# Design Services by Pocket Nurse®

## Construction and Renovation Planning for Healthcare Education

Pocket Nurse®, a leading manufacturer and distributor of equipment and supplies for healthcare education, now offers full-service planning and design services for your next capital improvement project.

Design Services by Pocket Nurse® boasts an expert team of experienced consultants and architect partners, ready to help you design the ideal teaching space for your program and budget. If you have a vision for your new or renovated healthcare learning space (or even if you don't), we have the experience and expertise to provide guidance and help you achieve your goals.

### Four Easy Steps:

- 1. Call Pocket Nurse® for a Needs Assessment.** Our expert team of design consultants will meet with you to review your complete scope of project requirements.
- 2. Choose a Project Rendering.** Provide us with blueprints and project plans, and we'll work with you and your architect to fulfill your needs. The design team will provide several customized design renderings from which you may choose one to be further developed.
- 3. Review Full-Color 3D Project Plans.** You will be presented with a full-color 3D plan covering all aspects of your project.
- 4. Comprehensive Logistics and Project Management.** Our experts will assist you with every step, from the ordering of supplies to schedule coordination and much more.

Design Services by Pocket Nurse® is ready to help create your blueprints, then bring them to life! Contact our expert design team with your goals, requirements, and ideas. We'll handle the rest, on time and within budget.
