MYVRSPOT

Online Video Resources for Education

CLOSED CAPTIONING & WORLD LANGUAGE TRANSLATION

Over the years, it has become increasingly important that viewers of online video content that are hearing impaired, be provided the same video viewing experience as anyone else. Utilizing our speech-to-text algorithm, you can easily closed caption videos uploaded to MyVRSpot, whether through an automated process or on a video by video basis. You can even increase the ADA accuracy standard utilizing the built-in caption editing tool.

Once your caption file has been created in English (by default), you can choose to have the caption file available in any of the 103 different languages offered, allowing your non-native English speaking viewers to view the caption file in their native language.

KEY FEATURES

Speech-to-Text Closed Captioning Solutions

Caption ALL

All uploaded video and audio files up to two (2) hours long, are automatically captioned using our speech-to-text caption tool. These caption files are typically available within 24 hours. Once the caption file is available, you can easily edit the caption file using the built-in caption editor in order to increase the accuracy of the text, and can create a custom "caption replacement" list for your district.

Premiere 2K

The *Premiere 2K* package includes 2,000 hours of closed captioning for uploaded videos and audio files, up to four (4) hours in long. These caption files have priority processing, a lower WER (Word Error Rate) score, and are typically available within 2 hours. Includes access to foreign language translation*, the built-in caption editor, and caption word replacements.

Caption on Demand

This solution is ideal if you are looking to caption only specific videos and audio files. Includes 100 hours of closed captioning, for files up to four (4) hours long. These caption files have priority processing, a lower WER score, and are typically available within 2 hours. Includes access to foreign language translation*, the built-in caption editor, and caption word replacements.

Online Caption Editor

To make sure your caption file is as accurate as possible, you have access to an online caption editor. This tool is available for all closed caption solutions and provides an easy means to adjust text and punctuation throughout your caption file.

Translate Your Closed Captions To Multiple World Languages

Effortlessly translate your closed caption files to different languages so that multiple languages are available on your public facing videos. You can select from more than 100 world language options (shown below). *The ability to translate caption files is available only to *MyVRSpot Premiere 2K* or *Caption on Demand* customers.
