This addition to our emails will be active for 60 days after the effective date of our agreement.*
- o *Website: We will add NCPA to our "partners" page on our website, under the section for Purchasing Cooperatives. This will include information about purchasing our solution(s) directly from NCPA and would include our NCPA contract number.*
- o *Conference Exhibits: MyVRSpot exhibits at approximately 15-20 industry trade shows per year, and as such will display signage on our tabletop that our services can be purchased through NCPA, along with our NCPA contract number.*

Beyond initial marketing and as we look at ongoing support of a NCPA contract, it is obviously in our best interest to make sure we are exceeding all expectations. As we have run into several situations where the districts we were working with were not members of any of the cooperatives we currently partner with, there were many hoops to jump through to get purchasing approval from the district. Again, it is clearly in our best interest to make sure that all districts that we are Quoting or Negotiating with, are aware of our relationship with NCPA and encouraged to purchase off of our NCPA contract.

- Describe how you intend to introduce NCPA to your company.

We will provide information to all of our sales team during our weekly sales meeting.

Once an award has been made, we will share the information and review the benefits to our company of promoting our NCPA relationship.

- Describe your firm's capabilities and functionality of your on-line catalog / ordering website.

MyVRSpot does not provide any online functionality for customers to purchase/order from our website.

- Describe your company's Customer Service Department (hours of operation, number of service centers, etc.)

We provide unlimited toll-free phone and email customer support from 8a-7pm EST, Monday-Friday. We have Customer Success Engineers in the Eastern, Central, and Mountain time zones. All phone calls are answered within 5 rings, by a US based representative that can address 98% of all calls that come into our office. For more involved support issues, our CS Engineers have direct managers to turn to, and also have the ability to advance any support issue to our Tier 2 support, which includes our system engineers. For email support, we average less than a 10-minute response time. In addition, if calling after hours or on holidays and weekends, and have some type of emergency, callers are given an option to be connected to the senior support team members on call at that time.

MyVRSpot is an online video management solution built specifically for education. The single online platform allows for the hosting, creation, editing, sharing, and archiving of media (videos, images, audio files), within a district-controlled environment. The platform includes online tools for creating audio, video, and screen recordings, online video editing, image editing and creation, creating interactive video-based quizzes and assessments, live broadcasting, digital signage, closed captioning, and more. The solution has built in integrations for account provisioning with G-Suite, LDAP/Active Directory, Classlink, and Clever, as well as integrations with various LMS solutions, including Google Classroom, Canvas, and Schoology.

The following is a list of suggested (but not limited to) Educational Content Providers and Learning Management Systems categories. List all categories along with manufacturer that you are responding with:

- A library of content that educators can design or enhance curriculum
 - *While the MyVRSpot solution does not come with pre-populated content, it is designed for educators to be able to easily create their own content in support of all curriculum areas. This could be as simple as sharing a video with their students to support a specific topic being discussed, to creating a complete interactive video-based lesson with an associated video-based quiz for the students to complete.*
- The ability to create specific content for every child (personalized learning solutions)
 - *With the built-in quiz feature, allowing teachers to create video-based quizzes, teachers have the ability to duplicate their created quiz, allowing them to easily modify questions for a more individualized learning approach.*
- Curriculum for S.T.E.M. as well as Literacy, Economics, Social Studies, IT, and Geography (Curriculum for Career Development and Intervention Curriculum)
 - *The MyVRSpot solution is being used in more than 700 school districts around the country every day, in support of not only STEM based classes, but also for CTE programs, Advance Placement classes, vocational education and much more.*
- Please also inform if you have solutions for regular ed as well as education solutions for students with special needs
 - *As the solution allows for teachers to create their own instructional videos, interactive video-based lesson plans, and video-based quizzes, it was really designed to support ALL curriculum areas. With this customization, the solution is used for students in regular ed, special ed, as well as for ESL/ELL students.*
- Customizable reporting options
 - *There are various reporting options available with different purposes. Teachers are able to run analytic reports on any of their videos, displaying who has viewed their videos, the date/time the video was viewed, the duration of the view, as well as all activity during that video playback, showing when the video was started, paused, skipped ahead, etc. In addition to the analytics reports, teachers can also access extensive reports for the built-in Quiz feature, where they will have reporting showing results for each student, along with date/time the quiz was completed and grading information.*
- Please also respond if any of your solutions require additional hardware. If so, please outline what is required

- *The MyVRSpot platform requires no special hardware. Users are able to access the system from any internet connected desktop, laptop, or mobile device, running Windows, MAC, Linux, Chromium, iOS or Android.*
- With all solutions, please outline how the resources you provide improves the experience for the student and the instructor. Examples of student & teacher successes based off your solutions will be appreciated.
 - *There is a good reason that the use of video to support all curriculum areas is growing by leaps and bounds. The fact is that today's students gravitate towards video technologies, as it has become such a key part of not only their educational life, but their social life as well. Between watching videos on YouTube, Instagram, TikTok, Reels, and much more, students have turned to gathering their information via video. This learning process supports multi-learning modalities, including visual, audio, and in some instances, tactile, where videos walk viewers through various steps in a process for them to try something for themselves.*

TAB 8 VALUE ADDED PRODUCTS AND SERVICES

Our primary service is our MyVRSpot Video Management Solution, which is our single online platform for uploading, hosting, creating, editing, sharing, and archiving of video...and a whole lot more. Other services that we offer, and that are integrated into our platform, include the following:

Live Broadcasting Service

MyVRSpot's "Anytime, Anywhere, Any Device" live broadcasting solution is a full web-based solution that allows Users to broadcast from hardware and software media encoders, as well as from iOS and Android mobile devices. Each streaming channel has a unique "static" URL, which means it will not change throughout the year, where your audience can view your event in live time. All broadcasts are automatically captured, converted to an MP4 video file, and placed into that Users MyVRSpot account. Once in their account, the recorded broadcast can be edited if needed, shared via URL link or embedded into a website or into our Video Showcase system, or just left in their account for archival purposes.

Closed Captioning Service

In order to meeting ADA requirements when sharing videos on a public website, or when you have teachers, students, or parents that need an accommodation, videos can easily be closed captioned within the MyVRSpot platform. Users are able to navigate to any of their uploaded or created videos and click the Request Caption button. This will utilize our speech-to-text closed captioning algorithm to auto-generate a caption file. We also provide an online caption editor, allow the User to make any necessary changes to the caption file before sharing it with others. Lastly, Users can also take advantage of our Caption Replacement tool, which allows you to auto-adjust common mistakes in a caption file. As an example, when our company name is said in a video, it appears in a caption file as My vr spot (3 words). So with the Caption Replacement tool, it is setup so that anytime the system thinks it is hearing My vr spot, it will replace it with MyVRSpot. This is ideal for names of people (such as board members), schools, etc.

Along with the Closed Caption Service, we also provide a Foreign Language Translation tool. Once a caption file is created in English (required), the User has an option to have that caption file available in 103 different languages. While this is certainly not an ADA requirement, we felt that with large populations of non-native English speakers in various parts of most cities and states, giving them (whether students or parents) the opportunity to view the caption file in their native language is a big win for the district. Ideally, once the English caption file has been cleaned up (if necessary), they can select which foreign languages the caption file should be available in for viewing. The person viewing the video and caption file, can change languages during the video view, selecting whichever language is best for their viewing experience.

Digital Signage Solution

MyVRSpot offers two different Digital Sign solutions, both allowing Admins to control the content (videos, images, URL links) that appear on monitors throughout the building(s). The first solution is based on utilizing a Raspberry Pi. These are small computers that run about \$50-\$100, but in many cases, school districts have these laying around, as for years students were building this in computer classes. This is a very affordable solution and is ideal for individual schools who want to display media on monitors throughout the hallways or in the cafeteria.

The second option is our District Enterprise Solution, which utilizes the Chrome browser, and allows district Admins to manage all signs throughout the district or in individual schools. This solution was designed for larger districts, where content control over all monitors throughout the district and/or schools, can be managed from a single login.

Professional Development

MyVRSpot offers a wide range of Professional Development packages, from face-to-face onsite trainings (train the trainer or train the teacher models), to remote training via Zoom. Our training staff is made up of seasoned educators, all of which are certified teachers and former clients of ours, who were training teachers on the MyVRSpot solution within their district.

Data and Media Migration

If a new customer is migrating from another solution, or even from an in-house solution, we can help the transition with our media migration tool. Whether a customer has 500GB or 100TB of media they want to load into the MyVRSpot system, thus making it accessible for district users within MyVRSpot, we have a few options for them.

The most popular migration option is where we will create an AWS S3 bucket, and provide the district with credentials to access that bucket. The district can then upload all of their media into this bucket, along with an associated metadata file, such as an XML file. This XML file will give our system the data needed to know where each piece of media should be stored (in which account), as well as additional information, such as keywords/tags allowing for users to easily retrieve that media.

Pricing for all of these additional items are listed in the TAB 7 – Pricing section.

FTA does not require the inclusion of these requirements of Article 1.01 in subcontracts.

CIVIL RIGHTS / TITLE VI REQUIREMENTS

In accordance with Title VI of the Civil Rights Act of 1964, as amended, 42 U.S.C. § 2000d, Section 303 of the Age Discrimination Act of 1975, as amended, 42 U.S.C. § 6102, Section 202 of the Americans with Disabilities Act of 1990, as amended, 42 U.S.C. § 12132, and Federal Transit Law at 49 U.S.C. § 5332, Contractor or subcontractor agrees that it will not discriminate against any employee or applicant for employment because of race, color, creed, national origin, sex, marital status age, or disability. In addition, Contractor agrees to comply with applicable Federal implementing regulations and other applicable implementing requirements FTA may issue that are flowed to Contractor from Awarding Participating Agency.
- 2) Equal Employment Opportunity. The following Equal Employment Opportunity requirements apply to this Contract:
 - a. Race, Color, Creed, National Origin, Sex. In accordance with Title VII of the Civil Rights Act, as amended, 42 U.S.C. § 2000e, and Federal Transit Law at 49 U.S.C. § 5332, the Contractor agrees to comply with all applicable Equal Employment Opportunity requirements of U.S. Dept. of Labor regulations, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor, 41 CFR, Parts 60 et seq.", and with any applicable Federal statutes, executive orders, regulations, and Federal policies that may affect construction activities undertaken in the course of this Project. Contractor agrees

to take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, creed, national origin, sex, marital status, or age. Such action shall include, but not be limited to, the following: employment, upgrading, demotion or transfer, recruitment or recruitment advertising, layoff or termination, rates of pay or other forms of compensation; and selection for training, including apprenticeship. In addition, Contractor agrees to comply with any implementing requirements FTA may issue that are flowed to Contractor from Awarding Participating Agency.

- b. Age. In accordance with the Age Discrimination in Employment Act (ADEA) of 1967, as amended, 29 U.S.C. Sections 621 through 634, and Equal Employment Opportunity Commission (EEOC) implementing regulations, "Age Discrimination in Employment Act", 29 CFR Part 1625, prohibit employment discrimination by Contractor against individuals on the basis of age, including present and prospective employees. In addition, Contractor agrees to comply with any implementing requirements FTA may issue that are flowed to Contractor from Awarding Participating Agency.
 - c. Disabilities. In accordance with Section 102 of the Americans with Disabilities Act of 1990, as amended (ADA), 42 U.S.C. Contractor agrees that it will comply with the requirements of the Equal Employment Opportunity Commission (EEOC), "Regulations to Implement the Equal Employment Provisions of the Americans with Disabilities Act," 29 CFR, Part 1630, pertaining to employment of persons with disabilities and with their responsibilities under Titles I through V of the ADA in employment, public services, public accommodations, telecommunications, and other provisions.
 - d. Segregated Facilities. Contractor certifies that their company does not and will not maintain or provide for their employees any segregated facilities at any of their establishments, and that they do not and will not permit their employees to perform their services at any location under the Contractor's control where segregated facilities are maintained. As used in this certification the term "segregated facilities" means any waiting rooms, work areas, restrooms and washrooms, restaurants and other eating areas, parking lots, drinking fountains, recreation or entertainment areas, transportation, and housing facilities provided for employees which are segregated by explicit directive or are in fact segregated on the basis of race, color, religion or national origin because of habit, local custom, or otherwise. Contractor agrees that a breach of this certification will be a violation of this Civil Rights clause.
- 3) Solicitations for Subcontracts, Including Procurements of Materials and Equipment. In all solicitations, either by competitive bidding or negotiation, made by Contractor for work to be performed under a subcontract, including procurements of materials or leases of equipment, each potential subcontractor or supplier shall be notified by Contractor of Contractor's obligations under this Contract and the regulations relative to non-discrimination on the grounds of race, color, creed, sex, disability, age or national origin.

- 4) Sanctions of Non-Compliance. In the event of Contractor's non-compliance with the non-discrimination provisions of this Contract, Public Agency shall impose such Contract sanctions as it or the FTA may determine to be appropriate, including, but not limited to: 1) Withholding of payments to Contractor under the Contract until Contractor complies, and/or; 2) Cancellation, termination or suspension of the Contract, in whole or in part.

Contractor agrees to include the requirements of this clause in each subcontract financed in whole or in part with Federal assistance provided by FTA, modified only if necessary to identify the affected parties.

DISADVANTAGED BUSINESS PARTICIPATION

This Contract is subject to the requirements of Title 49, Code of Federal Regulations, Part 26, "*Participation by Disadvantaged Business Enterprises in Department of Transportation Financial Assistance Programs*", therefore, it is the policy of the Department of Transportation (DOT) to ensure that Disadvantaged Business Enterprises (DBEs), as defined in 49 CFR Part 26, have an equal opportunity to receive and participate in the performance of DOT-assisted contracts.

- 1) Non-Discrimination Assurances. Contractor or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this Contract. Contractor shall carry out all applicable requirements of 49 CFR Part 26 in the award and administration of DOT-assisted contracts. Failure by Contractor to carry out these requirements is a material breach of this Contract, which may result in the termination of this Contract or other such remedy as public agency deems appropriate. Each subcontract Contractor signs with a subcontractor must include the assurance in this paragraph. (See 49 CFR 26.13(b)).
- 2) Prompt Payment. Contractor is required to pay each subcontractor performing Work under this prime Contract for satisfactory performance of that work no later than thirty (30) days after Contractor's receipt of payment for that Work from public agency. In addition, Contractor is required to return any retainage payments to those subcontractors within thirty (30) days after the subcontractor's work related to this Contract is satisfactorily completed and any liens have been secured. Any delay or postponement of payment from the above time frames may occur only for good cause following written approval of public agency. This clause applies to both DBE and non-DBE subcontractors. Contractor must promptly notify public agency whenever a DBE subcontractor performing Work related to this Contract is terminated or fails to complete its Work, and must make good faith efforts to engage another DBE subcontractor to perform at least the same amount of work. Contractor may not terminate any DBE subcontractor and perform that Work through its own forces, or those of an affiliate, without prior written consent of public agency.
- 3) DBE Program. In connection with the performance of this Contract, Contractor will cooperate with public agency in meeting its commitments and goals to ensure that DBEs shall have the maximum practicable opportunity to compete for subcontract work, regardless of whether a contract goal is set for this Contract. Contractor agrees to use good faith efforts to carry out a policy in the award of its subcontracts, agent agreements, and procurement contracts which will, to the fullest extent, utilize DBEs consistent with the efficient performance of the Contract.

ENERGY CONSERVATION REQUIREMENTS

Contractor agrees to comply with mandatory standards and policies relating to energy efficiency which are contained in the State energy conservation plans issued under the Energy Policy and Conservation Act, as amended, 42 U.S.C. Sections 6321 *et seq.* and 41 CFR Part 301-10.

FEDERAL CHANGES

Contractor shall at all times comply with all applicable FTA regulations, policies, procedures and directives, listed directly or by reference in the Contract between Public Agency and the FTA, and those applicable regulatory and procedural updates that are communicated to Contractor by Public Agency, as they may be amended or promulgated from time to time during the term of this contract. Contractor's failure to so comply shall constitute a material breach of this Contract.

INCORPORATION OF FEDERAL TRANSIT ADMINISTRATION (FTA) TERMS

The provisions include, in part, certain Standard Terms and Conditions required by the U.S. Department of Transportation (DOT), whether or not expressly set forth in the preceding Contract provisions. All contractual provisions required by the DOT and applicable to the scope of a particular Contract awarded to Contractor by a Public Agency as a result of solicitation, as set forth in the most current FTA Circular 4220.1F, published February 8th, 2016, are hereby incorporated by reference. Anything to the contrary herein notwithstanding, all FTA mandated terms shall be deemed to control in the event of a conflict with other provisions contained in this Contract. Contractor agrees not to knowingly perform any act, knowingly fail to perform any act, or refuse to comply with any reasonable public agency requests that would directly cause public agency to be in violation of the FTA terms and conditions.

NO FEDERAL GOVERNMENT OBLIGATIONS TO THIRD PARTIES

Agency and Contractor acknowledge and agree that, absent the Federal Government's express written consent and notwithstanding any concurrence by the Federal Government in or approval of the solicitation or award of the underlying Contract, the Federal Government is not a party to this Contract and shall not be subject to any obligations or liabilities to agency, Contractor, or any other party (whether or not a party to that contract) pertaining to any matter resulting from the underlying Contract.

Contractor agrees to include the above clause in each subcontract financed in whole or in part with federal assistance provided by the FTA. It is further agreed that the clause shall not be modified, except to identify the subcontractor who will be subject to its provisions.

PROGRAM FRAUD AND FALSE OR FRAUDULENT STATEMENTS

Contractor acknowledges that the provisions of the Program Fraud Civil Remedies Act of 1986, as amended, 31 U.S.C. §§ 3801 *et seq.* and U.S. DOT regulations, "Program Fraud Civil Remedies," 49 CFR Part 31, apply to its actions pertaining to this Contract. Upon execution of the underlying Contract, Contractor certifies or affirms, to the best of its knowledge, the truthfulness and accuracy of any statement it has made, it makes, it may make, or causes to me

made, pertaining to the underlying Contract or the FTA assisted project for which this Contract Work is being performed.

In addition to other penalties that may be applicable, Contractor further acknowledges that if it makes, or causes to be made, a false, fictitious, or fraudulent claim, statement, submission, or certification, the Federal Government reserves the right to impose the penalties of the Program Fraud Civil Remedies Act of 1986 on Contractor to the extent the Federal Government deems appropriate.

Contractor also acknowledges that if it makes, or causes to be made, a false, fictitious, or fraudulent claim, statement, submission, or certification to the Federal Government under a contract connected with a project that is financed in whole or in part with Federal assistance originally awarded by FTA under the authority of 49 U.S.C. § 5307, the Government reserves the right to impose the penalties of 18 U.S.C. § 1001 and 49 U.S.C. § 5307 (n)(1) on the Contractor, to the extent the Federal Government deems appropriate.
