## MULTI-THREAT ENSEMBLE

- Offers the highest level of protection in the Homeland Defender® line from liquid, vapor, and particulate forms of CBRN agents
- Made of GORE® CHEMPAK® Ultra-barrier fabric and is certified to NFPA 1994 Class 2 and NFPA 1992 for protection against chemical warfare agents (CWA's) and toxic industrial chemicals (TIC's) at concentrations at or above IDLH when worn with approved SCBA systems
- Non-permeable membrane is laminated to a 4.5 oz. NOMEX IIIA outer shell, providing excellent static dissipative performance and resists melting, dripping, and burning when exposed to high heat and flame

## FOOTBALL PLUG

- Water activated foam plug used to temporarily stop the flow from a leak
- Effective, time saving
- Sets rock hard in minutes
- No mixing, no mess

## EMERGENCY KITS

INDIANSPRINGS

Emergency Kits are designed to contain chlorine leaks on valves, cylinders, and tanks

## COMPACT SEISMIC/ACOUSTIC LISTENING DEVICE

SAVOX

- A two-sensor seismic/acoustic listening device designed specifically for hasty searches
- Easy to read clear display panel
- View simultaneously the strength from all sensors to ID the strongest signal
- Noise reducing filters for better audio quality
- Lithium-ion batteries compatible with SearchCam 3000

## GRIFFIN G510

- Identify chemicals in the field within minutes
- Trace detection, confirmatory resolution
- Large touchscreen and Method Selector Wizard guides users through analysis steps in the field
