LEGEND

Originally crafted by the imaginative minds at Izzy+, this distinctive line of furniture found a new home with mediatechnologies in 2018—where its spirit of creativity and smart design lives on. Blending playful aesthetics with practical function, the collection continues to inspire dynamic spaces for learning, collaboration, and connection—now with the added strength and support of mediatechnologies’ commitment to quality.

DOTTI

Dotti is ideal for dynamic, active environments. From K-12 classrooms to collaborative workspaces, its lightweight, no-fuss design adapts effortlessly to any space.

- With a contoured rubber base, Dotti is designed to encourage movement that engages your core (and your focus!) all day long
- Embedded grab handles allow Dotti to move with you wherever you go
- Lightweight and easy to carry
- Small footprint maximizes headcount
- Available in 16" and 18" heights

** Note: There are some limitations to fabric selections, thicker materials may not apply. Contact factory to confirm approval of selected fabrics.*

HANNAH

Designed by Dennis Foley and Jeff Gershune in 2007, Hannah is a stacking chair with 5-Positions: Seated facing in front, facing right, facing left, facing back and seated on back of backrest (*don't try this on a seat with casters!*)

- Rolled waterfall design allows back to serve double duty as an armrest
- Elliptical hole pattern provides lightness and breathability
- Thermoplastic seat and back available in a variety of colors
- Powder coated steel frame available in a rainbow of colors
- Available in chair and stool heights, with and with out arms, and task seating!
- Meets or exceeds ANSI/BIFMA standards

SMILE

Engineered for strength and built to endure, the Smile chair is a powerhouse of performance designed by Brian Kane. Built to withstand high-traffic environments, such as cafeterias, it offers long-lasting comfort while maintaining a sleek, modern look.

- Whimsical and stackable chairs
- Stool option available
- Curved seat and back design provides comfort and a smile!
- A wide variety of thermoplastic colors are available
- Powder coated steel frame available in many colors
- Frame fitted with nylon glides
- Available in chair and stool heights
- Meets or exceeds ANSI/BIFMA standards

FORUM SEATING

With the Forum collection, acclaimed designer Timothy deFiebre expands a former Harter product group from the past. Forum's sleek silhouette and elevated design make it a natural fit for traditional executive spaces—yet it transitions effortlessly into contemporary lounges, Esports arenas and spas.

- Fully upholstered seat cushions
- Powder coat steel frame available in a variety of colors
- Available in multiple widths and heights
- Forum Relax Lounge and Forum Work Lounge are essentially the same lounge seat with different bases. Through the development of a new steel base, the shell of the Forum Work Lounge Seat has been rotated 8-degrees forward to create a more forward/upright posture which is more comfortable for laptop use and the use of other devices.

FORUM TABLES

Designed to be paired with Forum line of lounge seating, but plays well with most of our seating items Forum Tables are collaborative, flexible and dynamic.

- Table tops are high pressure laminate work surface and 3mm PVC edgebands
- Powder coated steel frames available in a plethora of colors
- Coffee Table, Work Table and “Side Gig Table” models available
- Forum Coffee Table comes in Square and Rectangular work surface shapes
- Forum Work Table work surface is Oval shaped
- Forum Side Gig Table comes in Round and Elliptical shapes
- Design by Timothy deFiebre
