## **MackinMaker Provides Quality Resources for PK-12 Makerspaces**

MackinMaker offers a large collection of hands-on makerspace products, curated resource kits, and thousands of maker education books for students and professionals. These engaging, high-quality resources are a perfect way to support STEAM initiatives at your school or in your district.

Whether you are adding to your existing space or creating one that's new, you can make it happen with MackinMaker!

**"A makerspace is a unique learning environment that encourages tinkering, play, and open-ended exploration for all."**

*— Laura Fleming, High School Teacher, Author, Library Media Specialist, Ridgewood, NJ*

# MackinMaker Partners

## The Makerspace Starts With Big Imaginations Blended With High-Quality Materials and Resources

MackinMaker partners with the leading companies you know and love. We continually curate and test new makerspace products to ensure they are a beneficial resource in PK-12 education.

From copper tape to coding, MackinMaker has something for every kind of makerspace.

- Top Name Brands
- Curated by Maker Educators
- Best Selection
- Manufacturer Warranty Support
- Product Training

## Curated Makerspace Kits

MackinMaker kits are a perfect collection of developmentally appropriate essentials for your space. MackinMaker kits were designed by expert maker educators to encourage complex problem solving, critical thinking, and collaboration in the areas of coding and robotics, low-tech engineering, integrated circuitry, and more.

**"Makerspaces are  
for the students  
to be able to  
create what they  
need, want or find  
interesting."**

— Michelle G., District  
Librarian, Brazosport, TX

# MackinMaker Kits

# MackinMaker District Level Makerspace Services

Mackin's District Level Makerspace Services make it easy for leaders in PK-12 education to provide an equitable makerspace program for every school in their district. Together we will build a high-quality maker program within your budget, logistical requirements, and curricular specifications. Professional Learning and ongoing support ensure consistency throughout the district so all your schools thrive.

## This unique district level service provides:

- Hands-On Learning Products
- Building-To-Building Equity
- Curriculum Correlation
- Custom Storage Solutions
- Books
- And Much More

**"When you move into an area where a student puts up a wall, you can go back to the Makerspace and help them make that connection that it's really the same type of skill for approaching a problem in another area of life."**

*— Andy P., Elementary School Librarian,  
Athens, GA*

## Professional Learning

If you are looking for ways to create a more effective maker education program in your school, enlist the expertise of Mackin Professional Learning. Our highly educated and experienced staff of seasoned experts will customize a program that addresses the needs of the educator and the environment in which they serve.
