Re: RFP #29-22, Affiliate Compliance Management

Dear Mr. Reese & Mr. Mackel,

In response to the NCPA's RFP #29-22 for Affiliate Compliance Management, please find enclosed our proposal for your review and consideration. As you are aware, Lion National Corp ("LNC") and the NCPA have a lengthy and fruitful history of doing business together and we are well-suited to this requirement. Our decades of experience in general contracting, program management, small business consulting, federal contracting, cooperative contract management, market intelligence, project acquisition, regulatory compliance and revenue expansion ensure successful performance for a contract such as this. We are confident that we can exceed your expectations, bringing value and increased revenues to both the NCPA and its members and affiliates.

Over the past 15 years, we have focused on the formation of a broad network of general and trade contractors who are pre-vetted and demonstrate reliable success in their markets. We have helped these businesses grow into new markets, strategically and geographically, through proven methods of procurement. We know how to leverage the strengths of businesses to increase revenues. Our client base includes both Small and Large Businesses in all ownership categories including Economically Disadvantaged, Minority-Owned, Woman-Owned, Veteran-Owned, Service-Disabled Veteran-Owned, Native American-Owned, Alaskan Native American-Owned, and HUBZone contractors.

Our internal team includes experts in project identification, project execution, price book (catalog) estimating, contract auditing and compliance, cooperative purchasing, and government contracting. We have not identified any competitors that offer the broad range of expertise we bring to the table.

We are grateful for the opportunity to submit our qualifications and pricing for evaluation. Please feel free to reach out if you have any questions or concerns.

Respectfully,

Scott Gaeta, Director

Who is your competition in the marketplace?

Although there are companies within the federal marketplace that assist in the vetting process of contractors to perform under specific vehicles, we feel that there are currently no other firms that provide a comprehensive program that meets the NCPA's needs.

What differentiates your company from competitors?

More than 10 years ago, the principals of LNC started working with cooperative purchasing agencies to help develop the methods of compliance and transparency that allowed them to provide cooperative purchasing services in a manner that met all state and local legal requirements. This new way of acquiring products and services within the strict regulatory framework of the ethical use of public funds allowed “co-ops” to expand their ability to provide services to members nationwide. Since then, we have assisted vendors, their affiliate contractors, and the “co-op” providers themselves with compliance, transparency, market penetration, streamlining their tracking and reporting process, and ultimately increasing revenues for the co-op and the contractor, while saving time and money for the clients.

In addition, LNC has a small business development program that assists clients in the procurement and management of Federal, State, and Local Government construction contracts. We offer tailored consulting services related to market intelligence, corporate registrations and compliance, opportunity identification, technical proposal writing, project management, and establishment of partnership opportunities. Our methods have proven successful for achieving our clients’ goals pertaining to government contracting and increased revenues and profitability.

Our network of clients provides a nationwide base of vetted, successful contractors in various trades and industries that can be leveraged to provide added value services to existing vendors through affiliate program relationships.

Describe how your company will market this contract if awarded.

LNC currently works with a limited number of NCPA vendors and their affiliates. We intend to make the existing affiliate relationship model available to all current NCPA vendors. This will allow us to partner the NCPA vendors with vetted and verified affiliate contractors and suppliers, bringing additional value to the members of the NCPA. We will also utilize a dedicated staff of sales personnel to market the NCPA directly to new affiliate contractors and suppliers, bringing in their current client base and building the network with new clients for the NCPA.

- Certification: **Audits are submitted to the NCPA for review and certification per the contract prior to the delivery of the proposal to the member.**
- Reporting: **Tracking of submitted audits for certification, contract completions, and NCPA fees are reported on a monthly/quarterly basis. Once affiliate receives full payment for the completed work, filing fees are submitted to LNC, who then submits payment to the NCPA. LNC maintains a proprietary reporting software system, which will give the NCPA the ability to log in and track affiliate work in progress.**
- Customer Relationship Management: **LNC tracks all NCPA members and is continuously adding new and potential members into the CRM system. Our sales force is tasked with consistent communication via telephone, email, and/or site visits to ensure we are assisting with budgets, supply requirements, contract requirements, etc.**

Our auditing staff has as much as 10 years experience with UPBs.**

Provide (1) Case Study for each scenario below:

- Compliance Management Process: describe your company's process from cradle to grave that took a potential project from prospect to close using the considerable factors described in question #4. **LNC assists in member's understanding that the NCPA is available for them. We assist in identifying vetted affiliate contractors/suppliers to meet the member's needs. We will assist the member in budgetary requirements if necessary. We will audit the affiliate contractors or supplier's estimate and proposal to ensure that it meets the NCPA's criteria for compliance. We report to the NCPA the status of the member's needs and the approved affiliate contractor's audit for certification. We will then deliver the certification letter and proposal to the member for approval. We will track the progress of the contracted work between the affiliate and the member by way of our proprietary software, and we will submit the filing fee to the NCPA upon completion of work performed by the affiliate for the NCPA member.**
- State Laws: describe how your company has used due diligence to help support the procurement of an agency? **LNC has ensured that all procurement laws in all 50 states are tracked and monitored for changes. - Cost Savings: describe how your company's tools, processes and procedures, as described in Question 4 & 5, saves the agency money. **LNC's affiliate management program saves agencies money in several ways. Our network of pre-vetted, pre-qualified contractors and service providers with proven histories of success ensures that top-quality work is provided in an efficient and competent manner. Pre-approved pricing means that agencies can access lower-cost products and services through the buying power of the large network. Project start and delivery times are greatly reduced through streamlined procurement processes offered by cooperative purchasing vehicles. For construction services, the contractor partners with the agency, assisting in the design and management of the services required, mimicking a design-build platform in most cases. This minimizes or eliminates change orders. Overall, our system of processes, procedures, checks & balances reduces administrative costs and mitigates risk across the board.**
- Risk: describe any potential risk associated with your company's execution of your tools, processes, and procedures. **The processes and procedures outlined in this proposal are designed to mitigate any risks associated with the procurement of products and services for the NCPA members. The checks and balances in place**

eliminate the likelihood of errors.

- **Timeliness:** describe the duration of your company's tools, processes and procedures used in the Compliance Management of a project. **As an example, the identification of a member's needs up until the point at which the products or services can be supplied, can be reduced from the typical industry timeline of >90 days down to less than 25 days.**

These activities include, but are not limited to, hiring and firing of staff, selection of clients and vendors, and provision of services. We are committed to providing an inclusive and welcoming environment for all members of our staff, clients, volunteers, subcontractors, vendors, and clients.**

Products and Services

- ◆ Respondent shall perform and provide these products and/or services under the terms of this agreement. The affiliate shall assist the end user with making a determination of their individual needs.
- ◆ It is the intention of NCPA to establish an annual contract with highly qualified vendor(s) for Affiliate Compliance Management on a national or regional basis. A
- ◆ Vendor(s) shall, at the request of an NCPA member, provide these covered services under the terms of this RFP and the Contract Terms and Conditions. Vendor shall ensure the affiliate's compliance in their assistance to the end user (NCPA member) with making a determination of its individual needs, as stated below.
- ◆ NCPA is seeking sealed proposals for Affiliate Compliance Management for this procurement in accordance with state statutes governing Job Order Contracting where the work occurs.
- ◆ The purpose of this procurement is to award Affiliate Compliance Management contract(s) so that affiliates can provide a broad range of construction, facility services, product and software solutions and other goods and services that are used in the building, owning, operating, maintenance and

management of its business, infrastructure and facilities to NCPA members. These include but are not limited to; construction, repair, renovations, alterations, upgrades and maintenance projects on an as-needed basis as may be required by the end user (NCPA member) of a facility for work of a recurring nature in which the delivery times are indefinite and for indefinite quantities and for orders that are awarded substantially on the basis of pre-described and pre-priced tasks.

- ◆ The vendor, on behalf of the NCPA, ensures that the selected affiliates meet all the requirements of the NCPA to perform work for NCPA members, including but not limited to: audited pricing of proposed work, proper execution of the affiliate agreement with the vendor, monthly or quarterly reporting of work as outlined in this contract, accurate and timely payment of cooperative purchasing fee to the NCPA.
- ◆ The affiliate contractor shall furnish all necessary labor, materials, tools, supplies, equipment, transportation, supervision, management and shall perform all operations necessary and required for construction work. All work shall be performed in accordance with the requirements set forth in the resulting contract and each mutually agreed upon work request or purchase order issued by NCPA client partner. The specific work requirements will be identified in Work Orders to be issued by NCPA client partner.
- ◆ A contract will be established with standard specifications and pricing based upon a coefficient that is applied to a Unit Price Book (UPB). When a specific project or job order is issued, NCPA member and the contractor will agree on the scope of work and the cost is determined by applying the coefficient to the appropriate units in the UPB or other mutually agreeable and established method.

Information to Offerors

- ◆ Those companies seeking multiple state awards should propose a separate coefficient to be applied to affiliate products and/or services in each state. The proposer shall ensure that the affiliate is properly licensed and bonded in the state(s) in which they will perform work. If a proposer is awarded a contract for the requested states and later decides to request additional states to work in under the contract, then a written request must be made to NCPA requesting the additional state(s). In addition, the vendor shall ensure that the affiliate provides proof of license and bonding capability to work in the requested new state(s) along with proof of insurance and other relevant documents. It is the intent of NCPA in this document to meet each state's statutory requirements for performing Job Order Contracting services in that jurisdiction.
- ◆ It is the intention of NCPA to issue these contracts to give the NCPA agencies a choice of contractors that provide the best value to them.
- ◆ The vendor will ensure that the affiliate contractor agrees to use required Davis Bacon (See the UPB) or local wage rates that apply with some of the NCPA agencies. The agency must supply any Davis Bacon or local wage rates requested.
- ◆ The respondent is encouraged to use either the current annual edition of RS Means Facilities Construction Cost Data Book or the Sierra West Construction Cost Data Book and quarterly adjustments as their UPB used. If either option is not suitable, a mutually agreeable and established

method shall be used.

- ◆ The proposal coefficient should provide reasonable oversight for Architectural and Engineering (A&E) design to meet both local and state requirements. The contractor should expect as part of its coefficient those services that are required to obtain building permits and meet local and state standards for design and oversight. Services may be provided via its own staff, subcontractor, or working with the client's managers, architects and engineers wherever such professional architectural and engineering services are required. The contractor may pay for the engineer or architectural services with the NCPA agency's concurrence as per state statutes where the proposed work is to be done. However, the NCPA agency member may select the engineering or architectural services in accordance with state statutes.
- ◆ A&E selection and fees for this service will meet the requirements of the State in which the work is performed for such selections and fee negotiations and where the NCPA agency member's engineer or architect will approve possible design services. If the NCPA member agency does not have these services on staff or under direct contract, then the NCPA member agency must make the selection per state law. NCPA reserves the right to modify this section per future changes or clarifications in the code or statutes.
- ◆ AIA master text specifications or NCPA member agency approved equivalent and all applicable local, state and national codes will apply to work done under this contract.
- ◆ The NCPA fee will be included in the contractor's priced coefficient and will not be issued as a separate line item in any job order proposals issued to NCPA member agencies. This contract management fee will be paid to NCPA quarterly. If the job order has progress payments on large DOs the contractor will report and pay these proportions with the next quarterly report. **See Tab 2, Fees and Reporting**
- ◆ NCPA encourages the use of HUBs, MWBEs and SBEs both as prime and subcontractors. However they must meet the same minimum standards and requirements as the prime contractor. It will be the responsibility of the prime contractor to pre-qualify their subcontractors. Some NCPA member agencies will have a set goal for subcontracting requirements and will require that a plan be attached as an addendum to the outlining how the contractor will endeavor to meet their goal. Specific plans as part of the contractor's business plan to meet these goals will be part of the overall contractor's evaluation process as well as selection process for certain client members as a requirement for their delivery orders.
- ◆ It is the intent of NCPA to award these contracts without discussion. If at the sole discretion of NCPA the coefficients for a scope of work are not competitive, NCPA reserves the right to conduct discussions and negotiations with the successful offerors. If in the opinion of NCPA these negotiations have failed, NCPA will cease negotiations with that offeror and begin negotiations with the second best offeror.
- ◆ RS Means and or Sierra West are the two encouraged unit price books acceptable for use for this contract using SWG Current Construction Costs, JOC Works Ed. and/or the RS Means right hand column ("Total Inc. O & P") and the most recent editions (this will include any periodic editions such as quarterly updates.) RS Mean's 12-digit line numbers or Sierra West's 13 digit line numbers will be used in line item estimates for NCPA member agencies. Contractors at their expense will make copies of the UPB available to the client upon request via electronic or printed media. SWG Current Construction Costs, JOC Works Ed and/or JOC Works or 4Clicks Project Estimator will be the preferred software for preparing line item estimates. If these two costing methods are not applicable, a mutually agreeable and established method shall be used.
- ◆ As defined, the contractor's bid coefficient shall include all overhead items such as office, safety equipment, vehicles and fuel, communication equipment, computers, printers, programs, insurance maintenance, NCPA management fee (2% of Purchase order less bond and sales tax), final site

cleanup, Job Order Contract Estimating Workshop session and all contingencies. All project management, administration, and sufficient jobsite supervision are to be included in contractor's bid coefficient as well as any other main office or project overhead and profit items.

- ◆ Items that are not found in the UPB will be listed as "non-pre-priced". This does not include previously discussed design and engineering costs. The contractor will provide three prices to establish the average bare cost for each item and add in the Overhead and Profit (OH/P) based upon the contractor's coefficient. This line item will then be negotiated with the NCPA member agency and, when approved, the item will then be added to the price book for future projects and will no longer be considered non-pre-priced. The need for this special treatment needs to be addressed in the line item estimate and agreed to by the NCPA member agency and NCPA.
- ◆ Business forms and reporting criteria including audit function will be uniform for all of the contractors and be established by NCPA.
- ◆ Vendor will ensure that the affiliate contractor is adequately bonded by a licensed surety, and provides the required performance and payment bonds for the work being performed under the affiliate agreement. Contractors may need to provide additional capacity as job orders increase. Bonds will not require a fee to be paid to NCPA. The actual cost of the bond will be a pass through expense to the NCPA member agency and added to the purchase order.
- ◆ Vendor will ensure that the affiliate contractor has adequate insurance coverage meeting at a minimum the requirements of the State of Texas or the state where the job is located. The contractor, if awarded a contract, will provide within 14 days but prior to the commencement of any construction, a certificate of insurance showing that NCPA has been named as additional insured. If the NCPA member agency has higher insurance requirements, than those requirements may be added as an addendum to the purchase order.
- ◆ Texas law requires that public works over \$8,000.00 be conducted under the supervision of an engineer and over \$100,000.00 with an architect. Statutes of the state where the job is located will govern requirements for an engineer and/or architect.
- ◆ Recognized holidays include: Presidents Day, Easter, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, Christmas Day and New Year's Day.

Scope of Services

- ◆ The vendor will ensure that a specific scope of work for each job order is determined in advance and in writing between NCPA member agency and the Contractor.
- ◆ It is acceptable for the NCPA member agency to provide a general scope, but the contractor should provide a written scope of work to the NCPA member agency as part of the proposal. Once the scope of the job order is agreed to, the NCPA member agency will issue a PO with the line item estimate referenced as an attachment along with bond and any other special provisions agreed to for the NCPA member agency. If special terms and conditions other than those covered within this solicitation and awarded contracts are required, they will be attached to the PO and shall take precedence over those in the base contract. The vendor will ensure that this process is completed within the guidelines of the contract.
- ◆ Once the selected contractor is approved by the NCPA member agency, the choice being made by the agency's other NCPA contractors will no longer market this NCPA member agency without approval

of the NCPA marketing manager. The NCPA member agency may replace or use more than one NCPA contractor. The NCPA member agency may consult with NCPA about their needs if deemed necessary.

Contract and Documents

- ◆ The contract shall include the contract, its terms and conditions, any agreed upon amendments, as well as all of the sections of the solicitation and the contractor's proposal. Once signed, if the contractor's proposal varies or is unclear in any way from the NCPA contract, NCPA, at its sole discretion, will decide which provision will prevail.
- ◆ The Unit Price Book (UPB), will be either or the current edition of RS Means Facilities Construction Cost Data or if published RS Means Job Order Contracting cost data or SWG Current Construction Costs, JOC Works Ed. The current edition AIA Master Text specifications and all applicable national, state, and local laws, codes, standards and regulations shall be followed.
- ◆ Other documents to be included are the contractor's proposals, task orders, purchase orders and any attachments, which have been issued.

Project Delivery Order Procedures

- ◆ The NCPA member agency, having executed the NCPA Master Intergovernmental Cooperative Purchasing Agreement during registration and/or an inter-local agreement approved by their board or designated agent may make a request of the vendor under this contract when the member has services that need to be undertaken. Notification may occur via phone, the web, e-mail, fax, or in person.
- ◆ Upon notification of a pending request, the vendor shall ensure that the affiliate contractor makes contact with the client as soon as possible. Contractor shall visit the member's site and conduct a walk-through/project scoping with the member's representative to define the scope. Contractor's representative shall perform due diligence to request and gather all available project relevant existing conditions and record documents from client to include, but not limited to, hazardous materials surveys and other relevant documents.
- ◆ The affiliate contractor and the member will agree on the time when the job order proposal will need to be reviewed for approval by the client member. The contractor will then prepare a job order proposal including a written scope of work using an automated software system that will provide a line item estimate of the individual tasks, the quantities, the city cost index, his bid coefficient, and any applicable cost additions including any possible division one line items and design work that may be required and in need of approval. Information on those division one items that may be included can be found in information for offerors.
- ◆ Contractors will be required to submit Job Order proposals and shall provide a line item estimate based upon their coefficient and the UPB for that scope of work which must be reviewed and agreed to by the client prior to their issuance of a PO and DO.
- ◆ Minimal design work should be covered in the contractor's applicable coefficient, and this design work shall use in house staff or a teamed sub-consultant. In all cases where significant design changes occur, the A/E selection shall conform and be based upon qualifications of the design personnel according to applicable state law for selection and negotiation of fees. The client may select an architectural consultant or use their own design capabilities providing the plans to the

contractor.

- ◆ The line items taken from the UPB and the estimated quantities totaled will be modified with the application of the city cost index and the contractor's coefficient. Any adjustment factors from division one will be added to establish the final price as agreed to for the project. Cost adjustment factors, as allowed, must clearly identify those individual tasks (line items) to which they are applicable and include corresponding percentage.
- ◆ The client will then review the proposal and if the member's representative is in agreement with the proposed pricing and schedule, then other terms and requirements of the job order will be issued that will contain the approved job order proposal (scope of work) and the Purchase Order (PO). The PO will include the lump sum price, start date, schedule and notice to proceed and will be signed by both parties as a lump sum fixed price contract.
- ◆ In the event of an emergency such as a major power disruption; acts of God; strikes; lockouts; industrial disturbances; act of public enemy; orders and regulation of any kind of government of the United States or any civil or military authority; insurrections; riots; epidemics; pandemics; landslides; lighting; earthquake; fires; hurricanes; storms; floods; washouts; droughts; arrests; restraint of government and people; civil disturbances; explosions, breakage or accidents to machinery, pipelines or canals, or other causes not reasonably within the control of the party claiming such inability the contractor will endeavor to meet with the client within two hours (if possible), expediting these procedures with verbal job orders and a signed field book by the member's designated agent and the NCPA contractor. Work may commence immediately as required; however, documentation must be provided as soon as possible for this work or for any additional long term job order requirements.

Schedule of Projects

- ◆ Scheduling of projects will be accomplished when the client issues a purchase order that will serve as "the notice to proceed" and will contain the job order as an attachment based upon the negotiated line item estimate and approved JOB Order proposal. For large projects a Construction Project Management (CPM) schedule should be included with the proposal. The effective start and end dates will come from the dates approved in the proposal. The construction performance period for the delivery order will include the mobilization, materials purchase, installation and delivery, design, weather, and site cleanup and inspection. No additional claims may be made for delays as a result of these items. When the tasks have been completed the contractor shall notify the client and have the client inspect the work for acceptance under the scope and terms in the PO. The client will issue in writing any corrective actions that are required. Upon completion of these items the client will issue a completion notice and final payment will be issued.

Associated Project Support Requirements

- ◆ If there is a dispute between the contractor and client, NCPA or its representatives will assist in conflict resolution or third party (mandatory mediation), if requested by either party.
- ◆ NCPA or its representative reserves the right to inspect any project and audit the contractors NCPA project files, documentation and correspondence.
- ◆ The contractor will provide auditing services to his project offices with minimal down time (24 hours service calls) a computer system with applicable software including Microsoft Office, JOC project

Water will be furnished free, with all of the taps, connections and associated equipment supplied free of charge to the contractor or supplied by the contractor and charged to the NCPA member agency. - ◆ If applicable, it is the affiliate contractor's responsibility to analyze his electrical needs and the ability of the client's facility to accommodate his request. The electricity at the job site will be free to the contractor. It will be the responsibility of the contractor to coordinate his requests and needs with the NCPA member agency. If additional capacity is required, the contractor is responsible for arranging for the equipment, the installation and removal at his own expense. If possible, the NCPA member agency will make toilet facilities available or the contractor will make arrangements for portable toilets.

Safety/Environmental Plan

This plan will also address how the contractor will implement his safety plan with subcontractors (may reference the contractor's safety plan). - c. Disabilities. In accordance with Section 102 of the Americans with Disabilities Act of 1990, as amended (ADA), 42 U.S.C. Sections 12101 *et seq.*, prohibits discrimination against qualified individuals with disabilities in programs, activities, and services, and imposes specific requirements on public and private entities. Contractor agrees that it will comply with the requirements of the Equal Employment Opportunity Commission (EEOC), "Regulations to Implement the Equal Employment Provisions of the Americans with Disabilities Act," 29 CFR, Part 1630, pertaining to employment of persons with disabilities and with their responsibilities under Titles I through V of the ADA in employment, public services, public accommodations, telecommunications, and other provisions.
 - d. Segregated Facilities. Contractor certifies that their company does not and will not maintain or provide for their employees any segregated facilities at any of their establishments, and that they do not and will not permit their employees to perform their services at any location under the Contractor's control where segregated facilities are maintained. As used in this certification the term "segregated facilities" means any waiting rooms, work areas, restrooms and washrooms, restaurants and other eating areas, parking lots, drinking fountains, recreation or entertainment areas, transportation, and housing facilities provided for employees which are segregated by explicit directive or are in fact segregated on the basis of race, color, religion or national origin because of habit, local custom, or otherwise. Contractor agrees that a breach of this certification will be a violation of this Civil Rights clause.
- 3) Solicitations for Subcontracts, Including Procurements of Materials and Equipment. In all solicitations, either by competitive bidding or negotiation, made by Contractor for work to be performed under a subcontract, including procurements of materials or leases of equipment, each potential subcontractor or supplier shall be notified by Contractor of Contractor's obligations under this Contract and the regulations relative to non-discrimination on the grounds of race, color, creed, sex, disability, age or national origin.
 - 4) Sanctions of Non-Compliance. In the event of Contractor's non-compliance with the non-discrimination provisions of this Contract, Public Agency shall impose such Contract sanctions as it or the FTA may determine to be appropriate, including, but not limited to: 1) Withholding of payments to Contractor under the Contract until Contractor complies, and/or; 2) Cancellation, termination or suspension of the Contract, in whole or in part.

Contractor agrees to include the requirements of this clause in each subcontract financed in whole or in part with Federal assistance provided by FTA, modified only if necessary to identify the affected parties.

DISADVANTAGED BUSINESS PARTICIPATION

This Contract is subject to the requirements of Title 49, Code of Federal Regulations, Part 26, "*Participation by Disadvantaged Business Enterprises in Department of Transportation Financial Assistance Programs*", therefore, it is the policy of the Department of Transportation (DOT) to ensure that Disadvantaged Business Enterprises (DBEs), as defined in 49 CFR Part 26, have an equal opportunity to receive and participate in the performance of DOT-assisted contracts.

- 1) Non-Discrimination Assurances. Contractor or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this Contract. Contractor shall carry out all

applicable requirements of 49 CFR Part 26 in the award and administration of DOT-assisted contracts. Failure by Contractor to carry out these requirements is a material breach of this Contract, which may result in the termination of this Contract or other such remedy as public agency deems appropriate. Each subcontract Contractor signs with a subcontractor must include the assurance in this paragraph. (See 49 CFR 26.13(b)).

- 2) Prompt Payment. Contractor is required to pay each subcontractor performing Work under this prime Contract for satisfactory performance of that work no later than thirty (30) days after Contractor's receipt of payment for that Work from public agency. In addition, Contractor is required to return any retainage payments to those subcontractors within thirty (30) days after the subcontractor's work related to this Contract is satisfactorily completed and any liens have been secured. Any delay or postponement of payment from the above time frames may occur only for good cause following written approval of public agency. This clause applies to both DBE and non-DBE subcontractors. Contractor must promptly notify public agency whenever a DBE subcontractor performing Work related to this Contract is terminated or fails to complete its Work, and must make good faith efforts to engage another DBE subcontractor to perform at least the same amount of work. Contractor may not terminate any DBE subcontractor and perform that Work through its own forces, or those of an affiliate, without prior written consent of public agency.
- 3) DBE Program. In connection with the performance of this Contract, Contractor will cooperate with public agency in meeting its commitments and goals to ensure that DBEs shall have the maximum practicable opportunity to compete for subcontract work, regardless of whether a contract goal is set for this Contract. Contractor agrees to use good faith efforts to carry out a policy in the award of its subcontracts, agent agreements, and procurement contracts which will, to the fullest extent, utilize DBEs consistent with the efficient performance of the Contract.

ENERGY CONSERVATION REQUIREMENTS

Contractor agrees to comply with mandatory standards and policies relating to energy efficiency which are contained in the State energy conservation plans issued under the Energy Policy and Conservation Act, as amended, 42 U.S.C. Sections 6321 *et seq.* and 41 CFR Part 301-10.

FEDERAL CHANGES

Contractor shall at all times comply with all applicable FTA regulations, policies, procedures and directives, listed directly or by reference in the Contract between Public Agency and the FTA, and those applicable regulatory and procedural updates that are communicated to Contractor by Public Agency, as they may be amended or promulgated from time to time during the term of this contract. Contractor's failure to so comply shall constitute a material breach of this Contract.

INCORPORATION OF FEDERAL TRANSIT ADMINISTRATION (FTA) TERMS

The provisions include, in part, certain Standard Terms and Conditions required by the U.S. Department of Transportation (DOT), whether or not expressly set forth in the preceding Contract provisions. All contractual provisions required by the DOT and applicable to the scope of a particular Contract awarded to Contractor by a Public Agency as a result of solicitation, as set forth in the most current FTA Circular 4220.1F, published February 8th, 2016, are hereby incorporated by reference. Anything to the contrary herein notwithstanding, all FTA mandated terms shall be deemed to control in the event of a conflict with other provisions contained in this Contract. Contractor agrees not to knowingly perform any act, knowingly fail to perform any act, or refuse to comply with any reasonable public agency requests that would directly cause public agency to be in violation of the FTA terms and conditions.

NO FEDERAL GOVERNMENT OBLIGATIONS TO THIRD PARTIES

Agency and Contractor acknowledge and agree that, absent the Federal Government's express written consent and notwithstanding any concurrence by the Federal Government in or approval of the solicitation or award of the underlying Contract, the Federal Government is not a party to this Contract and shall not be subject to any obligations or liabilities to agency, Contractor, or any other party (whether or not a party to that contract) pertaining to any matter resulting from the underlying Contract.

Contractor agrees to include the above clause in each subcontract financed in whole or in part with federal assistance provided by the FTA. It is further agreed that the clause shall not be modified, except to identify the subcontractor who will be subject to its provisions.

PROGRAM FRAUD AND FALSE OR FRAUDULENT STATEMENTS

Contractor acknowledges that the provisions of the Program Fraud Civil Remedies Act of 1986, as amended, 31 U.S.C. §§ 3801 et seq. and U.S. DOT regulations, "Program Fraud Civil Remedies," 49 CFR Part 31, apply to its actions pertaining to this Contract. Upon execution of the underlying Contract, Contractor certifies or affirms, to the best of its knowledge, the truthfulness and accuracy of any statement it has made, it makes, it may make, or causes to be made, pertaining to the underlying Contract or the FTA assisted project for which this Contract Work is being performed.

In addition to other penalties that may be applicable, Contractor further acknowledges that if it makes, or causes to be made, a false, fictitious, or fraudulent claim, statement, submission, or certification, the Federal Government reserves the right to impose the penalties of the Program Fraud Civil Remedies Act of 1986 on Contractor to the extent the Federal Government deems appropriate.

Contractor also acknowledges that if it makes, or causes to be made, a false, fictitious, or fraudulent claim, statement, submission, or certification to the Federal Government under a contract connected with a project that is financed in whole or in part with Federal assistance originally awarded by FTA under the authority of 49 U.S.C. § 5307, the Government reserves the right to impose the penalties of 18 U.S.C. § 1001 and 49 U.S.C. § 5307 (n)(1) on the Contractor, to the extent the Federal Government deems appropriate.

Contractor agrees to include the above clauses in each subcontract financed in whole or in part with Federal assistance provided by FTA. It is further agreed that the clauses shall not be modified, except to identify the subcontractor who will be subject to the provisions.
