

Early education furniture solutions

Tap into ODP Business Solutions[®] Workspace Interiors

The Workspace Interiors team at ODP Business Solutions[®] understands that early education is at the foundation of a child's journey. We want to help you create spaces for them to learn and grow. Together with top education-focused manufacturers, Workspace Interiors can help provide you with a comprehensive menu of services and an extensive portfolio of products. We offer pricing value that you would expect from numerous publicly solicited cooperative contracts and programs. Count on us to work alongside you to help you achieve — and exceed — your expectations.

Educational furniture solutions backed by decades of experience

Workspace Interiors is committed to helping you furnish every area of your educational facility, including:

Role-playing areas: Kids love playing pretend, so create a space with dress-up clothes, kitchen sets, and other items that allow them to act out their imaginations.

Sensory tables: Create a table that holds elements such as sand, water, and rice (and can be changed out regularly) so that children can enjoy tactile experiences.

Block area: Blocks are a classic staple of preschool classrooms. Provide blocks of various sizes and materials to encourage kids to build and create.

Art center: Encourage artistic expression by providing a space with supplies like markers, crayons, paints, various types of paper, and other craft materials.

Reading corner: A cozy nook with soft cushions, a few bookcases filled with age-appropriate books, and a few reading rugs to sit on can encourage children to read.

Math manipulatives: Give children access to things such as counting bears, number blocks, and shape-sorting puzzles to help develop math skills.

Furnishing your educational facility for success

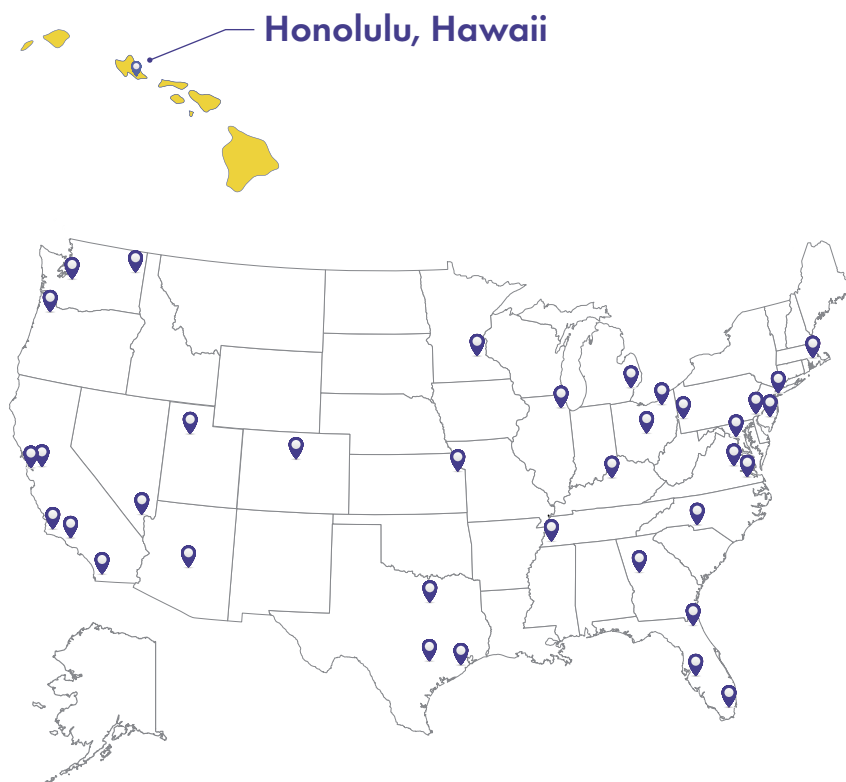

Science area: Inquisitive children will love experimenting and observing natural phenomena using a simple wire rack with shelves, jars, magnifying glasses, and other exploration tools.

Music center: Give access to different musical instruments so that kids can develop a taste for music and get rhythmically creative with their peers.

Did you know?

Furniture is our primary focus; however, we also offer lighting, signage, and artwork for your educational facility.

38+ nationwide locations

Bring your learning environment to the next level

Comprehensive solutions from a full-service provider you can count on

The Workspace Interiors team at ODP Business Solutions® is a full-service contract furniture dealership with a national footprint. Because we're a provider for a broad range of education environments, we have the unique ability to offer many of our education customers increased purchasing power through cooperative contracts.

Aside from bottom-line savings, the contract buying approach streamlines many aspects of managing materials and eliminates the need for bidding. Having multiple educational furniture manufacturers pre-vetted under one contract with numerous solutions available provides tremendous benefits to buyers.

Look to us for a variety of furniture solutions and services, including:

- Space planning and specification support
- Move management
- Project management
- Financial services
- Labor services
- Standards programs

Designing spaces that help motivate teachers and learners

Workspace Interiors provides extensive experience in existing trends, proven solutions, and innovative products that can help redefine how your students learn — as well as help create a mindset that reflects your modern learning goals.
