PROFESSIONAL DEVELOPMENT

Let the MyVRSpot Training Experts Handle Your PD

While initial online training, utilizing a train-the-trainer model, is included with your MyVRSpot service, consider letting the MyVRSpot training experts handle the professional development training for your teachers.

With flexible delivery options and sessions targeted to your needs, MyVRSpot's experienced team will provide the support you need to set your implementation up for success throughout the year. Our team will work with you to build a PD plan based on your schedule and aligned with your goals. Sessions are tailored to reach users with differing levels of experience and are targeted specifically to the needs of educators and instructional leaders.

Our Professional Development packages give your educators the tools they need for media management success

Onsite Full Day

Up to seven (7) hours with a MyVRSpot trainer onsite in a hands-on workshop format. Includes all travel and training expenses.

Onsite Half Day

Up to three (3) hours with a MyVRSpot trainer onsite in a hands-on workshop format. Includes all travel and training expenses.

Remote Full Day

Up to six (6) hours of online training, utilizing a presentation/workshop format for up to 50 attendees.

Remote Half Day

Up to two (2) hours of online training, utilizing a presentation/workshop format for up to 50 attendees.

Professional Development for Teachers

MyVRSpot's Teacher PD program is delivered in a hands-on approach, whether provided onsite or online. Our program provides proven results in transferring of knowledge to your teachers, thus ultimately improving student learning in all content areas. Whether working with your most tech-savvy teachers or those that might struggle with new technology, our PD program delivers at every level. This program will cover the full suite of video creation and editing tools, instructional tools for student assessment, and integration with your district's LMS solution. Upon completion of the training program, teachers can complete a cumulative assignment, demonstrating proficiency with all covered content, to become a MyVRSpot Certified Educator.

Professional Development for CTE, SPED, ELL, and Adult Ed Educators

Customizing our professional development packages to meet the specific needs for those teaching non-traditional classes, is a unique part of the MyVRSpot program. Each PD session is customized for those in attendance, where our experienced team of educators are able to use "real world" and practical examples of how the various tools are successfully used while working with these specific student populations.

Professional Development for Admins

The roles and responsibilities between Administrators and Teachers are quite different, and we believe their professional development should be as well. Our PD for Admins program focuses on managing the MyVRSpot system as a district-wide solution, covering: user management; analytics and usage reports at the district, school, and user level; setting district and school sharing permissions; managing user groups, and much more.

Additional Professional Development Packages

We also provide custom professional development packages for some of our other purchased services, including: Live Broadcasting for Admins and Streamers; Digital Signage for Admins; and Closed Captioning for Admins and Teachers.
