

Demographic & Enrollment Support

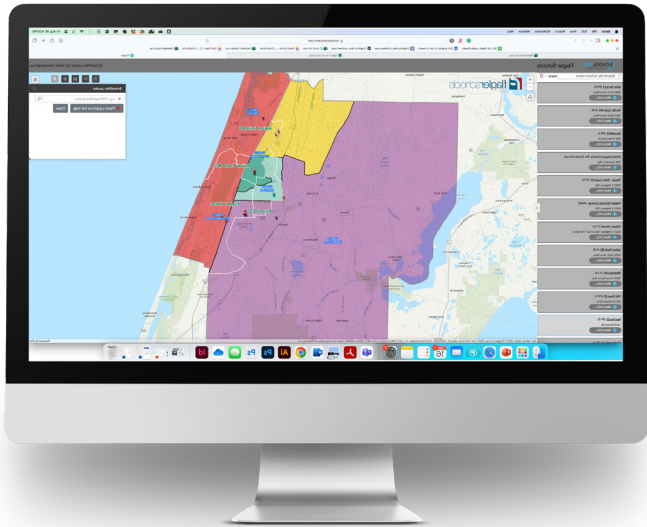

Empower Your Decisions with **Expert Data Analysis**

MGT specializes in providing Demographic and Enrollment Studies that deliver critical insights specifically for schools and educational institutions. Our comprehensive studies offer a deep understanding of your student population, including trends in enrollment, shifts in community demographics, and future growth projections. By analyzing key factors such as birth rates, housing developments, and migration patterns, we equip you with the knowledge needed to anticipate changes and respond proactively.

BENEFITS OF DEMOGRAPHIC & ENROLLMENT STUDIES

- Resource Allocation
- Facility Planning
- Program Development
- Facilities Optimization

SchoolSite Locator simplifies the process of finding assigned schools by allowing parents and district staff to look up school assignments with just a click.

SchoolSite Pro allows you to dive deep into geographic and demographic data, enabling detailed and accurate student forecast at the neighborhood level.
