

## INDUSTRIAL PACKAGING SOLUTIONS FOR MANUFACTURING

Network Distribution® (*Network*) is a global distribution organization supported by the power of local service and expertise. We create and manage custom supply programs that ensure manufacturing plants have the industrial packaging products they need to help keep your lines running.

*Network* specializes in delivering packaging solutions through distribution and procurement practices proven to reduce expenses and improve production efficiency. We work with you to streamline your operations by uniting the unique demands of each of your plants under one national program. This delivers efficiencies and standardization to meet your corporate objectives while accommodating the operational needs of your local plants.

### DELIVERING WHAT MATTERS

- 300+ locations focused on packaging; 15+ Canadian locations
- 4+ corrugated plants and 10+ packaging design centers

# DESIGNED TO DELIVER

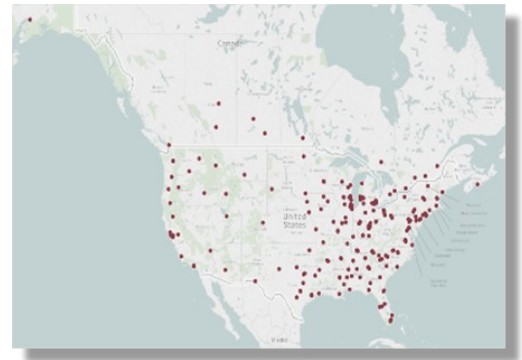

## RESULTS THAT MATTER TO YOUR BUSINESS

Our team of professionals engages key stakeholders across the organization to deliver efficient packaging solutions that balance both your corporate and plant objectives. The simple collaborative process is designed to understand your needs and gather key insights to deliver recommendations and business reviews that provide documented metric-driven, cost savings.

## STANDARDIZED SERVICE ACROSS NORTH AMERICA

### Our Process

1. **Discovery:** Our field representatives meet with key operations stakeholders, and conduct a facility walk-through to fully evaluate and understand the operations and identify a customer's goals, procedures, products and equipment used.
2. **Assessment:** We identify opportunities for process improvements, products, best practices and recommend cost-saving solutions.
3. **Delivery:** We deliver an accountable approach to execute the recommendations and align the proper resources to implement a sustainable solution.
4. **Validation:** Success will be demonstrated through documented savings results, while monitoring continuous improvement driven by short and long-term planning.

## EQUIPMENT, PARTS AND SERVICE
