August 4, 2021

Dear Valued Customer,

The global market continues to impose unprecedented cost increases within virtually every commodity used to produce SAFCO® solutions. Supplier shortages compounded by rapidly escalating transportation costs further impact the market. As a result, many of our competitors have leveled significant, double digit price adjustments as a means of offsetting the economic uncertainties and market volatility that we are experiencing.

With this in mind, we are forced to adjust our list prices by 9% effective August 16th, 2021. This increase will be applied to all SAFCO products. The entire SAFCO team is dedicated to minimizing the impact of these issues on your business by proactively working to reduce our operating costs, without compromising the quality of our products and services.

We apologize for the inconvenience and will continue to work to minimize the financial burden on our customers.

Sincerely,

Shawn Green

VP Product Development and Marketing
