

Inspiring Designs, Enduring Quality

Herman Miller for [Court System]

OMNIA[®]
PARTNERS

Why Herman Miller

Herman Miller has always been about people—our colleagues, our neighbors, our customers, and our partners. For the past century, a drive to harness the power of design to help people live and work better has defined our mission. Today, Herman Miller lends our name to a family of leading design brands, united in our pursuit of that mission. This translates into value to you and your organization in the following ways:

We Create Timeless Solutions for Fundamental Problems

We’ve earned our reputation as a design leader through our relentless drive to solve problems for people at home and work. From our early collaborations with George Nelson and Charles and Ray Eames to the growing family of brands that comprise Herman Miller Group today, we partner with leading designers whose unique perspectives fuel our innovation.

We Share Knowledge You Can Use

By taking our human-centered insights and applying them to our customers’ unique issues and goals, we help create solutions that deliver real results to people and organizations. Our innovative solutions address the evolving and emerging needs of the Public Sector, solving for today and preparing for tomorrow.

We Make Products You Can Trust

With Herman Miller, you’re not just buying a product, you’re investing in a relationship. Our commitment to you doesn’t end when the product leaves the factory. Delivery, service, warranty, and timeless style are all part of the deal. We know resources are precious, so we help ensure that they are spent wisely and deliver value for years to come.

We Are a Reliable Partner

Herman Miller understands the needs of the Public Sector. We were the first office furniture manufacturer awarded a GSA schedule in 1975, and we’ve been serving federal, state, and local government customers for over 40 years. We leverage that experience to anticipate needs and deliver solutions seamlessly anywhere we’re needed.

We Live by Our Values

We believe we have a responsibility to improve our world through thoughtful design, sustainable manufacturing, and an inclusive culture that nurtures diversity, creativity, and discovery. In this spirit, we continually refresh, recalibrate, and refocus our business on things that matter, always putting people—current and future generations—at the center.

A Family of Brands

All brands in Herman Miller Group strive to deliver modern, problem-solving design that’s good for people. Our extensive offering ensures we can meet the furnishing needs of every courthouse space.

Manufacturer of beautifully styled, high-performance furnishings

Important Considerations for Courthouse Spaces

Universal Design

Technology

Universal Design

Universal Design principles and goals provide a blueprint for the maximum inclusion of all people. We will work with you following Herman Miller’s guiding principles to ensure we are elevating the human experience in the courthouse by focusing on behavioral, social, physical, and emotional design aspects. This is so important and will be felt by each individual who walks through your doors.

The 7 Principles of Universal Design

- Equitable use
- Flexibility in use
- Simple and intuitive use
- Perceptible information
- Tolerance for error
- Low physical effort
- Size and space for approach and use

Technology

From virtual courtrooms to mobile friendly sites, technology continues to reshape the court system. Improvements in technology lead to increased access and efficiency for the courts and the public. For example, conducting hearings via teleconference eliminates the need to be physically present, providing greater access while saving time and lessening the environmental impact of transportation. Designing courthouse spaces to accommodate emerging technologies ensures you are effectively future-proofing them.

»» The NCSC Court Technology Bulletin blog is an excellent source for the latest news and insights on courthouse technology.

A photograph of a modern interior space, likely a home office or study. In the foreground, a dark wood desk with a metal frame holds a black office chair, a lamp, and some books. In the background, a grey sofa and a potted plant are visible. The text "Aesthetic Variations" is overlaid in large white letters.

Aesthetic Variations

Aesthetic Variations

The breadth and versatility of our product offering provides the aesthetic and budgetary flexibility to create tailored solutions that are unique to the personality of your facility.

Public Spaces

Key Features

Provide choice with a variety of seating options to accommodate individual needs

Power can be added to furniture for user convenience

Public Spaces

Key Features

Durable and cleanable fabrics for high-use areas

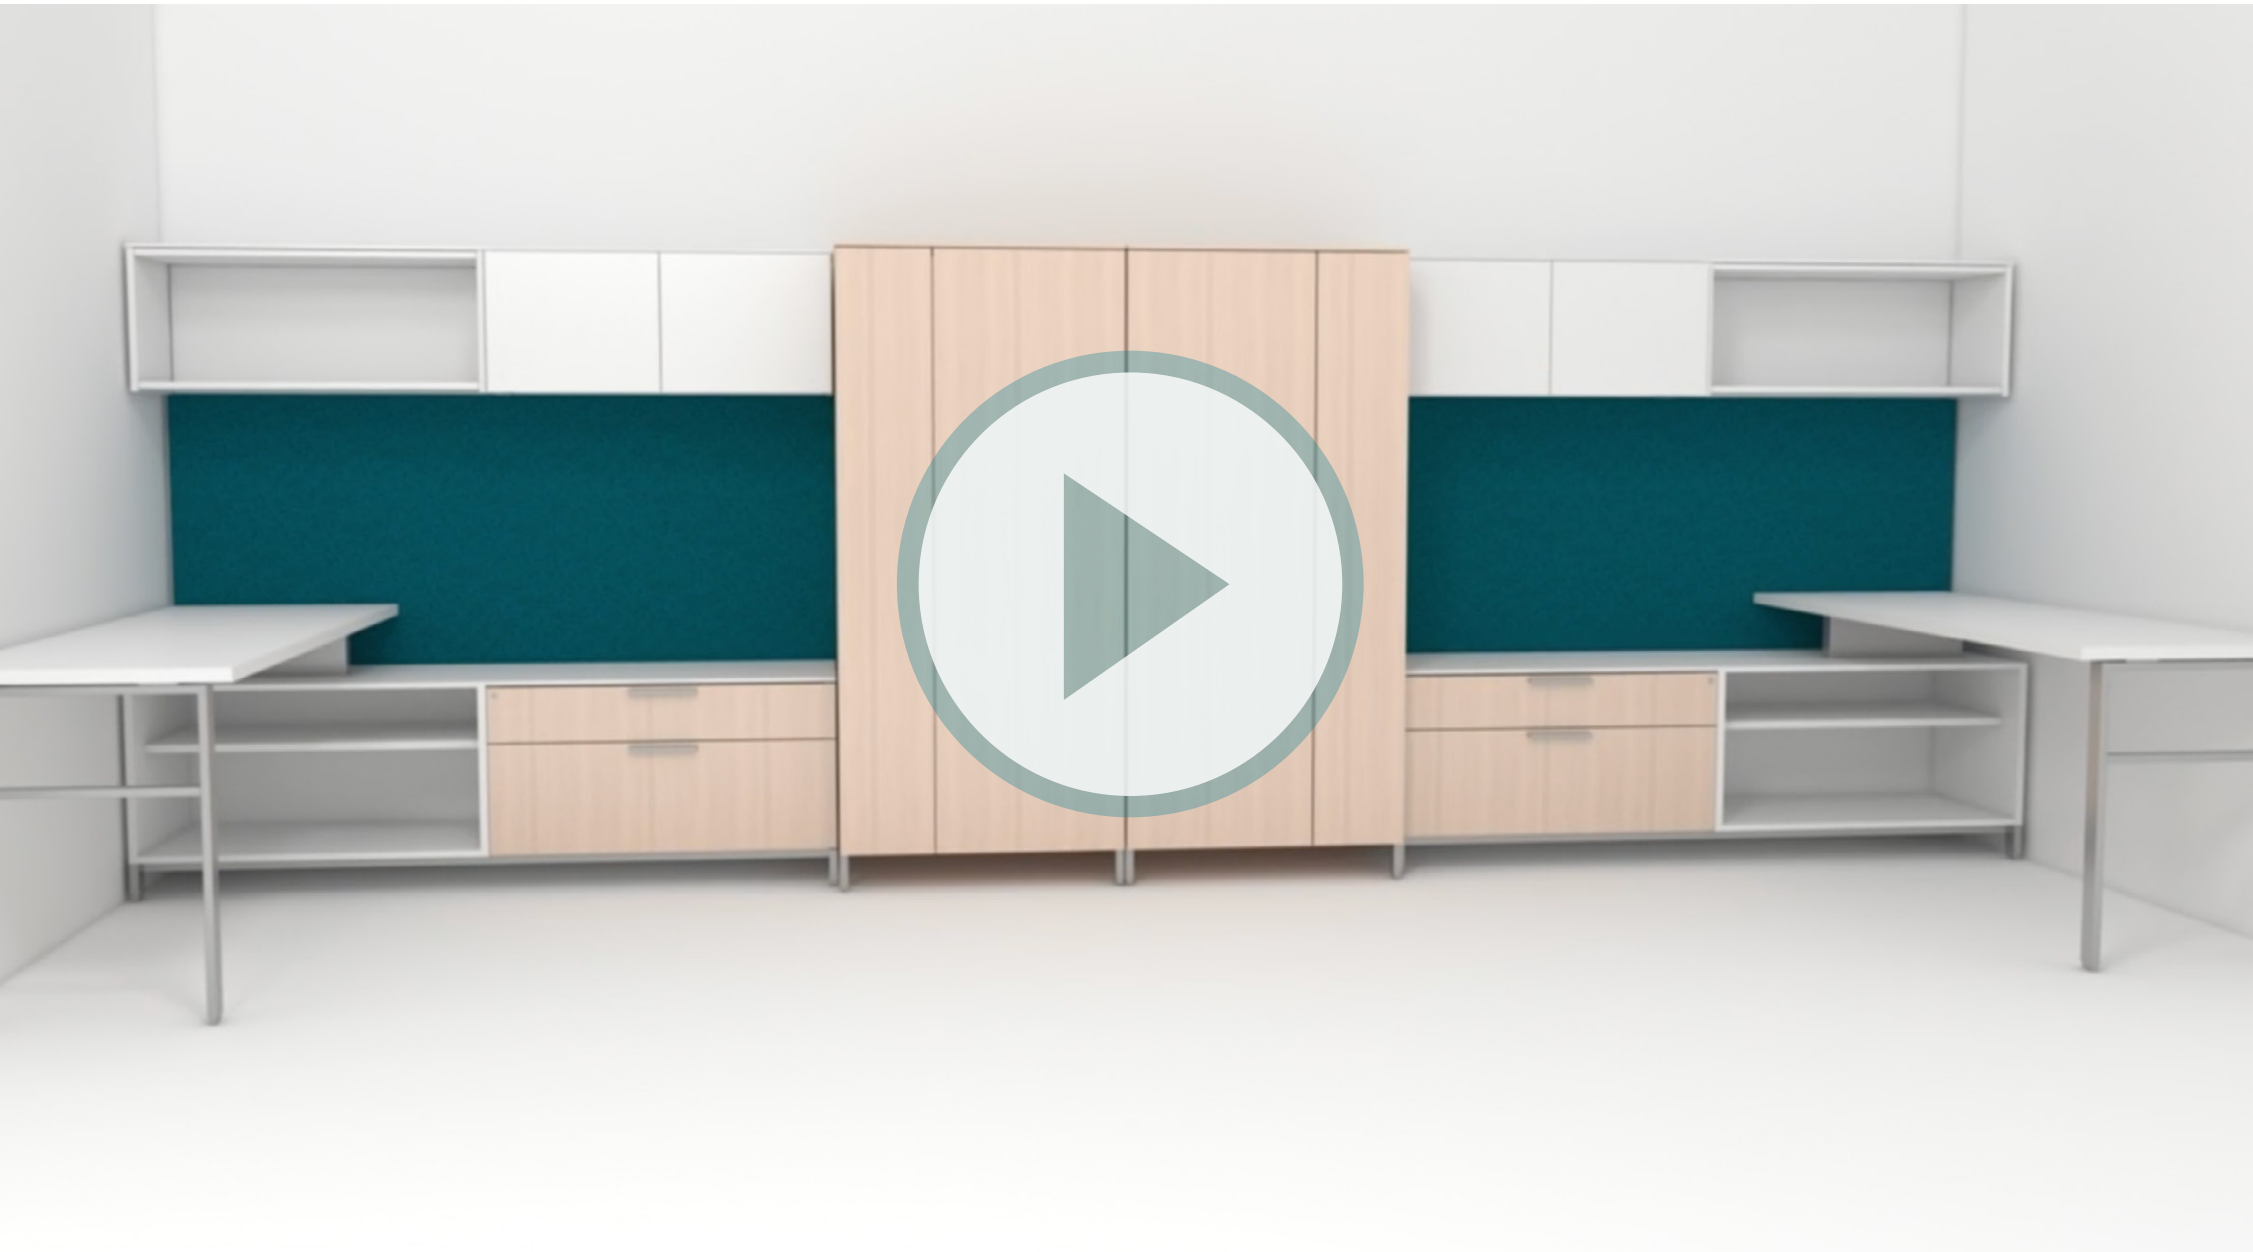

Seating styles accommodate a wide range of people

Future Proofing

Strategically ordering a standard kit of parts that works across a spectrum of settings provides you with the future flexibility and agility necessary for the long-term success of the courthouse.

A strategic kit of parts consists of structures, storage, surfaces, and accessories that align for easier reconfiguration across a floorplan. This Canvas Kit of Parts video illustrates the value and benefits of using a strategic kit of parts.
