

Emergent's OpenShift as a Service Subscription Offering

Fully leverage the power and performance of your Kubernetes orchestration platform with OpenShift as a Service from Emergent.

MAXIMIZE your return on investment with Red Hat's OpenShift platform. Through this 12-month subscription, Emergent's OpenShift as a Service offering leverages our team of middleware subject matter experts and proven use of orchestration to install and configure your OpenShift environment and implement and manage your Kubernetes environment.

Our team of specialists will provide OpenShift expertise throughout the year, so your orchestration platform is driving the maximum benefits to your organization. Emergent will operate and maintain your environment, driving value and performance through multiple focus areas and activities:

- General Purpose OpenShift support hours
- OpenShift and orchestration white-boarding, road-mapping, best practices review, strategizing and planning
- OpenShift security review and implementation support
- OpenShift operations and maintenance support
- OpenShift Trouble-shooting
- OpenShift / Orchestration Training and Knowledge Transfer

About Emergent, LLC

Emergent is an award-winning IT solutions provider and value-added reseller based in Virginia Beach, Virginia. Since 2006, Emergent has specialized in solving complex challenges and delivered best-of-class technology solutions to operations in all levels of government, education, and commercial organizations worldwide. Customers capitalize on a streamlined, cost-effective procurement process by leveraging pre-competed, pre-negotiated contract portfolios such as GSA, SEWP V, OMNIA Partners, and agency-specific contract vehicles. Emergent partners with some of the most prominent and industry-leading technology platforms, including Adobe, Red Hat, and Samsara, to deliver lifecycle IT services across cloud computing, open-source, and creative solutions.
