

MOBILE SERVICE AND ON-SITE TECHNICIAN SUPPORT.
WHEN AND WHERE YOU NEED US.

When it comes to mobile service, you need a solution designed for your specific situation. The mobile service vehicle, technician, tools, equipment and services provided are all important factors in the decision you make. But every fleet is different, so you need options. That's why you can count on Rush Truck Centers. We can develop a custom solution that is right for your business.

ON THE ROAD. AT YOUR JOBSITE. IN YOUR SHOP.

With a fleet of 650 mobile service trucks across the country, we can come to you when and where you need us. Our select crew is qualified to work on all makes and models of heavy- and medium-duty trucks. We are committed to keeping our customers up and running.

ON-SITE TECHNICIAN SUPPORT.

Whether you are short-staffed, expecting a temporary increase in workload or simply looking to control costs, our embedded technicians can be the solution you are looking for. We offer our highly skilled technicians to work at your location – as many as you need, for as long as you need them.

OUTSOURCED MAINTENANCE.

Rush Truck Centers can also help relieve some of the burden associated with managing your business. Whether you require assistance operating your shop or you simply need to outsource one part of the maintenance process, we will work with you to develop custom solutions.
