SAFEWARE®

CONTRACT SOLUTIONS FOR AMERICA'S HEROES | SINCE 1979

ABOUT
SAFEWARE, INC.

Safeware has helped public procurement and first responders prepare their teams with the products and solutions they need when they need it since 1979. Just like you, our company is full of people who are knowledgeable and passionate about protecting our nation. Safeware is on your team 24/7, 365 days of the year. Count on us to deliver quality brand name products at contract prices with expert advice and hassle-free service.

WE WERE THERE

For over 40 years, we've been supplying first responders with products for public emergencies including the Oklahoma City Bombing, oil and chemical spills, 9/11 attacks on NYC and the Pentagon, biological attacks on Capitol Hill, Hurricane Katrina, SARS, Ebola, COVID-19 and more. We are proud of our legacy of providing emergency products during the most difficult periods in our nation's history.

We are protecting those who protect our country, serving America's largest cities and counties. Whether you are on the SWAT team, the rescue team, or in the Municipal Water Department, Safeware is by your side.

OMNIA® | Public Sector

Public Safety & Emergency Preparedness Contracts

Lead Agency: Fairfax County
Contract Number: 4400008468

This Fairfax County Contract, available through OMNIA Partners, has been competitively solicited and awarded using the Lead Public Agency model. By accessing this contract via an intergovernmental cooperative agreement, public agencies are able to satisfy the solicitation process and purchase their supplies and services at a reduced cost. Agencies that use this contract save time and money in the purchasing process and typically experience an average of 5% savings over traditional methods in the procurement process alone.

TEAM WENDY

GALVION

AVON PROTECTION

EXFIL® BALLISTIC SL

With a ballistic rating of NIJ Level III-A, it exceeds current ACH Blunt Impact Protection requirements and offers optimal comfort, fit and stability.

» Hybrid composite shell for increased strength and a unique geometry for ideal fit

» Boltless CAM FIT™ retention utilizes a Boa® Fit System with Cam Lock sliders for one-handed adjustment. Left Eye Dominant (LED) option also available.

» Zorbium® foam liner provides customizable comfort while protecting against blunt impact, and allows for an overhead communications headband

» Lanyard compatible Wilcox® shroud secures any standard NVG mount

» Complete system weight of 2.6 lbs. (size 1) and 2.75 lbs. (size 2) includes the helmet shell, accessory rails, impact liner and retention system

VIPER P4 MISSION READY

Galvion has modernized the traditional advanced combat helmet: The Viper P4 system is up to 24% lighter than the legacy U.S. Army ACH and represents the first significant advancement in ACH technology in over 15 years

KIT INCLUDES

» Viper P4 High Cut Helmet Shell
» Viper Front Mount
» Viper Interlocking Rails
» Modular Suspension System
» Hardware Kit

Available in High Cut, Full Cut or Mid Cut

F70™ – BALLISTIC HELMET

» Shell is manufactured with advanced Ultra-High Molecular Weight Polyethylene (UHMWPE)

» Modular and configurable to support a variety of mission profiles

» Multiple accessories available including visor. Ballistic mandible available for Mid-Cut helmet only

» Maintains the same coverage as the ACH helmet

EXFIL® LTP   **TEAM WENDY**

The EXFIL® LTP (Lightweight, Tactical, Polymer) bump helmet provides impact protection for maritime environments and a stable, comfortable platform for mounting night vision and other accessories. The built-in NVG shroud* utilizes an integrated Wilcox® machined aluminum shroud insert. The helmet features a Zorbium® foam liner along with a CAM FIT™ Retention System with easily adjustable Cam Lock sliders and a micro-adjustable BOA® Fit System.

The EXFIL® LTP is available with your choice of accessory rails: EXFIL® Rail 2.0 or EXFIL® Rail 3.0. The EXFIL® Rail 2.0 accessory mounting system is compatible with most EXFIL® accessories and features T-slots for custom mounting. The EXFIL® Rail 3.0 accessory mounting system is compatible with all EXFIL® accessories, including the EXFIL® Ballistic Visor and the EXFIL® Face Shield.

N49 ULW™ – BALLISTIC HELMET

» Shell is manufactured with advanced Ultra- High Molecular Weight Polyethylene (UHMWPE)

» No holes through the shell of the helmet for any accessories other than the standard 3 hole NVG bracket eliminating the possibility for secondary projectiles

» Bolt-less retention and no-bolt-thru rails reduces weight and maximizes industry standard ballistic protection

» Full tactical kit is standard configuration with Rails, NVG and Bungees

» High-Cut allows for easier integration with ear protection, communications and other tactical accessories

SAFEWARE®
CONTRACT SOLUTIONS FOR AMERICA'S HEROES | SINCE 1979

CAIMAN BALLISTIC HELMET SYSTEM

GALVION

The Caiman Ballistic Helmet is a streamlined, lightweight next-generation Special Operations helmet solution. A series of modular accessories enhance this helmet suite, ensuring users are equipped with the lightest, most comfortable, and highest performance head protection possible. This item is only available for Military, Law Enforcement & Government end users.

United Shield International

SPEC OPS DELTA GEN II

Made from advanced Aramid composites and provides lightweight robust protection from ballistic and fragmentation projectiles as well as other low energy threats.

- » Carbon fiber Universal NVG mount with guaranteed no-rattle fit
- » USI Rapid Adjustment Dial BOA® retention system with 2-way adjustments
- » 4D Combat Pad ultra comfort system with phase change technology
- » Removable suede split chin strap
- » NIJ 0106.01 Level IIIA, HP White 0401.01B Level IIIA and exceeds US MIL-SPEC for ACH helmet for 2, 4, 16, 64, 17 grain fragments

ACH/MICH MIL BALLISTIC HELMET

The new US Military design featuring a low profile compact helmet with minimum target area and weight.

- » Features an advanced 7 comfort pad system
- » Offers improved head stability with a 4-point adjustable harness, suede covered chip cup and nape strap
- » Ballistic performance to NIJ 0106.01 and HP White 0401.01
- » Shock absorption - US Army ACH Spec for impact
- » Hemi-Anvil, 10ft/sec with less than 150 G's force transmitted to head
- » Fragmentation performance to US ACH Mil-Specfor ACH helmet for 2, 4, 16, 64, 17 grain fragments

PASGT BALLISTIC HELMET

The PASGT helmet is manufactured with state of the art advanced high strength multi-layered Aramid composites laminated under heat and pressure.

- » Excellent bullet resistance
- » Minimal deformation at a weight of approximately 3 lbs.
- » Offers improved head stability with a 4-point adjustable harness, suede covered chip cup and nape strap
- » Ballistic performance to NIJ 0106.01 and HP White 0401.01B
- » Wider cut around ears and collar cut to reduce interference from other equipment

**Ballistic Helmets are customized with many specifications from the user including, size, feel, and color.
Please contact a Safeware Representative for all available options suited for your needs.**

United Shield International

AIRIUS LEVEL II VEST

The Airius level II provides industry leading "WEARABILITY". The uniqueness of this vest is that it provides the areal density weight and thinness of leading polyethylene vests with the flexibility and softness of leading aramid vests.

Never before have these two characteristics been combined at this level of performance to produce the industry's MOST WEARABLE Vest. The Airius-II comes standard with our SPA carrier with "Dry Run" moisture management system to wick away moisture from the body.

The SPA features a 12 point adjustment system, hidden plate pockets, full side coverage, recessed closure system and optional tails.

- » NIJ 0101.06 certified Level II armor
- » Weight: 0.63 psf
- » Thickness: .22"
- » Performance: 9mm v50 - 1705 fps/.357 v50 - 1685 fps

» Lightweight, ergonomically designed.

Scorpion PERSONAL PROTECTIVE EQUIPMENT

» Outer shell: Super high impact ABS moulded shell. Ridged design gives excellent protection against impact while keeping weight to a minimum.

» Inner foam: Low-density impact absorbing polyethylene moulded foam reduces weight and allows circulation of air around the product.

» Guards should be worn beneath a compatible flame retardant coverall. The outer moulding offers limited flame spread in accordance with UL-94 HB.

» Certification: Meets the requirements of UK Home Office Centre for Applied Science and Technology Standard 20/07.

(A) CORRECTIONS - CHEST AND BACK PROTECTOR

» Chest protection: From collar bones to waistline
» Back protection: From shoulder blades to waistline

SZ: SM-LG / UOM: PR / COLOR: BLACK .... DMS CH/BC

UPT ARK-PC PLATE CARRIER

Developed to give the end user additional ballistic side wing protection utilizing the USI concealable shape.

» "Y" internal vent system
» High-performance cooling mesh
» Upgradeable removable shoulder straps
» G-Hook ladder adjustment system
» Front and rear bottom loading 10" x 12" plate pockets
» L & R mic tabs
» Upgradeable MOLLE cummerbund sleeve with bungee pulls

UPT ARK Plate Carrier .... USI UPT-ARK-PC-USI3

FORTRESS UNIVERSAL PLATE CARRIER

» Provides full protection to the front, back and sides
» Capable of accepting Level II and IIIA ballistic inserts
» Comes with a gusset sewn bottom loading plate pocket that accepts 10 x 12 plates and a heavy-duty operator rescue drag handle
» 360º MOLLE webbing, and front gusset sewn map/tool pocket for quick mission access is fully adjustable in girth and length to fit multiple sizes
» Sizes SM-XL

FUPC Plate Carrier, Navy Blue .... USI FUPC-SZNV

UPT ARK-TV TACTICAL VEST

» Advanced shoulder pads
» Shoulder strap tunnel
» Left & right mic tabs
» External top loading plate & trauma pocket
» Front id placard field 3" x 9.5"
» Front and back wire routing ports
» Front split MOLLE kangaroo flap
» Back MOLLE flap
» "Y" internal vent system
» MOLLE cummerbund G-Hook ladder adjustment system

FIRSTSPEAR®

ASSAULTER ARMOR CARRIER (AAC)

Purpose built for Direct Action user roles, the Assaulter Armor Carrier (AAC) utilizes the latest in First Spear Technology to keep weight to an absolute minimum while maintaining true mission flexibility. The AAC is the lightest plate carrier and has the lowest profile. It has minimal padding on the shoulder straps which helps keep you streamlined.

» Ballistic Armor Inserts complying with NIJ Category IIIA.06
» Direct action armor system
» Designed to be light and fast
» Breathable mesh body
» Quick release Tubes™ technology
» 6/12™ laser cut platform
» Made in the USA

AAC, 6/12 .... FSL 500-12-0065-5005-04

CRIME SUPPRESSION VEST

A more advanced modular external carrier for your issued concealable soft body armor.

» External carrier for soft body armor
» Tubes™ quick release technology
» Lightweight 6/12™ platform
» Internal cummerbund for support

Crime Suppression Vest............ Call for Options

Scorpion PERSONAL PROTECTIVE EQUIPMENT

INTERLOCKING SHIELDS

» Lightweight personal protective shield

» Can be used individually or locked together to form a continuous barrier

» 4 mm thick clear Makralon Polycarbonate. Offers excellent resistance to impacts, thrown objects and liquids while giving the user an excellent field of vision ahead

» Handles: Forearm hook and double D handle (optional locking folding handles). Aluminum handles with rubber hand grips. Bolted through the blade and backing plate for maximum strength and security

4' Interlocking Shield	DMS SHD1200INT
6' Interlocking Shield	DMS SHD1800INT

SOLO SHIELD

» Lightweight (2.0 kg) personal protective shield

» Forearm loop allows the shield to be retained while leaving both hands free to use other equipment

» 4 mm thick clear Makralon Polycarbonate. Offers excellent resistance to impacts, thrown objects and liquids while giving the user an excellent field of vision ahead.

» Handles: Swivelling steel forearm loop and aluminum grab handle. Bolted through the blade and backing plate for maximum strength and security.

» Shield handles are mounted on a foam/ aluminum backing plate which significantly reduces transmission of vibration to the forearm and through the handles

» 650 mm diameter x 4 mm thick

MP-PAPR™
MULTI-POSITION POWERED AIR PURIFYING RESPIRATOR

A departure from traditional rigid plastic construction systems, the Avon MP-PAPR is the world's first flexible PAPR unit, constructed from the same field proven Chlorobutyl rubber, as used for the Avon 50 series masks range.

The Avon MP-PAPR module delivers a compact and easily integrated PAPR unit providing cooling, lower user burden and reduced pulmonary stress.

- » Increased operational time
- » Direct MOLLE mount to ballistic vests or other equipment
- » Automatic flow control preserves battery life
- » Combination hose for use with supplied air cylinders

MP-PAPR Kit, STD Fabric, BLK	AVO 603811
MP-PAPR Kit, FR Fabric, BLK	AVO 605395

RESPONDER® PAPR

MSA The Safety Company

With its industry-leading motor-blower and constantly filtered airflow, the belt-mounted Responder CBRN PAPR is ideal for first responders, military, and special ops personnel who require non-IDLH respiratory protection for up to 8 hours.

C420 Responder PAPR Kit	MSA B-60141-030

CS-PAPR™ - COMBINATION SYSTEM POWERED AIR PURIFYING RESPIRATOR

The capability to change levels of protection dependent on the threat, now provides the wearer with increased duration on target and safer operation.

Utilizing the Avon MP-PAPR module along with the patented combination hose module, the wearer can seamlessly switch between APR, PAPR and SCBA modes of protection. The single air hose connection for all modes allows the wearer to retain a clear mask cheeks for optimum weapon sighting.

- » Optional carrier module allows rapid removal of SCBA portion
- » Re-configurable to work as Avon EZAir or MP-PAPR
- » Short duration escape cylinders integrate with CS-PAPR
- » Ability for user to switch modes in one simple action
- » Type-examination approval: PPE Regulation 2016/425/EU - Module B: Certificate CE 684849

CS-PAPR	AVO CSN012432
CS-PAPR, Base Kit w/no switch	AVO CSN-01-01-21-24-31-32-401

3M | **SCOTT** Fire & Safety

C420 PLUS PAPR

The 3M Scott C420 Plus PAPR can be used for CBRN and non-CBRN applications. It is ideal for fire departments, law enforcement and federal first responders for protection against CBRN related incidents. The C420 PLUS PAPR is NIOSH CBRN approved when used with the AV3000 (SureSeal version), AV-2000 (grey nosecup), or M120 full facepiece and CBRN Cap-1 canister.

C420 Plus PAPR Kit	SCO 200830-36

ST54™ - ENHANCED MULTI-MISSION TACTICAL OPERATORS SCBA

Avon's state-of-the-art ST54™ Tactical Operator SCBA has been developed specifically for the tactical officer and technician applications where the operator needs to respond to ever changing operational conditions. The ST54™ SCBA is the base to a multi-mission Respiratory Protection System which provides for operational flexibility to the operator and mission commanders in the field to tailor the PPE response based on the available intelligence.

» Twin carrying and single drag handle for easy of mobility
» Lightweight for reduced fatigue
» Quick Disconnect buckles
» Rugged, compact design delivers high flow rates
» Screw-on design allows for DIN 40 thread
» Illuminated gauge for low-light situations in black or luminescent back grounds

ST54 SCBA, 60 min Cylinder	AVO AVONST54
ST54 SCBA, 4500 psi, BLK Gauge, 45 min	AVO ST54 NIOSH

MSA G1 SCBA

Designed solely with your safety and comfort in mind. The G1 SCBA offers integrated and enhanced solutions to exceed your needs today as well as years into the future.

» Facepiece is lightweight and compact (no electronics needed)
» Control module provides dual color LCD and analog displays
» Improved visibility through buddy lights and reflective material
» Heads up display (HUD) shows remaining cylinder pressure in 4 increments via colored LEDs
» Electronic communications are integrated into every unit
» G1 SCBA ergonomics
» Central power system for all electronics
» Available in easily-upgradeable threaded or quick-connect cylinder attachment
» Integrated technology for future expansion
» Customizable

G1 SCBA	MSA A-G1FS-4-4-1-M-A-1-C-1-L-C-R

3M™ SCOTT™ AIR-PAK™ X3 PRO SCBA

The Air-Pak™ X3 Pro SCBA is built on a proven foundation of redundant safety features to help ensure the security and comfort of today's firefighter.

» Easy to remove harness
» New harness materials offer greater resistance to chemical and water absorption to help minimize contamination
» Reflective webbing
» Superior breathablity
» Electronic PAR (ePAR) provides wireless, bi-directional communication between the firefighter and incident command to improve fireground accountability and communications
» New buckle design provides firm hold
» Integrated drag rescue loop
» System integrity alarm provides visual and audible alert
» High flow alarm provides visual and audible alert

TR2
Tactical Respirator II™

Filter Cartridge
1 included

TRS - TACTIAL RESPIRATOR II™

THE TR2 SETS A NEW STANDARD IN TACTICAL RESPIRATORY PROTECTION. Developed in collaboration with Tier 1 operators, it provides a better means of protection while training in compromised environments.

Today's special operations forces understand the importance of protecting their lungs – however, they cannot afford to compromise their ability to perform effectively. This is the foundation upon which the TR2 was designed. By offering a low profile design that's easy to don and integrates seamlessly with varying kit configurations, the TR2 is the most adaptable respirator for tactical units.

No Training Scars
»   Low profile minimizes cheek-weld interference
»   Low-riding seal is eyewear compatible

Superior Field Performance
»   97% Filter Effectiveness at 0.3 microns
»   Very breathable even during strenuous activity
»   Simple filter replacement

Designed for Configurability
»   Multiple strap options for varying kit setups
»   Compatible with Invisio® headsets
»   Accessory port for mic integration

Comfortable for Extended Use
»   Soft-touch medical-grade silicone
»   Works well with facial hair
»   Not designed for medical use

OPERATIONAL SUMMARY

Domestically produced multiple use NFPA 1999 certified PPE is a viable supplement to high volume disposable PPE programs:

» Increased durability and protective performance for higher risk response scenarios

» Contingency capacity option to insure availability of PPE when disposable PPE supply chains are inadequate.

Benefits Over Disposable PPE & AAMI Level 3 Gowns

» Increased protection
  - NFPA 1999 Multiple use certification
  - ASTM F1671
  - 360° barrier coverage

» Higher level of comfort

» Durable & commercially washable between uses

» Extended shelf life

» Stable domestic supply chain

DUPONT™ TYCHEM® 2000 SFR

‹ DUPONT ›

Chemical and secondary flame protection in a lightweight garment. Intended to be worn overy primary flame resistant garments. Also provides an effective barrier against a range of inorganic acids and bases as well as industrial cleaning chemicals and particles.

» NFPA 2113. Section 5.1.9
» Respirator-fit hood lined with Pro-Shield® 6 SFR fabric
» Covered, braided elastic at hood
» Nylon zipper with large metal pull
» Chin flap with double-sided adhesive tape
» Storm flap covers zipper which can be sealed by the wearer with double-sided adhesive strip to prevent intrusion at zipper
» Covered, braided elastic openings at wrist and ankle for tighter fit
» Taped seams
» Sizes: S - 7XL

Tychem 2000 SFR	DPP QS127TGR-(size)-000400
ThermoPro 6000 SFR	DPP TP198-T 0R0002

DUPONT™ TYCHEM® 6000 TF611T

Made of a proprietary barrier film laminated to a Tyvek® substrate. The fabric provides at least 30 minutes of protection against over 180 challenge chemicals including chemical warfare agents and toxic industrial chemicals.

» NFPA 1992
» Strong, durable and lightweight
» Hooded coverall with Elastomeric interface hood for tight fit around respirator
» Rear entry design keeps closure away from direct contact with frontal chemical exposure
» Double storm flap covers zipper which can be secured by the wearer with snaps and hook and loop closure to prevent intrusion at zipper
» Attached dissipative socks with boot flaps
» Attached inner gloves (to be used with appropri-ate outer gloves)
» Elastic wrist for an optimum fit
» Taped seams provide strong chemical resistance against heavy liquid splashes. A sewn seam is covered with a strip of compatible chemical resistant material through heat sealing
» Sizes: S - 5XL

Tychem 6000 TF611T	DPP TF611TGY-(size)-000111

DUPONT™ TYCHEM® 2000 TAPE

A lightweight, and durable fabric, Tychem® 2000 fabric provides at least 30 minutes of protection against >40 chemical challenges. Tychem® 2000 is used for light splash protection in a variety of industrial environments, including petroleum refining, pulp and paper manufacturing, food processing, chemical processing, and pharmaceutical manufacturing.

» 60 yard length
» 2" Wide
» Tears easily for quick application
» Tape elasticity allows for tight adhesion to help prevent potential leak sources
» Flexibility and adhesive allows for easy repositioning

Tychem 2000 Tape	DPP QC0990YL000012NL

LION ERS

» Durable GORE® CHEMPAK® Selectively Permeable Fabric provides the wearer with protection against TIC's, TIM's, and CWA's below IDLH con-centration levels while peforming technical and tactical operations

» Certified to (Warm Zone Operations), NFPA 1994, Class 3 (Toxic Industrial Chemical and Warfare Agent Protection) and NFPA 1992 (Liquid Splash)

» Certifed with variety of face pieces

» Increased mission time and performance due to the breathable selectively permeable membrane

» 24 hour / 3 wash wear life

» Sleek, one-piece, lighweight design with attached hood that easily compacts for storage

» Front-entry design for ease of donning/ doffing

» GORE® G9492 inner glove

» Molded face seal that does not require tape and is certified for use with multiple CBRN respirators and masks

» Tapered legs with elasticated cuffs and attached booties for increased funtionality and mobility

» 4 adjustable belt loops to securely wear a duty belt or a PAPR and allow for easy doffing during decontamination

LION ERS . ... LIO CBERS-PC (size)

LION MT94™

The MT94™ (Multi-Threat) CBRN ensemble offers first responders advanced protection when facing some of the world's worst chemical and biological threats.

MX908

908devices

Rapidly detect a broad range of fentanyls, opioids, and amphetamines at trace levels with MX908.

MX908 - MULTI-THREAT TRACE DETECTION AND IDENTIFICATION

MULTI-THREAT DETECTION
MX908™ leverages high-pressure mass spectrometry™ (HPMS) to deliver dramatically enhanced sensitivity and broader threat category coverage. This secondgeneration tool increases mission support with unmatched flexibility and trace detection power for elite responders in chemical, explosive, drug and priority hazmat scenarios.

RELIABLE FIELD ANALYSIS
With the enhanced selectivity of HPMS, users can conduct field analysis of unknown substances at trace levels to generate actionable intelligence in real time. The MX908 allows operators to rapidly assess threat levels, establish reliable probable cause, and prioritize investigatory resources accordingly, all while reducing operator exposure.

MX908 Trace Detector 908 MX908

Drug Hunter

Drug Hunter is a mission mode for the detection of drugs such as: fentanyl and fentanyl-analogues, along with other high priority drugs-of-abuse.

CWA Hunter

CW Hunter is a mission mode for the detection of priority chemical warfare agents, including A-series (Novichoks). Delivers real-time vapor quantification.

Explosives Hunter

Explosives Hunter is a mission mode for the detection of priority threats from military and commercial grade explosives, to homemade energetics and relevant precursors.

TACTICID®-N PLUS

Handheld Raman analyzer for narcotic and pharmaceutical drug identification.

» Comes standard with a comprehensive library of over 1,000 substances
» Critical component mixture ID
» Indirect contact analysis
» Wi-Fi connectivity
» Touch screen quick notes
» Color-coded results screen
» TacticOne Response™ (24/7/365 emergency support and spectral analysis)

TacticID-N Plus .... BWT 840000994

GEMINI™ ANALYZER

Identify a broad range of unknown chemicals and explosives in the field quickly, safely, and confidently using FTIR and Raman spectroscopy in a single instrument.

» Leverages both Raman and FTIR technology
» Identifies unknown solids and liquids, from explosives and chemical warfare agents to industrial chemicals and precursors using a comprehensive onboard library.
» Includes a motorized anvil which adjusts sample pressure based on user settings.

Gemini Analyzer .... Call for Part Numbers

TRUNARC™ HANDHELD NARCOTICS ANALYZER

Now with the expanded v1.9 library, the Thermo Scientific™ TruNarc™ Handheld Narcotics Analyzer enables officers, customs, border control, and other personnel to scan more than 498 suspected controlled substances in a single, definitive test.

» Single Test, Multiple Narcotics
» Non-destructive, Non-contact Sampling
» Automated Data Storage and Report Generation
» ReachBack Support

TruNARC ....THE 800-01111-01

REDWAVE TECHNOLOGY - THREATID™ GLS

ThreatID™ is the state-of-the-art chemical identifier, designed with input from first responders from all over the USA. The superior performance, ergonomics and usability of ThreatID™ supports higher con?dence identification of unknowns, and quicker decision making. RedWave Technologies has developed a multi-tiered data analysis methodology for dealing with complex mixtures and identifying the hazards contributed by the major components.

» Capable of identifying more than 23,000 solids and liquids
» Capable of identifying more than 5,000 gases and vapors as low as 25 ppm
» 4-meter gas cell
» Swap from ATR to gas cell (and back) in less than 10 seconds

DETECTACHEM

MOBILEDETECT POUCHES

MobileDetect Pouch from DetectaChem brings presumptive drug field testing to the masses. These next generation field drug test kits were designed to allow for trace and bulk detection by using the integrated swab and proven colorimetric reagents. The MobileDetect Pouch is a cost effective and powerful tool for presumptive drug detection. The pouch can be used on its own or with the MobileDetect App for automated detection.

» Technology: Automated Colorimetrics

» Sampling: Removable Swab for acquiring sample or particulate

» Sample Type: Non-Visible and Bulk

» Operation: Easy to follow operation consisting of 3 steps: Swab, Crush, and View Results. Detailed instructions supplied with pouches or found on the MobileDetect App.

» Automated Detection: Automated Detection and Reporting with MobileDetect App on iOS and Android.

MobileDetect Pouches .... Call Us For Substance Part Numbers

MOBILEDETECT APP

Drug detection on your SmartPhone.

The MobileDetect App brings automated presumptive drug detection to the masses. The MobileDetect App, which is available for download on both iOS and Android, automates the detection process of the MobileDetect Pouch. The App performs automated detection by capturing a picture of the MobileDetect Pouch and analyzing the reaction that has taken place on the testing swab. The MobileDetect app balances the image and adjusts for variations in situational lighting to make a more confident determination that removes variance in interpretation.

MobileDetect App .... Download on Google Play or App Store

PDT

PDT is a series of individual, presumptive reagent drug tests that help law enforcement officers, drug enforcement agencies and military CID units quickly and easily identify controlled substances while in the field. MSI provides customers with the most comprehensive, low-cost tests without sacrificing effectiveness.

» Options: Heroin, LSD, marijuana, cocaine, bath salts and much more
» One-time use
» Most comprehensive set of tests on the market

PDT Field Test Kit (14 Boxes)	MIS 085001
PDT Field Test Kit - Compact (6 Boxes)	MIS 085002

PENTEST

The PenTest is an ampoule-based technology that detects trace amounts of drugs as well as bulk amounts. Containing up to five tests per kit, these kits are inexpensive, easy-to-use and easy-to-handle. You can mix and match any test you might need. An optional, convenient carry pouch can be purchased for easy storage of individual pens.

» Multi-use
» Will not destroy evidence
» Options include: D4D (general screening), Coca, Cannabis, Herosol, LSD, Meth/X, Opiates, and more

PenTest	Call us for Options & Part Numbers

AEROSOLS

Aerosols are the fastest and easiest to use presumptive drug tests on the market, detecting both trace and substance levels of drugs. Mistral Security's aerosol tests are available in three different sizes – allowing for 10, 50 or 100 sprays. These kits are inexpensive, easy-to-use, and easy-to-handle. You can mix and match any test you might need.

» Detects trace drug residues
» Bulk drug detection and identification
» Will not destroy evidence
» D4D and Coca tests detect most drugs with two tests

Aerosol - 50 Test Kit	MIS 1022

MULTIRAE PRO - MULTI-THREAT DETECTOR

This industry-leading wireless device monitors both chemical threats and gamma radiation and is the only multi-threat monitor with parts per billion precision. With the ability to wirelessly transmit threat and alarm data in real time to a central command station, the MultiRAE Pro offers improved visibility and awareness. It also gives you the flexibility to swap out 25 different sensors for a range of threats, including VOCs, toxic gases, combustibles, oxygen levels, as well as gamma radiation detection. The large display and replaceable sensors, pump, and battery make it easy to use and maintain, while five different alarms, including man down, provide the versatility you need to respond appropriately and quickly to incidents.

»   Parts per billion VOC measurement
»   Industry-leading wireless multi-threat device
»   Simultaneous monitoring of chemical threats and gamma radiation
»   Real-time data access from central command
»   More than 25 different chemical sensors
»   Swappable sensors
»   Man down alarm
»   Simple maintenance with replaceable sensors, pump, and battery
»   Fully automatic bump testing and calibration with AutoRAE 2
»   5-way local and remote wireless alarm
»   Mil-STD-810G certified
»   Device Management with Honeywell Sotera™ Express

ALTAIR® 5X MULTIGAS DETECTOR

The ALTAIR 5X Gas Detector is capable of measuring up to 6 gases simultaneously and is now available with integrated PID sensor for VOC detection. Driven by advanced MSA XCell® Sensor Technology, the ALTAIR 5X Gas Detector delivers faster response time, better stability, accuracy, longer service life, and cost savings over the life of the instrument.

Thanks to its rubberized polycarbonate housing, the Altair 5X can take a 10-foot drop and live to tell. Even after a fall, it will deliver best-in-class response time, stability, accuracy, service life and cost savings over its lifetime. Protection doesn't get any tougher.

Environics

CHEMPRO X - HANDHELD CHEMICAL DETECTOR

ChemProx is a contemporary chemical detector, providing a simple, smooth and effective experience, enabling any team to detect and classify CWA's and TIC's. ChemProX belongs to a new generation of chemical detectors, enabling full situational-awareness during field operations. Developed together with First Response professionals and based on a 30-year experience, ChemProX is a device of its time, with an intuitive User Interface. Operators are not alone in the field, therefore shared real-time location and detection information between the team members and the Command Centre can be crucial for a successful result.

» Wide range of detectable chemicals (CWA/TIC)
» Wireless network connectivity
» Built-in GPS and group location
» Simulation training mode
» Chemical database and instructions
» Optimized usability
» Lowest maintenance costs in its class

ChemPro X, Chemical Detector .... Call for Part Numbers

MIRION TECHNOLOGIES

ACCURAD PRD

Meet the Mirion AccuRad™ PRD: everything you need from a personal radiation device. We know, because we asked; the AccuRad PRD was developed in collaboration with emergency responders and law enforcement officers, so you can better protect your people and the public from the dangers of radiation, wherever the mission takes you.

The AccuRad PRD is compact with big, easy-to-press buttons for performing one-handed measurements, even when wearing gloves. The device design includes five buttons, two LED indicators, two display screens — one large front display and a bonus display seen when worn — and a USB-C port for connecting external headphones, in addition to a tough, built-in belt clip for affixing securely to a belt or pocket.

» Exceptional Radiological Performance
» NFC & BLE Data Transmission
» >900 Hour Continuous Operation

AccuRad PRD .... MIR ACCURAD

IDENTIFINDER R440 - HIGHLY SENSITIVE, SOURCELESS HANDHELD RID

The FLIR identiFINDER R440 is a lightweight, source-less radionuclide identification device (RID) that delivers sensitive detection and fast results for routine survey or secondary screening response missions. The R440 is available with NaIL, NaI, LaBr and CLLBC detector options to respond to radiological threats from farther away, behind heavier shielding, and with better resolution than similarly-sized RIDs. The extended energy range provides neutron indication in the NaI (G) version. Its light weight makes single-handed operation easy during extended operations, while the IP67-rated enclosure is built to survive. The bold, easy-to-read interface with 360° EasyFinder™ mode expedites decision-making to keep personnel and the community safe. Hot swappable batteries facilitate continuous operation on extended missions and the ability to charge batteries outside on the instrument while the instrument is on standby ensures instant readiness in the response vehicle.

FLIR identiFinder R440-GN Standard Kit .... FLI R440-GN

IDENTIFINDER R200 - SPECTROSCOPIC PERSONAL RADIATION DETECTOR

FLIR identiFINDER R200 instruments are rugged, pager-sized Spectroscopic Personal Radiation Detectors (SPRD). They provide full ANSI N42.32 Personal Radiation Detector (PRD) compliance and feature next-generation solid state detector read-out technology that delivers ANSI N42.48 SPRD compliance with nuclide identification. The R200-G detects and identifies gamma radiation and the R200-GN additionally provides neutron detection capability. Law enforcement agencies and first responders use the R200 during routine traffic stops or high visibility events and in mass transit or critical infrastructure entry control points. The OneTouch Reachback™ feature uses the latest advancements in Bluetooth® and web server technologies to provide large-scale situational awareness by alerting others before arriving on-scene.

FLIR identiFinder R200 .... FLI R200

KROMEK D3S ID

A wearable RIID that gives you the power to make the right decisions about nuclear threats in seconds. A powerful combination of two of Kro-mek's leading technologies: the non-3He compact thermal neutron detector and its world leading gamma detector, delivering the performance of a RIID in a small, but powerful device, the size of a PRD.

» One of the fastest and most accurate isotope ID devices on the market
» Discreet, wearable, lightweight
» Rapid, visible, audible and tactile alarm settings
» Identifies 17 extra isotopes, 4X faster
» Extensively tested and characterised in multi-ple DNDO and DARPA programs

Kromek D3S ID, Belt Wearable RIID .... KRO D3S-ID

MED-ENG®

Protection and Capabilities
That Go Beyond NIJ

EOD® 10 SUIT AND HELMET

The EOD 10, now being offered in the EOD 10E model revision, is trusted in over 50 countries worldwide. This sophisticated Bomb Suit offers an optimal balance between protection, weight, fit and capabilities:

» 'Certified' to the Bomb Suit NIJ Standard 0117.01 , and exceeds the standard in several aspects

» More ergonomic design to reduce weight and increase mobility and flexibility

» Completely new EOD helmet to increase protection and improve fit

» Integrated voice command system to keep the user's hands free to carry or deploy tools

» Extensive V50 testing against fragments of 17-gr, 44-gr and 207-gr as per NIJ 0117.01

» Mission-specific lighting to give the user the best option for their operational environment

» Enhanced ventilation to mitigate heat stress and keep the user feeling refreshed

» Spine protector impact testing as per NIJ 0117.01 for bomb suits

» Improved foot protection system for a customized fit and natural walking motion

» Shielded electronics for compatibility with Electronic Countermeasures (ECM) when dealing with a Radio Controlled IED (RCIED)

» Enhanced situational awareness, including static and dynamic field of view, as per NIJ 0117.01

» Improved fit and new materials enable bomb disposal technicians and military EOD operators to operate more freely in difficult locations for longer periods of time

» A complete ensemble consists of a Bomb Suit, Helmet, Battery Option and Foot Protection

» To power the ventilation system and all other electronics, a Battery option is required

STENÓS - 14" X 17" DR IMAGING SYSTEM

Logos Imaging's STENÓS is our lightest, and most rugged large format DR imaging system. We were the first to introduce a glass-free DR imager to the security market with the 6"x8" PRÓ-TOS, we followed with the 12"x12" XIRÓS, and now the 14"x17" STENÓS with the 3543N panel further continues Logos Imaging's commitment to the leading edge of DR imaging design.

The panel also offers the advantages of built in wireless com-munications and a removable battery that provides six hours of operation for situations where ultra-portability and up to 400 m wireless communications are desirable.

STENÓS - 14x17 DR Imaging System............... Call for part numbers

XIRÓS - 12" X 12" DR IMAGING SYSTEM

Logos Imaging's XIRÓS is our newest, and most rugged small format DR imaging system. We were the first to introduce a glass-free DR imager to the security market with the PRÓTOS, and the XIRÓS system with the 2929N panel continues Logos Imaging's commitment to the leading edge of DR imaging design.

The system also offers the advantages of built in wireless communications and a removable battery that provides eight hours of operation for situations where ultra-portability and up to 400 m wireless communications are desirable.

DETECTACHEM

SEEKERE EDK - EXPLOSIVES DETECTION KIT

- » Portable Explosive Detection
- » Easy To Use Digital Diagnostic Capability
- » Non-Visible Detection & Bulk Detection
- » Intelligent Self-Monitoring
- » Rugged & Water Resistant
- » Very Low Maintenance, No Downtime
- » No Radiation Source, No Bake Out
- » Multiple Languages

SEEKERe EDK - Explosives Detection Kit	DET SEEKERE EDK

EXPRAY®

A unique explosive aerosol test technology, Expray®, detects both trace and substance levels of explosives as well as homemade explosive (HME) precursors. Commonly used by armed forces in Iraq and Afghanistan, Expray® helps detect a wide spectrum of explosives and HME precursors quickly and effectively.

Capabilities:

- » Nitro Aromatic
- » Nitro Esters
- » Nitramines
- » Inorganic Nitrates
- » Urea Nitrate
- » Ammonium Nitrate
- » Chlorates
- » Bromates
- » Peroxide-based components
- » Perchlorates

Expray Master Kit (Regular)	MIS 01620

MISTRAL SECURITY
Member of Mistral Group

EXPEN

ExPen (ampoule-based technology) contains the same chemistry technology as DropEx bottles. The ExPen was designed for military, EOD, and security personnel primarily for easy carrying and for situations that do not require multiple tests.

Capabilities:

- » Nitro Aromatic
- » Nitro Esters
- » Nitramines
- » Inorganic Nitrates
- » Urea Nitrate
- » Ammonium Nitrate
- » Inorganic Oxidants
- » Peroxide
- » Perchlorates
- » Lead Azide
- » ANN
- » UREA
- » PO
- » CAN
- » NST
- » UN
- » Acetic Anhydride

SAFEWARE®
CONTRACT SOLUTIONS FOR AMERICA'S HEROES | SINCE 1979

2ND LINE EOD TOOL KIT

The 2nd Line EOD Tool Kit is customized to equip EOD and Bomb Technicians with the tools necessary to execute render safe procedures. The modular design of the 2nd Line Kit allows operators to customize the configuration based on each scenario. Our 2nd Line comes complete with six individually populated tool kits: 1st Line, Immediate Action Pouch, RIP Kit, Detonator Diagnostic Kit, Manual Access Kit, and Bit Kit. All six tool kits fit into the Mystery Ranch RATS Pack or the Mystery Ranch NICE Crewcab to complete the modular design.

» Mystery Ranch RATS Pack or Mystery Ranch NICE Crewcab

» 1st Line EOD Tool Kit

» Immediate Action Pouch (IAP)

» Remote In-extremis Pull Line Kit (RIP Kit)

» DET Diagnostic Kit (DDK)

» Manual Access Kit (MAK)

» Bit Kit

» Pelican Case 1620

2nd Line EOD Kit, Black	TAC 2ND LINE EOD KIT BLK
2nd Line EOD Kit, Coyote	TAC 2ND LINE EOD KIT COY

HOOK AND LINE KIT

The lightweight and compact Hook and Line Kit gives EOD operators the tools necessary for dismounted IED render-safe procedures. The nylon kit weighs 3 pounds and is small enough to fit into a cargo pocket, backpack or strap to a vest with the molle straps. The 10.5 foot telescoping pole weighs only 2.4 pounds and is made of carbon fiber. The pole is also housed in a nylon case that can easily be strapped to a backpack via molle. Originally designed by Air Force EOD, this kit is ideal for all EOD operators, Bomb Technicians and Special Operations teams. This kit compliments our 2nd Line EOD kit and can easily be added to the larger 2nd line pack.

Hook and Line Kit	TAC HAL KIT

AVENGER

Avenger is a robust and versatile Unmanned Ground Vehicle. The Avenger UGV is capable of effectively performing a wide range of Law Enforcement, First Responder and Military robotic functions.

» Rugged, lightweight, portable Command Console
» Easy to use, intuitive controller supported by supplementary PS4 controller
» 3D Avatar and pre-set configurations
» Highly dexterous 7 Degree of Freedom Manipulator Arm
» Reaches under vehicles; in vehicles and overhead storage in mass transit vehicles
» Exceptional lift capability, 50kg (110lbs) close to front of robot

Med-Eng Avenger Robot .... Call For Part Nmmbers

CALIBER® MK4

The largest robot in the CALIBER® family, the CALIBER MK4 offers unprecedented towing and dragging capabilities coupled with speed, agility and dexterity—all at an affordable cost.

The MK4 is the most powerful of all CALIBER robots, with a lift capacity of 200 lbs (90 kg). Its Command & Control Unit provides automatic pre-set positioning to facilitate rapid deployment; and a 3D avatar that offers real-time positional feedback on the actual position of the robot.

Based on recommendations by bomb technicians, the robot's modular design allows for reduced maintenance costs through easy platform upgrades, field repair, and parts replacement.

» Command Control Unit (CCU) with two 15" (38 cm) daylight readable touch screens
» 3D avatar with real-time positional feedback and auto-stow and arm-ready presets
» Multi-function control, variable speed joystick

ICOR Caliber MK4 Robot ....ICO CAL-MK4

ASK YOUR SAFEWARE REPRESENTATIVE FOR THE EOD & BOMB SQUAD EQUIPMENT CATALOG TO ACCESS MORE SAFETY AND RESPONSE GEAR

EOTECH

EOTECH HWS® EXPS2™

Operator Grade Holographic Weapon Sight

An operator-grade Holographic Weapon Sight built for close-quarter engagements with fast-moving targets. The Model EXPS2 maximizes rail space with its compact size and allows for co-witnessing of iron sights. It has convenient side buttons to add a magnifier and features an adjustable, locking, quick-detach lever for easy attachment and removal.

» Non-Night Vision Compatible

» Mission adaptable, iron-sight compatible.

EOTECH HWS XPS2 .... EOT XPS2-0

EOTECH HHS III™

Get the holographic hybrid advantage with convenient AA battery compatibility. The Holographic Hybrid Sight III (HHS III™), features a 518-2 with a G33™ Magnifier for both close-quarter and long-range shooting capability and wide-field optical performance.

» Quick Transitions - Change quickly from close quarter to medium range targets with the included G33 Magnifier and Switch-to-Side mount.

» Mount - Quick Detach lever fits 1" Weaver and MIL-STD 1913 Rails.

» Side Button Operation - Compact design and side button operation consumes minimal rail space.

» EOTECH HWS Prestige Warranty - Comes with 10 year limited warranty

EOTECH HHS III .... EOT HHS-III

EOTECH MAGNIFIER G43™

This is a miniaturized version of our battle-tested G33 Magnifier making it one of the most compact and lightweight magnifiers available. The mount provides fast transitioning from 3X to 1X and the optic offers tool-free vertical and horizontal adjustments with a large field-of-view. The G43 works with all EOTECH HWS models.

» Mount: 1" Weaver or MIL-STD-1913 rail

» Eye Relief: 2.6"

» Field of View: 7.5°

» Sealing: Fog-resistant internal optics

» Overall Length: 2.9"

» Weight: 11.3 oz

EOTECH G43 3X .... EOT G43.STS

EOTECH HWS® EXPS3™

This is not a red dot

An operator-grade Holographic Weapon Sight built for close-quarter engagements with fast-moving targets. The HWS EXPS3™ is an excellent choice for professionals. The EXPS3 offers true two eyes open shooting for fast target acquisition, night vision compatible settings, and a 7mm raised quick detach base for lower 1/3 iron sight co-witness.

» Night Vision Compatible - Works with all Gen 1-3 night vision devices

» Compact Design - Leaves more rail space for rear iron sights or magnifier

» Mount - Compatible with both 1" Weaver and MIL-STD 1913 Rails

» EOTECH HWS Prestige Warranty - Comes with 10 year limited warranty

EOTECH HWS XPS3 .... EOT XPS3-0

EOTECH MAGNIFIER G33™

Delivers fast transitioning from 3X to 1X, tool-free vertical and horizontal adjustments, larger field-of-view, and an adjustable diopter for improved, precise focusing. When used with HWS Models 518, 558, and EXPS (with side-button interface), the user can easily operate the sight even with the magnifier engaged.

» Fixed Magnification: 3X
» Length/Width/Height: 3.9"x 2.2"x 3.3" (99 x 55.9 x 83.9 mm)
» Eye Relief: 2.2" (55.8 mm)
» Field of View: 7.3°
» Sealing: Fog resistant internal optics

MAGNIFIER G33™ .... EOT G33

EOTECH HHS GREEN

Dominate close- and long-range targets with pinpoint accuracy and even greater speed. Our Holographic Hybrid Sight Green (HHS GREEN™) delivers daylight target acquisition 5X faster than red. Combined with our quick, switch-to-side (STS) mount to disengage the 3X magnifier, targets at every distance in range.

» Non Night Vision Compatible
» Fixed Magnification: 3X
» Length/Width/Height: 9.5" x 2.3" x 3.3" (234 x 59 x 83.9 mm)
» Eye Relief: 2.2" (55.8 mm)
» Field of View: 7.3°
» Sealing: Fog resistant internal optics

MAGNIFIER G33™ .... EOT HHS-GRN

COMPM4S™ RED DOT REFLEX SIGHT - QRP2 MOUNT

The CompM4s is powered by a single AA battery for over 80,000 hours (8 years) of continuous use and over 500,000 hours in the night vision settings. The CompM4s has a low battery compartment and the CompM4™ has a high battery compartment. The CompM4s comes with a rubber bikini lens cover and the killFlash® anti-reflection device (ARD) to prevent glint from the front lens in the heat of battle.

» 2 MOA dot size
» 7 night vision compatible settings and 9 daylight settings
» Weight 9.4 oz / 268 g (sight only)
» Mount base is keyed into the body of the sight to absorb recoil

Aimpoint CompM4s .... AIM 12172

NIGHT VISION MONOCULAR AN/PVS-14 (M914A) - UNFILMED WHITE PHOSPHOR

The AN/PVS-31A BNVD is a compact, lightweight, Gen III dual tube goggle with improved white phosphor tube technology for greater target detection and recognition. Low-light and nighttime maneuvers appear more natural in black and white, with added contrast detail in shapes and shadows providing the operator more visual information for assessment and acquisition.

» Length/Width/Height: 11.5 cm L x 6.4 cm W x 6.1 cm H (4.5 in. L x 2.5 in. W x 2.4 in. H)
» Weight: 350 g (0.77 lb.) with battery
» Battery Power: (1) AA battery
» Battery Life: 48 hrs. at 25 °C (77 °F)
» Field-Of-View: 40.0° (± 2°)
» Magnification: 1x (± 3 %)
» Minimum Focus Distance: 25 cm (9.8 in.)

AN/PVS-14 M914A, Night Vision Monocular, White Phosphor.......................................EOT 245620-037

BINOCULAR NIGHT VISION DEVICE (BNVD) AN/PVS-31A-UNFILMED WHITE PHOSPHOR

The AN/PVS-31A BNVD is a compact, lightweight, Gen III dual tube goggle with improved white phosphor tube technology for greater target detection and recognition. Low-light and nighttime maneuvers appear more natural in black and white, with added contrast detail in shapes and shadows providing the operator more visual information for assessment and acquisition.

» Length/Width/Height: 4.55" x 3" x 2.6" (without the eyecup and objective lense)
» Weight: 21 oz. (1.3 lb.) clip-on configuration without wireless
» Battery Power: Two AA lithium batteteries
» Battery Life: >4 hours at 0°C
» Field-Of-View: 21° Horizontal x 15.7° Vertical Field-Of-View (FOV) (26.2° diagonal)
» Magnification: 2x with 1/2x (clip-on) and 4x digital zoom capability

AN/PVS-31A, Night Vision Binocular, Unfilmed White Phosphor .... EOT BNG-001-A48M

CLIP-ON NIGHT VISION UNFILMED WHITE PHOSPHOR (LONG RANGE) - M2124-LR

The CNVD-LR (Long Range), also known as M2124-LR, is a rugged, long-range clip-on generation III night vision device designed for higher-caliber weapons and operators who require long-range identification and engagement.

» Length/Width/Height: 27.2 cm L (w/light baffle) x 10.74 cm Wx 8.6 cm H (10.7"x4.2"x3.4")
» Battery Power: 1 CR123 AA lithium batteries
» Battery Life: 16 hours at 25°C (77°F)
» Field-Of-View: 8° minimum
» Magnification: 1 x (unity) (+/-4%)
» Minimun Focus Distance: 40m (43.8 yd)

CLIP-ON NIGHT VISION UNFILMED WHITE PHOSPHOR (LONG RANGE) - M2124-LR .... EOT 3911515O-ML006TP

AGM WOLVERINE-4 NL3

The Wolverine 4 is a rugged and advanced night vision riflescope that offers excellent performance at a competitive price. Boasting a high-quality Gen 2+ image intensifier tube, adjustable illuminated reticle, easy-to-use internal windage and elevation adjustments, and simple controls, the Wolverine 4 allows you to see beyond the expected in nighttime conditions.

» 4X magnification

» Quick-release mount

» Shock protected, all-glass IR transmission multicoated optics

» Made from aircraft aluminum alloy

» Illuminated reticle with brightness adjustment

» Mounts to standard weaver rails

» Water and fog-resistant

» Limited 3-Year Warranty

AGM WOLVERINE-4 NL3, Riflescope .... AGM 15WOL422103031

MICRO T-2™ RED DOT REFLEX SIGHT

The Aimpoint® Micro T-2 red dot optic was designed for users who require an extremely rugged, lightweight, and compact sight. The Micro T-2™ optic has unmatched optical clarity and can withstand the physical abuse necessary for demanding end-users.

» 2 MOA red dot for precision and fast target acquisition

» Battery life: 50,000 hours (over 5 years) of constant operation with one battery on setting 8

» Battery type: CR2032 battery (included)

» AR15 Ready includes 39 mm Spacer and LRP (Lever Release Picatinny) Mount

» 12 brightness settings: 1 off position, 4 night vision compatible settings, and 8 daylight settings

Micro T-2 AR15 Ready .... AIM 200198

PVS-14 GEN 3 AUTOGATED MONOCULAR

The AN/PVS-14 is the most widely recognized monocular night vision device (MNVD) in the world. It can be hand-held, weapon mounted, helmet mounted and camera adapted.

» L-3 Gen 3 Unfilmed technology

» 40 hour runtime

» 1X magnification

» Resolution: 64lp (min)

» Signal-To-Noise: 19.0 (min)

» Photoresponse: 1500 (min)

PVS-14 Gen 3 MNVD .... NOT 0028ONT

BINOCULAR NIGHT VISION DEVICE (BNVD) AN/PVS-31A

The AN/PVS-31A, is a compact, lightweight, Generation III high-performance white phosphor dual-tube goggle.

» Manual system gain and focus adjustments for custom image quality optimization

» Lightweight ergonomic design reduces head-borne weight and decreases neck strain

» Optional diopter lenses optimize operator preference for visual acuity

» Works with currently fielded dovetail helmet mounts

» Auto OFF when stowed; resumes power when deploye

AN/PVS-31A .... TNVC PVS-31

FLIR BREACH® PTQ136

Built for the rigors of law enforcement, the FLIR Breach PTQ136 spots the heat of suspects and objects in total darkness. Featuring the new FLIR Boson core and a compact design, the FLIR Breach offers unmatched tactical awareness.

» Detector Type: 320 × 256 VOx Microbolometer
» Display: Quad-VGA (1280 × 960) FLCOS
» Internal Memory: Up to 1,000 images and 2.5 hours of video on internal memory
» Size: 139 × 70 × 49 mm (5.5 × 2.7 × 1.9 in)
» Weight:210 g (0.46 lbs)

FLIR Breach PTQ 136 .... FLIR PTQ136

FLIR SCION PTM

Built to equip law enforcement professionals with superior thermal surveillance, the FLIR Scion™ PTM packs high-performance thermal imaging and FLIR TruWITNESS® compatibility into a rugged, IP67-rated handheld monocular.

» Detector Type: 640 × 512
» Display: Quad-VGA (1280x960) High definition display
» Internal Memory: 2 GB Internal Storage / Optional microSD™ Card (up to 128 GB)
» Size: 227 × 76.8 × 60.5 mm (9 × 3 × 2.4 in)
» Weight: Without Batteries: 452 g; With Batteries 572 g

FLIR Scion PTM .... FLIR 7TM-01-F350

AGM RATTLER TS25-384

The AGM Rattler TS25-384 and Rattler TS35-384 are the compact thermal imaging scopes developed for 24 hours operation under any weather and environmental conditions. Two objective lens options allow the customer to choose perfect unit for your needs where 25 mm lens designed for short range shooting, while the 35 mm lens model will be great for medium range missions. Thermal image riflescope has 384×288 thermal detector and 1024×768 OLED monitor, which provides clear image under harsh environment conditions like darkness, fog, smoke, dust, rain, snow, wood, camouflage, etc.

» 384 × 288 thermal resolution, high sensitivity detector
» Image processing technology: Adaptive AGC, DDE, 3D DNR
» 1024 × 768 resolution 0.39-inch OLED display
» 8x digital zoom

AGM Rattler TS25-384, Thermal Weapon Sight .... AGM 3092455004TH21

STINGER® 2020 - RECHARGEABLE LED FLASHLIGHT

The Stinger 2020 is the next evolution in high-performance flashlights and produces 2,000 lumens. Its aluminum alloy body with an anti-roll design is ergonomically shaped for a sure grip. It features dual power switches and an intuitive mode selector switch for ease of use.

Stinger 2020, Black .... STR 78100

PROTAC HL® USB FLASHLIGHT

High lumen tactical light that is USB rechargeable, so you can charge on-the-go using almost any USB source, and without taking the battery out. Ideal for professional use - home inspection, law enforcement and security.

» Choice of three user selectable programs
» Durable, anodized aluminum construction
» Water resistant sliding metal sleeve protects USB port
» IPX4 water resistant

Protac HL USB Flashlight .... STR 88052

7600 TACTICAL FLASHLIGHT WITH WAND KIT

Performance surpassing 900 lumens coupled with a USB rechargeable lithium ion battery are just the beginning of this multi-talented product. In addition to the extreme high performance white LED light output, a red and green LED are included.

» Performance surpassing 900 lumens
» 3 LED colors (white, red, and green)
» Provides high, strobe, medium and low modes
» Full time battery level indication
» USB rechargeable lithium ion battery
» Type III hard anodized finish
» Ingress protected IPX8 submersible

7600 Tactical Flashlight .... PEL 7600

7100 TACTICAL FLASHLIGHT

Compact/high performance flashlight.

» 5" long
» 700 lumens of light output
» High, strobe, medium and low modes
» Full time battery level indication
» USB Lithium Ion rechargeable
» Ingress protected IPX8 submersible

7100 Tactical Flashlight .... PEL 7100

TLR-1® GUN LIGHT

Intensely bright, virtually indestructible rail-mounted tactical light which attaches to almost any gun in seconds.

- » Powered by two 3-volt CR123 lithium batteries with 10-year storage life
- » 300 lumens; 2.5 hours regulated run time; 12,000 candela peak beam intensity
- » Solid-state current regulation for consistent illumination level.
- » Rail grip clamp system securely attaches/detaches quickly and safely with no tools and without putting your hands in front of muzzle
- » Mounts directly to handguns with Glock-style rails and to all MIL-STD-1913 (Picatinny) rails.
- » Includes keys for Glock-style, Picatinny, Beretta 90two, S&W 99 and S&W TSW

TLR-1 Gun Light	STR 69260

TLR-1® GUN LIGHT WITH SIDE SWITCH

Experience the TLR in a new light. The small and mighty TLR-7 securely fits a broad range of full-size and compact handguns. Low-profile design and side switch prevents snagging and a "safe off" feature prevents accidental activation, saving batteries.

- » 500 lumens; 140m beam; runs 1.5 hours
- » Custom optic produces a concentrated beam with optimum peripheral illumination
- » Uses one CR123A lithium battery (included)

TLR-7 Gun Light	STR 69420

X300U-A WEAPONLIGHT

Popular with law enforcement and military operators around the world, the Rail-Lock® version our best-selling WeaponLight now delivers a stunning 1,000 lumens of LED-generated output.

- » Custom TIR lens creates smooth, far-reaching light with a larger center spot beam
- » Integral ambidextrous momentary-and con-stant-on switching
- » Attaches securely to both universal and picatin-ny accessory rails
- » High-strength aerospace aluminum body, mil-spec hard anodized for extreme durability

X300U-A Weaponlight	SFR X300U-A

M600DF SCOUT LIGHT® WEAPONLIGHT

The M600DF Ultra Scout Light helps you hit the corners with confidence. Its recoil-proof, ultra-high-output LED delivers up to 1,500 lumens of blinding white light shaped through our proprietary Total Internal Reflection (TIR) lens.

- » TIR lens shapes versatile beam with enough reach and surround light for close-to longer-range operations
- » Mil-Spec hard anodized aluminum body, tempered window and O-ring seals make light rugged, durable, and combat ready
- » Activation via Z68 momentary/contant-on push button switching with protective shroud

M600DF Scout Light Weaponlight, Black	SFR M600DF-BK

9490 REMOTE AREA LIGHT

Remote Area Lighting Systems from Pelican are the complete lighting solution for first responders, industrial and aerospace applications. With multiple heads and Bluetooth activation (select models), RALS can light up an accident scene or a soccer field.

» Up to 6,000 lumens (calculated)

» Up to 24 hours of run time

» Intelligent control (allows for various light output levels)

» Maintenace free LED array with 50,000 hour life expectancy

» Full time battery level indication with low level flashing indicator

» 6' deployable mast with 340° rotation

» Multiple deployment positions

» Quick release/Hot swappable battery design with 12 volt power supply

» Convenient shoulder strap

9490 Remote Area Light, Black .... PEL 9490 BLK

NOMAD® 360 SCENE LIGHT

The FoxFury Nomad® 360 Scene Light is battery operated. With built-in tripod legs, the Nomad® 360 extends up to 8.5 ft (2.6 m) tall to deliver up to 8,800 lumens. This cordless, rechargeable LED light can operate as a spotlight, flood light or 360° scene light with a run time of up to 24 hours. This is our brightest self-contained scene light for situations where portability, maximum power and working hands-free is key.

» Lumens: 990 - 8,800 Lumens

» Battery Life: 3 - 24 Hours

» Power Source: Rechargeable Lithium-Ion Battery System or External power 12VDC

» Charge Time: 7 Hours

» Modes: 4 (Low, Medium, High, Flashing 1.5Hz)

» Dimensions: 39.9 x 4.6 in (1013 x 117 mm)

Nomad 360 Scene Light .... FOX 200-900

CMC — TACTICAL PERSONAL RAPPEL KIT

Lightweight, durable and low profile. Provides everything needed for rappel access or escape for one tactical officer.

- » Black storage bag
- » Stealth rope bag
- » 8 Link
- » Tactical rappel harness
- » Black variable anchor strap
- » Large edge guard
- » Kong Trapezium Quick-Link
- » CMC Lifeline - 75' of black 3/8"
- » Prusik cord - 5' of blue 7 mm
- » Tubular webbing - 20' of black
- » (5) black ProTech™ Screw-Lock carabiners

Tactical Personal Rappel Kit	CMC 500501
Tactical Team Rappel Kit	CMC 500503

BLACKHAWK

DYNAMIC ENTRY TACTICAL FENCE CLIMBERS

Through rigorous research and development, the Dynamic Entry design team has created a laser-cut fence climber that is lighter, more compact and easier to deploy than the original. Our Tactical Fence Climbers provide a scaling rung on both sides of the fence for easy and rapid egress.

- » Lightweight construction
- » Set of four
- » Folds up for easy storage
- » Weight: 5.2 lbs.

Dynamic Entry Tactical Fence Climbers.................................	BLA DE-TFC

DYNAMIC ENTRY — BLACKHAWK
TACTICAL BACKPACK KIT

The standard for most breaching operations, the Tactical Backpack Kit includes three specialized entry tools and the Manual Entry Tool Pack.

- » Dynamic Entry® BoltMaster™
- » Dynamic Entry® ThunderMaul™
- » Dynamic Entry® Special Operations Hallagan Tool
- » Dynamic Entry® Manual Entry Tool Pack

Dynamic Entry Tactical Backpack Kit	BLA DE-TBK

DYNAMIC ENTRY SPECIAL OPERATIONS ENTRY RAM

The Special Operations Entry Ram answers all the requests and suggestions from operators in the field for a compact yet powerful tactical entry ram. Its convenient ambidextrous design features one lead handle and two opposing side handles, allowing for multiple grip configurations to help meet mission-specific requirements.

- » Non-sparking, electrically nonconductive handle system is resistant to 100,000 volts AC
- » Ergonomic control-flex handle system reduces impact stress
- » Ambidextrous handle orientation for one- or two-person operation
- » Forward-weighted design is a close-quarter alternative to the MonoShock Ram&trade
- » Length: 25
- » Weight: 30 lbs.

Dynamic Entry Tactical Backpack Kit	BLA DE-SOER

TACTICAL ELECTRONICS

CORE Monitor   CORE Pole Camera   CORE Pole Grip   CORE Under Door Camera

CORE TACTICAL KIT - CORE CAMAERA SYSTEMS

The CORE Tactical Kit includes the CORE Pole Grip, Pole Camera Head, Under Door Camera head and CORE Monitor. All CORE cameras are Wireless and Digitally Encrypted. The CORE Tactical Kit is packaged in a durable transport case with custom cut foam for each component.

The CORE Pole Camera also features the latest Thermal Fusion Technology. Thermal Fusion technology is made possible by two video sensors: a High-Definition 1280x720p monochrome CMOS sensor with excellent low-light sensitivity, and a Longwave infrared (LWIR) thermal imager. Video from the High-Definition camera is used to produce a blended image of both sensors, delivering physical detail that surpasses what is available from a lone thermal imager. Objects and persons are clearly defined with color and outlines when the thermal fusion technology is used.

CORE Tactical Kit Includes:

» CORE Pole Grip – 10ft extended

» CORE Pole Camera Head

» CORE Under Door Camera – 2 camera version

» CORE Monitor

» SanDisk Ultra 32GB microSDHC UHS-I card

» 2 meter USB hardwire cable

» 12V power adapter & 12V DC plug in adapter

» Rugged case with custom foam cutouts

CORE Camera Tactical Kit .... TAC CORE TACTICAL KIT

K9-XR CAMERA AND MONITOR

The K9-XR Monitor displays real-time color and thermal video directly from the K9-XR Camera. Utilizing a high-powered extended range radio, the K9-XR Monitor is capable of receiving audio and video up to 450 meters away from the canine.

The K9-XR Camera is a high-powered extended range camera system that transmits live video and audio back to the K9 handler. Easily receive video/audio on the K9-XR Monitor up to 450 meters away from the canine. The camera mounts to the K9's vest using molle and Velcro attachments. Two-way audio on the K9-XR Camera allows handlers to give commands and listen to a canine and/or suspect, utilizing the "Push to Talk" feature.

CAMERO
Step into the known

XAVER™ 100 THROUGH-WALL DETECTION SYSTEM

Handheld, tactical through-wall detection system. Provides instant critical situational awareness and target acquisition data.

» Potential uses include: Tactical entry/assault, hostage recovery, search and rescue, breaching and force protection
» Reliable detection of moving and static people behind most common wall materials
» 1d imaging information
» Simple user interface and operation requiring no advanced training

XAVER 100 Through-Wall Detection System .... CAM XAVER100

XAVER™ 400 THROUGH-WALL DETECTION SYSTEM

Compact, tactical through-wall imaging system. Allows for quick location of people hidden by walls and barriers, enabling tactical teams to step into the known and obtain mission-critical information.

» Compact, light and easy to operate
» Ready to go at the push of a button
» Simple user interface with tracking capabilities for intuitive interpretation
» Simultaneous detection of static and moving objects
» Provides information about room dimensions and major infrastructure elements

XAVER 400 Through-Wall Detection System .... CAM XAVER400

XAVER™ LR80 LONG RANGE SENSE THROUGH THE WALL (STTW)

The Xaver™ LR80 (XLR80) enables to detect live objects through the wall at more than 100m away. The system is optimized for urban and rural operations, by gathering mission critical, accurate real-time information of live objects hidden beyond walls, while staying far away in a safe position.

» More than 100 m detection range in stand-off position
» Reliable detection of live objects behind most common wall materials
» Simultaneous detection of moving and nonmoving live objects
» Controlled by 10-inch toughpad with Simple user interface
» Portable and can be operated by a single user

XAVER LR80 Long Range STTW .... CAM XAVERLR80

◆FLIR®

FLIR SKYWATCH®

MOBILE SURVEILLANCE AND DETERRENCE TOWER

See more and respond faster from higher ground.

FLIR SKYWATCH®

Rising over two stories, FLIR SkyWatch is a rugged, highly reinforced mobile surveillance platform that can withstand 60 mph winds while keeping the operator safe, comfortable, and focused. Portable and rapidly deployable, it provides a strategic perspective and symbolic deterrent. Customize payload with pan-tilt IR, night vision, visible-light cameras, in-cab controls, ground radar, monitors, and NVR, and searchlights. Designed for crowd control, high-crime area monitoring, and missing person command, SkyWatch easily moves to where the threat is.

FLIR SkyWatch safely raises and lowers in 90 seconds. Operators have 360° visibility from an ergonomic command desk in the temperature controlled cabin. Optional public address system, full-function siren, and roof-mounted, high-powered searchlights with internal pan/tilt control allow operators to alert ground support and crowds of an immediate threat. Wireless video streaming and remote control allow operators to take advantage of the elevated perspective without actually sitting in the cabin.

FEATURES

» AC and heating for operator comfort
» LED floodlights on every side
» Under cab safety camera
» Strobe light and descent alarm
» Rapid deployment and full portability
» Powerful multi-sensor capability
» Flexible display views
» Temperature-controlled tower
» See, find, document efficiently

APPLICATIONS

» Major venue control
» High crime area monitoring
» Missing person command
» Limited force supplementation
» Perimeter protection
» Gate overwatch
» High value equipment protection
» Parking lot surveillance and detection

» Level Dependent, Electronic Hearing Protection to Help Protect from Impulse and Steady State Noise

ComTac VI, Coyote .... MMM MT20H682FB-09N CY

SUPREME® PRO HEADSET

Supreme Pro Communication headsets offer high-performance electronic circuits that compress sound, rather than cut it off. Ambient sound is detected by two microphones outside the cup, and reproduced through speakers inside. This helps prevent damage from harmful noises (such as gunshots) while enabling the wearer to hear important, yet harmless ones (such as commands and instructions).

Single and Dual Communication options

Supreme Pro X .... MSA 10053612

LRAD 100X MAG-HS KIT

Portable Communication for Every Operational Scenario

The LRAD 100X MAG-HS Kit consists of an LRAD 100X, a high-strength magnet mount that clamps to, and unclamps from, magnetic surfaces with a turn of a knob, an LRAD Wireless Kit for remote operation, an AC-powered battery charger, an MP3 player with an all-weather record-on-the-fly mic, a watertight, dustproof hard case, and other accessories. Self-contained, portable, and featuring an extended voice broadcast range out to 600 meters, the LRAD 100X ensures voice messages are clearly heard and understood. LRAD's optimized driver, waveguide, and power efficiency technologies enable the LRAD 100X to provide several hours of clear, continuous communication from a single battery charge.

» 8-hour rechargeable battery

» Optional power sources

» Simple operator interface

» Water resistant

» Operate easily with gloves or MOPP gear

» HD Camera (optional) – Quick connect/disconnect camera and mount for recording video and audio during LRAD operation. Includes 4GB micro SDHC for up to 210 minutes of date and time stamped recordings

LRAD 100X MAG-HS Kit .... LRAD 100X-BLK-MAG-HS

LRAD 450XL

Low profile, lightweight and designed for temporary or fixed mounting on tripods, small vessels, vehicles, and Common Remotely Operated Weapon Stations (CROWS)

» Highly intelligible communication up to 1,700 meters

» Safely communicates beyond standoff distances to determine intent

» Variable beam width for extended coverage

» Clear, long range, directional communication

» Establishes instant acoustic standoff perimeter

LRAD 450XL ....LRAD 450XL

LRAD 360XL

The 360XL packs more audio output and broadcast range into smaller, lighter system configurations.

» Fully ruggedized space saving 1RU amplifier modules

» Low power consumption for continuous operation during extended power outages

» Unparalleled vocal clarity and intelligibility

» Audio output quickly and easily modulated

» Comes standard with MP3 Controller/ Player for recording, storing and playing back messages

» All-weather microphone also records and plays back messages on the fly

LRAD 360XL ....LRAD 360XL

LRAD 500X

The LRAD 500X-RE easily mounts and transports to provide law enforcement, homeland security, and defense personnel unparalleled long-range communication and safe, scalable non-kinetic escalation of force.

» Highly intelligible communication up to 2,000 meters

» Safely communicates beyond stand-off distances to determine intent

» Variable beam width

» Extended coverage

» Clear, long-range, directional communication

» Creates instant acoustic standoff perimeter

BARK-9™ HIGH SPEED CANINE ARMOR

The K-9 tactical vest designed for the modern K-9 officer and handler – the redesigned Bark-9™

In the tradition of Safariland® tactical carriers, equipment and accessories, the Bark-9™ was designed with the same passion and innovation as our products for the human officer. The Bark-9™ caters to the modern police, SWAT or special operations canine with a contoured pattern that allows for high-speed assaults. The Bark-9™ has been wear-tested and approved by multiple domestic US agencies as the top-of-the-line K-9 vest on the market.

» Reinforced stitching for durability

» Restraint handle and two 1" D-rings for adjustable leash attachment

» Two hook and loop ID attachment platforms

» Additional modular webbing for Go-Pro/video equipment attachment

» Rugged Cordura® nylon exterior for long-lasting wear

» 420-denier diamond ripstop nylon interior for breathability and comfortable fit

» Detachable spine extension with 2" ballistic overlap (measures 6" x 8" at widest point)

» Compatible with SX, Matrix, and Hardwire ballistics
