ABOUT SAFEWARE, INC.

Safeware has helped public procurement and first responders prepare their teams with the products and solutions they need when they need it since 1979. Just like you, our company is full of people who are knowledgeable and passionate about protecting our nation. Safeware is on your team 24/7, 365 days of the year. Count on us to deliver quality brand name products at contract prices with expert advice and hassle-free service.

WE WERE THERE

For over 40 years, we've been supplying first responders with products for public emergencies including the Oklahoma City Bombing, oil and chemical spills, 9/11 attacks on NYC and the Pentagon, biological attacks on Capitol Hill, Hurricane Katrina, SARS, Ebola, COVID-19 and more. We are proud of our legacy of providing emergency products during the most difficult periods in our nation's history.

We are protecting those who protect our country, serving America's largest cities and counties. Whether you are on the SWAT team, the rescue team, or in the Municipal Water Department, Safeware is by your side.

SAFWARE CONTRACTS

Safeware provides access to the best products and service to keep people safe in any work place. From construction and utilities to fire and law enforcement, we offer the best solutions to keep you out of harm's way. Safeware holds several contracts to assist you in securing your solutions when you need them. Easy. Fast. On-time.

OMNIA[®] | Public Sector

Public Safety & Emergency Preparedness Contracts

Lead Agency: Fairfax County
Contract Number: 4400008468

This Fairfax County Contract, available through OMNIA Partners, has been competitively solicited and awarded using the Lead Public Agency model. By accessing this contract via an intergovernmental cooperative agreement, public agencies are able to satisfy the solicitation process and purchase their supplies and services at a reduced cost. Agencies that use this contract save time and money in the purchasing process and typically experience an average of 5% savings over traditional methods in the procurement process alone.

Cooperative Purchasing Contract

Contract Number: 032620-SAF

Firefighting Personal Protective Equipment, Apparel, and Accessories, with Related Cleaning and Maintenance Equipment

register now @ sourcewell-mn.gov/register

1

Register

Schools, universities, nonprofits, and government agencies can quickly and easily register to participate for free. There are no fees to use our contracts, no commitment, and no obligation to purchase.

2

Find a Contract

Sourcewell has hundreds of awarded supplier contracts in a wide variety of industries including Public Safety. You can quickly search contracts by product type, or browse contracts by state and county.

3

Contact Safeware

Utilize the Public Safety contract to quickly obtain a quote, and finalize the sale with Safeware using contract number 032620-SAF and your agency's Sourcewell account number. It's that easy!

- » Lime/Yellow 3M™ Scotchlite™ Reflective Material for enhanced visibility – Double Stitched
- » Reverse Boot Cut
- » Black-Ops™ Multi Adjust Suspenders – No Metal Suspender Buttons!

B2 Pant, Black LAK OSX BP3307G91

B2 Pant, Tan LAK OSX BP3307G91

LAZERMAX™

Get the utmost in visibility, day or night, with LazerMax™ Trim Reflective Piping! LazerMax™ is standard equipment on all Stealth™ and B2™ Turnout Gear!

What Is LazerMax?

LazerMax™ is a Lakeland proprietary patented feature that significantly increases the visibility of first responders in low light conditions. We create piping made from 3M® Silver Scotchlite™ material, and wrap it around Kevlar® cording. This piping is then sewn into the seams of our garments. In low light conditions, when LazerMax™ Trim is hit by light, it almost looks like it's "plugged in".

It really pops!

LazerMax™ is just another reason why choosing Lakeland PPE for first responders is one of the best choices you can make.

LazerMax™ Trim Reflective Piping. Exclusively from Lakeland.

STRUCTURAL PPE : TURNOUT GEAR

You're not afraid of pushing the limits when battling fires. It's what you do. We've pushed the limits too in ergo-nomic design, features and aesthetics in a premium garment.

The Stealth™ is light years ahead of the competition and has been proven on the fire grounds and on the Com-bat Challenge courses. Lightweight and maneuverable like its namesake, the Stealth™ comes loaded with all the standard features you need and then some. Stand out with Stealth™!

Compliant to the current 2018 Edition of NFPA 1971 Standard on Protective Ensembles for Structural Firefighting.

STEALTH COAT WITH LAZERMAX™

- » Beveled Hem, 29" Front, 35" Back, graded to size.

- » Reverse Boot Cut
- » Black-Ops Multi
- » Colors: Solid Color or Two-Tone

Stealth Pant, Two-Tone LAK ST33

BLACK-OPS™ MULTI-ADJUSTMENT SUSPENDER SYSTEM

We all know the well-worn joke
"Why does a fireman wear suspenders?"
(To keep his pants up!)

Our radically designed approach keeps the suspenders up too! Our goal was two-fold; eliminate as much metal as possible, including snaps, and to create a new ergonomically shaped system that would eliminate suspenders slipping off the shoulders, and be comfortable at the same time.

- » Independent yoke system that curves around neck and front for better fit
- » Adjustable center sternum strap keeps the suspenders in position
- » Vertical tabs for stowing mic or accessories
- » Suspenders attach to pants with snap-tabs and segregated MOLLE style loops
- » Rip-cord style pulls easily adjust length and fit

Black-Ops Suspenders LAK BLKOP

CAIRNS® XF1 FIRE HELMET

We know the MSA Cairns XF1 looks entirely different than the helmet you're wearing now. And that's the point. At MSA Cairns, we're always striving to innovate helmet technology—which is why we're always talking to firefighters about their gear. From these conversations, we knew it was the right time to bring a European-style fire helmet to North America.

The design of the National Fire Protection Association (NFPA) 1971- and 1951-compliant Cairns XF1 capitalizes on the expertise of firefighters who wear jet-style fire helmets, while blending in the needs of the North American firefighter.

- » **Reduced Snags:** Lack of brim makes it easier to crawl into tight spaces.
- » **Approvals:**
NFPA 1971, Standard on Protective Ensembles for Structural and Proximity Fire Fighting (current edition)*
NFPA 1951, Standard on Protective Ensembles for Technical Rescue Incidents (current edition)
- » **Shell:** High temperature thermoplastic (injection molded)

Also available in Red, White or Yellow

CAIRNS® 1010 TRADITIONAL COMPOSITE FIRE HELMET

Structural & Proximity Firefighting Helmet

- » Thermal and impact protection through an impact-resistant polymer liner covered by a high-temperature, energy-absorbing urethane foam
- » Maintains color even after taking a beating on the fireground
- » Retain your impact cap, 6-pt suspension system and earlaps if your helmet shell is torn away during a fall or structural collapse
- » Three ratchet height positions easily adjusted with the nape arm/speedy button mechanism
- » Adjustable headband height ensures a perfect fit between your helmet and SCBA mask
- » D-Ring helmet hanger fits on large hooks and resists bending
- » NFPA 1971-2013 (Structural) and NFPA 1971-2013 (Proximity)

1010 Helmet, Black	MSA 1010DSB
1010 Helmet, Yellow	MSA 1010DSY

STRUCTURAL PPE : HAND PROTECTION

INNOTEX815™

Structural Firefighting 2D Glove with Split Cowhide Leather Shell and Kevlar® Stitching

Noticeable flexibility and reduced hand fatigue.

PIVOT-THUMB™ and formed knuckle-guard provides anatomically correct thumb-to-finger movement for better grip, tactility and flexibility

- » Eversoft split cowhide shell provides long wearing toughness, with a softer, more comfortable feel
- » Stitched with Kevlar® thread adding strength and burn resistance
- » Kevlar® sewn 1/2" elastic zig-zag around entire wrist of glove
- » PRO-TECT™ glove inserts for added thermal protection
- » Certified to NFPA 1971:2018 requirements
- » Made in the U.S.A.
- » Sizes: S-2XL

Innotex815 2D Glove, Cowhide Leather PIP 910-P815 (size)

INNOTEX855™

Structural Firefighting 2D Glove with Kangaroo Leather Palm, Split Cowhide Leather Back and Kevlar® Stitching

- » PIVOT-THUMB™ and formed knuckle-guard provides anatomically correct thumb-to-finger movement for better grip, tactility and flexibility
- » Kevlar® sewn 1/2" elastic zig-zag around entire wrist of glove
- » CROSSTECH® inserts provide long lasting protection against hot water, blood, body fluids and common chemicals by resisting damage due to flexing, abrasion and heat exposure
- » Made in the U.S.A.

- » Kangaroo palm and fingers offer incredible durability, grip, tactility and minimizes water absorption
- » Eversoft split cowhide leather back and knuckles provides long wearing toughness, with a softer, more comfortable feel
- » Outer shell is stitched with Kevlar® thread adding strength and burn resistance
- » Nomex® / Kevlar® thermal lining for heat and slash protection stitched with Nomex® thread
- » Certified to NFPA 1971:2018 requirements

FDXL200 RED LEATHER FIRE BOOTS

FireDex

Built to keep you energized during long 24 hour days, the FDXL200 Fire Boot outperforms standards with a combination of technologies and materials that make it the best choice for slip resistance, flame resistance, liquid and bacterial protection, comfort and durability.

Certified to NFPA 1971 & 1992.

Designed with barrier protection to fight against hazardous liquid splashes and ribbing that limits ride-up and maintains a seal with any leg dam, including those containing particulate barriers.

FDXL200 Red Leather Fire Boots.....FDX FDXL-200 (size)

FDXR100 RUBBER FIRE BOOTS

FireDex

The Fire-Dex Rubber boot is a classic staple to firefighting PPE. Waterproof with thermal insulation and steel protection make this an ideal, economical choice for protective footwear.

Certified to NFPA 1971.

The FDXR100 Rubber Fire Boot fits more like a leather boot than any other type of open shaft boot. It's sleek design doesn't go unnoticed as the yellow toe cap, heel and top line keep visibility at it's height while the natural rubber materials help slow the progression of degradation from the sun and fluorescent lighting.

HAIX FIRE EAGLE® AIR

HAIX

The HAIX Fire Eagle® Air boots set the standard for the modern day firefighter. These lightweight structural bunker boots have an athletic fit and feel, yet offer the highest degree of protection when on the frontline of a firefight. HAIX Fire Eagle® Air boots will keep you lighter and quicker on your feet and more responsive to the fire. From the very first step in these HAIX Fire Eagle® Air lightweight firefighter boots, you will feel that rare combination of comfort and safety that is the hallmark of HAIX®.

COMBAT READY

- » Unique one-piece through-the-weave construction
- » Designed for low pressure high volume nozzles
- » More kink resistance than conventional attack lines
- » Lower drag coefficient for easier pull during attack situations
- » Higher GPM flow with low friction loss
- » 10-year warranty with a 1-year all hazards warranty

Combat Ready, 1-3/4" Dia	KEY DP17-1000
Combat Ready, 2" Dia	KEY DP20-1000
Combat Ready, 2-1/2" Dia	KEY DP25-1000

ECO-10

- » The rugged flexibility of filament polyester over a thin wall, high tensile EPDM rubber liner
- » Extremely lightweight, easy to handle double jacket attack or supply line
- » Combines minimum weight with maximum flexibility and abrasion resistance
- » Mildew, chemical and UV resistant
- » 10-year warranty and guaranteed not to delaminate for the life of the hose

CHIEF - FIXED-FLOW NOZZLE

Fixed flow Chief™ nozzles efficiently deliver a constant gallonage from straight stream to full fog. The simple rugged design makes the Chief™ easy to use, train with and reliable in tough situations. Superior hydraulics due to a fully machined waterway result in excellent stream quality and reach. The Chief™ is also available in true low pressure versions with specifically engineered, calibrated and labeled stems down to 50 psi.

- » Aluminum / Bronze shut-off handle with double stops
- » 100 psi, 75 psi or 50 psi models
- » Can be field retrofitted to optional flows and pressures
- » Standard spinning teeth, or optional molded urethane teeth

Chief Nozzle, 4000-13/95 GPM ELK 04000131

Chief Nozzle, 4000-14, 1.5FNH, 150 GPM ELK 04000147

PHANTOM® - SELECTABLE GALLONAGE NOZZLE

The selectable gallonage Phantom® lets the firefighter select the appropriate flow. The wide selection range standard with the Phantom® makes it one nozzle for every use from brush to interior attack. The Phantom® is designed for reliable performance with rugged metal selector ring and dual drive metal ball shut-off.

- » Aluminum / Bronze shut-off handle with double stops
- » Spinning teeth

Phantom Nozzle, 1" 100 PSI w/ Pistol Grip ELK PSFS-HPG

Phantom Nozzle, 1.5" 100 PSI w/ Pistol Grip ELK SFM-HPG

Phantom Nozzle, 1.5" 75 PSI w/ Pistol Grip ELK SFM-LPG

SELECT-O-MATIC XD™ - AUTOMATIC HANDLINE NOZZLE

The Select-O-Matic XD automatic handline nozzle adjusts to fluctuating water supply conditions to maintain effective pressure and a consistent fire stream in all flow ranges. It does so by generating back pressure by using a patented internal spring design that leaves the waterway unobstructed. This mechanism ensures a quality fire stream, regardless of flow.

The Select-O-Matic XD features an all a forged shutoff body and bale handle, full round metal ball for optimum stream performance, as well as fixed or spinning stainless steel metal teeth. All indicators and markings are laser etched, with no labels to peel off or scratch. New ergonomic grip inserts help with handling and can be color coded. It's durability and efficiency are unmatched of any automatic nozzle on the market.

High Range 100 psi Select-O-Matic XD Nozzle (1.5") with Pistol Grip (SM-30FG) ELK 02491004

CREWBOSS™

SNAPTANK

Nothing in the industry offers more structural integrity on flat or uneven ground than the SnapTank. With its quality components and interchangeable parts, the SnapTank can add valuable capacity to any response without the expensive apparatus modifications necessary to transport a traditional rigid tank.

Constructed of the finest aircraft quality aluminum components, SnapTank is light, yet durable and can be fully functional in minutes. We offer several different models from 1,000 gallons all the way up to 3,000 gallons, each plumbed with a standard 3" threaded flange with plug and packaged in a compact field bag

OPERATIONS: FOAM TRAILERS

ALPHA CLASS FOAM FIREFIGHTING TRAILERS

- » Dual: 12k GVW; length 17' width: 84" height: 80'
- » Eight-inch frame rails - 0.25" steel decks - 0.25" aluminum fender boxes/ steel grip strut steps
- » Available with 550 - 660 or 990 gal. foam storage capacity (2 or 3 -330 gal. totes)
- » Torsion axles, with cab-operated electric brakes. Tongue weight will not exceed 800 lbs.
- » Fender storage - 1 - 72" x 15" closed-end hose tray - 2 - 36" x 18 x 18" weather tight cabinets.
- » Water Works: Transverse (5") square tube and riser capable of 4000 gpm. 2, 5" storz intake valves.
- » Remote controlled 300 to 2000 gpm monitors, for foam application or long range cooling streams.
- » Portable, Blitzfire ground monitors, matching foam eductors and aerator foam attachments.
- » Two 100 gpm handline eductors with matching nozzles with aerators.
- » Foam concentrate manifold for four simultaneously operated devices, including 2" nurse connections.
- » Portable 23 or 50 gpm, remote controlled concentrate transfer pump kit.
- » Eight, twelve-volt. LED work lights. - NFPA Lights & Stripes - Onboard battery, conditioner and charger.

Alpha Class Foam Trailer..... Call for details & requirements

1000 GALLONS FOAM TRAILER

CET fire Pumps manufactures a variety of foam trailers from 150 to 2,000 gallons. These versatile trailers are ideal for use in Industrial, commercial, municipal and forestry environments. Foam trailers provide a very effective tool for airport fuel storage and power plant installations.

Foam trailers provide a very effective tool for airport fuel storage and power plant installations.

- » Foam is needed for any fire or spill involving flammable or combustible solids or liquids
- » Water will not float on hydrocarbon products such as gasoline or diesel fuel.
- » Water used on a fire in a contained area may sink, runoff or overflow.
- » Foam reduces toxic and flammable vapors given off by fuels.

1000 Gallons Foam Trailer. Call for details & requirements

ABOUT OUR FOAM SOLUTIONS**

MI-TIC S™ - THERMAL IMAGING CAMERA

The Mi-TIC S is a premium lightweight thermal imager with industry leading dynamic range and oversized display for top performance in the most extreme firefighting environments.

This NFPA 1801:2018 compliant combines low cost and a long list of features that make this the most versatile thermal imager on the market.

The Mi-TIC S has an enhanced feature set including laser pointer to aid communication, electronic compass for greater scene awareness and heat/cold seeker technology.

Mi-TIC S, 3 Button AVO MI-320-3-S

FLIR K2 - COMPACT TIC

FLIR is on a mission to make high quality thermal imaging cameras standard issue equipment for every member of a fire crew. The FLIR K2 makes that possible by providing capability, ruggedness, and reliability at an affordable price. With features such as Multi-Spectral Dynamic Imaging (MSX®), easy-to-use buttons, and operability in temperatures up to 500°F, the K2 is a small investment that pays big dividends—saving lives, protecting property, and ensuring firefighter safety.

- » Accuracy: $\pm 4^{\circ}\text{C}$ ($\pm 7.2^{\circ}\text{F}$) or $\pm 4\%$ for ambient temperatures of $10\text{--}35^{\circ}\text{C}$ ($50\text{--}95^{\circ}\text{F}$)
- » Detector Type: Focal plane array, uncooled microbolometer
- » Field of view (FOV): $47^{\circ} \times 35^{\circ}$

FLIR K2 Thermal Imaging Camera FLIR K2

FLIR KF6 - THERMAL CAMERA FOR AERIAL FIREFIGHTING APPARATUS

FLIR's new KF6 is the industry's first thermal imager designed and built specifically for aerial apparatus applications. Mountable at the end of a straight stick and onto a ladder bucket, the KF6 provides firefighters a high-angle thermal view of rooftops and other elevated structures, helping them see through thick smoke, more efficiently target the hottest areas, and more strategically direct firefighting efforts.

- » IR Thermal Resolution: 640×480
- » Detector Type: Focal plane array, uncooled microbolometer
- » Spectral Range: $7.5\text{--}13.5 \mu\text{m}$

MULTIRAE PRO - MULTI-THREAT DETECTOR

This industry-leading wireless device monitors both chemical threats and gamma radiation and is the only multi-threat monitor with parts per billion precision. With the ability to wirelessly transmit threat and alarm data in real time to a central command station, the MultiRAE Pro offers improved visibility and awareness. It also gives you the flexibility to swap out 25 different sensors for a range of threats, including VOCs, toxic gases, combustibles, oxygen levels, as well as gamma radiation detection. The large display and replaceable sensors, pump, and battery make it easy to use and maintain, while five different alarms, including man down, provide the versatility you need to respond appropriately and quickly to incidents.

- » Parts per billion VOC measurement
- » Industry-leading wireless multi-threat device
- » Simultaneous monitoring of chemical threats and gamma radiation
- » Real-time data access from central command
- » More than 25 different chemical sensors
- » Swappable sensors
- » Man down alarm
- » Simple maintenance with replaceable sensors, pump, and battery
- » Fully automatic bump testing and calibration with AutoRAE 2
- » 5-way local and remote wireless alarm
- » Mil-STD-810G certified
- » Device Management with Honeywell Sotera™ Express

AREARAE PLUS - TRANSPORTABLE AREA MONITOR

The AreaRAE Plus provides superior detection of toxic and combustible gases, VOCs and wind speed, direction and humidity—all in one easy-to-configure device. Plus, you'll have vital details about threats happening in real-time—arming you with the information you need to act quickly.

- » Monitors up to seven threats, including VOCs, combustibles, Toxics and Oxygen
- » Optional meteorological sensor for tracking toxic plumes
- » 7R+ photoionization detector (PID) for monitoring VOCs at parts per million
- » Secondary radio module (Mesh) act as an communication Hub for other wireless devices
- » Ruggedized, portable, and weather-resistant design for harsh environments
- » Part of ConneXt Safety Solutions with ISM and Wi-Fi wireless configurations

ALTAIR® 5X MULTIGAS DETECTOR

The ALTAIR 5X Gas Detector is capable of measuring up to 6 gases simultaneously and is now available with integrated PID sensor for VOC detection. Driven by advanced MSA XCell® Sensor Technology, the ALTAIR 5X Gas Detector delivers faster response time, better stability, accuracy, longer service life, and cost savings over the life of the instrument.

Thanks to its rubberized polycarbonate housing, the Altair 5X can take a 10-foot drop and live to tell. Even after a fall, it will deliver best-in-class response time, stability, accuracy, service life and cost savings over its lifetime. Protection doesn't get any tougher.

Altair 5X Detector, Mono, LEL, O2, CO, H2S	MSA 10116924
Altair 5X Detector, Color, LEL, O2, CO, H2S	MSA 10115143

ALTAIR® 4XR MULTIGAS DETECTOR

Outfitted with rapid-response MSA XCell® sensors, the ALTAIR 4XR Gas Detector is the toughest 4-gas monitor on the market and is backed by a 4-year warranty. The ALTAIR 4XR can also provide real-time incident awareness to team members, supervisors, safety managers and others when paired with the MSA ALTAIR Connect app via a Bluetooth® wireless connection.

- » Sense gas 2 times faster than the industry average with our XCell sensors
- » Send event notifications via text message with the ALTAIR Connect app
- » Survives 25 drops from 4 feet
- » Can survive an incidental 25-foot

HAZMAX® STEEL TOE & MIDSOLE

The boot that continues to set the standard for biological hazards and waste protection

- » Specially formulated PVC allow protects you from some of the worst chemicals arounds while exceeding CSA standards for Di-Electric footwear
- » Steel toe, steel midsole and steel shank Ultragrip® Sipe outsole provides superior, slip resistance and protection
- » Certified by S.E.I. to meet the requirements of NFPA 1991 Standard on Vapor-protective ensembles for Hazardous materials emergencies, Flash Fire certified
- » ASTM CERTIFIED
- » Size Range: US 06-15

HazMax 16 in. Kneeboot, Steel ToeBAT 87012 (size)

HAZPROOF® BOOTS

The world's most advanced Hazmat boot.

Certified to NFPA 1991 Edition 2016 for chemical and hazmat cleanup, emergency response, and domestic preparedness. Made of special polymer material, this comfortable boot meets the protective footwear chemical permeation requirements of NFPA 1991 Standard on Vapor-Protective Ensembles for Hazardous Materials Emergencies. The HazProof® boot has also been tested to Military Standard 282 and will provide protection against certain chemical warfare blister and nerve agents!

- » Injection molded construction for 100% waterproof protection.
- » Larger foot area is engineered to accommodate the extra bulk of an encapsulated suit, for comfortable fit.
- » Smooth exterior surface for easy decontamination.
- » Replaceable stretch fastener closure allows for easy on and off while wearing gloves.
- » Meets ASTM F2413 M/I/C EH, for Steel Toe Impact and Compression, and Electric Hazard Protection. Boot shall withstand 18,000 volts at 60 HZ for 1 minute with no current flow or leakage current in excess of 1.0 milliamperes under dry conditions tested as per lab conditions in Test Method F2413.
- » Steel midsole meets and exceeds ASTM F2413 PR.
- » Achieved a passing result for ASTM F1671 testing.
- » Size Range: US 06-15

HazProof BootsTIN 82330 (size)

OPERATIONAL SUMMARY

Domestically produced multiple use NFPA 1999 certified PPE is a viable supplement to high volume disposable PPE programs:

- » Increased durability and protective performance for higher risk response scenarios
- » Contingency capacity option to insure availability of PPE when disposable PPE supply chains are inadequate.

Benefits Over Disposable PPE & AAMI Level 3 Gowns

- » Increased protection
 - NFPA 1999 Multiple use certification
 - ASTM F1671
 - 360° barrier coverage
- » Higher level of comfort
- » Durable & commercially washable between uses
- » Extended shelf life
- » Stable domestic supply chain

NFPA 1999: EMERGENCY OPERATIONS COMMERCIALLY LAUNDERABLE & REUSEABLE CERTIFIED GARMENTS & ENSEMBLES

HOMELAND DEFENDER® SIZING GUIDE

CHEST	SIZE	CHEST	SIZE
32-34	XS	52-54	2XL

5'6" or shorter	Short
5'7" - 6'0"	Regular
6'1" +	Tall
6'4" +	XTall
6'4"-6'6"	5XL

* Required to pass ASTM F1671 after 10 wash / dry cycles

BIO-99™ COVERALL

- » 20 Year Shelf Life
- » Barrier-GORE® CROSSTECH® fabric
- » NFPA 1999, Multiple Use Garment*
- » Meets Interagency Board (IAB) performance recommendations of ASTM F1671 and NFPA 1999
- » Available with adjustable sleeve cuff or attached GORE® CROSSTECH® glove and utility over glove
- » Front-entry coverall design with detachable hood allows for efficient self-donning and doffing with minimal risk for cross contamination during doffing process

BIO-99 w/ Adjustable
Sleeve Cuff BLR B1099F

BIO-99 w/ Attached Glove &
Utility Over Glove BLR B1099FG

BRN-94® ENSEMBLE

- » 10 Year Shelf Life
- » Barrier-GORE® CROSSTECH® fabric
- » NFPA 1999, Multiple Use Ensemble*
- » NFPA 1994, Class 4
- » Butyl gasket in hood for liquid tight and aerosol tight seal with approved gas masks
- » Attached barrier gloves with MaxiFlex Endurance over gloves (for dexterity and abrasion)
- » Made with breathable and durable GORE CROSSTECH fabric and seam tape
- » Durable for numerous commercial launderings

BRN-94 Ensemble BLR WZ9440F-2

MULTI-THREAT ENSEMBLE

- » NFPA 1994 Class 1 (2018 ed.) certification
- » NFPA 1994 Class 2 (2018 ed.) certification
- » NFPA 1992 (2018 ed.) certification
- » Form-fitting design for superior mobility and confined space operations
- » NOMEX® IIIA laminate fabrics for limited FR protection
- » Approved for use with tactical-style boots
- » Tactical gloves for superior dexterity
- » One piece design with integrated CBRN booties and gloves
- » Rubber to rubber SCBA mask interface eliminates the need for chemical tape
- » Evaporative cooling capability allows for extended response times
- » Rugged GORE® CHEMPAK® Ultra-barrier fabric and extra strength seams for safer operations in demanding CBRN environments
- » Reusable – Can be laundered multiple times if no gross contamination

Multi-Threat Ensemble BLR HZ9420FVG

XRT ENSEMBLE

- » NFPA 1994 Class 3 (2018 ed.) certification
- » NFPA 1994 Class 4 (2018 ed.) certification
- » Lightweight and form-fitting for excellent mobility
- » Breathable barrier fabric allows heat and sweat vapor to dissipate away from the body for greater comfort and extended wear time
- » Front-entry design allows for self-donning
- » Integrated glove system and booties eliminate the need for chemical tape
- » Approved for use with tactical-style boots
- » Rugged GORE® CHEMPAK® Selectively-Permeable fabric and extra-strength seams allow for safer operations in demanding tactical and perimeter control situations
- » Machine washable for multiple uses if not grossly contaminated

XRT Ensemble BLR WZ9435AB

RC3® ENSEMBLE

- » NFPA 1994 Class 3R (2018 ed.) certification
- » NFPA 1994 Class 4R (2018 ed.) certification
- » NFPA 1992 (2018 ed.) certification
- » Breathable GORE CHEMPAK fabric
- » Streamlined pattern provides a more tactical fit on the user and better equipment integration
- » Ten year shelf life
- » Machine washable for multiple uses if not grossly contaminated
- » Durable fabric and seams prevent accidental contamination and provide user confidence
- » Integrated knee and elbow pads
- » Available with 2 glove system options: Airboss AMG or Gore G9492 with NOMEX overglove

RC3® Ensemble BLR RWZ9435VG

FRONTLINE 500

- » NFPA 1991 Certified Apparel For Chemical Flash-Fire Protection
- » Single suit provides proven three-way protection – chemical, flash-fire and radiant heat protection.
- » Excellent “survivability” performance – 0% body burn in Pyroman Thermal Manikin testing.
- » NFPA-certified ‘multi-use, single-exposure’ garment provides economical alternative to expensive FR reusables.
- » AntiFog Expanded-View Visor System enhances responder safety.
- » New patent-pending AntiFog Expanded-View Visor System.
- » Removable knitted Kevlar overglove, plus field-replaceable 2N1® Glove System which eliminates inner glove inversion.
- » Highly flexible 48” gas-tight AquaSeal® zipper facilitates easier donning and doffing.
- » Sizes: XS - 5X

Frontline 500 KAP F5H582-91 (size)

ZYTRON 500

- » Greater than 8-hour holdout against hundreds of chemicals, plus proven holdout against Chemical Warfare Agents (CWA).
- » Several NFPA certified styles available.
- » Available in two colors, hi-viz orange and charcoal gray.
- » AntiFog Expanded-View Visor System is standard on gas-tight styles.
- » 2N1® Glove System on Hazmat styles eliminates the problem of inner glove inversion.
- » Hazmat styles include seams that are sewn then double heat sealed/taped.
- » Softer pliable fabric enhances comfort for extended wear applications.
- » Available in wide range of styles from coveralls to total encapsulating suits.
- » Sizes: XS - 5X

Encapsulating, Front Entry KAP Z5H552 (size)

Encapsulating, Rear Entry KAP Z5H553 (size)

Coverall KAP Z5H417 (size)

Coverall, w/ Hood KAP Z5H428 (size)

Coverall, w Hood & Socks KAP Z5H426 (size)

DURACHEM 500

- » NFPA 1994 Certified Garment as part of a system of components with other protective equipment.
- » NFPA Class 1 and Class 2 Certified
- » Includes dual certification to NFPA 1994 (2018 Edition) for both Class 1 and Class 2.
- » Provides CBRN protection and general Hazmat protection in tactical-style non-encapsulating suit.
- » ‘Multi-use, single-exposure’ garment provides maximum protection at affordable price compared to expensive reusable garments.
- » Unique rear-entry design facilitates doffing to eliminate cross-contamination concerns.
- » Elastomeric face opening gasket fits securely around respirator, eliminates need for taping.
- » Sizes: XS - 5X

Durachem 500 KAP D5H458-94 (size)

ZYTRON 300

From Petro Hazards To Warfare Agents, Zytron® 300 Is A True Performance Fabric.

Zytron® 300 is ideal for demanding hazardous applications where there is potential for chemical splash, even in significant exposure scenarios. Increased physical strength and even broader chemical holdout take the protection level of this fabric up a serious notch. With an extensive chemicals-tested list, Z300 a real workhorse of the Zytron family, available in a wide range of garment types and styles including NFPA certified styles.

- » Ideal for demanding applications with potential for chemical splash.
- » Increased physical strength and broad chemical holdout take the protection level up a serious notch.
- » Available in seven NFPA certified styles.
- » Excellent for petrochemical operations including chemical handling and maintenance work – a favorite for military operations.
- » A real workhorse of the Zytron family, available in a wide range of garment types and styles.
- » Rear entry style shown provides protection in front-splash scenarios.
- » Attached gloves are available on any heat sealed/taped seam garment.
- » Attached sock booties with splash guards are standard.
- » Sizes: XS - 5X

DUAL CERTIFIED GEAR

Lakeland's Dual Certified Gear meets NFPA 1977/1951 requirements and is an economical garment that combines all the great features you'll find in their Wildland and 911 Extrication gear, and then some!

Features:

- » Outershell: 6.5oz Defender M Gold Woven Rip-Stop (FR Rayon – 65%, P-Aramid – 25%, Nylon – 10%)
- » LazerMax™ Trim/Reflective Piping
- » 3M™ Scotchlite™ Segmented Reflective Material for enhanced visibility

DUAL CERTIFIED COAT

- » Coat Length: 4" grade front to back; Ex: (XL) 32" Front / 36" Back
- » Stand-up Overlapping Collar
- » 2-Piece Curved Set-In Pleated Sleeves
- » Elasticized Cuffs with Beefy Take-Up Straps
- » Vertical Back Pleats
- » 2" x 3.5" x 8" Radio Pocket on Left Chest
- » Mic Strap above Radio Pocket
- » 5.5" x 6" Pleated Pocket with flap on Right Chest
- » 2" x 8" x 8" Cargo/Hand-warmer Base Pockets
- » Size: S-6XL

Dual Cert. Coat LAK DCCTD21 (size)

DUAL CERTIFIED PANTS

- » 2" Elasticized Rear Waistband
- » Five 3.5" Belt Loops
- » Side Slash Pocket
- » 2" x 10" x 10" Expansion Pockets
- » 6" x 6.5" Rear Pleated Pockets with Flaps
- » Triple Pleated Knees
- » Black Ara-Shield Reinforced Knees
- » 18" High-Temp Black Delrin YKK Leg Zippers
- » Beefy Take-Up Strap at Cuffs
- » Size: S-6XL

Dual Cert. Pant LAK DCPTD21 (size)

DUAL CERTIFIED COVERALL

- » Stand Up Overlapping Collar
- » 2-Piece Set-In Sleeves
- » Elasticized Cuffs with Beefy Take-Up Straps
- » Mic Strap above Radio Pocket
- » 5x5 Spade Pocket with flap on Right Chest
- » Elasticized Waist with adjustable Take-Up Straps
- » Side Slash Pocket
- » 2x10x10 Expansion Pockets
- » (2) 6.5x8 Rear Internal Seat Pockets with Flaps
- » Size: S-6XL

Dual Cert. Coverall LAK DCCVD21 (size)

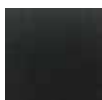

Whether you require dual-certified firefighter fatigues or a second set of protection to keep your cab clean, TECGEN51 Fatigues are the solution. Certified to NFPA 1951 & NFPA 1977.

Wearing structural gear on non-fire emergencies can cause unnecessary stress on your body and contribute to repeated exposure to potentially-harmful contaminants.

Try utilizing our lightweight, single-layer alternative on 90% of your calls, including MVAs, extrication and rescue. This dual-certified garment is designed to reduce heat stress and exposure to carcinogens.

With high levels of thermal protection and incredible breathability, TECGEN51 fatigues make a comfortable fit for every departments' needs.

TACTICAL BACKPACK

SAN's Tactical Backpack includes room for our power unit with 2 batteries and has the possibility to carry up to 3 tools including a jimmy bar.

- » Weight: 12 kg
- » Contains: Electro Hydraulic Power Unit, 2 Batteries, Remote Control, Jimmy Bar
- » Size: 20*32*53

SAN Tactical Backpack SAN TA02B

DURAHIDE™ M-PACT®

DuraHide™ M-Pact® leather work gloves stand tall against rough cut wood, concrete and abrasive metals. DuraHide™ performance leather delivers extreme abrasion resistance and structural integrity from construction to home improvement applications. The DuraHide M-Pact features Thermoplastic Rubber (TPR) knuckle protection that absorbs blunt force impact and meets EN 13594 impact standard.

» Sizes: M - XL

Durahide M-Pact MEC SMP-X91-(size)

HI-VIZ M-PACT® D4-360

Hi-Viz M-Pact® D4-360 cut resistant work gloves protect working hands with 360° EN 388: 2016 Level D & ANSI A4 cut resistance. Anatomically designed Thermoplastic Rubber (TPR) safeguards your hands and meets EN 13594 & ANSI 138 Level 1 impact standards. The Hi-Viz M-Pact D4-360 delivers critical cut protection so you can work with sharp tools and sharp materials with confidence.

» Sizes: S - XXL

Hi-Viz M-Pact MEC LMP-75-(size)

DURAHIDE™ DRIVER F9-360

The DuraHide Driver F9-360 is built with DuraHide leather and lined with high-tensile strength fibers to deliver 360° EN 388: 2016 Level F & ANSI A9 cut-resistance. The DuraHide Driver F9-360 features a Gunn cut finger design that repositions vulnerable seams, and a stretch-elastic wrist closure for easy on/off glove removal between jobs.

» Sizes: S - XXXL

Durahide, F9-360 MEC LDMP-375- (size)

AUTOX™ EXTRICATION GLOVE

Ideal for use in emergency rescue situations requiring puncture, heat and abrasion resistance while maintaining close dexterity.

- » Polyurethane and synthetic finger tips won't melt and will withstand contact with hot materials up to 212° Fahrenheit
- » Stitched with Kevlar® adding strength and burn resistance
- » Sizes: S-XL

- » Index finger and thumb joint reinforced to minimize wear
- » Puncture-resistant palm pads
- » Abrasion-resistant fingers and knuckles
- » Reflective and padded area on back of hand
- » Do not get slippery when wet or harden after drying
- » Anatomically designed palms for unparalleled freedom of movement
- » Launderable for extended life and to reduce replacement costs

- » 3-mm neoprene with Titanium gives you superior heat retention and protection from the cold.
- » 3-mm PowerSpan™ neoprene panels in the shoulders, back and arms greatly increases mobility and reduces binding.
- » ToughTex™ covered 5-mm neoprene seat
- » Molded polyurethane knees and shin armor
- » Textured raw neoprene friction zones on the sides
- » Reflective lettering and bright yellow panels on arms and legs
- » Colors: Yellow/Black
- » Sizes: S, M, L, XL, XXL, 3XL, G-L, G-XXL

Rescue Wetsuit NRS 17276-01 (size)

2 PIECE FLOOD RESPONSE SUIT

The MSD824 is a unique and innovative 2-piece waterproof & breathable constant flood water response suit, ideal for flood and after incident responses. The suit consists of 2 halves that can be worn individually for localized dry performance or joined via their Quick-Lock™ waist closure system to achieve dry suit performance under special circumstances. Developed by First Responder operators with years of field experience in after-event cleanup and operations, the 2-piece design provides maximum flexibility required during after incident and flood operations. The MSD824 2 Piece Flood Response Suit is an excellent system for the most demanding flood rescue and management technician(s).

2 Piece Flood Response Suit..... MUS MSD824 (size)

SENTINEL™ SERIES WATER RESCUE DRY SUIT

The MSD624 is a waterproof and breathable constant wear water rescue dry suit specifically designed for flood, swift water and ice rescue situations. By reducing bulk and increasing range of motion, the Sentinel™ Water Rescue Dry Suit meets the most demanding water rescue environments. Tested and validated by water rescue professionals, the Coast Guards and other military rescue operations, the Sentinel™ dry suits offer enhanced features that provide specific advantages critical to protecting the rescuer in severe and unpredictable environments.

- » GORE-TEX® waterproof and breathable dry suit fabric
- » 2 thigh cargo pockets
- » Molded foam knee and elbow pads
- » Reinforced wrist overcuffs with Velcro® closures for adjustability
- » SOLAS retro-reflective tape on the arms for increased visibility
- » Adjustable waist band
- » Reinforced molded foam elbow and knee pads
- » Ballistic nylon wear protection

Sentinel Series Water Rescue Dry Suit MUS MSD624 02 (size) (length)

ICE COMMANDER RESCUE SUIT

The modular suit is completely waterproof with a watertight hood, integrated gloves, and attached boots. The flotation and insulation performance of a zip-in buoyancy liner allows users to immerse themselves for long periods of time in icy cold water and maintain mental and physical capabilities. Updated liner with zipper and velcro attachments allows easier removal for cleaning and repair. Each Ice Commander™ has an integrated chest harness for attachment to tether lines, ice awl pockets for storage, rubber gloves, reinforced knees and non-slip rubber soles on the attached boots. As well, each suit is 45% lighter than other rescue suits as it is made in a high visibility welded nylon shell. The Ice Commander is intended for ice and still/static cold water rescues only by trained professionals with the required and approved operating standards and requirements of their state or county.

Ice Commander Rescue Suit..... MUS IC900103

UNIVERSAL SWIFT WATER RESCUE VEST

The Universal Swift Water Rescue Vest is a high buoyancy (25lbs) USCG approved Type V SAR PFD. The MRV150v02 has been developed with ongoing feedback from the water rescue community and has been designed specifically to meet the Personal Protective Equipment (PPE) needs of rescue professionals facing the challenges of swift water. With an easy to adjust donning system and layered flotation foam, this vest provides a comfortable and secure fit, which improves operational performance both in and out of the water.

- » Approval: USCG - UL1123
- » Approval: NFPA 1952 compliant
- » 25 lb (111 N) Buoyancy
- » Drag handle
- » Radio Antenna hole in top of pocket with retention loop
- » Quick donning with 7 adjustment tabs
- » MOLLE webbing
- » Velcro® panels for ID patches.
- » Durable harness with 2" webbing
- » Quick-release belt
- » 500 Denier, Cordura® outer shell with high visibility accents
- » Over 62 sq.in. of SOLAS™ tape
- » D ring
- » Scalloped neck line to accommodate ratchet adjustable helmets
- » Webbing loop in pocket

Universal Swift Water Vest MUS MRV15002

RESCUE SWIMMER VEST

Hailed as the first rescue swimmer vest to turn a compliance-driven device into a tactical piece of equipment that actually helps get the job done. Designed for the performance-driven public safety water professional who can't afford to be impeded by extra gear, this vest blends two of Mustang Survival's core competencies - inflatable flotation and foam flotation, to offer a slim profile flotation solution.

- » CO2 cylinder storage pocket
- » Hybrid flotation - foam and inflatable flotation
- » 9 lbs of inherent foam buoyancy
- » 26 lbs total buoyancy when manually inflated with CO2
- » Left side buckle closure
- » Manual CO2 Inflation handle
- » Oral inflation/deflation valve easily accessible
- » MOLLE system on the front and back for personal configuration of equipment
- » Compatible with standard MOLLE attachments
- » MOLLE webbing designed for knife storage

Rescue Swimmer Vest MUS MRV170 251

NRS WORKBOOT WETSHOE

A favorite of river professionals and water rescue agencies, the NRS Workboot Wetshoe is built to be tough and hard-working. It combines the advantages of dive booties and hightop workboots into one wetshoe that gets the job done, both on and off the water. The NRS Workboot Wetshoe is made to insulate when wet and compatible with fins and neoprene socks. Whole sizes only (1/2 sizes should order one size larger). Women should order one size smaller.

- » Lace-up synthetic leather and 5-mm neoprene upper provides warmth, unmatched ankle support and a secure fit.
- » 7-mm neoprene insole absorbs the shock of every step.
- » Heavy-duty lugged traction sole keeps you on your feet in varied terrain. It is a marking sole.
- » Wear areas are reinforced with synthetic leather and rubber
- » Sizes: 07 - 13

NRS Workboot Shoe..... CMC 4743 (size)

LALO SHADOW AMPHIBIAN BOOT

The Shadow Amphibian is made for rescuers who want high performance in rugged terrain and fast-flowing waterways. Ideal for working in and around rivers, trudging through mud, and hiking long distances.

- » Patented drainage system with dual direction drainage ports
- » KPU Grill keeps out debris while increasing breathability
- » Moisture-wicking, antimicrobial ceramic bamboo lining
- » Swim fin compatible heel lock, friction area, and vamp profile
- » DuPont™ slip-resistant injection molded rubber outsole
- » Carbonized rubber toecap for abrasion resistance
- » Puncture-resistant composite plate for protection and fatigue reduction
- » Multi-density EVA to cushion foot-strike and propel during toe-off
- » Articulating heel, contoured metal arch, and Achilles flex notch for all-day comfort
- » Sizes: 07 - 13.5 (half sizes available)

LALO Shadow Amphibian Boot CMC 474(size)

US DIVERS SHREDDER SAR SWIM FINS

Designed for water rescue and SAR swimming, these fins have a short shape for explosive thrust and exceptional maneuverability. With a large, soft foot pocket and an adjustable padded heel strap, the Shredder can be worn over water boots as well as booties. Lugs on the sole of the foot add traction when walking. An integral quick-release leash secures the fin in the roughest water. The Shredder comes only in size large, which adjusts to fit most swimmers' boots and booties.

US Divers Shredder SAR Swim Fins CMC 474150

KASK SUPERPLASMA HD HELMET

The Kask SuperPlasma HD helmets are specifically designed for professional rescue and work-at-height applications to provide the ultimate in head protection. They are lightweight, compact, comfortable, and well-ventilated with 10 air intakes.

- » Headlamp clips compatible with all headlights with elastic bands
- » Four-point chinstrap is constructed from eco-leather that is anallergic and washable, and uses quick-release fasteners
- » Antibacterial treatment prevents bacterial proliferation in padding
- » Fast 3Dry fabric dries quickly and disperses moisture to the outside
- » Front pad absorbs moisture for breathability and is easily removable for washing
- » Innovative and exclusive UP & Down 2.0 technology ensures precise and comfortable fit around the back of the head. Center wheel and the two side wings allow quick adjustment in suspension width, height and tilt
- » Attachment loop on chinstrap provided for clipping the helmet to a harness
- » Integrated attachment system for the KASK accessories: Visor, face shield, earmuffs, other
- » Construction: External Shell: ABS; Internal Shell; HD Polystyrene
- » PPE Category: Type I – Class C
- » Certifications: ANSI Z89.1-2014 – Industrial Head Protection: Type I, Class C and CSA Z94.1-15
- » Universal Size: Adjustable from 51-62 cm (20-24.5 in) – 6-3/8 – 7-3/4

WRSI CURRENT HELMET

Constructed with high-quality materials and advanced technologies, the WRSI Current Helmet is anything but basic. Combined with a plush inner lining, it can't be beat in safety or comfort.

- » Certification: CE EN 1385
- » Shell Material: ABS plastic with a polyurethane sub-shell
- » Liner Material: Removable, replaceable padded liner
- » Vented: Yes
- » Adjustment: Interconnect Retention System
- » Ear Coverage: No
- » Features: 3 ventilation/drain holes
- » Colors: Phantom (*Black*), Salsa (*Red*), Ghost (*White*), Fjord (*Blue*), Lime (*Yellow*)
- » Sizes: S/M, M/L, L/XL

WRSI Current Helmet NRS 43000-03

NRS REACTOR RESCUE GLOVES

Swiftwater rescue can be extremely cold and demanding work. That's why we've made NRS Reactor Rescue Gloves extremely warm and tough. When lives are on the line, you'll want these gloves on your hands.

- » PowerSpan™ backing on neoprene
- » GripCote™ patches on fingers
- » Fleece strip on thumb and wrist
- » Wrist pairing snaps
- » Sizes: S - XXL

Reactor Rescue Gloves NRS 25032-02

NRS TACTICAL GLOVES

With the perfect combination of durability, warmth and paddle feel, NRS Tactical Gloves live up to the demands of the task at hand, whether for rescue work or for play.

- » Material: 2 mm neoprene
- » Soft fleece panels on thumb and wrist
- » Rubberized synthetic leather palm
- » Wrist pairing snaps
- » Sizes: S - XXL

NRS Tactical Glove NRS 25036-02

NRS UTILITY GLOVES

NRS Utility Gloves deliver an excellent combination of durability, warmth and dexterity. They're a great choice for rescue work and for the boater who wants maximum palm protection.

- » Material: 2 mm Terraprene neoprene
- » Rubberized Amara® synthetic leather armor patches
- » Fitted, stretchy slip-on wrist cuff
- » Wrist pairing snaps
- » Sizes: S - XXXL

NRS Utility Gloves NRS 25025-03

RIT-CRAFT

A versatile, multi-season workhorse for almost any terrain or water type, the RIT-Craft by 2Tinga has myriad rescue applications. Without costly attachments, it can be easily towed behind a boat or personal watercraft, an ATV or a snowmobile. On ice or snow, it slides across the surface or can be dragged by responders. In open water, one or two people can easily paddle the craft, which tracks extremely well in the water to enable swift patient retrieval. The patient can be placed on the working deck so vital signs can be monitored en route to the shore. The RIT-Craft completely inflates in just over a minute and its compact size when stowed can be stored in most apparatus compartments.

- » Applications include swift water, flat water, ice, snow
- » 12 ft long and 58 in beam
- » Open transom for easy victim retrieval
- » Shallow draft for easy pivoting and maneuverability
- » Rapid deployment design, inflation in minutes using SCBA or compressor
- » Lightweight, only 60 lb
- » High-visibility colors for identification
- » Field repair kit included
- » RIT-CRAFT Boat includes:

(1) RIT-CRAFT Bag	(2) Paddles	(1) Foot Pump
(1) Repair Kit	(1) Tether Line-Bright	(1) Tether Line-Dark
(1) Pressure Gauge	(1) Filler Gun	(1) Floor Stinger

RIT-CRAFT CMC 478103

NRS RESCUE BOARD

Lightweight, rigid and constructed for backcountry durability, the NRS Rescue Board is designed to meet the most demanding needs of swiftwater rescue professionals..

- » Drop-stitch construction allows the board to be inflated up to 20 psi, rivaling a foam or composite board in rigidity but easily folds for compact transport and storage.
- » A Leaffield A6 Pressure Relief Valve engages at 20 psi, protecting the board from damages caused by over-inflation.
- » The relief valve is screen protected to prevent river debris from entering and damaging the valve.
- » A grooved and textured deck pad plus two padded handles help the rescuer maintain board control in rougher conditions.
- » Four additional handles on the sides offer rescue victim support.
- » Two reinforced 1.5" stainless D-rings on the sides of the bow are built to handle the strain of towing and lowering.
- » Hi-vis color and large "RESCUE" lettering improves the board's visibility on the water.
- » The Standard Kit includes NRS Super 2 HP Pump and repair kit.
- » The Bonus kit includes a NRS Boat Bag with backpack straps in addition to the pump and repair kit.
- » 3-year Warranty

WATER RESCUE : THROW BAGS & TETHERS

75' WATER RESCUE PROFESSIONAL THROW BAG

The 75' rope is 3/8" in diameter, floats, and has a minimum 2000 lb breaking strength with a nylon core and polypropylene, yellow and orange weave sheath. The MRD175 is a true 75' from knot end to knot end, making distance measuring much easier.

- » Long distance throwing characteristics
- » Easy and fast to re-load
- » Excellent rope shock loading properties
- » Accepts APALS mini strobe in bag
- » Self draining
- » Extra large throat opening for fast and easy re-loading

75' Water Rescue Pro Throw Bag .. MUS MRD175

NRS NFPA ROPE RESCUE THROW BAG

The NRS NFPA Rope Rescue Throw Bag is the ideal choice for the rescue professional or any boater looking for a bag with extra-strong rope that's easy to grasp and hold onto.

- » Weight: 2.7 lbs.
- » Rope Length: 75'
- » Rope Material: Grabline™ by Sterling
- » Rope Diameter: 3/8"
- » Load Max: 3282 lbs. (14.6 kN)
- » NFPA 1983,2012 Certified rope
- » Mesh topped bag for quicker drying
- » Reflective tape on throw bag
- » Webbing loop for glow stick

NFPA Rope Rescue Throw BagNRS 45104-1

NRS PRO COMPACT RESCUE THROW BAG

The NRS Pro Compact Throw Bag is an excellent choice for swiftwater rescue work where light weight and a strong rope are desirable. The yellow Cordura® bag with 70' of 1/4" UltraLine Water Rescue Rope rated at 2495 pounds is easy to stow and highly visible.

- » Weight: 1 lb.
- » Rope Length: 70'
- » Rope Material: Polypropylene sheath w/ Spectra core
- » Rope Diameter: 1/4"
- » Load Max: 2495 lbs. (11.1 kN)
- » Mesh on top of bag for quicker drying
- » Reflective tape on throw bag

Pro Compact Rescue Throw Bag .. NRS 45101-01

WATER RESCUE TETHER

This strong tether, made from 1-inch tubular web with a built-in bungee, works as a "live bait" water rescue attachment to your PFD. As a connection between a PFD and a line, the tether enhances attachment options in rescue situations. Comes with brite double-locking connector. Rated strength: 11 kN (2,473 lbf)

Water Rescue Tether CMC 201707

WATER RESCUE : RESCUE KITS & BAGS

WATER RESCUE KIT

The Mustang Survival Water Rescue Kit contains everything the first responder needs to conduct a basic emergency water rescue: 1 M.I.T. 100 Inflatable PFD, 1 Rescue Stick™ and 1 Throw Bag all in a heavy-duty storage case. Complete with a quick reference instruction sheet and desiccant.

- » 1 M.I.T.100 Inflatable PFD (manual) to protect yourself (USCG Type V (Commercial Use); Type III (Recreational Use)
- » 1 MRD100 Rescue Stick™ (automatic) to stabilize the victim
- » Rescue Stick™ has 35 lb of buoyancy providing emergency flotation for multiple victims
- » 1 MRD075 Throw Bag to retrieve the victim
- » 1 customized heavy-duty drop tested, impact-resistant, air and watertight protective case. This case meets military, ATA and federal specifications

Water Rescue Kit..... MUS MRK110

RESQMAX™ SWIFTWATER RESCUE KIT

The Sling Projectile inflates on contact with the water to become a flotation collar for the subject or, at minimum, an easy-to-hold floating ring. The 300-foot (91-m) x 5/16-in (8-mm) Polyspectra line floats and has a tensile strength of 9.8 kN (2,200 lbf). The average launch distance with the sling projectile is 200 feet (61 m).

ResQmax Swiftwater Rescue Kit..... CMC 564020

WATER RESCUE GEAR BAG

Specifically Designed for Wet Conditions

Based on our popular Shasta Gear Bag, our Water Rescue Gear Bag features quick-drain and breathable mesh sides and a durable reinforced vinyl bottom. It can be carried from the top or from the side like a suitcase. The large pocket in the CORDURA® nylon lid holds fins, and the smaller pocket is great for keeping track of incidentals.

Contents not included.

Water Rescue Gear Bag CMC 440752

NRS

NRS NEKO BLUNT KNIFE

The compact, low-profile Neko Knife gives you the same versatile performance as our popular Co-Pilot knife with a sleeker profile and a simple friction-release sheath. Includes smooth and serrated cutting edges, blunt safety tip and integrated bottle opener, plus a comfortable rubber grip.

NRS Neko Blunt Knife NRS 47310-01

NRS TITANIUM NEKO BLUNT KNIFE

Perfect for paddlers and anglers of the salt-water variety, the NRS Titanium Neko Blunt Knife is constructed with corrosion-resistant titanium and features smooth and serrated edges, a blunt safety tip, and an integrated bottle opener.

NRS Titanium Neko Blunt Knife.... NRS 47315-01

NRS CAPTAIN RESCUE KNIFE

The folding, lock-blade NRS Captain Rescue Knife is a great choice for guides and swiftwater rescue professionals. Features a rope cutting hook at the tip and a quick-slicing serrated edge. Unique design includes an efficient rope-cutting hook at the knife's blunt tip.

NRS Captain Rescue Knife NRS 47307-02

CMC

FOX 40 WHISTLE

Without a "pea" that will stick or swell when wet, this whistle works under almost all conditions, including under water. The Fox 40 has a reputation for being one of the loudest whistles made. Its plastic body will not rust or transfer cold like metal whistles. It can be attached to your PFD or Radio Chest Harness to keep the whistle close at hand, but out of the way.

Fox 40 Whistle CMC 180011

ACR FIREFLY® PRO SOLAS STROBE LIGHT

- » State of the art lamp/lens combo for high intensity flash
- » Large sliding switch allows for easy operation by gloved hands
- » Stainless steel retainer securely attaches battery door to case
- » Integral lashing loops provide a secure anchor point
- » Waterproof : Factory tested to 33 feet (10 m)
- » Uses 2 AA batteries (not included)

ACR Firefly Pro Solas Strobe CMC 144930

ACR C-STROBE™

The LED C-Strobe fits easily in a pocket or hangs discreetly when attached to a life jacket or backpack. The flexible lashing loops on the side of the product allow for multiple mounting options including the webbing on your backpack or straps on your life jacket. The Velcro® strap can be secured around the lashing loops and creates countless additional mounting possibilities.

CMC G11™ LIFELINE

Lose Volume, Not Strength

Stronger • Lighter • Less Volume • Superior Knotability

Introducing the first NFPA, G-rated 11 mm rope, made from traditional fibers. This low-stretch Kernmantle rope constructed with a polyester sheath and nylon core offers maximum strength in a lightweight and easy to handle rope. G11™ Lifeline is ideal for rope rescue and rope access operations providing enhanced safety, performance and superior knotability. G11 is constructed with 32 carrier, tandem bobbin, sheath braiding that is optimized for high strength, reduced diameter, and minimal elongation.

Features

- » Kernmantle Construction with Polyester Sheath & Nylon Core
- » Knotability = 0.6
- » Elongation (Per UL Classification)
 - 3.0% @ 1.35kN (300 lbf)
 - 5.5% @ 2.7kN (600 lbf)
 - 7.9% @ 4.4kN (1,000 lbf)
- » Elongation @ 10% of MBS= 6.0%
- » Weight: 5.7 lbs/100 ft
- » Certification: NFPA 1983 General Use
- » 3-sigma MBS (Per UL Classification): 40kN (8,992 lbf)
- » Diameter 11 mm (7/16")
- » Made in the USA

CMC CLUTCH™ BY HARKEN INDUSTRIAL™

- » Single wearable tool suited for efficient hauling, controlled lowering, smooth personal descent, easy ascending and belaying.
- » Stainless steel ratcheting and rotating sheave.
- » Rope loading/unloading is secured with an innovative double-latched side plate design that is independent of the device's attachment point.
- » Anti-Panic brake and force limiting features.
- » The only 10.5-11 mm rope diameter compatible device certified to NFPA 1983 (G-Rated), ANSI Z359.4 and EN 12841/C, 341/2A, and 15151/8.

CMC Clutch	CMC 335011
------------------	------------

MPD™ (MULTI-PURPOSE DEVICE)

The MPD allows you to go from lowering to raising without changing hardware. More than nine years of research and development went into the patented Multi-Purpose Device (MPD), which features major innovations in advanced technical hardware for rope rescue professionals. The MPD's high-efficiency pulley, with an integral rope-grab mechanism, allows it to be used as a lowering device on the main line and belay line systems and be quickly changed over to a raising system without switching out or replacing hardware. The combination of essential features into a single device simplifies on-scene rigging, expediting the rescue.

CMC MPD	CMC 333010
---------------	------------

DOUBLE CLUTCH TTRS KIT

The Double CLUTCH Twin Tension Rope System (DCTTRS) Kit delivers best practice, twin tension hauling and lowering for any rescue or training operation. This kit comes with two color-coded RigTech Packs™ that each carry independent hauling/lowering systems designed to work together in mirrored or nested configurations. Rescuers can use these components to build mechanical advantage systems on both 200ft 11mm CMC G11™ Lifelines simultaneously including a 3:1, 3:1 with change of direction, or complex 5:1. These ready-to-go systems minimize gear sorting and allocation. Rescue teams can shoulder their RigTech Packs knowing they have everything they need to quickly and efficiently deploy twin tension rope systems (TTRS).

- » Two self-contained, ready-to-go hauling/lowering systems with MA of 3:1 and 5:1
- » Color-coded components including RigTech Packs, CMC G11 Lifeline, and webbing
- » Compatible kit components for deploying a variety of twin tension rope systems
- » CLUTCH ratcheting, rotating sheave increases hauling efficiency and lowering control
- » CLUTCH Anti-Panic brake and force limiting features increase rope system safety
- » Kit is designed for combining two CLUTCH devices in Double CLUTCH Technique
- » Includes CMC DNA ANSI Carabiners for CLUTCH alignment on a single anchor plate
- » NFPA G Rated CLUTCH and NFPA G Rated CMC G11 Lifeline 11mm (7/16in) provide strength with less weight and volume

DOUBLE CLUTCH TTRS KIT CMC 501411

CMC AZTEK PROSERIES® SYSTEM

The AZTEK (Arizona Technician's Edge Kit) is used worldwide and offers more than 100 rigging solutions in a single bag. This system now includes an updated AZTEK ProSeries Pack that has improved fabric durability, new reflective piping, and a fresh OD Green color. The pack is feature rich with 1000D nylon/Tarpaulin construction for abrasion resistance, mesh panel for ventilation and drying, Garage Pockets™ to protect cord, double-zippered top compartments, and tension lock buckles for carrying on the waist or thigh.

The CMC AZTEK ProSeries System is the first AZTEK system to be UL Classified to NFPA 1983 (2017 ED) – General Use – Manufactured System.

AZTEK PROSERIES® SYSTEM CMC 500104

ATOM™ ACCESS HARNESS

- » Large ID aluminum D-rings at the waist, sternal and dorsal attachment points keep the harness lightweight, yet allows room for multiple carabiners.
- » Steel adjuster buckles are low profile and allow for maximum and efficient adjustment.
- » Aluminum side D-rings provide lightweight work positioning attachment points.
- » Chest Ascender HC by Climbing Technology
- » Hard coat anodization resists wear
- » Unique integrated design centers unit for efficient rope ascent and enables replacement.
- » Molded gear loops with high impact, cold resistant, polypropylene core provide easy gear stowage and retrieval.
- » Four Tool Loops: Two at the rear waist and one at each leg pad for additional gear stowage.
- » Workseat attachment points located at the waist to connect the CMC Skysaddle.

ATOM™ ACCESS HARNESS.....CMC 20222X

FIRE RESCUE HARNESS™

Used worldwide by fire department rescue teams, USAR teams, helicopter crews and wilderness SAR teams, this popular harness features multiple D-ring attachment points and our JackBack™ removable padding with breathable D3 cloth, which keeps shoulder straps separated and makes donning and doffing a breeze. The dorsal D-ring allows adjustment for different size users, but stays in place when loaded, greatly increasing comfort. The front waist D-ring allows a comfortable, stable sitting position for rappels and the sternum D-ring works well for helicopter hoists. Gear loops offer easy access to equipment, and quick-connect shoulder straps and leg loops make donning the harness quick. Pads on the leg loops can be adjusted to the most comfortable position. The front lift assembly accepts screw links for adding a chest ascender or safety lanyards. Attachment points: front waist, sternal, dorsal, sides.

FIRE RESCUE HARNESS, LG/XLCMC 202824

LEVR™ ESCAPE SYSTEM

LEVR Escape System includes:

- » LEVR descender reeved with 15.2 m (50 ft) of 11 mm Fire Escape Web™ (UL Classified to NFPA 1983 – FR Escape Web)
- » Flash.2 Escape Anchor (UL Classified to NFPA 1983 – Escape Use)
- » Nomex® fabric waist carry bag (designed for right- or left-handed deployment)
- » ProTech™ Aluminum Auto-Lock Carabiner (UL Classified to NFPA 1983 – Technical Use) with sewn Kevlar® fiber tether.

LEVR Escape System Features:

- » LEVR design provides smooth and reliable edge transition, minimizing potential for hang-up at window sill
- » Engineered for quick, easy horizontal payout of web to allow fast egress from remote anchor points
- » Designed to reduce impact force on escape anchor if shock loaded during bailout
- » Low-profile side carry bag designed for right- or left-handed deployment
- » Fire Escape Web™ is constructed from 100% Technora® fiber for high strength and heat resistance, and dramatically reduces space required for storage
- » Ergonomic design features non-slip grip

LEVR™ ESCAPE SYSTEMCMC 500360

ARIZONA VORTEX KIT

The Vortex is a tripod, bipod and monopod in one all-inclusive kit. Its precision machined two-piece head can be rigged as a standard tripod or, in advanced applications, as an A-frame, Sideways A-frame, Gin Pole or a multitude of other configurations. The tripod can be formed into an Easel A-frame with adjustable leg lengths. The versatile third leg allows rescuers to set up an artificial high directional in virtually any urban, industrial or wilderness application. When configured in the A-frame and Easel A-Frame applications, pulleys can be attached directly into the Head Set using the included quick-pins rather than carabiners, retaining valuable headspace and working clearance. The Vortex is ideal for use with high lines and tracking line offsets. The extra attachment points also work well for rope access where several lines may be needed over the edge. Both the Raptor and Flat feet sets are included to provide secure footing options on varying terrain and industrial surfaces.

The Arizona Vortex Kit comes complete with:

- » 2-Piece Head Set
- » Head Set Pulley Wheel
- » Head Pins (4)
- » Inner Legs (3)
- » Outer Legs (7)
- » Leg/Foot Pins (17)
- » Flat (Omni) Feet (3)
- » Raptor (Claw) Feet (3)
- » Orange Pin Flags (21)
- » Adjustable Hobble Straps (3)
- » 8mm Tether Cord (40ft)
- » User Manual
- » Vortex Bag System

Arizona Vortex Kit CMC 727300

CUSTOM BOUND PRUSIK CORD 12"

Field testing with Special Forces and Army Rangers lead to the development of a custom sized prusik cord that is the perfect length for single or double ropes. The custom length allows the user to connect RopeSafe custom non-locking carabiner to the prusik cord and to the load-bearing member of RopeSafe™. This allows the user to position RopeSafe™ where needed. The prusik grips the rope so the user can hold the stabilizing handle to get into a good rappelling position!

Custom Bound Prusik Cord 12"RSU PC

RAT PACK™

Made especially for storing and carrying a Rope Access Technician's equipment — hence the name RAT Pack — or a rescuer's rope gear, this rugged water-resistant pack was designed to take abuse in harsh environments. With a features-loaded new design, the next generation RAT Pack protects and organizes your gear, and won't let you down when the going gets tough.

Rat Pack CMC 440554

RIGTECH PACK™

Stay light, fast and ultra organized with CMC's RigTech Pack. The innovative pack was designed to fulfill ongoing requests from rescue teams in need of a specialized rigging solution. The full-featured pack delivers uncompromised organization for backcountry and urban rescue teams to rope access technicians alike.

Red CMC 441103

Blue CMC 441102

WHITNEY 2.0™

The updated Whitney Pack in this 2.0 version includes upgraded storage capacity and organization, and a more durable fabric in a new color. Large enough to carry gear and provisions to support you in the field for a multi-day mission, the Whitney 2.0 contains plenty of pockets and features to keep everything well organized and easily accessible.

OD Green CMC 440648

ROPE EQUIPMENT BAGS™

Made of tough water-resistant 1,000-denier CORDURA® nylon, our proprietary Rope & Equipment Bags with multi-loop straps keep your rope rescue kit together, ready to go with everything in its place. The padded backpack-type shoulder straps make a fully loaded bag easier to carry. Your hardware stays together so that it can be pulled out of the pocket before you deploy the Rope & Equipment Bag as you would an ordinary rope bag.

CREWBOSS™

TRADITIONAL BRUSH SHIRT – 6.0 OZ NOMEX YELLOW

Based off the original Forest Service style brush shirt, the Traditional Brush Shirt is designed for optimal functionality on the most high pressure fire lines. The Traditional Brush Shirt includes features such as; large spade-style pockets with hook and loop closures, as well as hook and loop closures around the cuff to ensure a tight fit around the glove. The Traditional Brush Shirt provides superior personal protection with dependable strength and is lightweight, breathable and inherently flame resistant.

- » Certified to current NFPA 1977 Standards
- » Large spade-style pockets with hook and loop closures.
- » Forest Service style button-front closure.
- » Hook and loop cuff closures ensures tight fit at the glove.
- » Extra-long square-cut tails.
- » Nomex® thread throughout.
- » Stress points bartacked at 10 locations.

6 oz. Nomex Yellow (Sizes: S-3XL) CRW WLS0205

CREWBOSS BRUSH SHIRT – 5.8 OZ TECASAFE YELLOW

The CrewBoss Brush Shirt builds on the functionality and durability of our Traditional Brush Shirt, with a few key new features to improve performance in the field. A new standup collar with a hook and loop throat strap closure offers improved neck protection and comfort over the traditional button collar. The front closure buttons have also been replaced with hidden snaps, making changing a breeze, and giving the shirt a more streamlined look.

- » Certified to current NFPA 1977 Standards
- » Two large breast pockets with hook and loop closures.
- » Shoulder mounted pen pocket
- » Full-cut shoulder and body design.
- » Hook and loop cuff closures ensures tight fit at the glove.
- » 30" extra-long, square-cut tails.
- » Unique 3" stand-up collar with throat strap.
- » Fabric-covered, nickel-plated, snap front closure.
- » Nomex® thread throughout.
- » Stress points bartacked at 10 locations.

5.8 oz. TecaSafe Yellow (Sizes: S-3XL) CRW WLS0135

GEN II RESPONSE JACKET – SIGMA 4 STAR

The future of single layer wildland PPE has arrived with the introduction of the CrewBoss Gen II Response Jacket. This NFPA1977 certified jacket achieves new levels of breathability, thermal protection, and comfort. Combine the CrewBoss Gen II Response Jacket with a pair of CrewBoss Gen II Tactical or Uniform Pants, and you have the most advanced wildland garment system on the market.

- » Certified to NFPA 1977, NFPA 1975
- » Extra large YKK zipper closure
- » Sewn in radio pocket
- » Bellowed chest pocket lies flush when not in use
- » Dual mic tabs
- » Scotchlite silver reflective trim on both biceps
- » Hook & loop collar and cuff closure
- » Bi-swing back for added mobility

Gen II Response Jacket (Sizes: S-3XL) CRW WLS0772

INTERFACE COAT – 6.0 OZ NOMEX YELLOW

The CrewBoss Interface Coat is ideal for the urban firefighter. Its unique cut provides superior thermal protection while allowing for an enhanced range of motion. With its full-cut design and caped shoulders, the Interface Coat provides the firefighter with a comfortable fit.

for full freedom of movement.

- » Certified to current NFPA 1977 Standards
- » Full zippered front closure with #10 brass zipper mounted on Nomex® tape.
- » Caped shoulder design with built-in ease
- » Gusseted cuff with hook and loop closure for adjustment.
- » Radio pocket with microphone tab.
- » Unidirectional front cargo pockets with concealed hand warmers.
- » Large interior storage pocket.
- » Glove hanger tab.
- » 3M Scotchlite™ Triple Trim around base, across back, and around forearms.
- » Nomex thread throughout.
- » Alpine-style collar.

Interface Coat 6 oz. Nomex Yellow (Sizes: S-3XL) CRW IFC0105

BRUSH COAT – 6.0 OZ NOMEX YELLOW

The CrewBoss Brush Coat remains the traditional wildland firefighter's first choice. The optional button-in thermal liner adds extra warmth when spiked out or during any night operation. The raglan-cut sleeve, snap front closure and turnout-style collar encompass the classic elements of personal protective coats that have worked for firefighters across the country.

- » Certified to current NFPA 1977 Standards
- » Large right chest pocket with hook and loop closure.
- » Radio pocket on left side of chest.
- » Two large lower pockets with hook and loop closure.
- » Adjustable hook and loop cuff closures.
- » Fully concealed, nickel-plated, snap-front closure.
- » Raglan-cut sleeves.
- » Turnout-style collar with self-storing throat strap.
- » Leather tabs for button-in thermal liner.
- » Stitched with Nomex® thread throughout

CREWBOSS BRUSH PANTS

For decades wildland firefighters have depended on the quality and comfort of the CrewBoss Brush Pant. Over the years we have made adjustments and added features based on real feedback from the fire line. However, at its heart this is the same classic design that you have always loved. No other brush pant has such a long history of trusted toughness.

- » Elastic back band for ultimate freedom and comfort.
- » Oversized belt loops accept 2" web belts.
- » Two generous rear pockets.
- » Oversized, extra-deep front slash pockets.
- » Extra roomy leg and seat cut.
- » Original crotch reinforcement panel.
- » Unidirectional cargo pockets prevent snagging
- » Hook and loop ankle straps covered with self fabric for heat resistance.
- » Brass, self-locking zippered fly with snap closure.
- » Nomex thread throughout.
- » Stress points bartacked at 38 locations for maximum durability.

DUAL COMPLIANT BRUSH PANT – 6.0 OZ NOMEX

Certified for both NFPA 1975, and 1977, CrewBoss Dual Compliant Pants make it easy to transition from the station to the fire line without the use of turnout pants. This is ideal for departments that frequently respond to fires along the wildland urban interface. Dual Compliant Pants allow for faster response times, and cut back on heat exhaustion by offering a higher THL than a traditional double layer system.

- » Certified to current NFPA 1975 & 1977 Standards
- » Hook and loop ankle straps covered with Nomex® fabric for heat resistance.
- » Sizes: S-3XL
- » Inseam: 28 - 40

WILDLAND FIRE HELMETS

Bullard Wildfire® helmets are specifically engineered to meet the special needs of wildland/forestry firefighters. Manufactured from heat-resistant thermoplastic for superior impact and penetration protection, Wildfire helmets meet and exceed the performance specifications of NFPA 1977-2016. These helmets also exceed all major state fire codes for wildland firefighting.

- » Easy to adjust Flex-Gear® ratchet sizing suspension
- » Thermoplastic shell
- » Available in cap style or full brim hat style
- » Reflective lime-yellow stripes
- » Three goggle clips
- » Adjustable chinstrap
- » Comfortable 6-point suspension
- » Leather ratchet cover (on ratchet models)
- » Absorbent cotton brow pad
- » Velcro® attachments inside shell
- » Meets NFPA 1977 specifications
- » Now available w/ an Extra-Large Full-Brim shell

BR5 MKII C Helmet	PHN BR5MKIIC

CU-30R - PROGUARD® LOGGER SYSTEM

ProGuard™ Integrated Logger System non-vented combines three highly-functional components: head, face and hearing protection. Increases on-the-job efficiency, delivers all-day comfort and maximum protection in one unit. Features our award-winning Tectra™ safety cap, QuickSnap™ cap mount earmuffs and nylon visor.

ProGuard® CU-30R	ELX CU-30R ORG
------------------------	----------------

INFLUX FIREPRO 1977 WILDLAND EX

The ESS Influx FirePro-1977 EX wildland goggle features the patented Adjustable Ventilation System™ AVS, for either a dust-free, fully-sealed mode or a fog-free, open-ventilation mode. The patented Speed-Clip™ system facilitates quick strap adjustment, even with gloves on. All goggle components are heat and flame resistant, including the durable OpFoam™ face padding.

Influx Firepro 1977 Wildland EX ESS EE7018-25

Influx Firepro 1977 Wildland FS ESS EE7018-24

X-TRICATOR W/CLEAR

The ideal solution for structural firefighters who understand the need to have primary eye protection for extrications and forcible entry work. The ESS X-tricator™ can be stored in a pocket and deployed using the Snap-On/Snap-Off™ helmet mount system, providing the performance of an ESS goggle in seconds.

The one-piece wrap-around strap features the patented ESS Speed-Clip™ system, which adapts to all wildland and rescue helmets and facilitates quick strap adjustment, even with gloves on.

X-Tricator w/ Clear ESS 740-0287

STRIKETEAM XTO W/CLEAR

The Striketeam XTO™ features closed-cell face padding for maximum durability and ease of cleaning. The open-cell vent foam provides filtered ventilation, allowing the humid air to escape, but prevent airborne particles from getting in.

All Striketeam™ goggle components are heat and flame resistant, including the face padding and vent foam, and the lenses provide maximum impact protection and optical clarity.

Striketeam XTO w/ Clear ESS 740-0283

FIREPRO 1977 ASIAN FIT

The ESS FirePro-1977™ Asian-Fit is the first compact fire/rescue goggle specifically designed to countour Asian faces. ESS Asian-Fit lenses have flatter curvature for improved fit. The wrap-around strap secures to any helmet with Velcro® tabs. The FirePro-1977™ Asian-Fit is compliant with wildland fire equipment performance requirements, including NFPA 1500 (350°F for 5-minute oven test).

Ballistic Protection Standards
Compliant With: NFPA 1977-2018 Edition, ANSI Z87.1-2015
U.S. Federal OSHA, CE, UL

HAIX MISSOULA

Hiker Boots for Wildland Firefighting

Looking for an innovative alternative to those traditional logger style wildland fire boots? The HAIX® Missoula is the boot you've been looking for.

The HAIX Missoula boot was built especially for the wildland firefighter and hiker. The lighter weight alleviates leg fatigue while on those long hikes, since the less weight you have on your feet, the less energy you have to expend while walking. HAIX® Missoula uses thicker, breathable European leather and minimal seaming to increase stability and also durability of its wildland hiking boots.

BRUSH FIRE TOOL SYSTEM

This one-of-a-kind system allows firefighters to have the option to interchange various head attachments. Our one inch steel handle has heavy stainless steel threads that join the items. Also includes Celtex Grips.

Choose 5 Head Attachments:

- 1 - McCould Tool
- 2 - Brush Rake
- 3 - 14 Tine Forged Rake
- 4 - Pointed Shovel
- 5 - Square Shovel
- 6 - Shoe-Hoe Pick
- 7 - Trash Hook
- 8 - Brush Broom

The handle is 54" with an aluminum ram knob. The pole is constructed of lightweight steel and has triple Celtex grips.

Brush Fire Tool System FHU BFT-5

RANGER - RIGID-PAK BRUSH PUMP WITH PISTOL GRIP

"Thick Walled" polyethylene plastic tank is thicker and uniform - will take rough handling and harsh environments. "Non-slosh" rounded design keeps the unit comfortable, balanced, and steady. The full padded pillow comforts that impinging feel of other tanks. The unit is completely corrosion resistant - will not rust like galvanized steel models and is less expensive than stainless steel tanks. Adjustable padded shoulder straps are rugged, yet fit comfortably and distribute the weight evenly down your back. Tank holds 5-gallons.

Deluxe Model includes padded and adjustable shoulder straps.

Double Deluxe Model has a female quick connect fitting on the tank and a male fitting on the hose. This allows removal of the pump to increase storage space of the tanks. When using, simply connect the male to female with its quick connect application and your in operation.

INTRINSICALLY SAFE FLASHLIGHT W/ MULTI-ANGLE MOUNT

This flashlight is cETLus, ATEX, IECEx, and INMETRO listed Intrinsically Safe for use in both above and below ground hazardous locations where explosive gases and dust may be present. The 5418 uses an LED rated at 200 lumens that works with a deep parabolic reflector to create a 143-meter flashlight beam. The tail switch provides momentary or constant-on functionality. This light meets the requirements of NFPA-1971-8.6 (2013) from 3 AA premium batteries (not included). The mount can be attached to either side of the helmet to provide hands-free illumination. Additionally, the user can set the angle of the mount through 140 degrees of adjustment to provide clearance around face shields, goggles or other helmet-mounted equipment.

LRAD 100X MAG-HS KIT

Portable Communication for Every Operational Scenario

The LRAD 100X MAG-HS Kit consists of an LRAD 100X, a high-strength magnet mount that clamps to, and unclamps from, magnetic surfaces with a turn of a knob, an LRAD Wireless Kit for remote operation, an AC-powered battery charger, an MP3 player with an all-weather record-on-the-fly mic, a watertight, dustproof hard case, and other accessories. Self-contained, portable, and featuring an extended voice broadcast range out to 600 meters, the LRAD 100X ensures voice messages are clearly heard and understood. LRAD's optimized driver, waveguide, and power efficiency technologies enable the LRAD 100X to provide several hours of clear, continuous communication from a single battery charge.

- » 8-hour rechargeable battery
- » Optional power sources
- » Simple operator interface
- » Water resistant
- » Operate easily with gloves or MOPP gear
- » HD Camera (optional) – Quick connect/disconnect camera and mount for recording video and audio during LRAD operation. Includes 4GB micro SDHC for up to 210 minutes of date and time stamped recordings

CONFINED SPACE COM SYSTEMS RESCUE KIT

Con-Space Hardline Rescue Kit 3 is designed for:

- » Confined space rescue » Urban search and rescue
- » Collapse rescue » High angle rescue

This entry level kit enables simultaneous, two-way voice communications between the rescuers and the victim. Rescuers use it where traditional radios fail or when hands-free, secured communications or intrinsically safe communications are required.

Attendants communicate with entrants and monitor their safety up to 1500 feet. The Rescue Kit 3 comes with 100 feet of cable.

- » Hands free two-way voice communication
- » Use in encapsulated suits with respirators or any make/model of breathing apparatus
- » Tested to MIL-STD 461
- » Private network
- » Emits no RF signals
- » Intrinsically safe approved
- » Rugged, reliable, chemical resistant
