" in diameter, features a 7-year gearbox warranty, and has blade tip speeds up to 18,000 fpm. Rephasing axles allow for shorter axles which in turn leads to less weight on the tractor drawbar. The 46 Series features a diamond blade bar with an optional bolt-on stump jumper. Decks feature 1/4" side skirts and smooth-top, 10 gauge decks.

- Smooth-top, 10 Gauge Decks
- Replaceable and Reversible Wing and Center Deck Skid Shoes
- Single or Double Chain Guarding
- Hydraulic Rephasing Cylinders on Axle
- Shorter Axle for Lower Drawbar Weight
- Available Land Pride Performance Hitch
- Optional Fully-Welded Deck Rings

Diamond blade bar protects the gearbox seal and gearbox output shaft in tough conditions. Optional bolt-on stump jumper provides extra protection against stumps and other protrusions.

*Maximum cut height is dependent on tire options selected.

Our largest offset cutter.

The RC5014 – Land Pride’s largest offset folding rotary cutter – makes quick work of roadsides 14-feet at a time. The offset allows the operator to travel next to the roadway in the same direction of travel as the traffic, increasing safety for the operator.

The cutter features a heavy-duty Cat 6 driveline, heavy-duty gearboxes, and a high blade tip speed for a clean, uniform cut in most highway mowing operations.

7 YEAR
LIMITED GEARBOX
WARRANTY

10-1/2" Deck height handles heavy cutting, which reduces balling-up of cut material under the deck.

Skid shoes are reversible and replaceable - each side of the center section, the wing, and the weight box.

1" Solid hinge rods and greasable cast wing hinges provide years of dependable service.

Choice of used aircraft tires, with or without foam, or laminated tires.

*Maximum cut height is dependent on tire options selected.

CUTTERS

Be More Productive, 20' at a Time.

Roadsides, pastures, set-aside acres and crop residue are perfect jobs for this 20' cutter. Wing decks float independently, and follow the contour of the land leaving an even cut. The 20' cutting width, 2" to 14" cutting height and ability to cut weeds and brush up to 3" in diameter make the RC5020 well suited for varied applications. Various safety guard choices make these an excellent choice for state and municipal mowing applications. An optional baffle and shredder kit with adjustable spacing is available for crop shredding.

Outer wing wheels can be single or dual. Duals are ideal when mowing in areas where one wing needs to flex uphill. The outer wheel rides up the embankment and keeps the deck from gouging. Wheel spindles are bolt-in to allow easy change out.

The optional LP Performance Hitch is self-leveling and swivels up and down, and rotates side to side for uneven terrain.

The diamond blade carrier handles most cutting conditions and leaves a cleaner cut.

The dishpan option assists the blade carrier in passing over obstructions that could damage the blade carrier.

*See dealer for complete warranty information. ^Based on field performance.

RCP26 SERIES PARALLEL ARM ROTARY CUTTERS

HP REQUIRED
75 HP Min.

CUTTING CAPACITY
2"

HITCH
Cat. 2 & 3

CUTTERS

Optional gauge wheel deck allows the cutter to float over undulations without having to constantly monitor terrain conditions.

Hydraulic driven Parallel Arm Rotary Cutter.

Designed to “reach out” and cut along roadsides, over guard rails, down ditchbanks, and next to ponds, Land Pride’s RCP26 has features that make our Parallel Arm Rotary Cutters unique.

First of all, it has a constant attitude! When the two cylinders that operate the two arm sections are activated, the attitude of the deck does not change; thanks to the parallel arm design. Lift the cutter head up, in or out to negotiate an obstacle, and your cutter deck position does not change; set the cutter head down at the same attitude as it was prior to the obstacle. This makes your work efficient!

The hydraulic breakaway feature of the RCP is also not found on your standard parallel arm cutter. The cutter deck is restored to its original position with the help of a hydraulic cylinder. The cutter deck can also swing rearward enabling you to mow into a tight corner, again putting it back to its original setting with the hydraulic cylinder.

Quickly reach inclines.

Land Pride's DB2660 Ditch Bank Rotary Cutter enhances our growing line of Rotary Cutters. This new hydraulic-driven cutter boasts a number of features that will make mowing ditch banks, pond dams, or other hard to reach inclines fast, easy, and efficient.

Built for either 540 or 1000 RPM tractors, the DB2660 features a 58" cutting width, 2" cutting diameter, and 32" cutting reach. The 1/2" by 4" blades rotate clockwise at 15,000 fpm, directing debris away from the tractor. Minimum cutting height is dictated by the tractor's 3-pt height.

Large 35 gallon oil reservoir maintains optimum fluid temperatures and also serves as a counterweight.

Built-in auxiliary weight rack is located on the left side close to the machine for ballast.

Optional side gauge wheels allow deck to float, eliminating frequent deck positioning.

RTR05 SERIES ROTARY TILLERS

TILLERS

Get in gear!

Land Pride also offers a popular line of 3-Point Rotary Tillers with two gear drive models; the RGA12 forward rotation and RGR12 reverse rotation. These American-made gear-drive tillers feature a Cat. 1 hitch, plate steel A-frame, and 540 RPM gearbox. Both models include a 17" diameter rotor, 6 "C" shaped tines per flange, and a 7" tilling depth.

6 C-Shaped tines per flange make for a better seedbed in less time than 4 tines.

The rotor is powered by a spur-gear drive in an oil bath with a heavy stamped drive cover.

HITCH
Cat. 1

TILLERS

We have traditional forward rotation...

Available in two popular widths, the Land Pride RTA20 Series Rotary Tiller effortlessly turns up hard-packed ground, leaving a perfect seedbed for gardens or grass. Suited for up to 50 HP tractors, this model fits a wide range of tractor owners, from landscapers or city and park maintenance operations to golf course superintendents.

And the most popular reverse rotation...

The Land Pride RTR20 Series Rotary Tillers are just right for home gardening, landscape work, food plot maintenance, and light commercial use. Available in 64" and 72" widths, RTR20 Series Rotary Tillers feature a reverse tilling action for tough ground conditions. The reverse action of the rotor brings material up and over the top, burying heavier clods and small rocks, leaving the soil on top for a perfect seed bed.

Both models use standard Land Pride features like a strong stamped chain cover, adjustable rear deflector, heavy-duty driveline and parking stand – in the end the quality and dependability shine through.

Cat. 1 & 2

TILLERS

A contractor's dream.

Ideal for landscapers, gardeners, and contractors, the Land Pride RTA25 Series forward rotation Rotary Tillers prepare seedbeds for gardening or lawn planting. Rugged and dependable, the RTA25 features a heavy-duty driveline, a parking stand for easy hook-up, and optional down pressure springs apply pressure on the rear deflector, holding larger debris in the tines for better pulverization in tough leveling conditions.

With a 76" working width, and adjustable lower hitch clevises, taking out your tire track is usually achievable. This allows for less overlap needed, meaning less time in the tractor seat.

RTA35 SERIES: Ready to tackle the tough stuff.

The RTA35 Series is Land Pride's toughest tiller, built to withstand the rigors of commercial jobs. The 35 Series Tiller is designed to go all day, day after day, in the most demanding jobs. With a 19" rotor swing diameter, this tiller can turn over a lot of dirt without much getting in its way. The RTA35 is ideal for landscaping, nurseries, and commercial gardening applications.

HITCH
Cat. 1

TILLERS

Save time with reverse rotation.

A Reverse Tine Tiller turns up ground cover, chops it a time or two, and buries it under a cascade of large clods, which are buried under small clods. Large clods fall first, and they just get smaller as they pile on top of each other. What's left on top is a perfect seedbed to foster your wild imagination!

- Spring-loaded rear deflector levels the freshly tilled seedbed
- Hinged front flap with rubber insert helps prevent damage to deck from debris coming over the top of the tines
- Skid shoe on drive side has additional chain case protection

Sifting tines help "sift" the tilled material. Large or clumpy material falls first, with the top layer being a perfect consistency for planting. (Rear deflector removed for photo.)

The reverse rotation of the tiller tines forces the tiller in the ground, preventing "walking" on hard ground. Once it's in, it stays put!

Exclusive fluted wide seed cup delivers outstanding accuracy; delivering the rate you choose, evenly and gently.

3P600 COMPACT DRILL

HP REQUIRED
40 HP Min.

HITCH
Cat. 1 & 2

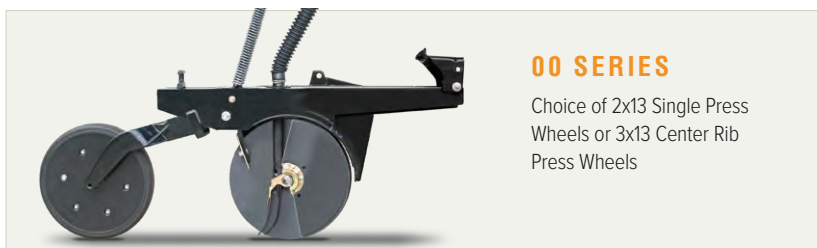

COMPACT DRILLS

Gets into places big drills simply can't.

The 3P600 Min-Till Drill features a highly visible seed level indicator, extremely accurate fluted seed cups, V-bottom inserts on the inside of the seedbox that allow all the seed to be metered, and water tight lids that stay open for filling. This model is ideal for wooded areas.

The rugged 00 Series openers provide accurate and consistent seed placement. Openers have 7" of stagger between the opening and press wheels to allow residue to easily flow through the unit. Inside the opener our full length seed tube gently guides the seed all the way to the bottom of the trench and a seed flap makes sure the seed stays in the trench. The trailing press wheels maintain proper opener depth, close the seed trench, and firm the seed into the soil. T-handles quickly adjust the press wheels and allow for small incremental changes in planting depth.

COMPACT DRILLS

Mounted versatility.

3P606NT models are 3-Point mounted no-till drills, allowing you to get close to field edges and with our proven ground drive no remote hydraulics are needed. The rugged 6' seeder is ideal for limited space situations and maneuvering among trees and other obstacles. The lead coulters have 4" stagger to aid in residue flow and prepare a mini-seedbed for the O6 series openers to plant into.

All 3P606NT models come standard with a fluted feed box. Add a native grass box for seeding fluffy native grass mixes that include seeds like big and little bluestem and smooth brome. You can further increase your options by adding a small seeds box; a smaller version of our standard fluted feed box used for clover and alfalfa. Add both and seed 3 different types of seed and rates, all at the same time!

Big performance in a small package.

This 8' Min-Till Drill (800) uses the field proven 00 series opener to properly place seed. This rugged opener utilizes 13-1/2" 4mm thick disk blades, full length seed tube and an 18 position T-handle press wheel to precisely control seed depth. Changing the 5-position, centrally located opener down pressure adjustment is quick and easy, ensuring the correct down pressure regardless of the conditions.

Other features include a fluted feed metering system, 4-speed gearbox and adjustable gate opening to accurately set a wide variety of planting rates for crops from alfalfa to peas. A dry fertilizer and/or a small seeds attachment can be added to tailor the drill to your needs.

COMPACT DRILLS

Narrow transport.

Our double disk configuration and full length seed tube ensures that the seed is placed consistently at the depth chosen. Additional seed tubes are used to place both native grass and small seeds, allowing three seeds to be planted at separate rates at the same time. Depth control is handled by the 18 position T-handle press wheel adjustment.

The main seed box is a fluted feed design. The seeding rate is set with the four speed transmission and the adjustable gate opening. The optional native grass box uses our proven "picker wheel" to meter the seed. Rates are adjusted by varying the speed of the drive. Lastly, the optional small seeds attachment is a smaller version of our fluted feed system, and seeding rates are set by changing the width of the fluted feed, agitator, and dual seed.

06 SERIES

5/8" Turbo Blade for maximum penetration or 5/16" Fluted Blade for pasture renovation and low soil disturbance.

V-Bottom dividers allow seed to feed from seed box to feeder cup for complete emptying.

A grease bank is installed on No-Till machines, so you can service all coulters in centralized locations.

The ground drive system automatically disengages when lifted, simplifying the unit and enhancing its reliability.

*See dealer for complete warranty information.

COMPACT DRILLS

End-wheel versatility.

Land Pride's 706NT and 1006NT End Wheel No-Till Drills are ideal for seeding in a wide variety of applications from pasture renovation to utility reclamation or food plots to food production. They are a great combination between the productivity of a large drill and the versatility of a compact one.

Both models feature large end wheels designed for unmatched ground gauging in rugged terrain. In addition, the in-line end wheels minimize side loading on contours and hills, dramatically extending the life of the no-till openers. Our 706NT comes standard with a 17-bushel main seed box, the 1006NT is 25-bushel. You can also add a small seeds box and either a native grass box or a fertilizer box. These drills also include a 6-position hitch that adjusts to your tractor's hitch height to keep the drill level in planting position. Furthermore, with its high clearance and end wheel design, the 706NT and 1006NT can go virtually anywhere your tractor can pull it, without gouging or bottoming out.

SEEDERS

Sod farms to food plots.

The NTS25 No-Till Seeder incorporates 40 years of experience in designing and manufacturing seeding equipment to deliver a durable, high-quality tool that will exceed your expectations. Whether employed to restore a pasture, reclaim a right-of-way, overseed a ball field, or plant a new yard, you know that Land Pride's NTS25 will deliver the results you've come to expect from a seeder leader.

Front rollers feature 1/2" x 2" spikes that break through thatch and crust to prep the soil for seeding.

Easily disengage drive sprockets with Land Pride's patented Lock-Out Clutch on all boxes.

Optional native grass box uses agitators to keep the seed flowing toward the picker wheel.

Mud scrapers on the rear packer roller keep soil from compacting on roller in damp conditions.

APS15 SERIES ALL-PURPOSE SEEDERS

HP REQUIRED
25-130 HP

HITCH
Cat. 1 & 2

SEEDERS

The seeder that does it all.

The APS15 is at home in freshly prepared soil or overseeding existing turf. The front spike rollers break up the soil crust or penetrate the thatch to disturb the right amount of soil. The seed is dropped, protected from the wind by a shield, allowing it to drop to the ground where it is gently pressed into the soil by the notched or spiked rear roller. The initial seed-to-soil contact is essential to achieving a high germination rate.

The All-Purpose Seeder is ground driven with no driveline and related drivetrain components to maintain. By adjusting the front two rollers, you can control how aggressive you want to be in the area you are seeding or overseeding.

The many uses for the APS:

- Bare dirt seeding
- Turf overseeding
- Wildlife Conservation Seeding

Choose between a rear spiked roller or a 12" cast packer wheel roller.

Optional small seeds box.

OS15 SERIES OVERSEEDERS

HP REQUIRED
25-60 HP

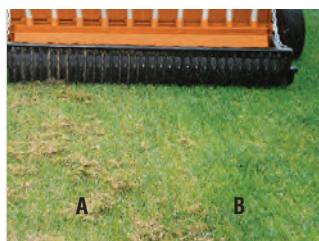

HITCH
Cat. 1

SEEDERS

Renovate turf or establish a new lawn.

The OS15 Overseeders offer precise placement and seed-to-soil contact, making them ideal for over-seeding existing stands of grass or establishing new turf. The three way seed-to-soil contact system provides great germination and emergence with the solid advantages of a full-width seeding pattern. Fluted seed cups precisely meter the desired amount of seed in a broadcast pattern, delivering outstanding metering accuracy. Choose from gauge-wheel drive or plant close to sidewalks and obstacles with the rear-roller drive.

(A) Straight, aggressive 3/16" thick knives prepare the soil by pulling up thatch, while (B) 10 gauge curved knives provide a minimum of surface disturbance.

The optional small seeds box allows two seeds to be metered at one time into the same seed tube for even distribution.

The solid, cast-iron packer wheels finish the job by pressing and firmly packing the seed into the soil, eliminating most air pockets.

PS15 SERIES PRIMARY SEEDERS

HP REQUIRED
25-60 HP

HITCH
Cat. 1

SEEDERS

Precise metering and seed-to-soil contact.

The PS1572 Primary Seeder is perfect for the hometown landscaper to do lawns, community parks and areas between the curb and sidewalk. They also perform better than larger models in areas where light moguls, undulations, and depressions exist.

“Precision seeding” is accomplished using proven fluted metering cups (shown here). Each flute grabs just the right amount of seed for even distribution. Millions of cups are in use for a variety of crops around the world.

Various seeding rates can be obtained by turning the dual sprocket over. The easy drive system assures a consistent flow of seed. The rear roller is spring loaded to keep in constant contact with the ground, promoting healthy “seed-to-soil” contact.

SBR SERIES SEED BED ROLLER

HP REQUIRED
18-52 HP

HITCH
Cat. 1

SEEDERS

SBR72 3-Point (Base Model)

Improve germination rates.

Land Pride's SBR72 Seed Bed Rollers will break up smaller clumps and dirt clods, while pressing applied seed into firm contact with the soil profile for greatly improved germination rates. They are available with a 3-Point hitch or Pull-Type, and are ideal in landscaping, sports field maintenance, pasture maintenance, professional turf care, general seeding, and overseeding applications.

SBR72 w/Optional Pull Hitch - flip over for transport.

Available in Cat. 1 3-Point hitch or as a Pull-Type unit to match your needs.

Indexing dual capability hitch on Pull-Type model ensures easy fit and function for 2" ball or pin and clevis type attachment.

Notched and ribbed patterned cast iron roller provides optimal seedbed finish and long durable product life.

DRG SERIES DRAG HARROW

HP REQUIRED
8-16 HP Min.

HITCH
Chains w/Pull Ring

SEEDERS

Smooth out sports fields.

Land Pride Drag Harrows are highly versatile in their design and performance. A harrow mounted on the drag bar with tines facing down and forward will deliver aggressive soil stirring action and deep penetration. Turn the harrow 180° with tines facing down and to the rear and you'll get less penetration with lighter cultivating action. Flip the harrow over with tines facing up and you get almost no cultivating action. Perfect for dragging a sports field or smoothing out recently cultivated ground.

The DRG Series can also be used in combination with the Electric Spin Spreader, Seed Bed Roller, and Disc Harrow creating the ultimate seeding package ideal for large grassy areas, reclamation sites, or wild game food plots.

Spin Spreader Deflector	Diverts Seed to Smaller Spreading Width
Small Seed Restrictor	Restricts Small Seed for Smaller Distribution Levels
Colors	

Affordability for food plots.

The FPS48 is an ideal tool for planting food plots by the avid hunter or the ultimate animal lover and is sized right to work behind a subcompact or compact tractor, your ATV, UTV, or even your hunting truck. The spreader can also be mounted separately to your UTV or Disc Harrow.

The rear roller gently presses seed into the ground for good seed-to-soil contact. It pivots for transport and storage without taking the spreader off the unit (shown below).

The Electric Spin Spreader dispenses seed. A restrictor plate allows smaller seed to be run through the spreader at a lower volume per acre, while the deflector allows you to reduce seed dispersion width down to 48".

AG15 SERIES ARENA GRADERS

HP REQUIRED
18-65 HP

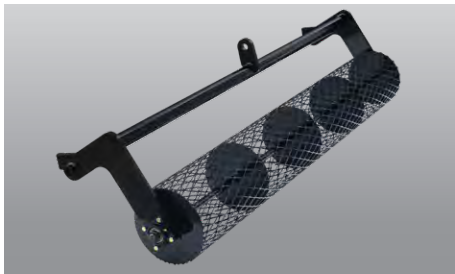

HITCH
Cat. 1

DIRTWORKING

Simple, efficient.

Land Pride's AG15 Series Arena Grader is an entry level arena grader for hobbyists and enthusiasts. The Cat 1 hitch is quick hitch compatible and ties into a 2" x 2" square tube frame. The end tubes are 2" x 3". The S-tines feature replaceable tips. Behind the two rows of S-tines is a five-position leveling bar to smooth the soil. The job is finished with either a pipe or mesh roller to break clods and fluff the soil. The working depth is 4" and is set by a simple ratchet handle, a Land Pride exclusive feature.

Finish your job with either a pipe roller which will provide uniform surface, while the mesh roller provides uniformity as well as a smoother finish.

Working depth is 4" and is set by a simple ratchet handle, a Land Pride exclusive.

HITCH
Cat. 1

DIRTWORKING

Ideal for light duty maintenance and landscaping.

Land Pride's economical RB05, RB15, and RB16 Series Rear Blades are an excellent and economical choice for leveling, grading, finishing, and backfilling. They are the perfect companion for your subcompact or compact tractor.

The multitude of forward and reverse working angles, moldboard offset capability, as well as tilt on the RB16, allows the operator to work right up next to retaining walls, abutments, and raised curbing. They are excellent for snow removal in the pulling or push blade mode. A retractable parking stand is included to accommodate easier blade removal, storage and remount capabilities.

RB26/37 SERIES REAR BLADES

HP REQUIRED
25-80 HP

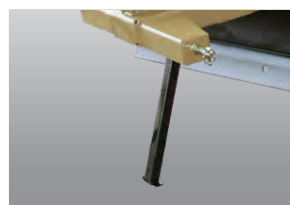

HITCH
Cat. 1 & 2

DIRTWORKING

Everyday blades; dirt, snow, farm, landscape – About as versatile as it gets!

The Land Pride RB26 and RB37 Series Rear Blades offer 3-way positioning (blade angle, blade tilt, and blade offset) and are an excellent choice for leveling, grading, or backfilling. They excel in snow removal in either the pulling or push blade mode. Their offset and tilt capability make them an excellent choice for construction and maintenance of drainage ditches, waterways, soil contours, and for maintaining silage pit operations. Optional hydraulic angling kits are available for both models.

A parking stand allows the front of the hitch to be off the ground when storing, and offers easier hook-up.

Optional side plates hold material in to be moved, while optional skid shoes keep the cutting edge off the ground to protect from hitting low obstructions.

RBT60 SERIES REAR BLADES

HP REQUIRED
160-225 HP

HITCH
Cat. 2 & 3

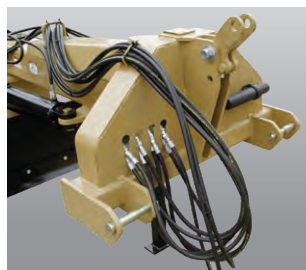

DIRTWORKING

1/2" Thick moldboard... this blade can tackle most jobs thrown its way!

Rear blades don't come any tougher than Land Pride's RBT60 Series 3-Way Rear Blades. They are built tough to handle leveling, finish grading, and backfilling applications involving roadwork, construction, landscaping, nurseries, drainage ditches, feedlot cleaning, farm use, and snow removal.

The 19" tall rolled moldboard can be hydraulically angled left or right up to 45°, the ends can be tilted up or down by as much as 15°, and the whole blade can be offset to the left or right. The blade can also be rotated 180° for blading in reverse with the same angling, tilting, and offset capabilities. Available accessories include gauge wheels for good depth control, end plates for holding material, and skid shoes for blade protection.

Built-in hydraulic hose storage keeps hose tips off the ground.

- Hydraulic adjustments with cylinders & hoses
- Main frame: fully welded formed box
- Retractable parking stand
- Options: gauge wheels, end panels, skid shoes

BB05/12 SERIES BOX SCRAPERS

HP REQUIRED
17-30 HP

HITCH
Cat. 0, 1, 1 Ltd.

DIRTWORKING

Productivity in a small package.

The Land Pride BB05 Series Fixed Bar Box Scrapers are designed for Category 0, 1, and 1 limited 3-Point hitch for mounting to subcompact tractors. The Land Pride BB12 Series Box Scrapers are designed for Category 1, 3-Point hitch or Quick-Hitch System mounting to tractors up to 30 HP range. Both Box Scraper models are ideal for ripping, leveling, finish grading, and backfilling applications at small feedlots, outdoor arenas, building sites, and maintenance operations for small landowners. The manually adjustable ripping shanks and the fore and aft cutting blades make these units especially effective and productive for small projects.

BB15/25 SERIES BOX SCRAPERS

HP REQUIRED
17-55 HP

HITCH
Cat. 1

DIRTWORKING

Level, finish, grade, and backfill - all with one tool.

Land Pride's BB15 and BB25 Series Fixed Bar Box Scrapers are ideal for ripping, leveling, finish grading, and backfilling applications at feedlots, outdoor arenas, and construction sites, or for maintenance operations on lanes or roadways. The BB25 offers five different working widths to choose from. The roll-formed moldboard keeps materials flowing putting less drag on the Box Scraper, resulting in lower HP requirements and faster working conditions. The rear-mounted blade allows for backfilling trenches or along foundations.

BB35 SERIES BOX SCRAPERS

HP REQUIRED
45-120 HP

HITCH
Cat. 1 & 2

DIRTWORKING

Ideal for construction sites and commercial operations.

The beefy 3/8" x 4" x 4" main-frame tube and 3/8" end panels makes our 35 Series Fixed Bar Box Scraper ideal for construction sites and commercial operations or for use by counties and municipalities.

Two welded channel braces extend from front to rear of the box plus welded gussets between the side panels and 23" formed moldboard provide exceptional strength under heavy loads. The durable BB35 is comfortable dragging or back-filling.

Heat-treated dimpled tips are easy to replace, and are heat-treated for toughness.

Heat-treated cutting blades are reversible so both edges can be used before replacing.

MR15/HR25 SERIES BOX SCRAPERS

HP REQUIRED
20-60 HP

HITCH
Cat. 1

DIRTWORKING

Choose from manual or hydraulic retractable box scrapers.

The easy and convenient retractability of the scarifier shanks on the MR1572 and HR2572 makes them highly productive and ideal for ripping, leveling, finish grading, and backfilling applications at commercial feedlots, outdoor arenas, building sites, and maintenance operations on farm and ranch lanes, gravel, roadways, or construction sites.

The roll-formed moldboard keeps materials flowing which puts less drag on the Box Scraper, resulting in lower HP requirements and faster working conditions. Shanks on the MR15 are kept in the up or down position with a positive locking system, keeping the scarifier bar from bouncing in transport and tight during field use.

- Self locking down position
- Hydraulic raising and lowering of shanks on HR25
- 3 Position shank with replaceable tip
- Rigid backfill blade

The hydraulic retractable ripping shanks on the HR25, in combination with the 21" double-thick moldboard design, make these units highly productive for construction projects.

HR/HRL35 SERIES BOX SCRAPERS

HP REQUIRED
40-120 HP

HITCH
Cat. 1 & 2

DIRTWORKING

Hydraulic retractable box scrapers, available in highback or lowback.

The HR/HRL35 Series Retractable Box Scrapers meet dirt moving and soil contouring needs of landscapers, contractors, nurseries, sod growers, farmers, ranchers, and municipalities. Soil contouring productivity is dramatically increased with utilization of the hydraulically controlled retractable scarifier.

The front blade mounted on the moldboard is ideal for soil redistribution and soil leveling. A second blade mounted on the hinged rear gate further enhances the ability of the Box Scraper to redistribute and level soil. Both the front and rear blades are replaceable and can be flipped over to extend blade life. The HR/HRL35 is used for finishing and fine grading when the hinged rear gate is bolted in place. Unbolt the rear gate and the unit's front blade will penetrate deeper into the soil. Place the tractor in reverse and the rear blade can be used to backfill.

The hinged rear backfill blade can be in float or fixed position for packed down grade, level grade, or rough grade.

Save time by raising and lowering the shanks hydraulically.

Knurled bushes in the hitch points eliminates premature wear from working forwards and backwards.

GS05/15/25 SERIES GRADING SCRAPERS

HP REQUIRED
17-90 HP

HITCH
Cat. 1 & 2

DIRTWORKING

A low cost alternative for road grading applications.

Land Pride Grading Scrapers simply and quickly move dirt or aggregate from high spots to low spots making them extra user-friendly and a low cost alternative for road grading applications. Simply setting a properly adjusted Grading Scraper on the ground and driving forward enables the operator to grade off high spots and fill in ruts at low spots on unimproved roads and lanes with little or no manipulation of the tractor's 3-Point hitch controls. Unlike a rear blade, they require no adjustment of blade angling or offset positions.

3-Position scarifier shanks allow the scraper to be adjusted to desired amount of calibration and guarding action. Hardened tips assure long service life.

Replaceable and reversible full length skid shoes make for easier operation and long unit life.

Reversible, heat-treated, high-carbon steel grading blades offer excellent wear resistance and long service life.

BB45 SERIES DRAG SCRAPERS

HP REQUIRED
70-130 HP

HITCH
Pull-Type

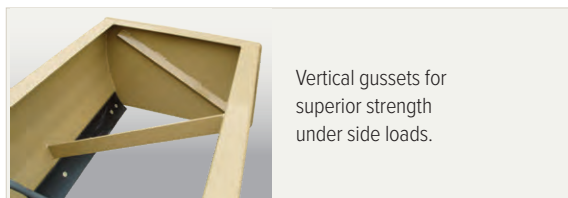

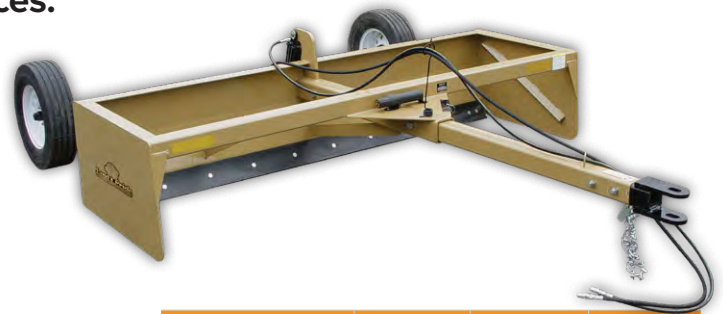

DIRTWORKING

Reshape country roads, waterways and terraces.

Land Pride BB45 Series Pull-Type Drag Scrapers are ideal for moving large quantities of material, leveling, and finish grading. Material can be transferred by dragging it to nearby locations and raising the scraper to deposit the load. Surfaces can be graded and leveled by scraping material from high areas and allowing accumulated material to flow under the grader blade into lower areas.

- 4" x 4" Square tubing main beam and tongue
- 5" Maximum cutting depth can load the bucket quickly
- Optional weight tray can be filled with 760 lbs. of concrete for additional weight when scraping and moving material
- Choose the tilt axle option for shaping slopes, terracing, or ditching. The tilt cylinder will raise one side of the drag scraper approximately 8" (7" on BB4596).

Vertical gussets for superior strength under side loads.

CA05/15 SERIES CORE AERATORS

DIRTWORKING

Perfect for garden tractors, zero turn mowers, and utility vehicles.

When your turf begins to suffer the effects of compaction and wear, such as shallow root zones, thatch build-up, worn pathways, compacted soil, poor surface percolation, or water stands, a Land Pride CA Series Core Aerator will provide immediate seasonal relief.

- 1/2" Hardened steel spoons
- Penetration 3" to 4-1/2"
- Greaseable gangs

Optional tailwheels are easily flipped for road or field use

Material tray allows for additional weight (not included) for better penetration.

CA25 SERIES CORE AERATOR

DIRTWORKING

Aeration for Professionals

Fall aeration is simple and fast with a Land Pride CA25 Core Aerator. The 3/4" plugs open up the soil allowing oxygen and nutrients to the root zone for healthier turf grasses with stronger root systems. The plugs are deposited on top of the turf and help create an optimal environment for overseeding. Optional Water Tanks shown for additional weight to aid in spoon penetration.

The 3/4" spoon is beveled to easily penetrate the ground and create a nice clean hole.

CR25 SERIES STRAW CRIMPER

Keep soil and seed where you put it.

If heat, erosion, or run-off is a problem, crimping straw into the ground needs to be the final step in grass seeding. Crimping straw into the soil protects the seed, retains moisture, and aids in germination.

DH10/15 SERIES DISC HARROWS

HP REQUIRED
40-65 HP Max.

HITCH
Cat. 1

DIRTWORKING

Food plots and small farms... just right for the Land Pride Disc Harrow.

The Land Pride DH10 Series Disc Harrow opens and breaks up the soil surface to help prepare the soil seedbed for planting. The forward gang has aggressive notched discs while the rear gang has a choice of notched or smooth discs to quickly break up and evenly redistribute the finely cultivated topsoil. The DH10 Series Disc Harrows have applications in homeowner landscaping, small nurseries, gardens, small hobby farms, wild game food plots, and medium-duty residential use.

Disc gangs on the DH15 Series can be ordered with smooth or notched arrays for lighter or more aggressive applications based on customer needs. The DH15 is at home in applications from commercial landscaping, nurseries, and large gardens to small farms and municipal.

Just right to use between tree rows, in vineyards, or to fill in center-pivot irrigation tracks.

DT55 SERIES DITCHERS

HP REQUIRED
60-150 HP

HITCH
Cat. 2 & 3

DIRTWORKING

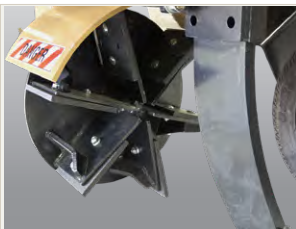

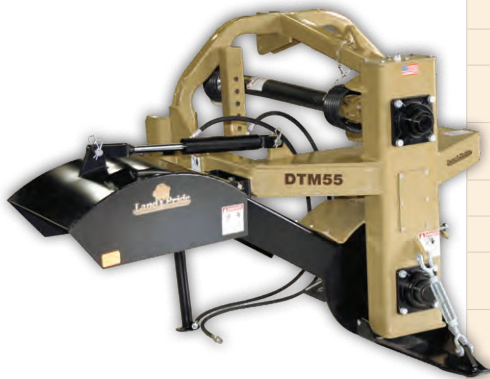

A versatile tool to use in many water control applications.

Cleaning ditches along roadsides or creating them in fields to drain standing water away from crops, the DT55 Ditcher makes it simple. The 20" impeller leaves a clean and sculptured trough to keep water flowing freely from unwanted areas. With the Material Control Chute in place, dirt can be placed just next to the machine, or thrown many feet away to reshape terraces.

OPTIONS:

- Rear skid shoe helps control depth
- Material chute puts dirt where you want it
- Ripper shank tears through hard packed soils moving smaller material into the impeller path
- Gauge wheel for depth control

20" Impeller digs a nice size drainage or irrigation ditch up to 10" deep with each pass.

FC15

Tackle seedbed prep, soil aeration and weed control; all in one tool.

The Land Pride FC10 is a single row 3-Point Cat. 1 C-tine Field Cultivator for use by hobby farmers or gardeners. It features 6 spring steel C-tines, reversible and replaceable heat-treated tips, adjustable row spacing, and durable formed steel frame. Working width is 48" up to 57".

The Land Pride FC15 is a 3-Point, 3-bar, 13-tine Field Cultivator that tackles a number of tasks in the field, including seedbed preparation, soil aeration, and weed control, just to name a few. The cultivator features 13 S-tines with reversible and replaceable tips, a Cat. 1 hitch, 2" x 2" square tube frame, adjustable tine spacing, and a 4" working depth. The FC15 also features bolt on extensions to expand the working width from 72" to 96", an industry exclusive! The rear hitch allows you to pull Land Pride's DRG06 & DRG08 Drag Harrows.

MP10/20 SERIES MOLDBOARD PLOWS

HP REQUIRED
20-60 HP

HITCH
Cat. 1

DIRTWORKING

Ideal for initial cultivation of soil.

Land Pride MP10 and MP20 Moldboard Plows are ideal for small acreage farms or large gardens. These plows are the ideal tool for initial cultivation of soil to prepare for planting or when deeper tillage – more than a field cultivator can provide – is required. Both models are equipped with replaceable 14" shares, shins, and landsides for easy maintenance. The MP10 and MP20 frames feature a 1" x 4" steel trailing arm and cross member, as well as a Cat. 1 3-Point hitch.

	MP10	MP20
Horsepower	2 WD: 20-60 HP 4 WD: 20-50 HP	2 WD: 30-60 HP 4 WD: 30-50 HP

AR25 SERIES PASTURE AERATORS

HP REQUIRED
40-250 HP

HITCH
Pull-Type

DIRTWORKING

Designed with a twist.

Land Pride's AR25 Series Pull-Type Pasture Aerators are ideal in agricultural conservation tillage and pasture renovations. The heavy-duty, knife-like tines on the aerator are designed with a twist in them to break-up compacted soil horizontally and vertically as they slice into the ground in a twisting fashion. This breaking action conditions the soil to soak up water run-off faster, allow fertilizer to penetrate deeper into the ground, and increase oxygen and water supplies to the plant roots.

- 8" Maximum tine penetration for aerating the soil
- 9" Forged & heat treated through steel tines are very resistant to wear and breakage giving them a long life
- Heavy duty rotary tine hangers are designed to stand up to the rigors of hard rocky soil
- Optional concrete weights help aerator tines penetrate the ground

5-25 GPM

HITCH
Cat. 1, 2,
Bucket-Mount

HITCH
Cat. 1, 2,
Bucket-Mount

DIRTWORKING

The economical answer to your post hole needs.

The HD25 and HD35 Series Post Hole Diggers are hydraulically driven and accommodate augers ranging from 6" to 24" in diameter. They are available with a universal quick attach mount, a bolt-on mount for mounting to the side of a bucket on a tractor front-end loader, or with a boom for mounting to a Cat. 1 or 2 3-Point hitch, and meet the heavy duty needs of nurseries, landscapers, contractors, construction companies, ranchers, and land managers. The HD35 will deliver up to 1,605 ft.lbs of torque when industrial-duty is preferred. You can also reverse the auger direction, easing the strain on the auger when extracting it from the ground.

MOUNTING OPTIONS

The HD25 and HD35 Post Hole Diggers are available with a universal quick attach mount, a hydraulic driven 3-Point tractor mount, or a bucket mount.

PR16 SERIES POWERED RAKES

HP REQUIRED
25-75 HP

HITCH
Cat. 1 & 2

DIRTWORKING

The ideal tool for seedbed preparation.

Land Pride's PR16 Series Powered Rake is a multi-functional seed bed and soil surface preparation tool for landscapers and turf care professionals, capable of grading, leveling, shaping, cultivating, renovating, and pulverizing various types of soil surfaces. They are also capable of raking or windrowing soil, rocks, and construction site debris. The 60" or 72" working widths are a good choice for smaller landscaping and turf renovation jobs, while the 90" model is perfect for larger commercial jobs.

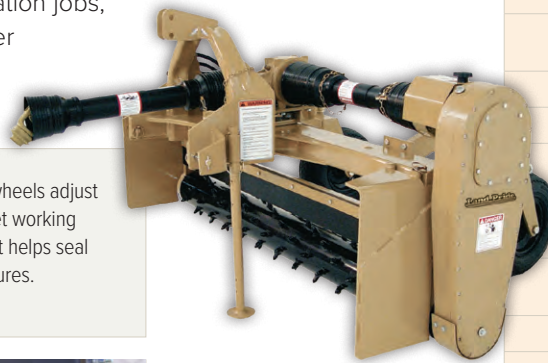

Wide gauge wheels adjust vertically to set working depth. Sealant helps seal against punctures.

Cast iron chain guard housing protects chain in harsh conditions.

Carbide tipped studs are very tough and can be replaced individually as necessary.

HITCH
Cat. 1

DIRTWORKING

Ideal for leveling and seedbed preparation.

The SP20 and SP30 Soil Pulverizers have aggressive reversible 10 1/2" x 2" x 1/2" Scarifier shanks to rip crusted soils, enabling the steel spiked roller to break down the soil to a perfect consistency ready for planting.

- Single or double steel spiked roller
- Self-aligning cast 1" bearings with double lip seals
- 1" Diameter shaft in roller

SP30 Series is available with an optional Dual Roller.

Scarifier shanks are reversible for a longer life.

3/8" Steel spikes are welded to the roller's surface and feature replaceable wear sleeves.

Heavy 1" diameter shaft can handle the shock loads from the roller.

STH15/20 SERIES SPIKE TOOTH HARROWS

HP REQUIRED
20-45 HP Min.

HITCH
Cat. 1 & Pull-Type

DIRTWORKING

Renovate, aerate, or rake.

The STH20 Series Spike Tooth Harrow can be used to spread manure, grass clippings, leaf litter, crop stubble, and renovate pastures; it allows for better incorporation of fertilizers, herbicides, granular products, as well as working broadcasted seed into the soil. It also helps to remove gopher mounds, ant hills, ridges from tillage implements, sticks, and small limbs from grassy areas.

The STH15 Series Spike Tooth Harrow cuts through clods, manure, and grasses to break up material into finer pieces so that it can be spread evenly across the ground. This harrow does an excellent job of smoothing garden plots, fields, arenas, and landscaping areas. It loosens crusted soil, aerates legume crops such as alfalfa, and uncovers overwintering insects.

PF/PFL SERIES PALLET FORKS

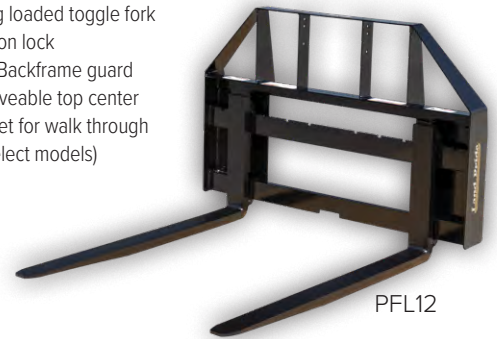

MATERIAL HANDLING

Expand your material handling capabilities.

The PF Series bucket-mounted Pallet Forks transforms your tractor loader bucket into a forklift. PFL and PFLE Series Pallet Forks are great for retail operations, nurseries, and farms; the heavy-duty PFL64 Series is at home on construction and industrial sites. The PFL models mount to the front loader plate of your tractor and PFLE Models mount to your Euro Hitch, effectively changing your loader into a forklift and increasing your material handling capabilities. With capacities from 1,200 lbs to 6,400 lbs, you will quickly find these attachments save you time and labor!

- Spring loaded toggle fork position lock
- 3/16" Backframe guard
- Removeable top center bracket for walk through (on select models)

BG/BGE2400 SERIES BALE GRABBERS

MATERIAL HANDLING

Move and stack round bales with ease.

Moving round bales is made more efficient with the Land Pride BG2400 and BGE2400 Bale Grabber. This Bale Grabber allows customers to move and stack round bales up to 2,400 lbs without damaging the wrap, and the standard back stop prevents material from intruding into the operator zone. The BG2400 is available with a universal quick-attach hitch or the BGE2400 is available with a euro mounting plate for use on both Skid Steers and Tractors. Each arm is controlled with a 3" x 16" x 1-1/2" welded cylinder.

An optional counter balance valve maintains even, constant pressure and prevents hydraulic bleed-off.

Round tubing prevents wrapped bale damage.

Standard backstop prevents material intruding into operator zone.

Available with Universal Quick-Attach or Euro hitch.

	BG2400	BGE2400
Hitch	Universal Quick-Attach	Euro
Weight - lbs (kg) without options	585 (265)	605 (274)

SGC05 SERIES CLAW GRAPPLES

MATERIAL HANDLING

Quickly handle big jobs.

Move brush, clean stalls, lift debris, and so much more with Land Pride's SGC05 Claw Grapple. The SGC05 will make chores a breeze. Easily grasp, lift, and move a variety of materials making property maintenance easier and less time consuming.

Our SGC05 tines are manufactured from high-tensile AR400 Steel to make sure it stands up to demanding use. For added strength, the frame is made of 2" x 3" rectangular tubing. And it carries the Land Pride name, so you know quality is built in.

Kick stand only on SGC0548

Tines are manufactured from high tensile AR400 steel, making the grapple lightweight, yet extremely durable.

Land Pride 3rd Function Valve accessory kit adds versatility to your tractor.

30" Jaw opening and open back for good visibility from tractor seat.

CB05/10 SERIES COMBINATION BUCKETS

HP REQUIRED
Up to 40 HP

HITCH
Kubota BX Quick-Hitch System

MATERIAL HANDLING

Four tools in one to increase versatility.

Land Pride's 4-n-1 Combination Buckets increase the versatility of the front loader. As the name implies, 4-n-1 Buckets are designed to act like 4 attachments – dozer blade, scraper blade, grapple, and bucket.

The CB0550 fits Kubota 60 and 70 Series BX Front Loaders and features a 50" width, spill screen, reinforced side plates, and optional 3rd function valve.

The CB1060 is specifically designed to fit compact tractors up to 40 HP and features a universal quick attach plate, 60" width, maximum jaw opening of 28", and 3/16" side panels. The lower jaw is made from grade 80 steel to keep the bucket light but strong.

CB0550

Land Pride 3rd Function Valve accessory kits add versatility and value to your tractor and are available for select Kubota BX, B, and L tractors.

SGC06 SERIES CLAW GRAPPLES

HP REQUIRED
40 HP & Below

HITCH
Universal Quick-Attach

MATERIAL HANDLING

Add versatility to your Compact Tractor.

The SGC06 will move brush, rocks and debris, making chores a breeze. Just like our popular SGC05 Series, this grapple allows you to easily grasp, lift, and move a variety of materials greatly reducing the time spent on property maintenance. The tines are manufactured from high-tensile AR400 Steel making it light-weight, yet extremely durable. For additional strength, the frame is made of stout 2" x 3" rectangular tubing. The hinge points feature 3/4" greaseable pins. Land Pride also has 3rd Function Valve Kits for a variety of Kubota tractor/loader combinations. Add versatility to your tractor by completing the package with a 3rd Function Kit.

Color	

Tines are manufactured from high tensile AR400 steel, making the grapple lightweight, yet extremely durable.

Land Pride 3rd Function Valve accessory kit adds versatility to your tractor.

Parking stand allows unit to stand upright when not in use, making it easier to attach to tractor loader.

The SGC0660 features a 32" jaw opening and open back design for good visibility from the tractor seat.

*See dealer for complete warranty information.

SGC10/15 SERIES CLAW GRAPPLES

HP REQUIRED
30-135 HP

HITCH
Universal Quick-Attach

MATERIAL HANDLING

Make quick work of large jobs.

Land Pride's SGC10 and SGC15 Claw Grapples make quick work of large jobs. The SGC can be used to rake, dig, and move rocks, trees, brush, and construction debris without picking up dirt. The compact design minimizes weight while preserving lift capacity. The SGC comes complete with the durability that Land Pride is known for. Our Claw Grapples are ideal for an all-purpose grapple.

SGC10

SGC15

Tines are manufactured from high tensile AR400 steel, making the grapple lightweight, yet extremely durable.

All pivot points feature 1-1/4" greaseable pins for longer life.

6" x 6" Frame tube for strength and serrated teeth keep material from rolling out.

SGS15 SERIES SKELETON GRAPPLES

HP REQUIRED
50-135 HP

HITCH
Universal Quick-Attach

MATERIAL HANDLING

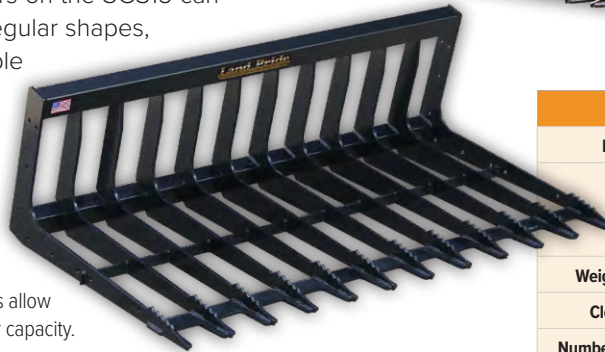

Ideal for storm clean-up and land clearing operations.

Let the Land Pride Skeleton Grapple do the digging for you by removing roots, stumps, and other timber or debris. These are available in 66" and 78" widths and with 5-1/2" spacing between the teeth, smaller debris is sifted easily. Dual hydraulic cylinders on the SGS15 can close at various gaps to handle irregular shapes, and serrated teeth make this grapple a work-horse in storm clean up and land clearing operations. Our Skeleton Grapple also features available bolt-on side panels.

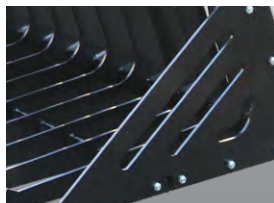

SSB15
Open ends allow for greater capacity.

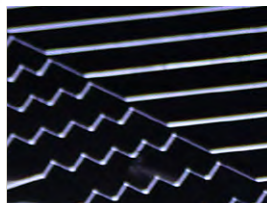

SGS15

Optional covers protect hydraulic cylinders and fittings.

Optional bolt-on side panels create a bucket for rock or debris sifting.

Serrated teeth design allows for better load gripping.

GB/GBE25 SERIES GRAPPLE BUCKETS

HP REQUIRED
Up to 180 HP

HITCH
Universal Quick-Attach or Euro

MATERIAL HANDLING

Add versatility to your tractor.

The GB25/GBE25 Series heavy-duty Grapple Buckets are ideal for use on your farm, ranch, dairy, construction site or nursery. These American-made, large capacity grapple buckets have the capability to quickly and conveniently turn your tractor loader into a versatile tool for handling large bales or loose and shredded materials such as straw, hay, silage, manure, branches, sticks, wood, and trash.

High-strength, cast tines feature adjustable mounts for variable spacing.

Grapple is attached with quick-release 4-pin mount system.

Wide 84" jaw opening allows operator to grasp large loads.

Dual 3" cylinders provide clamping force to hold the load securely.

Parking stand aids in mounting/disc mounting the grapple from the bucket.

SB10/15 SERIES SNOW BLOWERS

HP REQUIRED
18-59 HP

HITCH
Cat. 1

SNOW TOOLS

Snow Business.

Land Pride's SB10 and SB15 Series of Snow Blowers are available in 3 popular sizes. The two-stage system – auger and impeller – allows the units to move large amounts of snow in a short amount of time. The 3-point hitch is telescopic to couple as close as possible to the tractor. The chute rotation and chute deflector are controlled manually, electrically, or hydraulically.

- Optional hardened cutting edge
- Shear bolt driveline
- Heavy-duty chute
- Choice of skid shoes
- Telescoping 3-Point

Large 20" or 24" impeller allows snow to be moved quickly and efficiently.

Augers are 3/8" x 2-1/2" with 14" or 16" diameter, and are protected by a shear-bolt.

Colors	

Optional front cutting edge & inner or outer depth shoes can be purchased with all models to increase life of the units and to prevent gouging on uneven surfaces.

Side Wear Plate

Button-style

Outer Skid Shoe

Chute Rotation available in Manual, Hydraulic, or Electric. The chute rotates so you can direct the snow right where you want it.

Manual Chute Rotator

Optional Electric Rotator

Tilt can be easily adjusted manually, or with electric or hydraulic option.

SBD35 SERIES SNOW BLOWERS

HP REQUIRED
85-180 HP

TYPE OF HITCH
Cat. 2 & 3

SNOW TOOLS

Make quick work of winter's biggest jobs.

Land Pride's SBD35 Snow Blowers feature an adjustable, telescopic Cat. 2 and Cat. 3 hitch to allow for easy hook up. 1/4" Side plates with reinforced gussets wrap on the main housing to create an exceptionally strong blower.

Dual 16" diameter augers feed the SBD35's massive 34" impeller to help the blower dive into the biggest piles without bogging down. The Augers are chain driven with a shear bolt on the sprocket drive shaft to protect the gearbox and driveline from damage.

Both models have a telescoping Cat. 2 or Cat. 3 reinforced hitch for use with or without a Quick Hitch.

The shear-bolt on sprocket drive shaft protects gearbox and driveline from damage.

Aggressive augers manufactured from 3/8" plate steel chew through snow and ice.

Hydraulically controlled chute is gear driven for smooth efficient operation.

HRS30 SERIES HYDRAULIC RESERVOIR SYSTEMS

HP REQUIRED
52 HP Min.

HITCH
Cat. 1 & 2

SNOW TOOLS

Add hydraulic power with ease.

The HRS is a self contained power pack to run log splitters, chippers, front-mounted snowblowers and more. Easily hook to the 3-Point hitch on your tractor, hook the driveline to the tractor's PTO shaft, and you have a convenient supply of hydraulic power.

Optional Valve Selections

- **No Valve** - Use PTO to turn hydraulics on and off
- **Manual Valve** - Use remote valve to turn hydraulics on and off
- **Solenoid Valve** - Use electronic control to turn hydraulics on and off

35 Gallon self contained reservoir with 10 micron filter provides more than ample amounts of clean and cool hydraulic fluid for even the most demanding applications.

The oil cooler on the Hydraulic Reservoir System cools the oil when necessary and is included with the hand valve and solenoid valve options. It is optional with the no valve option.

	HRS3025
Horsepower	52 Min.
Hitch	Cat. 1 & 2

STB10/15 SERIES TRIP BLADES

HP REQUIRED
25-70 HP

HITCH
Universal
Quick-Attach

SNOW TOOLS

Efficient Snow Removal with Loader-Mount Blades.

The STB10 and STB15 Snow Trip Blades are designed to fit tractor loaders. The STB10 is available in 5' and 6' widths for tractors with loaders in the 25-40 HP range. The 10 Series Model has a 21" curved moldboard. The STB15 is designed for tractors 30 to 70 HP and is available in 6', 7', and 8' widths. The 15 Series features a 27" curved moldboard. Both models feature dual trip springs and abrasion resistant AR400 skid shoes. Hydraulic angling options are available on both units as well and both have safety orange edge markers as standard equipment.

Button-style skid shoes are manufactured from high tensile AR400 steel, and are abrasion resistant.

Kubota-branded CE Attachments are manufactured by Land Pride, a leading manufacturer of tractor-mounted implements. Land Pride, now a Kubota company, has joined forces with Kubota Tractor Corporation to bring you a top-quality growing line of attachments for your Kubota Skid Steer, Compact Track Loader, & Excavator.

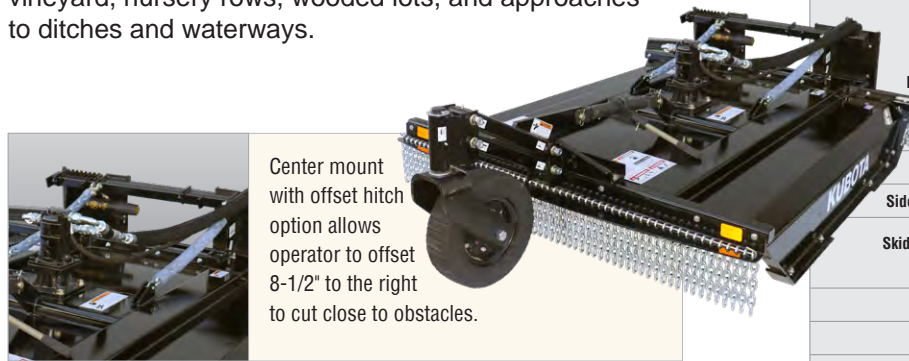

SC25 SKID CUTTERS

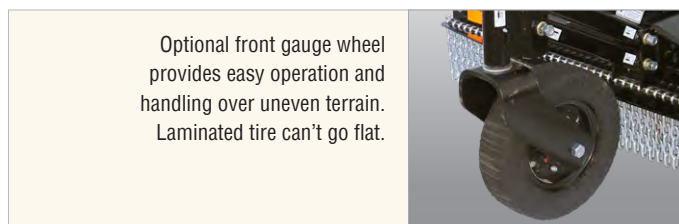

AVAILABLE FOR: SSV65 / SSV75 / SVL65-2 / SVL75-2 / SVL95-2s

- 2" Diameter cut capacity
- 1-1/2" - 18" Cutting height; infinitely variable
- 10 Gauge steel deck; 1/4" side skirt

Ideal for restricted areas under fences, in and around boxed in corner sections of corrals and out buildings, vineyard, nursery rows, wooded lots, and approaches to ditches and waterways.

Center mount with offset hitch option allows operator to offset 8-1/2" to the right to cut close to obstacles.

Optional front gauge wheel provides easy operation and handling over uneven terrain. Laminated tire can't go flat.

SC40 SKID CUTTERS

AVAILABLE FOR: SSV65 / SSV75 / SVL65-2 / SVL75-2 / SVL95-2s

- 4" Diameter cut capacity
- 1/4" Deck thickness
- Pressure gauge
- Tapered full length skid shoes
- Inline bearing

Farmers and ranchers, developers, contractors, and land owners can clear land or small trees, shrubs, bushes, and grass.

Easy-to-read pressure gauge allows the operator to ensure that the motor is operating at proper psi.

		SC4060	SC4072

Deck Lift Height Protection		Height adjustment safety chain	

SC70 SKID CUTTERS

AVAILABLE FOR: SVL95-2s

- 7" Diameter cut capacity
- 1/4" Deck thickness
- 4 Swinging blades, reversible
- Replaceable carbide teeth on bottom of blade carrier
- Patent pending retractable front door
- Wide, angled full length skid shoes

Contractors and developers with extreme ground-clearing needs will easily eliminate brush and trees up to 7" in diameter.

Patent pending bi-folding retractable front door will fold open when cutting brush and trees. Covers the cutting chamber when not operating in extreme conditions.

	SC7072
Cutter Weight w/skid shoes (kg)	2,580 lbs (1,170)
Cutting Width (m)	73-1/2" (1.87)
Overall Width (m)	84-3/8" (2.14)
Overall Length (m)	92-1/4" (2.34)
Cutting Capacity (cm)	7" (17.78) Diameter
High Volume Drive Motor (lpm)	26-43 gpm flow (98.4-162.8)
Hydraulic Pressure	Up to 3500 psi
Deck Thickness (mm)	1/4" (6)
Side Skirt Construction (mm)	1/4" (6)
Blade Carrier (mm)	Two round 1/2" (12.7) plate weldments
Blade Size (mm)	3/4" (19.05) Double edge
Blade Tip Speed (mps/lpm)	14,870 fpm (75) at 43 gpm (162.8)
Skid Shoes Construction (mm)	3/8" (10) Plate
Front Deck Protection	Bi-fold door w/single row chain guard
Deck Lift Height Protection	Height adjustment safety chain
Mulching Teeth (mm)	3/4" (19.05) SQ carbide

Push bar forces trees away from the operator.

Replaceable carbide teeth on bottom of blade carrier.

SGC20 CLAW GRAPPLES

AVAILABLE FOR: SSV65 / SSV75 / SVL65-2 / SVL75-2 / SVL95-2s

- 6" Teeth spacing
- 1/2" Tooth thickness
- High tensile AR400 steel
- 6" x 6" Frame tube

Claw Grapples make quick work of large jobs, and can be used to rake, dig, and move rocks, trees, brush, and construction debris without picking up dirt.

Dual hydraulic cylinders allow upper jaw to grip the material better.

Large 1-1/4" diameter pivot pins provide extra strength.

	SGC2072	SGC2084
Weight (kg)	895 lbs (406)	999 lbs (453)
Width (m)	74-1/2" (1.89)	86-1/2" (2.2)
Number of Teeth	12 Bottom, 11 Top	14 Bottom, 13 Top
Teeth Spacing (cm)	6" (15.24)	
Tooth Thickness (mm)	1/2" (12.7)	
Working Length of Teeth (cm)	14-3/4" (37.47)	
Hydraulic Cylinder (cm)	3" x 10" x 1-1/4" (7.62 x 25.4 x 3.175) Rod	
Max. Pressure Rating	3500 psi	

SGR/SRB15 ROCK GRAPPLES/BUCKETS

AVAILABLE FOR: SSV65 / SSV75 / SVL65-2 / SVL75-2 / SVL95-2s

- 3" Teeth spacing
- 3/8" Tooth thickness
- 37" Jaw opening
- Independent grapples

The Rock Grapple allows small rocks, soil, and debris to be sifted, leaving the larger material locked in its jaw. The SGR15 Rock Bucket is designed to do the dirty work, moving volumes of material quickly and efficiently.

Hydraulic Cylinder (cm)	2" x 8" x 1-1/4" (5.08 x 20.32 x 3.175) Rod			N/A		
Max. Pressure Rating	3500 psi			N/A		

Grade 80 steel tine material with front gusseted tine tips.

Deep dish side panel design.

Two cylinder independent grapples help secure uneven loads.

SGM15 MANURE GRAPPLES

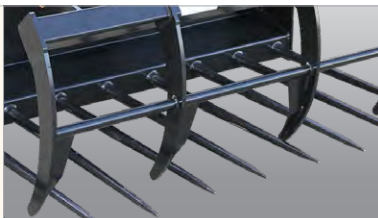

AVAILABLE FOR: SSV65 / SSV75 / SVL65-2 / SVL75-2 / SVL95-2s

- 40" Jaw opening
- Single 2" x 8" cylinder with 1-1/4" rod
- 1-1/4" Greaseable pins on all pivot points

Manure Grapples are a must-have tool for moving hay, cleaning barns, or general yard maintenance and will make chores around the farm a breeze.

Bent or damaged spears can be easily replaced.

Optional upper grapple fork grips the material, increases load capacity, and reduces spillage.

	SGM1566	SGM1572	SGM1578
Lower Grapple Weight (kg)	410 lbs (186)	427 lbs (194)	455 lbs (206)

Spacing of Bottom Spears (cm)	7-5/8" (19.36)	8-5/16" (21.11)	8-1/8" (20.64)
Bottom Spear Diameter (cm)	1-3/8" (3.49)		
Working Length of Spears (cm)	30-3/8" (77.15)		

RG30 ROOT GRAPPLES

AVAILABLE FOR: SSV65 / SSV75 / SVL65-2 / SVL75-2 / SVL95-2s

- Gusseted 1/2" frame tines
- 3/4" Thick grapple tines
- Greaseable pivot points
- Wide tine spacing
- Zinc-plated steel hydraulic lines

Farmers, landscapers, and construction crews are able to pick up large debris while separating out dirt and other small material. Excellent tool for nurseries, tree services, and rental fleets.

Upswept tine tips prevent gouging or hanging up on wire or cables.

Two independent upper grapple jaws secure uneven loads.

CB25 COMBINATION BUCKETS

AVAILABLE FOR: SSV65 / SSV75 / SVL65-2 / SVL75-2 / SVL95-2s

- 4-in-1 Design: bucket, scraper, grapple, & dozer
- Dual cutting edge on jaw
- Bolt-on edge on back blade
- Cylinder protection
- Struck cap. 10–16 cu. ft.; Heaped cap. 15–22 cu. ft.

Dirt and concrete contractors, landscapers, and farmers get the versatility of a grapple, dozer blade, bucket, and back scraper, all in one tool with the CB25.

Various sizes, shapes, and weights of objects can be picked up and held securely in the serrated interlocking grapple teeth on bucket side panels.

Optional counterbalance valve prevents hydraulic bleed-off and improves cylinder control.

GB30 SCRAP GRAPPLE BUCKETS

AVAILABLE FOR: SSV65 / SSV75 / SVL65-2 / SVL75-2 / SVL95-2s

- ¼" Two-piece shell
- ½" End panels
- Five wear bars on bottom
- ¾" Grapple tines
- Zinc-plated steel hydraulic lines

The GB30 is a must-have tool for demolition operations, recycling plants, salvage yards, and rental companies. It moves sharp, jagged, and bulky debris with ease.

Optional bolt-on cutting edge is reversible to extend the life of the blade and replaceable to extend the life of the GB30 and its weld-on cutting edge.

Two independent upper grapple jaws help secure uneven loads.

	GB3068	GB3074	GB3080

LM25 LIGHT MATERIAL/SNOW BUCKETS

AVAILABLE FOR: SSV65 / SSV75 / SVL65-2 / SVL75-2 / SVL95-2s

- Cut out in backplate for visibility
- Optional bolt-on cutting edge
- Heavy-duty construction
- Inside bend gussets

Great for moving large volumes of loose material, including snow, and for cleaning bedding and manure removal in stalls or barns on the farm or at event facilities.

Cut out backplate provides increased visibility from the operator seat.

Optional bolt-on cutting edge is reversible and replaceable to extend the life of the blade.

	LM2584	LM2596	LM25108
Weight (w/o Optional Cutting Edge) (kg)	719 lbs (326)	803 lbs (364)	869 lbs (394)
Struck Capacity (m³)	30.9 ft ³ (.87)	35.4 ft ³ (1)	40.4 ft ³ (1.14)

Optional Bolt-On Cutting Edge	Reversible and replaceable		

UB25 UTILITY BUCKETS

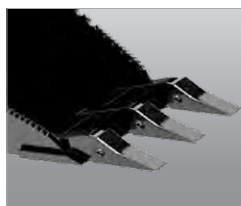

AVAILABLE FOR: SSV65 / SSV75 / SVL65-2 / SVL75-2 / SVL95-2s

- Replaceable pin-on tooth tips
- Angled bottom to aide in leverage
- Top tapered ripper teeth in side wall
- Hardened cutting edge

This construction-grade Utility Bucket acts as a shovel-like attachment for stump and small tree removal, relocating landscaping rocks or boulders, and light trenching.

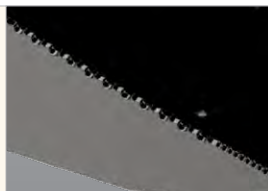

Three weld-on cast steel skid steps make entering and exiting the power machine safer.

Hardened cutting edge with continuous weld adds strength to the bucket and stands up to high wear.

Replaceable pin-on tooth tips can be easily replaced as they wear or break.

Top tapered ripper teeth in sidewall help cut through roots and break them in two.

	UB25
Max. Horsepower (kW)	100 HP (76.6)
Weight (kg)	420 lbs (191)
Hitch Type	Universal Quick-Attach Hitch
Skid Resistance Step Plates (cm)	Three, 3' x 7-1/2" (8x19) weld-on cast steel step plates
No. of Replaceable Pin-on Teeth	3
Pin-on Tooth Construction	Cast iron tooth attaches to a welded on cast steel base with a tooth locking pin
Bottom Plate Construction (mm)	Continuous welded 1/2" (13) steel
Front Cutting Edge Construction (cm)	Continuous welded 3/4" x 6" x 16" (2x15x41) high carbon steel
Bucket Capacity (m³)	4.5 ft³ (.13)

TC25 TREE CARRIERS

AVAILABLE FOR: SSV65 / SSV75 / SVL65-2 / SVL75-2 / SVL95-2s

- Universal Quick-Attach plate
- Curved and tapered front edge
- Side gussets
- 1/4" AR400 bucket material
- Tie down connection points on hitch

The Tree Carrier is available in a variety of sizes to help landscapers and nurseries handle multiple widths of root balls. Easily dig, move, then plant small trees and shrubs with one versatile tool.

Curved and tapered front edge makes scoop easier to drive in the ground.

Hook points provide an easy way to secure the tree in the bucket to prevent it from falling over while transporting it.

	TC2542
Max. Horsepower (kW)	100 HP (74.6)
Weight (kg)	315 lbs (143)
Max. Root Ball Capacity (m)	42" (1.07)
Scoop Construction (mm)	Continuous welded 1/4" (6) AR400 plate steel with beveled front edge and reinforced with 5/16" (8) thick mild steel gusset plates
Reinforced Construction (mm)	Continuous welded 5/16" (8) mild steel gussets
Skid Resistance Step Plates (cm)	Two, 3" x 7-1/2" (8x19) bolt-on cast steel
Hook Points	2 on each side of hitch plate

AB ANGLE BROOMS

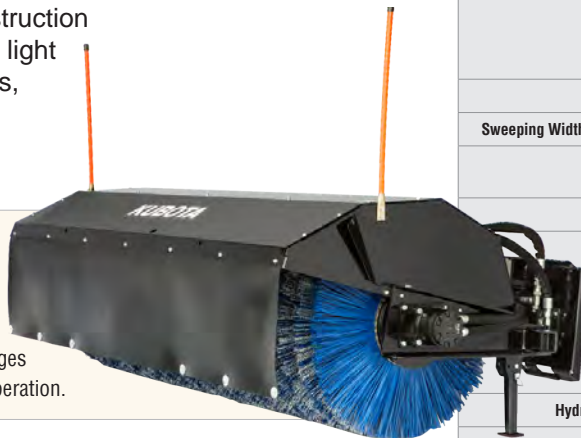

AVAILABLE FOR: SSV65 / SSV75 / SVL65-2 / SVL75-2 / SVL95-2s

- 32" Brush diameter
- Replaceable hex drive system
- Poly, wire, or combination bristles
- Optional dust suppression system with 25 gallon tank

Angle Brooms are ideal for construction site cleanup, road maintenance, light snow removal on paved surfaces, and cart path maintenance.

Optional rubber dust deflector flap helps keep dust levels under control and out of the operator's field of vision. Optional marker indicators aid operator in knowing exact position of extreme left and right edges of the unit for safer and unencumbered operation.

Choice of hydraulic or manual angling; high or standard flow hydraulic options are offered to ensure that cylinder travel response is safe and appropriately matched to output flow of the tractor.

	AB72	AB84
Weight (kg) w/High Flow Set-up, Hydraulic Angling Jack & Combination Broom	854 lbs (387.4)	930 lbs (421.8)
Overall Width (m)	81 1/2" (2.07)	93 1/2" (2.37)

Wafers	2 Straight Poly Wafers 34 Convoluted Wafers	2 Straight Poly Wafers 40 Convoluted Wafer
Sweeping Width (m)	72" (1.83)	84" (2.13)
Sweeping Width @ 30° Max. Angle (m)	65" (1.65)	76" (1.93)
Max. Angle	Manual angling: 30° left or right Optional Hydraulic Angling: 30° left or right	
Brush Diameter (m)	32" (81.3)	
Brush Rotor Shaft	Quick change broom core with no hydraulic breakage in changeover	
Brush Bristle Type	100% Poly or 100% Metallic or 50% Poly and 50% Metallic	
Float Control	Spring loaded with adjustable down pressure & stops	
Hydraulic gpm Range (lpm)	12-30 gpm (45.4-113.6)	
Motor Rated Hydraulic Flow	18 gpm & Below (lpm)	18 gpm (68.1) @ 220 rpm brush speed "High Flow" option not available
	24 gpm & Above (lpm)	25 gpm (94.6) @ 230 rpm brush speed "High Flow" option available for units capable of producing flows above 25 gpm (94.6 lpm). This option protects the hydraulic motor by diverting excess flow back to the tank.
Brush Speed Range	100-230 rpm	

HB HOPPER BROOMS

new

AVAILABLE FOR: SSV65 / SSV75 / SVL65-2 / SVL75-2 / SVL95-2s

- Heavy-duty bucket design - 3/16" shell
- Bucket tapered front to back to hold material in
- 26" Replaceable brush
- Tool-less height adjustment
- Heavy-duty metal top with bump protection

This large, tapered, heavy-duty collection bucket offers multiple broom configurations making it the perfect construction site clean-up tool for contractors and rental yards.

The optional gutter broom adds 12" to the cleaning width and makes it easier to clean curbs and alongside buildings. Broom height is adjusted with a simple pin - no tools needed.

The heavy-duty bucket offers a 3/16" shell, and is tapered front to back to help hold in material. The heavy-duty metal top offers bump protection to take on the day-to-day use of construction sites.

Broom Rotor Shaft	w/o Gutter Broom	Quick change broom core with no hydraulic hose disconnect in changeover. Quick change broom core with return to sump hydraulic hose disconnect only.	
	w/ Gutter Broom		
Hydraulic gpm Range (lpm)		12-25 gpm (45-95)	
Min. Hydraulic Flow Required (lpm/mPa)		12 gpm (45) @ 2000 psi (13.8)	
Max. Hydraulic Flow Required (lpm/mPa)		12 gpm (45) @ 2000 psi (13.8)	
Max. Hydraulic Pressure Rating (mPa)		3500 psi (24.1)	
Broom Speed Range		100-230 rpm	
Hydraulic Rotor Drive Motor		Single motor drive standard	
Bucket Shell Thickness (mm)		3/16" (4.8)	
Bolt-on Cutting Edge (cm)		Standard 5/8" x 8" (1.6x20.3)	
Broom Hood Thickness (mm)		12 ga. Sheet metal (2.6)	
Optional Water Tank Capacity		25 gal. (95 L)	

SRT SKID TILLERS

AVAILABLE FOR: SSV65 / SSV75 / SVL65-2 / SVL75-2 / SVL95-2s

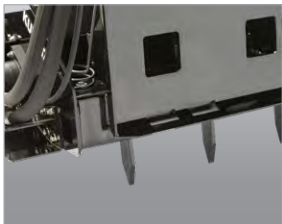

- Case drain protection
- Adjustable ripper shanks
- Forward or reverse rotation
- Replaceable skids shoes with depth control
- Spiral rotor design with C-shaped bi-directional tines
- 6" Offset capability

Forward and reverse rotation tillers are great for seedbed or garden plot soil preparation used in landscaping, nurseries, gardens, and light commercial applications.

	SRT62	SRT76
Weight (kg)	785 lbs (356)	880 lbs (399)
Tilling Width (m)	62" (1.57)	76" (1.93)
Overall Width (m)	74-1/2" (1.89)	88-1/2" (2.25)
Tilling Depth (cm)		2", 4", & 5.6" (5.1, 10.2, 14.2)
Patented Depth Indicator		Depth indicator (Viewable from operator seat)
Hydraulic Requirements Low Flow Motor (Lpm)	14-23 gpm (53-87)	N/A
High Flow Motor (Lpm)	23-42 gpm (87-159)	23-42 gpm (87-159) 16-23* gpm (60.6-87) with minimum 2600 psi (17.9 mPa)
Motor Case Drain	Standard	Standard
Number of Rotor Flanges	9	11
Number of Tines per Flange	4	4
Tine Construction	Bi-directional forged hardened "C" shaped	
Direction of Travel	Bi-directional (forward and reverse)	
Side Shift Capabilities (cm)	6" (15.2) to the right	
Rotor Swing Diameter (cm)	18.3" (46.5)	
Number of Shanks	5	6

*High flow motor with 16-23 gpm can be used with minimum working pressure of 2600 psi but rotor speed rpm will be reduced which could effect tilling performance.

Adjustable scarifier shanks are constructed of hardened steel and are built tough to rip up hard soil.

Patented depth indicator shows the operator how deep the tiller is working in the soil without leaving the seat.

PS20 PRIMARY SEEDERS

AVAILABLE FOR: SSV65 / SSV75 / SVL65-2 / SVL75-2 / SVL95-2s

- Patent pending bi-directional seed cups
- Universal Quick-Attach Hitch and 3-point hitch standard
- Large capacity seed box
- Floating packer wheels to follow the contours

Ideal tool for landscapers and contractors. The patent pending bi-directional seed cups allow the seeder to travel forwards or backwards. The dual skid hitch and 3-point hitch make this a great tool for rental yards.

Large seedbox capacity keeps filling to a minimum and increases productivity.

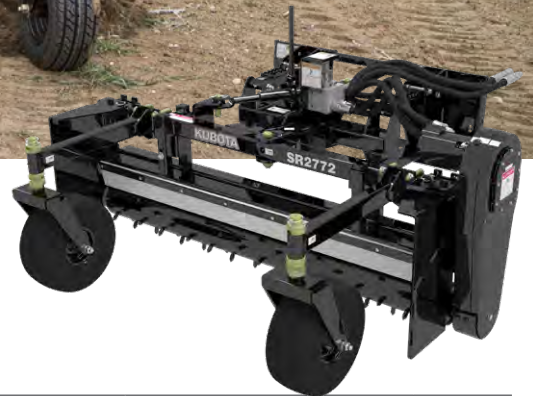

Floating packer wheels follow the contours and allows the unit to stay in contact with the ground for consistent seed-to-soil contact.

Shown with optional transport lights.

	PS2072	PS2086

Seed Cups Patent Pending	Bi-directional fluted cups for accurate metering	
	10	12
Packer Rollers (cm)	9" (22.9) Notched cast iron bed forming packer rollers	
	31 Front, 30 Rear	37 Front, 36 Rear

SR/SRF27 POWERED RAKES

AVAILABLE FOR: SSV65 / SSV75 / SVL65-2 / SVL75-2 / SVL95-2s

- SR: Float or rigid option
- SRF: Fixed hitch - no angling
- Manual or hydraulic angle
- Cast chain housing
- Larger U-bolts on gauge wheel
- Carbide tipped studs

Landscapers and housing contractors can prep and level ground for seeding, remove unwanted material and debris, and rejuvenate gravel driveways and lots. Powered rakes make excellent rental tools.

Angle/float hitch: When operated in float, it allows the gauge wheels and rake to float with the contour of the ground.

Carbide tipped studs and bi-directional roller with variable speed enables more complete finish and control.

SG25 SKID GRADERS

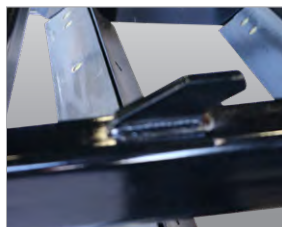

AVAILABLE FOR: SSV65 / SSV75 / SVL65-2 / SVL75-2 / SVL95-2s

- Standard ripper teeth
- Bi-directional blades; Adjustable cutting angles
- Replaceable skid shoes
- Bucket carrier on top

Landscapers, contractors, homeowners, and developers can level construction sites, prepare seedbeds, and rejuvenate driveways forwards or backwards. Ripper teeth break compacted soils for a better finish.

Full length, heavy-duty skid shoes are reversible and replaceable.

After loading the SG25 onto a trailer, a bucket can be mounted on top using the storage lugs, to save space.

Dual height grader blades allow the grader to be adjusted to desired amount of cultivation, leveling, & grading.

	SG2572	SG2584
Working Width (m)	72" (1.83)	84" (2.13)
Overall Width	81-1/4" (2.06)	93-1/4" (2.37)
Weight w/Shanks (kg)	886 lbs (401.9)	952 lbs (431.8)

Side Panel Height with Skid Shoes (cm)	15-1/2" (39.4)	
Side Panel Length (m)	50" (1.27)	
Side Panel Thickness (mm)	1/4" (6) Thick with 2-3/4" (7) formed edges	
Skid Shoe Construction (mm)	3/8" (10) Thick with a formed bevel to prevent gouging	
Cutting Edges (cm)	Four 1/2" x 6" (1.3x15.2) high-carbon, heat-treated blades that are reversible and replaceable	
Cutting Edge Adjustment (cm)	Variable vertical adjustment from level grade to 1-1/2" (3.8) below grade	

SD96 SILAGE DEFACER

AVAILABLE FOR: SSV65 / SSV75 / SVL65-2 / SVL75-2 / SVL95-2s

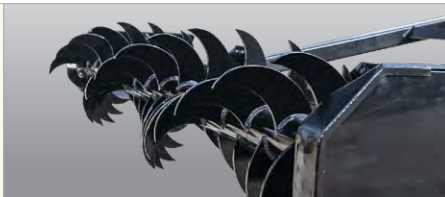

- 90" Operating width
- Spiral tooth design
- Optional euro-mount
- 4" x 1/4" Rotor tube with 6-1/2" tines

The SD96 loosens and breaks up tightly packed and frozen silage so it can be loaded for feeding while leaving the face groomed and even to reduce spoilage, simplifying operations for ranchers and feedlots.

Closed drive system prevents material from interfering with the drive system.

Spiral tooth design helps keep the unit in contact with the face of the material while leaving a clean groomed face.

	SD96
Overall Width (cm)	99-1/4" (252)
Working Width (cm)	90-5/8" (228.6)
Weight (kg)	388 lbs (176)
Motor	6.2 cu/in
RPM (Lpm)	@ 12 gpm (45.4) - 160 @ 25 gpm (94.6) - 335
Rotor Diameter w/Tines (cm)	17" (43.18)
Tine Length (cm)	6-1/2" (16.51)
Tine Pattern	Spiral

RP30 RIPPER

AVAILABLE FOR: SSV65 / SSV75 / SVL65-2 / SVL75-2 / SVL95-2s

- 5 Shank design with replaceable tips
- Skid shoes
- Patented level indicator

Contractors and landscapers can rip or loosen dirt, sand, and gravel at varying depths. Using this unit in between compaction passes will also help achieve the desired compaction rating.

Patented level indicator makes it easy to keep the unit parallel to the ground.

Five shank design with replaceable tips are easy to adjust to depth and conditions.

Wide skid shoe design helps maintain constant depth.

	RP30
Ripper Overall Width (m)	68-1/2" (1.74)
Max. Working Width (m)	78-3/4" (2)
Weight (kg)	363 lbs (164.7)
Horsepower Rating (kW)	65 - 95 HP (48.5-70.8)
Hitch Type	Universal Quick-Attach, meets ISO 24410
Number of Shanks	5
Skid Shoe Construction (mm)	Bolt-on 5/16" (8) steel plate
Shank Tube Construction (cm)	5' x 5" (12.7x12.7) Square tube with reinforcement plate around bottom of shank opening
Patented Level Indicator	Weighted indicator to indicate when unit is level

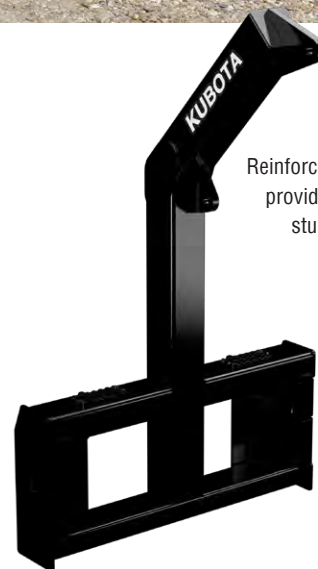

LB60 LOADER BOOM

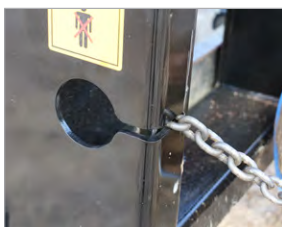

AVAILABLE FOR: SSV65 / SSV75 / SVL65-2 / SVL75-2 / SVL95-2s

- 6" x 6" Tube construction
- Flat front
- Two 1" lifting lugs
- Stabilizer chain connections in side plates

Provides a stable lifting platform for placing and removing concrete forms, moving large objects, and transplanting trees and shrubs. The 68" height provides extended reach for loading trailers.

Reinforced mast provides extra sturdiness.

Side plate with holes and slots enable the use of chain or straps for stabilizing.

Secondary lift lug added in the middle of the boom increases lifting capabilities when boom is angled forward.

	LB60
Lift Capacity (kg)	6,000 lbs (2722)
Weight (kg)	384 lbs (174)
Frame Width (cm)	45" (1.14)
Frame Height (m)	68" (1.73)
Lift Lugs (cm)	Two lugs, 1" (2.5) Plate
Lift Lug Hole Diameter (cm)	For up to 1" (2.5) shackle pins
Side Plate (mm)	Slot for 5/16" (8) chain and 3" (76) hole for other chains or straps
Mast (cm)	6" x 6" (15.2x15.2) Tube
Reinforced Mast (mm)	1/4" (6) Plate

STP15/25 TREE/POST PULLERS

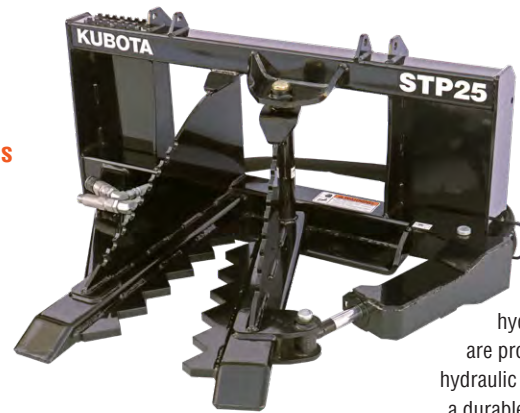

STP15: AVAILABLE FOR: SSV65

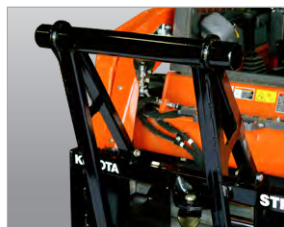

STP25 AVAILABLE FOR: SSV65 / SSV75 / SVL65-2 / SVL75-2 / SVL95-2s

- 10" Jaw opening
- Laser cut saw tooth design
- Interlocking teeth on the jaws
- 3" x 3-1/2" Square tubing frame

The STP15 is great for property owners and small landscapers for removing shrubs, saplings, and small trees; pulling them from the ground, roots and all. The STP25 is ideal for farmers/ranchers, fence builders, homeowners, and landscapers for removing trees up to 10" in diameter.

Fittings and hydraulic hoses are protected at the hydraulic cylinder with a durable steel guard.

Optional push bar keeps limbs away from the cab to protect the operator (STP25 only).

Angled jaw tips aide in digging roots and loosening soil around the base of trees.

	STP15	STP25
Weight (kg)	228 lbs (103.4)	316 lbs without push bar
Jaw Opening (cm)	10" (25.4) Maximum	
Jaw Construction	Teeth (cm)	Laser cut from 5/8" (1.6) steel x 16" (40.6) long
	Tips	Angled for digging
Jaw Pivot Pin (cm)	Greasable pin constructed of solid 2-1/2" (6.4) diameter steel	Greasable pin constructed of solid 1-1/4" (3.175) diameter steel
Hydraulic Cylinder (cm)	2" x 8" 1-1/8" (5.1x20.3x2.9) Welded hydraulic cylinder	
Hydraulic Cylinder Pivot Pins	Greasable	
Cylinder Guards (cm)	3/16" (5) Welded steel plate	
Max. Pressure Rating (mPa)	3500 psi (24.1)	

SSG25 STUMP GRINDER

AVAILABLE FOR: SSV65 / SSV75 / SVL65-2 / SVL75-2 / SVL95-2s

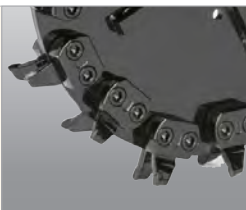

- Maximum cutting arc of 55°
- Hydraulic motor with electric over hydraulics
- Depth of 8" below ground
- 1/2" by 20" diameter wheel with carbide teeth

A great choice for contractors, landscapers, and forestry departments, the SSG25 turns large stumps into small chips.

Discharge deflector pivots up while the cutting wheel is digging into the ground. The high speed cutting wheel cuts fast with less vibration.

Replaceable carbide cutting teeth offer extra long life and are easy to replace.

		SSG2584
Mounting Plate		Universal Quick-Attach
Overall Mounting Width (m)		48" (1.22)
Overall Length (m)		60" (1.52)
Weight (kg)		540 lbs (244.9)
Main Frame (mm)		6" x 6" x 1/4" (152x152x6) Tube
Drive and Control System		Hydraulic motor with electric over hydraulic
Hydraulic Requirements (Lpm)		17 to 32 gpm (64.4-121.1)
Articulate Cylinder (cm)		3" x 6" (7.6x15.2) stroke with 1-1/4" (3.2) rod diameter

BR BREAKERS

**AVAILABLE FOR: SSV65 / SSV75 / SVL65-2 / SVL75-2 / SVL95-2s
KX018-4 / KX71 / KX033 / KX040 / KX057 / KX080
U17 / U27 / U35 / U55**

- Multiple tool options
- Wear resistant steel housing
- Replaceable seal and bushing
- CBE Constant blow energy

Ideal for demolition of concrete and rock, and as a rental tool where optimum power and breaking efficiency is required. Six models are available to fit a variety of powered units.

Noise reducing design provides a lower operating noise level than the competitors.

All hammers are shipped with amoil point and a chisel point tool and change out quick & easy.

CP30 COLD PLANERS

new

AVAILABLE FOR: SSV65 / SSV75 / SVL65-2 / SVL75-2 / SVL95-2s

- Independent RH/LH skid shoe control
- Hydraulic tilt, depth, and sideshift integrated into multi-function grips of the SSV/SVL
- Optional water system
- Removable cutting teeth
- 3 Line set up (pressure, return, and case drain)

Road contractors, municipalities, and rental yards will find this tool ideal for milling asphalt, cutting utility trenches, and pothole/shoulder repairs.

Independent RH/LH skid shoe control allows unit to follow curb and gutter as well as the contour of the road or street.

SW30 ROAD SAWS

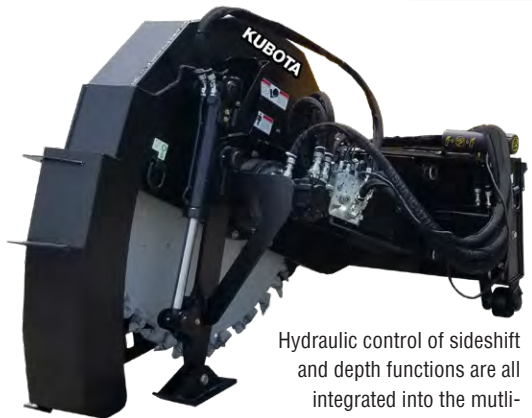

new

AVAILABLE FOR: SSV65 / SSV75 / SVL65-2 / SVL75-2 / SVL95-2s

- Hydraulic control of tilt, sideshift and depth
- Either 10" or 18" cutting depth
- 2.5" - 6" Cutting width

Well suited for road contractors, municipalities, and rental yards for cutting utility trenches in concrete or asphalt.

Hydraulic control of sideshift and depth functions are all integrated into the multi-function grips of the SSV/SVL.

Removable carbide picks use rocket fin technology built into the picks for longer life.

Depth indicator makes it easy to know depth of cut being made.

BB30 BOX BLADE

AVAILABLE FOR: SSV65 / SSV75 / SVL75-2 / SVL95-2s

- Bi-directional with hinged cutting edge
- Floating front axle
- Replaceable side plates with adjustable skid cutters
- Lift/tilt with parallel links standard
- Ability to accept attachment control system

Contractors, rental houses and landscapers, with the addition of a third party laser/2D or GPS/3D attachment control system, can achieve level grade in a fraction of the time eliminating operator fatigue and saving money on fill and concrete.

With the addition of third party 2-D technology, operators can control grading operations from the cab with precision and accuracy.

Optional 82" mast assembly for 3rd party laser technology to control tilt and height of the grading blade.

Reversible side cutters are manufactured from wear-resistant AR400 steel and are reversible and replaceable.

TR TRENCHERS

AVAILABLE FOR: SSV65 / SSV75 / SVL65-2 / SVL75-2 / SVL95-2s

- Adjustable spoil auger
- Manual or hydraulic sideshift
- 6", 8", 10" Width chain options, 4 teeth configurations
- Patented depth gauge

Used by rental yards, contractors, and developers to dig trenches for water, electrical, drainage, or footings in many different soil conditions.

Heavy frame construction stands up to everyday rugged use.

Machined and enclosed front bearings are protected against dirt and offer extended life.

Chain Options-Numerous		Cup teeth on 2 or 4 pitch, scorpion w/cup teeth, or alligator w/cup teeth	
Frame Construction (mm)		Heavy-duty 5/16" (8) thick w/ 3/4" (19) reinforced bar around three sides of the bottom lock pin slots	
Trencher Chain (cm/kg)		2.00' (5.1) pitch. 50,000 lb (22,679.6) tensile strength anti-flex	

SA20/35 SKID AUGERS

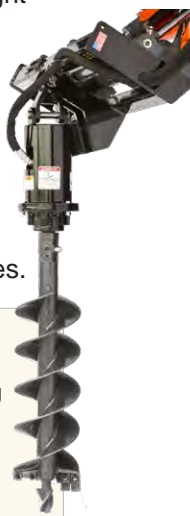

AVAILABLE FOR: SSV65 / SSV75 / SVL65-2 / SVL75-2 / SVL95-2s

- SA20: 2" Hex output shaft
- SA35: 2" Hex or 2-9/16" round output shaft
- Center and 18" offset mount to the right
- Planetary gearbox
- Patented level indicator on SA20

The SA20 is ideal for landscapers, contractors, construction companies, farmers, ranchers, and others. The SA35 meets the industrial duty applications of nurseries, landscapers, contractors, construction companies, and municipalities.

Hydraulic hoses are routed out top of gearbox housing, allowing housing to follow auger into a deeper hole without damaging hoses.

Patented level indicator makes it easy to know when the auger is vertical to drill straight holes (SA20 & EA20 only).

		SA20					SA35		
Hydraulic Requirements		6-30 gpm @ 1500 to 3500 psi (22.7-113.6 Lpm @ 10.34-24.13 MPa)					10-30 gpm @ 1500 to 3500 psi (37.9-113.6 Lpm @ 10.34-24.13 MPa)

EA20/35 EXCAVATOR AUGERS

**EA20: AVAILABLE FOR: KX018-4 / KX71 / KX033
KX040 / KX057 / KX080
U17 / U27 / U35 / U55**

EA35: AVAILABLE FOR: KX040 / KX057 / KX080 / U55

- EA20 motor options:
6-15 gpm; 10-20 gpm; 15-30 gpm
- EA20: Torque: Up to 2620 ft/lb @ 3000 PSI*
- EA35: 15-30 gpm Motor
- Torque: Up to 2732 ft/lb @ 3000 PSI*
- Drive units can be used with either SA or EA mounts
- All mounts accept cradle option
- Patented level indicator on EA20

	EA20	EA35
Hydraulic Requirements	6-30 gpm @ 1500 to 3500 psi (22.7-113.6 lpm @ 10.34-24.13 MPa)	10-30 gpm @ 1500 to 3500 psi (37.8-113.6 lpm @ 10.34-24.13 MPa)
Hydraulic Motor		18.3 CID
Base Weight w/o Options (kg)	46 lbs (20.9)	64 lbs (29)
Auger Flighting Thickness (mm)		5/16" (8)
Auger Teeth	Forged, individually replaceable, 40° angle installed on flat side 50° angle installed on angled side	
Gearbox	Hydraulically driven planetary gearbox; reversible	
Gearbox Oil Capacity (mL)	14 oz (414)	1.69 pints (.8 L)
Augers	See SA20/35 specifications on previous page	

Dirt or building contractors and fence contractors can easily reach hard to access areas with an excavator and bore holes for fences, footings, and more. The EA20 is a good rental tool.

A variety of augers are offered ranging from 6" - 24", plus a 36" tree auger. 6" to 18" Rock Augers also available.

DZ30 6-WAY DOZER BLADES

AVAILABLE FOR: SSV65 / SSV75 / SVL65-2 / SVL75-2 / SVL95-2s

- 3/8" Moldboard w/full boxed bracing
- 3/4" x 8" Reversible cutting edge - 3 piece design
- 3" Pivot pins
- 3-1/2" x 8" Welded cylinders
- 1/2" x 4" Full length wear bar

This heavy-duty Dozer Blade is well-suited for contractors or landowners who are preparing rough grade, moving material around the job site, pushing silage or manure, or cutting or clearing ditches.

Hydraulic adjustment provides for quick and easy blade positioning and adjusts 6-ways to meet operator needs.

The bubble gauge helps the operator level the blade to ensure a level cut.

		DZ3084	DZ096
Working Width	Straight Across (m)	84" (2.13)	96" (2.4)
	At 30° Angle (m)	72-3/4" (1.85)	83-1/4" (2.1)
Weight (kg)		1,345 lbs (610)	1,440 lbs (653)
6-Way Blade Adjustment		Top of hitch plate tilts forward or backward. Blade angles left or right. Blade tilts clockwise or counterclockwise.	
Max. Blade Angle		30° Left and 30° Right	
Max. Blade Tilt		10° Clockwise and counterclockwise	
Cylinder Size (cm)		3-1/2" (8.9) Bore x 8" (20) stroke	
Max. Hydraulic Pressure (MPa)		3,500 psi (24.13)	
Moldboard Thickness (mm)		3/8" (10)	
Moldboard Height (cm)		26-1/2" (67.3)	
Pivot Bushings		Replaceable and greaseable, hardened spring bushings	
Pivot Pin Sizes		Angle pin: 3" x 11"-5/8" lg. Pivot pin: 3" x 2-13/16" lg.	
Cutting Edges (cm)	End (cm)	3/4" x 8" x 8-1/2" (1.9x20.3x21.6)	
	Center (cm)	3/4" x 8" x 66" (1.9x20.3x1.68)	3/4" x 8" x 78" (1.9x20.3x1.98)
	Wear Edge (cm)	1/2" x 4" x 84" (1.3x10.2x2.13)	1/2" x 4" x 96" (1.3x10.2x2.4)

TE35 TRIP EDGE BLADES

AVAILABLE FOR: SSV65 / SSV75 / SVL65-2 / SVL75-2 / SVL95-2s

- 22° Oscillation of blade to follow contour of the surface
- 30° Angle right and left
- Heavy-duty designed tension springs
- Radiused blade rolls snow efficiently

The trip edge design of the TE35 eliminates damage to surfaces and to the machine while moving large amounts of snow down to the surface in a single pass. Ideal for snow contractors, municipalities, schools, and landscapers.

Spring-loaded trip edge trips when contacting obstacles and resets once the obstruction passes.

22° Blade oscillation helps the blade maintain contact while going over uneven surfaces.

Radiused blade rolls snow more efficiently, while providing 30° of angle.

		TE3596	TE35108
Skid Steer HP (kw)		60 HP - 100 HP (45)	
Working Width	Straight Across (m)	96" (2.44)	108" (2.74)

Trip Edge Blade Protection		Adjustable spring-loaded, trip edge	
Trip Release Pressure (kg)		1,800 lbs (816)	
Skid Shoes (mm)		Adjustable, constructed of 5/8" (16) abrasion resistant steel	

SSP15/25 SNOW PUSHERS

AVAILABLE FOR: SSV65 / SSV75 / SVL65-2 / SVL75-2 / SVL95-2s

- Adjustable rubber or steel cutting edge
- AR400 skid shoes
- Rubber pull back blade option
- Gusseted corners for strength

Push snow and slush straight ahead without leaving windrows or use the optional pull back blade to remove snow close to garage doors.

Choose from a rubber or steel cutting edge. Blade can be reversed.

Low profile exterior bracing on side panels and back for reinforcement.

Optional rubber pull back blade can be used to pull snow away from garage doors.

SBL25 SNOW BLOWERS

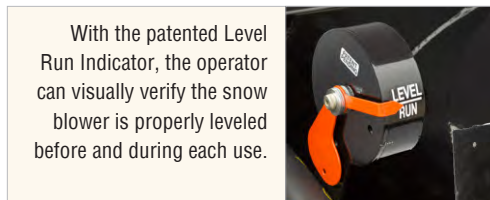

AVAILABLE FOR: SSV65 / SSV75 / SVL65-2 / SVL75-2 / SVL95-2s

- 3/16" Side plate material
- 24" Diameter impeller; 4 Impeller blades
- 16" Diameter auger; 4 Auger paddles

The SBL25 Snow Blowers remove snow from parking lots, farm yards, feedlots, driveways, walking paths, and sidewalks in residential and commercial applications.

Hydraulically operated chute rotation with sprocket drive allows operator to change direction of snow discharge from the seat.

With the patented Level Run Indicator, the operator can visually verify the snow blower is properly leveled before and during each use.

PFL45/55 PALLET FORKS

AVAILABLE FOR: SSV65 / SSV75 / SVL65-2 / SVL75-2 / SVL95-2s

- PFL45: 48", PFL55: 48", 60"
- Forks adjust to 4" spacing
- Spring loaded toggle fork position lock
- Wide frame with step
- Removeable top center bracket

Useful for landscaping, farming, ranching, construction, nurseries, campuses, theme parks, salvage operations, warehouses, lumber yards, retail outlets, and more.

Forks slide easily on carrying bars from one position to another. Locking handle secures forks in their new position.

Top center bracket can be removed or lowered if an opening is needed for accessing the skid steer cab.

Tall rear guard keeps loads from slipping backwards.

TH35 TILT HITCH

AVAILABLE FOR: SSV65 / SSV75 / SVL65-2 / SVL75-2 / SVL95-2s

- 20° Tilt in either direction
- Angle gauge and level - standard
- Nylon slide pads

Tilts buckets and other attachments to help contractors, landscapers, and homeowners with grading and leveling.

The TH35 tilts buckets and other attachments 20° in either direction to help with grading and leveling.

Angle gauge helps the operator set to desired angle, and the bubble level helps get attachment level.

	TH35
Weight (kg)	345 lbs (156.5)
Overall Height (cm)	24-1/4" (61.6)
Overall Width (m)	48-1/2" (1.23)
Overall Length (cm)	7-7/8" (20)
Tilt Capacity	20° in each direction
Tilt Cylinder (cm)	2.5" x 5" x 1.25", 3500 psi (6.4x12.7x3.2, 24.1mPa)
Angle Gauge	Standard
Bubble Level	Standard
Flat Face Couplers	Standard

SH35 SKID STEER HITCH

AVAILABLE FOR: SSV65 / SSV75 / SVL65-2 / SVL75-2 / SVL95-2s

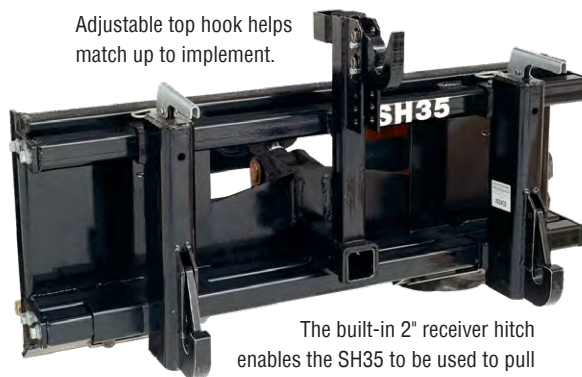

- Fits Cat. 1 or 2 implements
- Adjustable top hook
- Universal skid plate
- Built in 2" receiver hitch
- Automatic locking

Quickly and easily attach to Cat. 1 or 2 implements that are not PTO-driven, such as box scrapers, landscape rakes, and soil pulverizers, for use as front-mounted implements. Add a ball hitch for quickly moving trailers.

The automatic lock on lower 3-point arms allows driver to stay in the seat when hooking up to an implement.

Adjustable top hook helps match up to implement.

The built-in 2" receiver hitch enables the SH35 to be used to pull an implement with a ball hitch.

	SH35
Hitch	Standard category 1 & 2, 3-point with adjustable top hitch
Weight (kg)	225 lbs (102)
Overall Width (m)	46-7/8" (1.19)
Height (cm)	25" (63.5)
Length (cm)	15-1/2" (39.4)
Lower 3-Point	Automatic Lock
Max. Lift Capacity (kg)	2,800 lbs (1270) at 24" (61) from implements; lower hitch pins
