Notes: Vendor may include other notes regarding the contract update here: (attach another page if necessary).

Network distribution has received a cost increase notice from Kimberly Clark of approximately 11-14% effective February 1, 2022. The increase is due to increases in costs for raw materials, transportation challenges, labor shortages and supply chain issues. As such, Network Distribution is asking for a 6-month temporary price increase on the enclosed product list. On July 1, 2022, pricing will be re-assessed, and Network Distribution will either revert pricing back to today's current contract pricing (effective August 1, 2022) or submit a justification for Region 4's approval to continue the temporary price increase. Should pricing decrease prior to August 1, 2022, the decrease will be reflected in the pricing offered to Participating Public Agencies. Network Distribution is committed to providing high quality products at a price that is competitive and sustainable. Network Distribution is hopeful that we can return to the relatively stable and predictable price determinations seen in past years.
