Dear Ms. Jeffrey,

At Laserfiche, we remain committed to empowering our customers with technology that accelerates efficiency, innovation, and business growth. Our ongoing innovations in scalable intelligent document management and content-centric workflows aim to help organizations like those who partner with OMNIA for their procurement to work faster and smarter.

These pricing adjustments help support the continued investment and feature updates to our self-hosted and cloud offerings. We believe investing in our platforms is critical as we introduce productivity enhancements like generative AI product innovations as well as Laserfiche 12 that all self-hosted platforms will benefit from.

October 1, 2025, the Laserfiche Cloud, Laserfiche Self-hosted Subscription and Laserfiche self-hosted perpetual product suites (Laserfiche Avante and Laserfiche Rio) and the Municipal Site packages will have a 5% uplift for software and support prices. This applies to both new and expansion orders as well as renewals for existing customers. This adjustment helps support continued investment and updates to these product suites.

Sincerely,

Catherine Larrenaga
Director of Pricing and Packaging
