

# Telecommunication Services - Landline Category (Cloud VoIP subcategory only)

## The University of California

The University of California Office of the President is the strategic sourcing business partner supporting academic and research missions across campuses, labs and medical centers. The University of California Office of the President helps coordinate activities that allow a complex and unique system to operate efficiently as one university, furthering its public interest, academic and research missions. They help oversee and manage programs that serve the entire university system, allowing campuses to capture the savings and efficiencies that come from centralized operations.

The University of California contract #2022003385 has been competitively solicited and publicly awarded and is available nationwide through OMNIA Partners, Public Sector. This simplified process enables organizations to quickly engage with RingCentral's experience, products, services and solutions.

## Who is RingCentral?

RingCentral, Inc. is a leading provider of business cloud communications and contact center solutions based on its powerful Message Video Phone™ (MVP™) platform. RingCentral partners with educational institutions and government agencies to future-proof their communications systems with a unified messaging, video phone, and contact center platform. Public agencies nationwide have access to a competitively solicited, publicly awarded cooperative contract for RingCentral's solutions available through OMNIA Partners.
