

**Region 4 Education Service Center (ESC)**

**Contract # R220703**

*for*

Facility Technology Integration & Security System Services

*with*

**Schneider Electric Buildings Americas, Inc.**

Effective: April 1, 2022

The following documents comprise the executed contract between the Region 4 Education Service Center and Schneider Electric Buildings Americas, Inc., effective April 1, 2022:

- I. Vendor Contract and Signature Form
- II. Supplier's Response to the RFP, incorporated by reference

## **CONTRACT**

*This Contract ("Contract") is made as of April 1, 2022 by and between Schneider Electric Buildings Americas, Inc. ("Contractor") and Region 4 Education Service Center ("Region 4 ESC") for the purchase of Facility Technology Integration & Security System Services ("the products and services").*

## **RECITALS**

WHEREAS, Region 4 ESC issued Request for Proposals Number R22-07 for Facility Technology Integration & Security System Services ("RFP"), to which Contractor provided a response ("Proposal"); and

WHEREAS, Region 4 ESC selected Contractor's Proposal and wishes to engage Contractor in providing the services/materials described in the RFP and Proposal;

WHEREAS, both parties agree and understand the following pages will constitute the Contract between the Contractor and Region 4 ESC, having its principal place of business at 7145 West Tidwell Road, Houston, TX 77092.

WHEREAS, Contractor included, in writing, any required exceptions or deviations from these terms, conditions, and specifications; and it is further understood that, if agreed to by Region 4 ESC, said exceptions or deviations are incorporated into the Contract.

WHEREAS, this Contract consists of the provisions set forth below, including provisions of all attachments referenced herein. In the event of a conflict between the provisions set forth below and those contained in any attachment, the provisions set forth below shall control.

WHEREAS, the Contract will provide that any state and local governmental entities, public and private primary, secondary and higher education entities, non-profit entities, and agencies for the public benefit ("Public Agencies"), subject to Contractor's credit review and approval, may purchase products and services at prices indicated in the Contract upon the Public Agency's registration with OMNIA Partners.

1) Term of agreement. The term of the Contract is for a period of three (3) years unless terminated, canceled or extended as otherwise provided herein. Region 4 ESC shall have the right to renew the Contract for two (2) additional one-year periods or portions thereof. Region 4 ESC shall review the Contract prior to the renewal date and notify the Contractor of Region 4 ESC's intent renew the Contract. Contractor may elect not to renew by providing three hundred sixty-five days' (365) notice to Region 4 ESC. Notwithstanding the expiration of the initial term or any subsequent term or all renewal options, Region 4 ESC and Contractor may mutually agree to extend the term of this Agreement. Contractor acknowledges and understands Region 4 ESC is under no obligation whatsoever to extend the term of this Agreement.

The anticipated full term of the contract is five (5) years. The Contractor shall have the right to enter local "service" agreements with Participating Public Agencies accessing the contract through OMNIA Partners, so long as the effective date of such agreement is prior to the

expiration of the Contract. All local agreements may have a full potential term (any combination of initial and renewal periods) not to exceed five years. Any tasks or project agreements executed against this Master Agreement during the effective term may survive beyond the expiration of the Master Agreement as established and agreed to by both parties.

- 2) Scope: Contractor shall perform all duties, responsibilities and obligations, set forth in this agreement, and described in the RFP, incorporated herein by reference as though fully set forth herein.
- 3) Form of Contract. The form of Contract shall be the RFP, the Offeror's proposal and Best and Final Offer(s).
- 4) Order of Precedence. In the event of a conflict in the provisions of the Contract as accepted by Region 4 ESC, the following order of precedence shall prevail:
  - i. This Contract
  - ii. Offeror's Best and Final Offer
  - iii. Offeror's proposal
  - iv. RFP and any addenda
- 5) Commencement of Work. The Contractor is cautioned not to commence any billable work or provide any material or service under this Contract until Contractor receives and accepts a purchase order for such work or is otherwise directed to do so in writing by Region 4 ESC.
- 6) Entire Agreement (Parol evidence). The Contract, as specified above, represents the final written expression of agreement. All agreements are contained herein and no other agreements or representations that materially alter it are acceptable.
- 7) Assignment of Contract. No assignment of Contract may be made without the prior written approval of Region 4 ESC. Contractor is required to notify Region 4 ESC when any material change in operations is made (i.e. bankruptcy, change of ownership, merger, etc.).
- 8) Novation. If Contractor sells or transfers all assets or the entire portion of the assets used to perform this Contract, a successor in interest must guarantee to perform all obligations under this Contract. Region 4 ESC reserves the right to accept or reject any new party. A change of name agreement will not change the contractual obligations of Contractor.
- 9) Contract Alterations. No alterations to the terms of this Contract shall be valid or binding unless authorized and signed by Region 4 ESC.
- 10) Adding Authorized Distributors/Dealers. Contractor is prohibited from authorizing additional distributors or dealers, other than those identified at the time of submitting their proposal, to sell under the Contract without notification and prior written approval from Region 4 ESC. Contractor must notify Region 4 ESC each time it wishes to add an authorized distributor or dealer. Purchase orders and payment can only be made to the Contractor unless otherwise approved by Region 4 ESC. Pricing provided to members by added distributors or dealers must also be less than or equal to the Contractor's pricing.
- 11) TERMINATION OF CONTRACT
  - a) Cancellation for Non-Performance or Contractor Deficiency. Region 4 ESC may terminate the Contract if purchase volume is determined to be low volume in any 12-month period.

Region 4 ESC reserves the right to cancel the whole or any part of this Contract due to failure by Contractor to carry out any obligation, term or condition of the contract. Region 4 ESC may issue a written deficiency notice to Contractor for acting or failing to act in any of the following:

- i. Providing material that does not meet the specifications of the Contract;
- ii. Providing work or material was not awarded under the Contract;
- iii. Failing to adequately perform the services set forth in the scope of work and specifications;
- iv. Failing to complete required work or furnish required materials within a reasonable amount of time;
- v. Failing to make progress in performance of the Contract or giving Region 4 ESC reason to believe Contractor will not or cannot perform the requirements of the Contract; or
- vi. Performing work or providing services under the Contract prior to receiving an authorized purchase order.

Upon receipt of a written deficiency notice, Contractor shall have ten (10) days to provide a satisfactory response to Region 4 ESC. Failure to adequately address all issues of concern may result in Contract cancellation. Upon cancellation under this paragraph, all goods, materials, work, documents, data and reports prepared by Contractor under the Contract shall immediately become the property of Region 4 ESC provided, however, that nothing herein shall impair or affect the rights of Contractor with respect to its pre-existing intellectual property rights. Any cancellation of the contract should be made subject to receipt of payment for work properly performed.

- b) Termination for Cause. If, for any reason, Contractor fails to fulfill its obligation in a timely manner, or Contractor violates any of the covenants, agreements, or stipulations of this Contract Region 4 ESC reserves the right to terminate the Contract immediately and pursue all other applicable remedies afforded by law. Such termination shall be effective by delivery of notice, to the Contractor, specifying the effective date of termination. In such event, all documents, data, studies, surveys, drawings, maps, models and reports prepared by Contractor will become the property of the Region 4 ESC. If such event does occur, Contractor will be entitled to receive just and equitable compensation for the satisfactory work completed on such documents. If the Participating Public Agency or Procuring Party fails to make payments to Contractor as required in this Contract, through no fault of the Contractor, Contractor may, upon seven (7) business days written notice to the Participating Public Agency or Procuring Party payment for all Work executed and for proven loss with respect to materials, equipment, tools, and machinery, including reasonable overhead, profit and damages applicable to the Project.
- c) Delivery/Service Failures. Failure to deliver goods or services within the time specified, or within a reasonable time period as interpreted by the purchasing agent or failure to make replacements or corrections of rejected articles/services when so requested shall constitute grounds for the Contract to be terminated. In the event Region 4 ESC must purchase in an open market, Contractor agrees to reimburse Region 4 ESC, within a reasonable time period, for all expenses incurred.
- d) Force Majeure. If by reason of Force Majeure, either party hereto shall be rendered unable wholly or in part to carry out its obligations under this Agreement then such party shall give notice and full particulars of Force Majeure in writing to the other party within a reasonable time after occurrence of the event or cause relied upon, and the obligation of the party giving such notice, so far as it is affected by such Force Majeure, shall be suspended during the continuance of the inability then claimed, except as hereinafter provided, but for no longer period, and such party shall endeavor to remove or overcome such inability with all reasonable dispatch.

The term Force Majeure as employed herein, shall mean acts of God, strikes, lockouts, or other industrial disturbances, act of public enemy, orders of any kind of government of the United States or the State of Texas or any civil or military authority; insurrections; riots; epidemics; landslides; lighting; earthquake; fires; hurricanes; storms; floods; washouts; droughts; arrests; restraint of government and people; civil disturbances; explosions, breakage or accidents to machinery, pipelines or canals, or other causes not reasonably within the control of the party claiming such inability. It is understood and agreed that the settlement of strikes and lockouts shall be entirely within the discretion of the party having the difficulty, and that the above requirement that any Force Majeure shall be remedied with all reasonable dispatch shall not require the settlement of strikes and lockouts by acceding to the demands of the opposing party or parties when such settlement is unfavorable in the judgment of the party having the difficulty.

- e) Standard Cancellation. Region 4 ESC may cancel this Contract in whole or in part by providing written notice. Contractor may cancel Contracts with Participating Public Agencies in whole or in part by providing written notice. The cancellation will take effect 30 business days after the other party receives the notice of cancellation. After the 30th business day all work will cease following completion of final purchase order.
  
- 12) Licenses. Contractor shall maintain in current status all federal, state and local licenses, bonds and permits required for the operation of the business conducted by Contractor. Contractor shall remain fully informed of and in compliance with all ordinances and regulations pertaining to the lawful provision of services under the Contract. Region 4 ESC reserves the right to stop work and/or cancel the Contract if Contractor's license(s) expire, lapse, are suspended or terminated.
  
- 13) Survival Clause. All applicable software license agreements, warranties or service agreements that are entered into between Contractor and Region 4 ESC under the terms and conditions of the Contract shall survive the expiration or termination of the Contract. All Purchase Orders issued and accepted by Contractor shall survive expiration or termination of the Contract.
  
- 14) Delivery. Conforming product shall be shipped within time frame agreed to prior to receipt of Purchase Order. If delivery is not or cannot be made within this time period, the Contractor must receive authorization for the delayed delivery. The order may be canceled if the estimated shipping time is not acceptable. All deliveries shall be freight prepaid, F.O.B. Destination and shall be included in all pricing offered unless otherwise clearly stated in writing.
  
- 15) Inspection & Acceptance. If defective or incorrect material is delivered, Region 4 ESC may make the determination to return the material to the Contractor at no cost to Region 4 ESC. The Contractor agrees to pay all shipping costs for the return shipment. Contractor shall be responsible for arranging the return of the defective or incorrect material.
  
- 16) Payments. Payment shall be made after satisfactory performance, in accordance with all provisions thereof, and within 30 days of receipt of a properly completed invoice.
  
- 17) Price Adjustments. Should it become necessary or proper during the term of this Contract to make any change in pricing, Region 4 ESC must be notified immediately. Price increases must be approved by Region 4 ESC and no payment for additional materials or services, beyond the amount stipulated in the Contract shall be paid without prior approval. All price increases must be supported by manufacturer documentation, or a formal cost justification letter. Contractor must honor previous prices for thirty (30) days after approval and written

notification from Region 4 ESC for project proposals submitted prior to the receipt of the approval and written notification. It is the Contractor's responsibility to keep all pricing up to date and on file with Region 4 ESC. All price changes must be provided to Region 4 ESC, using the same format as was provided and accepted in the Contractor's proposal.

Price reductions may be offered at any time during Contract. Special, time-limited reductions are permissible under the following conditions: 1) reduction is available to all users equally; 2) reduction is for a specific period, normally not less than thirty (30) days; and 3) original price is not exceeded after the time-limit. Contractor shall offer Region 4 ESC any published price reduction during the Contract term.

- 18) Audit Rights. Contractor shall, at its sole expense, maintain appropriate due diligence of all purchases made by Region 4 ESC and any entity that utilizes this Contract. Region 4 ESC reserves the right to audit the accounting for a period of three (3) years from the time such purchases are made. This audit right shall survive termination of this Agreement for a period of one (1) year from the effective date of termination. Region 4 ESC shall have the authority to conduct random audits of Contractor's pricing at Region 4 ESC's sole cost and expense. Notwithstanding the foregoing, in the event that Region 4 ESC is made aware of any pricing being offered that is materially inconsistent with the pricing under this agreement, Region 4 ESC shall have the ability to conduct an extensive audit of Contractor's pricing at Contractor's sole cost and expense. Region 4 ESC may conduct the audit internally or may engage a third-party auditing firm. In the event of an audit, the requested materials shall be provided in the format and at the location designated by Region 4 ESC.
- 19) Discontinued Products. If a product or model is discontinued by the manufacturer, Contractor may substitute a new product or model if the replacement product meets or exceeds the specifications and performance of the discontinued model and if the discount is the same or greater than the discontinued model.
- 20) New Products/Services. New products and/or services that meet the scope of work may be added to the Contract. Pricing shall be equivalent to the percentage discount for other products. Contractor may replace or add product lines if the line is replacing or supplementing products, is equal or superior to the original products, is discounted similarly or greater than the original discount, and if the products meet the requirements of the Contract. No products and/or services may be added to avoid competitive procurement requirements. Region 4 ESC may require additions to be submitted with documentation from Members demonstrating an interest in, or a potential requirement for, the new product or service. Region 4 ESC may reject any additions without cause.
- 21) Options. Optional equipment for products under Contract may be added to the Contract at the time they become available under the following conditions: 1) the option is priced at a discount similar to other options; 2) the option is an enhancement to the unit that improves performance or reliability.
- 22) Warranty Conditions. All supplies, equipment and services shall include manufacturer's minimum standard warranty and one (1) year labor warranty unless otherwise agreed to in writing. THE WARRANTIES SET FORTH ABOVE ARE EXCLUSIVE AND IN LIEU OF ALL OTHER EXPRESSED OR IMPLIED WARRANTIES (EXCEPT WARRANTIES OF TITLE) INCLUDING, BUT NOT LIMITED TO, WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. This warranty shall not apply to (a) equipment not manufactured by Contractor, (b) equipment that has been repaired or altered by other

than Contractor so as, in its judgment, to affect the same adversely, or (c) equipment that has been subject to negligence, accident or damage by circumstances beyond Contractor's control, or improper operation, maintenance or storage, or other than normal use and service. With respect to equipment not manufactured by Contractor, the warranty obligations of Contractor shall in all respects conform to and be limited to the warranty actually extended to Contractor by its supplier.

- 23) Site Cleanup. Contractor shall clean up and remove all debris and rubbish resulting from their work as required or directed. Upon completion of the work, the premises shall be left in good repair and an orderly, neat, clean, safe and unobstructed condition.
- 24) Site Preparation. Contractor shall not begin a project for which the site has not been prepared, unless Contractor does the preparation work at no cost, or until Region 4 ESC includes the cost of site preparation in a purchase order. Site preparation includes, but is not limited to: moving furniture, installing wiring for networks or power, and similar pre-installation requirements.
- 25) Registered Sex Offender Restrictions. For work to be performed at schools, Contractor agrees no employee or employee of a subcontractor who has been adjudicated to be a registered sex offender will perform work at any time when students are or are reasonably expected to be present. Contractor agrees a violation of this condition shall be considered a material breach and may result in the cancellation of the purchase order at Region 4 ESC's discretion. Contractor must identify any additional costs associated with compliance of this term. If no costs are specified, compliance with this term will be provided at no additional charge.
- 26) Safety measures. Contractor shall take all reasonable precautions for the safety of employees on the worksite and shall erect and properly maintain all necessary safeguards for protection of workers and the public. Contractor shall post warning signs against all hazards created by its operation and work in progress. Proper precautions shall be taken pursuant to state law and standard practices to protect workers, general public and existing structures from injury or damage.
- 27) Smoking. Persons working under the Contract shall adhere to local smoking policies. Smoking will only be permitted in posted areas or off premises.
- 28) Stored materials. Upon prior written agreement between the Contractor and Region 4 ESC, payment may be made for materials not incorporated in the work but delivered and suitably stored at the site or some other location, for installation at a later date. An inventory of the stored materials must be provided to Region 4 ESC prior to payment. Such materials must be stored and protected in a secure location and be insured for their full value by the Contractor against loss and damage. Contractor agrees to provide proof of coverage and additionally insured upon request. Additionally, if stored offsite, the materials must also be clearly identified as property of Region 4 ESC and be separated from other materials. Region 4 ESC must be allowed reasonable opportunity to inspect and take inventory of stored materials, on or offsite, as necessary. Until final acceptance by Region 4 ESC, it shall be the Contractor's responsibility to protect all materials and equipment. Contractor warrants and guarantees that title for all work, materials and equipment shall pass to Region 4 ESC upon final acceptance.
- 29) Funding Out Clause. A Contract for the acquisition, including lease, of real or personal property is a commitment of Region 4 ESC's current revenue only. Region 4 ESC retains the

right to terminate the Contract at the expiration of each budget period during the term of the Contract and is conditioned on a best effort attempt by Region 4 ESC to obtain appropriate funds for payment of the contract.

- 30) Indemnity. Contractor shall protect, indemnify, and hold harmless both Region 4 ESC and its administrators, employees and agents against all claims, damages, losses and expenses to the extent arising out of or resulting from the negligence, fault or willful misconduct of the Contractor, Contractor employees or subcontractors in the preparation of the solicitation and the later execution of the Contract. Any litigation involving either Region 4 ESC, its administrators and employees and agents will be in Harris County, Texas.
- 31) Marketing. Contractor agrees to allow Region 4 ESC to use their name and logo within website, marketing materials and advertisement. Any use of Region 4 ESC name and logo or any form of publicity, inclusive of press releases, regarding this Contract by Contractor must have prior approval from Region 4 ESC once approval from awarded vendor has been provided.
- 32) Certificates of Insurance. Certificates of insurance shall be delivered to the Region 4 ESC prior to commencement of work. The certificate of insurance shall provide that should any of the above described policies be cancelled or reduced in coverage or limits while the Work is in progress, before the expiration date thereof, notice will be delivered in accordance with the policy provisions, pursuant to ISO ACORD Form 25 (05/2010). Contractor shall provide Region 4 ESC participant at least thirty (30) days' prior written notice of the cancellation, non-renewal or reduction in coverage or limits of the insurance. The Contractor shall require all subcontractors performing any work to maintain coverage as specified.
- 33) Legal Obligations. It is Contractor's responsibility to be aware of and comply with all local, state, and federal laws governing the sale of products/services and shall comply with all laws while fulfilling the Contract. Applicable laws and regulation must be followed even if not specifically identified herein.

**OFFER AND CONTRACT SIGNATURE FORM**

The undersigned hereby offers and, if awarded, agrees to furnish goods and/or services in strict compliance with the terms, specifications and conditions at the prices proposed within response unless noted in writing.

Response to Request for Proposal for  
Facility Technology Integration & Security System Services  
Solicitation Number 22-07

January 11, 2022

## Executive Summary

Schneider Electric is pleased to submit the following proposal and documentation detailing our credentials to support OMNIA Partners Members as it relates to RFP 22-07 for a Facility Technology Integration & Security System Services provider. The following information expands on our technical approach and overall strategy to provide varying solutions to the Members throughout North America. Ultimately our intent is to provide robust solutions that address the memberships needs while maintaining a close eye on bottom line.

We believe our greatest strength for any endeavor is our commitment to our customers' safety, security, and comfort as well as the quality of services offered through all of our sales channels. That is our VALUE proposition. For each and every project, we select a Best-of-Class Solution, as well as a Best-of-Class Execution Team to ensure your goals are met or exceeded.

Our mission is to provide the highest quality integration of products and services in the industry. By integrating multiple systems together, a single seat of control is established for our clients which maximizes the flow of information resulting in more informed security responses. Additionally the single seat of control increases the overall effectiveness of the security operation resulting in a more appropriate response and more satisfied patrons. Through integration, Schneider Electric is able to help clients realize true cost savings on both CapEX and OpEX expenses. These savings are realized throughout the entire lifecycle of the system, from initial installation to day-to-day performance and upkeep. Our approach aims to provide a flexible system that yields a long-term cost effective solution that is easy to use.

One key differentiator for Schneider Electric is the fact that we are both a manufacturer and an authorized re-sellers of many products. As such we are in a position to support the OMNIA Partners Members with a variety of products from design, installation to warranty and support. We have the ability to work directly with clients to ensure project goals are met, standards are established, and quality is tightly managed. We have a deep knowledge of integrated solutions and have the ability to adjust solutions as project requirements or client goals change, thus enabling us to meet the everchanging needs of our customers.

We are confident that we can provide the best overall solution for the membership should we be given the opportunity. Additionally the solution being proposed is readily available today and is considered standard and off the shelf.

Sincerely,

Chas Reynolds

**APPENDIX A**

**DRAFT CONTRACT**

*This Contract ("Contract") is made as of \_\_\_\_\_, 202X by and between \_\_\_\_\_ ("Contractor") and Region 4 Education Service Center ("Region 4 ESC") for the purchase of \_\_\_\_\_ ("the products and services").*

**RECITALS**

WHEREAS, Region 4 ESC issued Request for Proposals Number R \_\_\_\_\_ for \_\_\_\_\_ ("RFP"), to which Contractor provided a response ("Proposal"); and

WHEREAS, Region 4 ESC selected Contractor's Proposal and wishes to engage Contractor in providing the services/materials described in the RFP and Proposal;

WHEREAS, both parties agree and understand the following pages will constitute the Contract between the Contractor and Region 4 ESC, having its principal place of business at 7145 West Tidwell Road, Houston, TX 77092.

WHEREAS, Contractor included, in writing, any required exceptions or deviations from these terms, conditions, and specifications; and it is further understood that, if agreed to by Region 4 ESC, said exceptions or deviations are incorporated into the Contract.

WHEREAS, this Contract consists of the provisions set forth below, including provisions of all attachments referenced herein. In the event of a conflict between the provisions set forth below and those contained in any attachment, the provisions set forth below shall control.

WHEREAS, the Contract will provide that any state and local governmental entities, public and private primary, secondary and higher education entities, non-profit entities, and agencies for the public benefit ("Public Agencies") may purchase products and services at prices indicated in the Contract upon the Public Agency's registration with OMNIA Partners.

1) Term of agreement. The term of the Contract is for a period of three (3) years unless terminated, canceled or extended as otherwise provided herein. Region 4 ESC shall have the right to renew the Contract for two (2) additional one-year periods or portions thereof. Region 4 ESC shall review the Contract prior to the renewal date and notify the Contractor of Region 4 ESC's intent renew the Contract. Contractor may elect not to renew by providing three hundred sixty-five days' (365) notice to Region 4 ESC. Notwithstanding the expiration of the initial term or any subsequent term or all renewal options, Region 4 ESC and Contractor may mutually agree to extend the term of this Agreement. Contractor acknowledges and understands Region 4 ESC is under no obligation whatsoever to extend the term of this Agreement.

The anticipated full term of the contract is five (5) years. The Contractor shall have the right to enter local "service" agreements with Participating Public Agencies accessing the contract through OMNIA Partners, so long as the effective date of such agreement is prior to the expiration of the Contract. All local agreements may have a full potential term (any combination of initial and renewal periods) not to exceed five years. Any tasks or project

agreements executed against this Master Agreement during the effective term may survive beyond the expiration of the Master Agreement as established and agreed to by both parties.

- 2) Scope: Contractor shall perform all duties, responsibilities and obligations, set forth in this agreement, and described in the RFP, incorporated herein by reference as though fully set forth herein.
- 3) Form of Contract. The form of Contract shall be the RFP, the Offeror's proposal and Best and Final Offer(s).
- 4) Order of Precedence. In the event of a conflict in the provisions of the Contract as accepted by Region 4 ESC, the following order of precedence shall prevail:
  - i. This Contract
  - ii. Offeror's Best and Final Offer
  - iii. Offeror's proposal
  - iv. RFP and any addenda
- 5) Commencement of Work. The Contractor is cautioned not to commence any billable work or provide any material or service under this Contract until Contractor receives a purchase order for such work or is otherwise directed to do so in writing by Region 4 ESC.
- 6) Entire Agreement (Parol evidence). The Contract, as specified above, represents the final written expression of agreement. All agreements are contained herein and no other agreements or representations that materially alter it are acceptable.
- 7) Assignment of Contract. No assignment of Contract may be made without the prior written approval of Region 4 ESC. Contractor is required to notify Region 4 ESC when any material change in operations is made (i.e. bankruptcy, change of ownership, merger, etc.).
- 8) Novation. If Contractor sells or transfers all assets or the entire portion of the assets used to perform this Contract, a successor in interest must guarantee to perform all obligations under this Contract. Region 4 ESC reserves the right to accept or reject any new party. A change of name agreement will not change the contractual obligations of Contractor.
- 9) Contract Alterations. No alterations to the terms of this Contract shall be valid or binding unless authorized and signed by Region 4 ESC.
- 10) Adding Authorized Distributors/Dealers. Contractor is prohibited from authorizing additional distributors or dealers, other than those identified at the time of submitting their proposal, to sell under the Contract without notification and prior written approval from Region 4 ESC. Contractor must notify Region 4 ESC each time it wishes to add an authorized distributor or dealer. Purchase orders and payment can only be made to the Contractor unless otherwise approved by Region 4 ESC. Pricing provided to members by added distributors or dealers must also be less than or equal to the Contractor's pricing.
- 11) TERMINATION OF CONTRACT
  - a) Cancellation for Non-Performance or Contractor Deficiency. Region 4 ESC may terminate the Contract if purchase volume is determined to be low volume in any 12-month period. Region 4 ESC reserves the right to cancel the whole or any part of this Contract due to failure by Contractor to carry out any obligation, term or condition of the contract. Region

4 ESC may issue a written deficiency notice to Contractor for acting or failing to act in any of the following:

- i. Providing material that does not meet the specifications of the Contract;
- ii. Providing work or material was not awarded under the Contract;
- iii. Failing to adequately perform the services set forth in the scope of work and specifications;
- iv. Failing to complete required work or furnish required materials within a reasonable amount of time;
- v. Failing to make progress in performance of the Contract or giving Region 4 ESC reason to believe Contractor will not or cannot perform the requirements of the Contract; or
- vi. Performing work or providing services under the Contract prior to receiving an authorized purchase order.

Upon receipt of a written deficiency notice, Contractor shall have ten (10) days to provide a satisfactory response to Region 4 ESC. Failure to adequately address all issues of concern may result in Contract cancellation. Upon cancellation under this paragraph, all goods, materials, work, documents, data and reports prepared by Contractor under the Contract shall immediately become the property of Region 4 ESC.

- b) Termination for Cause. If, for any reason, Contractor fails to fulfill its obligation in a timely manner, or Contractor violates any of the covenants, agreements, or stipulations of this Contract Region 4 ESC reserves the right to terminate the Contract immediately and pursue all other applicable remedies afforded by law. Such termination shall be effective by delivery of notice, to the Contractor, specifying the effective date of termination. In such event, all documents, data, studies, surveys, drawings, maps, models and reports prepared by Contractor will become the property of the Region 4 ESC. If such event does occur, Contractor will be entitled to receive just and equitable compensation for the satisfactory work completed on such documents.
- c) Delivery/Service Failures. Failure to deliver goods or services within the time specified, or within a reasonable time period as interpreted by the purchasing agent or failure to make replacements or corrections of rejected articles/services when so requested shall constitute grounds for the Contract to be terminated. In the event Region 4 ESC must purchase in an open market, Contractor agrees to reimburse Region 4 ESC, within a reasonable time period, for all expenses incurred.
- d) Force Majeure. If by reason of Force Majeure, either party hereto shall be rendered unable wholly or in part to carry out its obligations under this Agreement then such party shall give notice and full particulars of Force Majeure in writing to the other party within a reasonable time after occurrence of the event or cause relied upon, and the obligation of the party giving such notice, so far as it is affected by such Force Majeure, shall be suspended during the continuance of the inability then claimed, except as hereinafter provided, but for no longer period, and such party shall endeavor to remove or overcome such inability with all reasonable dispatch.

The term Force Majeure as employed herein, shall mean acts of God, strikes, lockouts, or other industrial disturbances, act of public enemy, orders of any kind of government of the United States or the State of Texas or any civil or military authority; insurrections; riots; epidemics; landslides; lighting; earthquake; fires; hurricanes; storms; floods; washouts; droughts; arrests; restraint of government and people; civil disturbances; explosions, breakage or accidents to machinery, pipelines or canals, or other causes not reasonably within the control of the party claiming such inability. It is understood and agreed that the settlement of strikes and lockouts shall be entirely within the discretion of the party having the difficulty, and that the above requirement that any Force Majeure shall be remedied with all reasonable dispatch shall not require the settlement of strikes and lockouts by

acceding to the demands of the opposing party or parties when such settlement is unfavorable in the judgment of the party having the difficulty.

- e) Standard Cancellation. Region 4 ESC may cancel this Contract in whole or in part by providing written notice. The cancellation will take effect 30 business days after the other party receives the notice of cancellation. After the 30th business day all work will cease following completion of final purchase order.

12) Licenses. Contractor shall maintain in current status all federal, state and local licenses, bonds and permits required for the operation of the business conducted by Contractor. Contractor shall remain fully informed of and in compliance with all ordinances and regulations pertaining to the lawful provision of services under the Contract. Region 4 ESC reserves the right to stop work and/or cancel the Contract if Contractor's license(s) expire, lapse, are suspended or terminated.

13) Survival Clause. All applicable software license agreements, warranties or service agreements that are entered into between Contractor and Region 4 ESC under the terms and conditions of the Contract shall survive the expiration or termination of the Contract. All Purchase Orders issued and accepted by Contractor shall survive expiration or termination of the Contract.

14) Delivery. Conforming product shall be shipped within 7 days of receipt of Purchase Order. If delivery is not or cannot be made within this time period, the Contractor must receive authorization for the delayed delivery. The order may be canceled if the estimated shipping time is not acceptable. All deliveries shall be freight prepaid, F.O.B. Destination and shall be included in all pricing offered unless otherwise clearly stated in writing.

15) Inspection & Acceptance. If defective or incorrect material is delivered, Region 4 ESC may make the determination to return the material to the Contractor at no cost to Region 4 ESC. The Contractor agrees to pay all shipping costs for the return shipment. Contractor shall be responsible for arranging the return of the defective or incorrect material.

16) Payments. Payment shall be made after satisfactory performance, in accordance with all provisions thereof, and upon receipt of a properly completed invoice.

17) Price Adjustments. Should it become necessary or proper during the term of this Contract to make any change in design or any alterations that will increase price, Region 4 ESC must be notified immediately. Price increases must be approved by Region 4 ESC and no payment for additional materials or services, beyond the amount stipulated in the Contract shall be paid without prior approval. All price increases must be supported by manufacturer documentation, or a formal cost justification letter. Contractor must honor previous prices for thirty (30) days after approval and written notification from Region 4 ESC. It is the Contractor's responsibility to keep all pricing up to date and on file with Region 4 ESC. All price changes must be provided to Region 4 ESC, using the same format as was provided and accepted in the Contractor's proposal.

Price reductions may be offered at any time during Contract. Special, time-limited reductions are permissible under the following conditions: 1) reduction is available to all users equally; 2) reduction is for a specific period, normally not less than thirty (30) days; and 3) original price is not exceeded after the time-limit. Contractor shall offer Region 4 ESC any published price reduction during the Contract term.

- 18) Audit Rights. Contractor shall, at its sole expense, maintain appropriate due diligence of all purchases made by Region 4 ESC and any entity that utilizes this Contract. Region 4 ESC reserves the right to audit the accounting for a period of three (3) years from the time such purchases are made. This audit right shall survive termination of this Agreement for a period of one (1) year from the effective date of termination. Region 4 ESC shall have the authority to conduct random audits of Contractor's pricing at Region 4 ESC's sole cost and expense. Notwithstanding the foregoing, in the event that Region 4 ESC is made aware of any pricing being offered that is materially inconsistent with the pricing under this agreement, Region 4 ESC shall have the ability to conduct an extensive audit of Contractor's pricing at Contractor's sole cost and expense. Region 4 ESC may conduct the audit internally or may engage a third-party auditing firm. In the event of an audit, the requested materials shall be provided in the format and at the location designated by Region 4 ESC.
- 19) Discontinued Products. If a product or model is discontinued by the manufacturer, Contractor may substitute a new product or model if the replacement product meets or exceeds the specifications and performance of the discontinued model and if the discount is the same or greater than the discontinued model.
- 20) New Products/Services. New products and/or services that meet the scope of work may be added to the Contract. Pricing shall be equivalent to the percentage discount for other products. Contractor may replace or add product lines if the line is replacing or supplementing products, is equal or superior to the original products, is discounted similarly or greater than the original discount, and if the products meet the requirements of the Contract. No products and/or services may be added to avoid competitive procurement requirements. Region 4 ESC may require additions to be submitted with documentation from Members demonstrating an interest in, or a potential requirement for, the new product or service. Region 4 ESC may reject any additions without cause.
- 21) Options. Optional equipment for products under Contract may be added to the Contract at the time they become available under the following conditions: 1) the option is priced at a discount similar to other options; 2) the option is an enhancement to the unit that improves performance or reliability.
- 22) Warranty Conditions. All supplies, equipment and services shall include manufacturer's minimum standard warranty and one (1) year labor warranty unless otherwise agreed to in writing.
- 23) Site Cleanup. Contractor shall clean up and remove all debris and rubbish resulting from their work as required or directed. Upon completion of the work, the premises shall be left in good repair and an orderly, neat, clean, safe and unobstructed condition.
- 24) Site Preparation. Contractor shall not begin a project for which the site has not been prepared, unless Contractor does the preparation work at no cost, or until Region 4 ESC includes the cost of site preparation in a purchase order. Site preparation includes, but is not limited to: moving furniture, installing wiring for networks or power, and similar pre-installation requirements.
- 25) Registered Sex Offender Restrictions. For work to be performed at schools, Contractor agrees no employee or employee of a subcontractor who has been adjudicated to be a registered sex offender will perform work at any time when students are or are reasonably expected to be present. Contractor agrees a violation of this condition shall be considered a

material breach and may result in the cancellation of the purchase order at Region 4 ESC's discretion. Contractor must identify any additional costs associated with compliance of this term. If no costs are specified, compliance with this term will be provided at no additional charge.

- 26) Safety measures. Contractor shall take all reasonable precautions for the safety of employees on the worksite and shall erect and properly maintain all necessary safeguards for protection of workers and the public. Contractor shall post warning signs against all hazards created by its operation and work in progress. Proper precautions shall be taken pursuant to state law and standard practices to protect workers, general public and existing structures from injury or damage.
- 27) Smoking. Persons working under the Contract shall adhere to local smoking policies. Smoking will only be permitted in posted areas or off premises.
- 28) Stored materials. Upon prior written agreement between the Contractor and Region 4 ESC, payment may be made for materials not incorporated in the work but delivered and suitably stored at the site or some other location, for installation at a later date. An inventory of the stored materials must be provided to Region 4 ESC prior to payment. Such materials must be stored and protected in a secure location and be insured for their full value by the Contractor against loss and damage. Contractor agrees to provide proof of coverage and additionally insured upon request. Additionally, if stored offsite, the materials must also be clearly identified as property of Region 4 ESC and be separated from other materials. Region 4 ESC must be allowed reasonable opportunity to inspect and take inventory of stored materials, on or offsite, as necessary. Until final acceptance by Region 4 ESC, it shall be the Contractor's responsibility to protect all materials and equipment. Contractor warrants and guarantees that title for all work, materials and equipment shall pass to Region 4 ESC upon final acceptance.
- 29) Funding Out Clause. A Contract for the acquisition, including lease, of real or personal property is a commitment of Region 4 ESC's current revenue only. Region 4 ESC retains the right to terminate the Contract at the expiration of each budget period during the term of the Contract and is conditioned on a best effort attempt by Region 4 ESC to obtain appropriate funds for payment of the contract.
- 30) Indemnity. Contractor shall protect, indemnify, and hold harmless both Region 4 ESC and its administrators, employees and agents against all claims, damages, losses and expenses arising out of or resulting from the actions of the Contractor, Contractor employees or subcontractors in the preparation of the solicitation and the later execution of the Contract. Any litigation involving either Region 4 ESC, its administrators and employees and agents will be in Harris County, Texas.
- 31) Marketing. Contractor agrees to allow Region 4 ESC to use their name and logo within website, marketing materials and advertisement. Any use of Region 4 ESC name and logo or any form of publicity, inclusive of press releases, regarding this Contract by Contractor must have prior approval from Region 4 ESC.
- 32) Certificates of Insurance. Certificates of insurance shall be delivered to the Region 4 ESC prior to commencement of work. The Contractor shall give Region 4 ESC a minimum of ten (10) days' notice prior to any modifications or cancellation of policies. The Contractor shall require all subcontractors performing any work to maintain coverage as specified.

33) Legal Obligations. It is Contractor's responsibility to be aware of and comply with all local, state, and federal laws governing the sale of products/services and shall comply with all laws while fulfilling the Contract. Applicable laws and regulation must be followed even if not specifically identified herein.

**OFFER AND CONTRACT SIGNATURE FORM**

The undersigned hereby offers and, if awarded, agrees to furnish goods and/or services in strict compliance with the terms, specifications and conditions at the prices proposed within response unless noted in writing.

**a) Terms and Conditions Acceptance Form (Appendix B)**

Appendix B  
**TERMS & CONDITIONS ACCEPTANCE FORM**

Signature on the Offer and Contract Signature form certifies complete acceptance of the terms and conditions in this solicitation and draft Contract except as noted below with proposed substitute language (additional pages may be attached, if necessary). The provisions of the RFP cannot be modified without the express written approval of Region 4 ESC. If a proposal is returned with modifications to the draft Contract provisions that are not expressly approved in writing by Region 4 ESC, the Contract provisions contained in the RFP shall prevail.

Check one of the following responses:

- Offeror takes no exceptions to the terms and conditions of the RFP and draft Contract.

(Note: If none are listed below, it is understood that no exceptions/deviations are taken.)

Offeror takes the following exceptions to the RFP and draft Contract. All exceptions must be clearly explained, reference the corresponding term to which Offeror is taking exception and clearly state any proposed modified language, proposed additional terms to the RFP and draft Contract must be included:

(Note: Unacceptable exceptions may remove Offeror's proposal from consideration for award. Region 4 ESC shall be the sole judge on the acceptance of exceptions and modifications and the decision shall be final.

If an offer is made with modifications to the contract provisions that are not expressly approved in writing, the contract provisions contained in the RFP shall prevail.)

Section/Page	Term, Condition or Specification	Exception/Proposed Modification	Accepted (For Region 4 ESC's use)
Contract Pg 1 / Paragraph 6			Accepted
Contract Pg 2 / 11a			Accepted
Contract Pg 3 / 11b			Accepted
Contract Pg 4 / 11e			Accepted with modified language
Contract Pg 4 / 14			Accepted
Contract Pg 4 / 16			Accepted
Contract Pg 4 / 17			17.2 and 17.7 accepted
Contract Pg 5 / 22			Accepted
Contract Pg 6 / 30			30.2 and 30.3 accepted
Contract Pg 6 / 31			Accepted
Contract Pg 6 / 32			Accepted where indicated
RFP Exhibit A 2.2			Replace with modified language

Replace Section 2.2 from Exhibit A (Response for National Cooperative Contract) in the RFP with the following language that has been agreed to:

## **2.2 Pricing Commitment**

Supplier commits the not-to-exceed pricing provided under the Master Agreement pricing is the lowest available (net to buyer) for a substantially similar scope (to include but not limited to timeframe, quantities, location, and services) to Public Agencies nationwide. Supplier further commits that if a Participating Public Agency is identified as being able to receive lower pricing and is eligible through a national, state, regional, local or cooperative contract, the Supplier shall work to match such lower pricing to that Participating Public Agency under the Master Agreement. Consideration of such lower pricing shall be made and final pricing for any project or Scope of Work shall be determined prior to issuance of a purchase order. Retroactive requests for lower pricing shall not be considered.

### Exceptions to the RFP and draft Contract

Offeror has identified several provisions as needing modification to comply with Offeror's contracting guidelines as well the addition of several new provisions. Offeror prides itself on being able to reach acceptable terms and would appreciate the opportunity to negotiate any of Offeror's proposed changes that Region 4 ESC deems unacceptable.

#### **Offeror Exceptions/Requested modifications:**

##### RECITALS paragraph 6

*Original language:* WHEREAS, the Contract will provide that any state and local governmental entities, public and private primary, secondary and higher education entities, non-profit entities, and agencies for the public benefit ("Public Agencies") may purchase products and services at prices indicated in the Contract upon the Public Agency's registration with OMNIA Partners.

Please insert after "(Public Agencies)" ",subject to Contractor's credit review and approval,"

##### Commencement of Work. (Section 6)

*Original language:* The Contractor is cautioned not to commence any billable work or provide any material or service under this Contract until Contractor receives a purchase order for such work or is otherwise directed to do so in writing by Region 4 ESC.

Offeror requests insertion of 'and accepts' after 'receives'

##### Cancellation for non-performance or contractor deficiency (Section 11(a))

*Original language:* Region 4 ESC may terminate the Contract if purchase volume is determined to be low volume in any 12-month period. Region 4 ESC reserves the right to cancel the whole or any part of this Contract due to failure by Contractor to carry out any obligation, term or condition of the contract. Region 4 ESC may issue a written deficiency notice to Contractor for acting or failing to act in any of the following:

- i. Providing material that does not meet the specifications of the Contract;
- ii. Providing work or material was not awarded under the Contract;
- iii. Failing to adequately perform the services set forth in the scope of work and specifications;
- iv. Failing to complete required work or furnish required materials within a reasonable amount of time;
- v. Failing to make progress in performance of the Contract or giving Region 4 ESC reason to believe Contractor will not or cannot perform the requirements of the Contract; or
- vi. Performing work or providing services under the Contract prior to receiving an authorized purchase order.

Upon receipt of a written deficiency notice, Contractor shall have ten (10) days to provide a satisfactory response to Region 4 ESC. Failure to adequately address all issues of concern may result in Contract cancellation. Upon cancellation under this paragraph, all goods, materials, work, documents, data and reports prepared by Contractor under the Contract shall immediately become the property of Region 4 ESC.

Please insert the following at the end of the Second Paragraph: "provided, however, that nothing herein shall impair or affect the rights of Contractor with respect to its pre-existing intellectual property rights. Any cancellation of the contract should be made subject to receipt of payment for work properly performed."

Termination for Cause (Section 11(b))

*Original language:* If, for any reason, Contractor fails to fulfill its obligation in a timely manner, or Contractor violates any of the covenants, agreements, or stipulations of this Contract Region 4 ESC reserves the right to terminate the Contract immediately and pursue all other applicable remedies afforded by law. Such termination shall be effective by delivery of notice, to the Contractor, specifying the effective date of termination. In such event, all documents, data, studies, surveys, drawings, maps, models and reports prepared by Contractor will become the property of the Region 4 ESC. If such event does occur, Contractor will be entitled to receive just and equitable compensation for the satisfactory work completed on such documents.

Please add the following to this Section: If the Participating Public Agency or Procuring Party fails to make payments to Contractor as required in this Contract, through no fault of Contractor, Contractor may, upon seven (7) business days written notice to the Participating Public Agency or Procuring Party, suspend or terminate the Contract and recover from the Participating Public Agency or Procuring Party payment for all Work executed and for proven loss with respect to materials, equipment, tools, and machinery, including reasonable overhead, profit and damages applicable to the Project.

Standard Cancellation (Section 11(e))

*Original language:* Region 4 ESC may cancel this Contract in whole or in part by providing written notice. The cancellation will take effect 30 business days after the other party receives the notice of cancellation. After the 30th business day all work will cease following completion of final purchase order.

Offeror requests insertion of "or Contractor" after "Region 4 ESC"

Delivery (Section 14)

*Original language:* Conforming product shall be shipped within 7 days of receipt of Purchase Order. If delivery is not or cannot be made within this time period, the Contractor must receive authorization for the delayed delivery. The order may be canceled if the estimated shipping time is not acceptable. All deliveries shall be freight prepaid, F.O.B. Destination and shall be included in all pricing offered unless otherwise clearly stated in writing.

Offeror requests change "7 days of" to "time frame agreed to prior to"

Payments (Section 16)

*Original language:* Payment shall be made after satisfactory performance, in accordance with all provisions thereof, and upon receipt of a properly completed invoice.

Offeror request change of "upon" to "within 30 days of"

Price Adjustments (Section 17)

*Original language:* Should it become necessary or proper during the term of this Contract to make any change in design or any alterations that will increase price, Region 4 ESC must be notified immediately. Price increases must be approved by Region 4 ESC and no payment for additional materials or services, beyond the amount stipulated in the Contract shall be paid without prior approval. All price increases must be supported by manufacturer documentation, or a formal cost justification letter. Contractor must honor previous prices for thirty (30) days after approval and written notification from Region 4 ESC. It is the Contractor's responsibility to keep all pricing up to date and on file with Region 4 ESC. All price changes must be provided to Region 4 ESC, using the same format as was provided and accepted in the Contractor's proposal.

Offeror requests the following changes:

Line 2- please change from “make any change in design or any alterations that will increase price, Region 4 ESC must be” to “make any change in pricing, Region 4 ESC must be”

Line 7- after “Region 4 ESC” please add “for project proposals submitted prior to the receipt of the approval and written notification.”

Warranty Conditions (Section 22)

*Original language:* All supplies, equipment and services shall include manufacturer's minimum standard warranty and one (1) year labor warranty unless otherwise agreed to in writing.

Offeror requests to add at the end "THE WARRANTIES SET FORTH ABOVE ARE EXCLUSIVE AND IN LIEU OF ALL OTHER EXPRESSED OR IMPLIED WARRANTIES (EXCEPT WARRANTIES OF TITLE) INCLUDING, BUT NOT LIMITED TO, WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. This warranty shall not

apply to (a) equipment not manufactured by Contractor, (b) equipment that has been repaired or altered by other than Contractor so as, in its judgment, to affect the same adversely, or (c) equipment that has been subject to negligence, accident or damage by circumstances beyond Contractor's control, or improper operation, maintenance or storage, or other than normal use and service. With respect to equipment not manufactured by Contractor, the warranty obligations of Contractor shall in all respects conform to and be limited to the warranty actually extended to Contractor by its supplier.”

Indemnity (Section 30)

*Original language:* Contractor shall protect, indemnify, and hold harmless both Region 4 ESC and its administrators, employees and agents against all claims, damages, losses and expenses arising out of or resulting from the actions of the Contractor, Contractor employees or subcontractors in the preparation of the solicitation and the later execution of the Contract. Any litigation involving either Region 4 ESC, its administrators and employees and agents will be in Harris County, Texas.

Line 2, before “arising” insert “to the extent”

Line 3, delete “actions” and insert “the negligence, fault or willful misconduct”

Marketing (Section 31)

*Original language:* Contractor agrees to allow Region 4 ESC to use their name and logo within website, marketing materials and advertisement. Any use of Region 4 ESC name and logo or any form of publicity, inclusive of press releases, regarding this Contract by Contractor must have prior approval from Region 4 ESC.

Please add to the end of the first sentence: “once approval from awarded vendor has been provided.”

Certificates of Insurance (Section 32)

*Original language:* Certificates of insurance shall be delivered to the Region 4 ESC prior to commencement of work. The Contractor shall give Region 4 ESC a minimum of ten (10) days’ notice prior to any modifications or cancellation of policies. The Contractor shall require all subcontractors performing any work to maintain coverage as specified.

Offeror requests to delete the second sentence: “The Contractor shall give Region 4 ESC a minimum of ten (10) days’ notice prior to any modifications or cancellation of policies” and substitute “The certificate of insurance shall provide that should any of the above described policies be cancelled or reduced in coverage or limits while the Work is in progress, before the expiration date thereof, notice will be delivered in accordance with the policy provisions, pursuant to ISO ACORD Form 25 (05/2010). Contractor shall provide Region 4 ESC participant at least thirty (30) days’ prior written notice of the cancellation, non-renewal or reduction in coverage or limits of the insurance.

We would also like to provide a link to Offeror’s memorandum of insurance on Marsh’s website, which should answer any questions Region 4 ESC may have:

[www.marsh.com/moi?client=D922](http://www.marsh.com/moi?client=D922)

## Tab 2 Product / Pricing

- i. Offerors shall provide pricing based on a discount from a price list or catalog (or major items of equipment purchased and installed by Offeror with a breakout of manufacturers' catalog price along with discount off list price), or fixed price, or a combination of both with indefinite quantities. Prices listed will be used to establish the extent of product lines, services, warranties, etc. that are available from Offeror and the pricing per item. Multiple percentage discounts are acceptable if, where different percentage discounts apply, they different percentages are specified. Additional pricing and/or discounts may be included. Products and services proposed are to be priced separately with all ineligible items identified. Offerors may elect to limit their proposals to any category or categories. The discount proposed should remain the same for the first 12 months after the contract award. As an option, pricing may be a discount off the City Cost Index when using one of the following:*
- RS Means Construction Procurement Catalog: Facilities Construction Cost Data book*
  - RS Means Construction Procurement Catalog: Electrical Cost Data*
  - RS Means Construction Procurement Catalog: Mechanical Cost Data*

Attached are the Scheider Electric Pricing Lists, which include all applicable prices/discounts. Multiple percentage discounts off list price are provided and clearly noted on the attachments.

- ii. Include an electronic copy of the catalog from which discount, or fixed price, is calculated. Electronic price lists must contain the following: (if applicable)*
- Manufacturer or Other Part #*
  - Offeror's Part # (if different from manufacturer part #)*
  - Description*
  - Manufacturers or Other Suggested List Price and Net Price*
  - Net Price to Region 4 ESC (including Freight)*
- Media submitted for price list must include the Offerors' company name, name of the solicitation, and date on a Flash Drive (i.e. Pin or Jump Drives).*

Please find the Schenider Electric Pricing Lists on the included flash drive. All required information shown above is included.

- iii. Describe how Offeror will address, at a minimum, the areas defined in the Project Scope.*

With a solid base in Building Systems and Services, Schneider Electric is regarded as a leading company for systems integration in buildings and has a proven track record of being innovative leaders in our industry. We transform subsystems into complete solutions, which give maximum value to customers offering integrated solutions and technical support for all aspects of buildings including comfort, security, energy, lighting and alarm systems, as well as turnkey precision environments in laboratories and clean rooms.

Following is an extensive list of our scope of services for buildings, water and wastewater.

## Schneider Electric Energy and Sustainability Services: Buildings

### Heating Systems

- Boiler Replacement
- High Efficient Modular Boilers
- Burner Replacement
- Boiler Stock Heat Reclaim
- Perimeter Radiation
- High Efficient Domestic Water Heaters
- Gas Line Turbulators
- Steam Trap Retrofits
- Steam Pressure Control
- Temperature Reset Control
- Electric Heating to Gas
- Piping Insulation

### Cooling Systems

- Chiller Replacements
- Gas Fire Centrifugal Chillers
- CFC Containment Conversions
- Tower Free Cooling
- Commercial Refrigeration Cooling Towers
- Thermal Energy Storage Systems
- Reclaim A.C. Heat Rejection

### HVAC Systems

- Inefficient Air Handling Unit replacement
- Variable Frequency Drives
- Heat Recovery Systems
- Low Leakage Air Dampers
- Variable Air Volume Systems
- Demand Control Ventilation
- Exhaust Fans
- Fan Coil Units
- Motor Replacement
- Unit Heaters/Ventilators
- Computer Room Units

### Water Management Systems

- Retrofit Flush Valves, Showerheads, Faucets, Toilets
- Automated Water Systems
- Cooling Tower Retrofits
- Ice Machines
- Walk-in Coolers/Freezers
- Domestic Water Waste Heat Recovery

### Lighting Systems

- Lighting Controls
- Daylight Harvesting
- Occupancy Sensors
- Incandescence to Fluorescent
- LED Exit Signs
- Emergency Lighting
- Ambient Light Control
- Exterior Lighting Retrofit

### Control/Automation Systems

- Facility Management Systems
- Direct Digital Controls
- Pneumatic Controls
- Manual Valves to Automatic Valves
- Air Compressors
- Lab Flume Hood Control
- Multi-System Integration

### Energy Services

- Maintenance and Operation
- Energy Audit/Design
- Construction Management
- Project Management
- System Installation
- Measurement and Verification
- Commissioning Services
- Energy Guarantees
- Energy Metering
- Utilities Procurement
- Power Factor Correction
- Utility Rate Structure Assessment
- Indoor Air Quality
- Owner Training
- Facility Operation Assessments
- Financial Services

### Renewable Energy

- Cogeneration
- Biomass
- Solar Power - Photovoltaic & Thermal
- Wind Turbine
- Geothermal Heat Pumps
- Fuel Cells
- Micro-grid
- Combined Heat and Power
- EV Infrastructure

### Miscellaneous

- Central Heating/Cooling Plants
- Electrical Power Systems
- Emergency Generators
- Turbine Generators
- Switch Gear
- Building Envelope
- Air Curtains
- Elevator Modernization
- Kitchen Equipment
- Building Envelope
- Sewer, Water and Wastewater
- Weatherproofing
- Fire Preservation System
- Building Infiltration Measures
- Energy Star Portfolio Manager
- LEED Certified Personnel
- Cybersecurity

## Schneider Electric Energy and Sustainability Services: Water

Treatment Plants	Distribution System	Water Meters
Plant Optimization	Pumping	AMR
Chemical Treatment	High Service Pumping	AMI
Clarification	Pipe Replacements	Testing
Sludge Management	Fire Hydrant Exercising	Replacements
Sludge Disposal	Valve Turning	Leak Detection
Backwash Pumping	VFD	Billing
Disinfection		

## Schneider Electric Energy and Sustainability Services: Wastewater

Treatment Plants	Collection System	Cogeneration
Capacity Evaluation	Pumping	Bio Gas generation
Capacity Expansion	Infiltration & inflow	Biogas Retail
Treatment Processes	Sewer Replacement	Cogeneration
Process Optimization	Manhole Rehabilitation	
Energy Management	VFD	
Biosolids Management		
Class A or B Biosolids Generation		
Aeration		
Digestion		
Clarification		
Pumping		

**iv. Provide any applicable Burden Billable Labor Rates by Classification.**

Please see the applicable labor rates on the attached Schneider Electric Pricing Lists.

Note:

- Pricing does not include Davis-Bacon or prevailing wage rates
- Pricing may be adjusted due to local or regional labor & material rates

**v. Describe if pricing is available for all products and services?**

Pricing is available on all active product.

**vi. Describe any shipping charges.**

Shipping charges are the responsibility of the customers and will be determined at the time of sale.

**vii. Describe any ancillary cost or additional freight costs for orders placed outside the Continental US.**

The ancillary cost or additional freight costs will be determined at the time of order based on destination.

- viii. If Offeror has retail stores, describe appropriate procedures in place to ensure contract pricing on all product and/or services to Participating Public Agencies.**

Not applicable

- ix. Describe any warranties and provide pricing for warranties on all products and services.**

**Warranty.** Company warrants to Customer that all tangible articles manufactured by Company will be free of defects in workmanship and material and that the work performed will be of good quality and will conform to the requirements of the bid documents. If the article is installed by Company, Company's sole obligation under this warranty shall be to provide, without charge, parts and labor necessary to remedy defects which appear within twelve (12) months from the date of beneficial use or occupancy, as applicable. If Company provides a Certificate of Substantial Completion, such certificate shall conclusively establish such date. If article is not installed by Company, the warranty period shall be within twelve (12) months of shipment of said article. Warranty claim must be made to Company in writing within such twelve (12) month period. All transportation charges incurred in connection with the warranty for equipment not installed by Company shall be borne by Customer. Company warrants that for equipment furnished and or installed, but not manufactured by Company, Company will extend the same warranty terms and conditions which Company receives from the manufacturer of said equipment.

This warranty is the sole and exclusive warranty given with respect to any articles delivered or services performed by Company. THE WARRANTIES SET FORTH ABOVE ARE EXCLUSIVE AND IN LIEU OF ALL OTHER WARRANTIES EXPRESS OR IMPLIED (EXCEPT WARRANTIES OF TITLE), INCLUDING, BUT NOT LIMITED TO, WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. This warranty is subject to proper installation of the articles (if installation is not performed by Company or authorized subcontractors of the Company) and maintenance and storage of the articles in accordance with the specifications and directions supplied by Company. This warranty does not apply to any defect, malfunction or failure caused by repairs made by other than or without the consent of Company or the article has been subject to abuse, misuse, neglect, tampering, accident or damage by circumstances beyond Company's control, including without limitation, acts of God, war, acts of government, corrosion, power fluctuations, freeze-ups, labor disputes, differences with workmen, riots, explosions, vandalism, or malicious mischief, nor to defective associated equipment or use of the articles with equipment for which they were not sold. All of Company's obligations under this warranty will immediately terminate and be of no further force or effect if all or any part of the purchase price (including any installment payment) with respect to any article covered by this warranty is not paid to Company when due. If cause of defect is found not to be Company's responsibility, standard rates for repair or replacement and labor shall apply.

- x. Describe any additional discounts or rebates available. Additional discounts or rebates may be offered for large orders, growth, annual spend, guaranteed spend, etc.**

Not applicable.

- xi. Describe how customers verify they are receiving Contract pricing.**

All requests need to reference the OMNIA Contract in order to receive the contract pricing.

**xii. Describe payment methods offered.**

The preferred method of payment is Automated Clearing House (ACH), but wire transfer and Electronic Data Interchange (EDI) are also acceptable. Payment by credit card or p-card is not accepted. Schneider Electric's standard payment terms are Net 30.

**xiii. Propose the frequency of updates to the Offeror's pricing structure. Describe any proposed indices to guide price adjustments. If offering a catalog contract with discounts by category, while changes in individual pricing may change, the category discounts should not change over the term of the Contract.**

The overall agreed discount would stay the same for the life of the contract. Schneider Electric list price(s) are subject to change. We maintain the right to adjust our pricing list(s) quarterly.

**xiv. Describe how future product introductions will be priced and align with Contract pricing proposed.**

New product introduction will have a standard list price. Contracted discount will apply. An updated price list may be submitted in addition to quarterly updates that would include the new product lines.

**xv. Provide any additional information relevant to this section.**

No additional information.

Federal Funding Pricing

Due to products and services potentially being used in response to an emergency or disaster recovery situation in which federal funding may be used, provide alternative pricing that does not include cost plus a percentage of cost or pricing based on time and materials; if time and materials are necessary, a ceiling price that the contractor exceeds at its own risk will be needed as determined and set by the Participating Public Agency. Products and services provided in a situation where an agency is eligible for federal funding, Offeror is subject to and must comply with all federal requirements applicable to the funding including, but not limited to the FEMA Special Conditions section located in the Federal Funds Certifications Exhibit.

Not to Exceed Pricing. Region 4 ESC requests pricing be submitted as not to exceed pricing. Unlike fixed pricing, the Contractor can adjust submitted pricing lower if needed but, cannot exceed original pricing submitted. Contractor must allow for lower pricing to be available for similar product and service purchases. Cost plus pricing as a primary pricing structure is not acceptable.

### Tab 3 Performance Capability

- a) **OMNIA Partners documents**
- i. ***Include a detailed response to Appendix D, Exhibit A, OMNIA Partners Response for National Cooperative Contract. Responses should highlight experience, demonstrate a strong national presence, describe how Offeror will educate its national sales force about the Contract, describe how products and services will be distributed nationwide, include a plan for marketing the products and services nationwide, and describe how volume will be tracked and reported to OMNIA Partners.***

#### Exhibit A

#### Response for National Cooperative Contract

##### 1.0 Scope of National Cooperative Contract

Capitalized terms not otherwise defined herein shall have the meanings given to them in the Master Agreement or in the Administration Agreement between Supplier and OMNIA Partners.

##### 1.1 Requirement

Region 4 Education Service Center (hereinafter defined and referred to as "Principal Procurement Agency"), on behalf of itself and the National Intergovernmental Purchasing Alliance Company, a Delaware corporation d/b/a OMNIA Partners, Public Sector ("OMNIA Partners"), is requesting proposals for Facility Technology Integration & Security System Services. The intent of this Request for Proposal is any contract between Principal Procurement Agency and Supplier resulting from this Request for Proposal ("Master Agreement") be made available to other public agencies nationally, including state and local governmental entities, public and private primary, secondary and higher education entities, non-profit entities, and agencies for the public benefit ("Public Agencies"), through OMNIA Partners' cooperative purchasing program. The Principal Procurement Agency has executed a Principal Procurement Agency Certificate with OMNIA Partners, an example of which is included as Exhibit D, and has agreed to pursue the Master Agreement. Use of the Master Agreement by any Public Agency is preceded by their registration with OMNIA Partners as a Participating Public Agency in OMNIA Partners' cooperative purchasing program. Registration with OMNIA Partners as a Participating Public Agency is accomplished by Public Agencies entering into a Master Intergovernmental Cooperative Purchasing Agreement, an example of which is attached as Exhibit C, and by using the Master Agreement, any such Participating Public Agency agrees that it is registered with OMNIA Partners, whether pursuant to the terms of the Master Intergovernmental Purchasing Cooperative Agreement or as otherwise agreed to. The terms and pricing established in the resulting Master Agreement between the Supplier and the Principal Procurement Agency will be the same as that available to Participating Public Agencies through OMNIA Partners.

All transactions, purchase orders, invoices, payments etc., will occur directly between the Supplier and each Participating Public Agency individually, and neither OMNIA Partners, any Principal Procurement Agency nor any Participating Public Agency, including their respective agents, directors, employees or representatives, shall be liable to Supplier for any acts, liabilities, damages, etc., incurred by any other Participating Public Agency. Supplier is responsible for knowing the tax laws in each state.

This Exhibit A defines the expectations for qualifying Suppliers based on OMNIA Partners' requirements to market the resulting Master Agreement nationally to Public Agencies. Each section in this Exhibit A refers to the capabilities, requirements, obligations, and prohibitions of competing Suppliers on a national level in order to serve Participating Public Agencies through OMNIA Partners.

These requirements are incorporated into and are considered an integral part of this RFP. OMNIA Partners reserves the right to determine whether to make the Master Agreement awarded by the Principal Procurement Agency available to Participating Public Agencies, in its sole and absolute discretion, and any party submitting a response to this RFP acknowledges that any award by the Principal Procurement Agency does not obligate OMNIA Partners to make the Master Agreement available to Participating Procurement Agencies.

## 1.2 Marketing, Sales and Administrative Support

During the term of the Master Agreement OMNIA Partners intends to provide marketing, sales, partnership development and administrative support for Supplier pursuant to this section that directly promotes the Supplier's products and services to Participating Public Agencies through multiple channels, each designed to promote specific products and services to Public Agencies on a national basis.

OMNIA Partners will assign the Supplier a Director of Partner Development who will serve as the main point of contact for the Supplier and will be responsible for managing the overall relationship between the Supplier and OMNIA Partners. The Director of Partner Development will work with the Supplier to develop a comprehensive strategy to promote the Master Agreement and will connect the Supplier with appropriate stakeholders within OMNIA Partners including, Sales, Marketing, Contracting, Training, and Operations & Support.

The OMNIA Partners marketing team will work in conjunction with Supplier to promote the Master Agreement to both existing Participating Public Agencies and prospective Public Agencies through channels that may include:

- A. Marketing collateral (print, electronic, email, presentations)
- B. Website
- C. Trade shows/conferences/meetings
- D. Advertising
- E. Social Media

The OMNIA Partners sales teams will work in conjunction with Supplier to promote the Master Agreement to both existing Participating Public Agencies and prospective Public Agencies through initiatives that may include:

- A. Individual sales calls
- B. Joint sales calls
- C. Communications/customer service
- D. Training sessions for Public Agency teams
- E. Training sessions for Supplier teams

The OMNIA Partners contracting teams will work in conjunction with Supplier to promote the Master Agreement to both existing Participating Public Agencies and prospective Public Agencies through:

- A. Serving as the subject matter expert for questions regarding joint powers authority and state statutes and regulations for cooperative purchasing
- B. Training sessions for Public Agency teams
- C. Training sessions for Supplier teams
- D. Regular business reviews to monitor program success
- E. General contract administration

Suppliers are required to pay an Administrative Fee of 3% of the greater of the Contract Sales under the Master Agreement and Guaranteed Contract Sales under this Request for Proposal. Supplier will be required to execute the OMNIA Partners Administration Agreement (Exhibit B).

### 1.3 Estimated Volume

The dollar volume purchased under the Master Agreement is estimated to be approximately \$30M annually. While no minimum volume is guaranteed to Supplier, the estimated annual volume is projected based on the current annual volumes among the Principal Procurement Agency, other Participating Public Agencies that are anticipated to utilize the resulting Master Agreement to be made available to them through OMNIA Partners, and volume growth into other Public Agencies through a coordinated marketing approach between Supplier and OMNIA Partners.

### 1.4 Award Basis

The basis of any contract award resulting from this RFP made by Principal Procurement Agency will, at OMNIA Partners' option, be the basis of award on a national level through OMNIA Partners. If multiple Suppliers are awarded by Principal Procurement Agency under the Master Agreement, those same Suppliers will be required to extend the Master Agreement to Participating Public Agencies through OMNIA Partners. Utilization of the Master Agreement by Participating Public Agencies will be at the discretion of the individual Participating Public Agency. Certain terms of the Master Agreement specifically applicable to the Principal Procurement Agency (e.g. governing law) are subject to modification for each Participating Public Agency as Supplier, such Participating Public Agency and OMNIA Partners shall agree without being in conflict with the Master Agreement as a condition of the Participating Agency's purchase and not a modification of the Master Agreement applicable to all Participating Agencies. Participating Agencies may request to enter into a separate supplemental agreement to further define the level of service requirements over and above the minimum defined in the Master Agreement (i.e. invoice requirements, order requirements, specialized delivery, diversity requirements such as minority and woman owned businesses, historically underutilized business, governing law, etc.) ("Supplemental Agreement"). It shall be the responsibility of the Supplier to comply, when applicable, with the prevailing wage legislation in effect in the jurisdiction of the Participating Agency. It shall further be the responsibility of the Supplier to monitor the prevailing wage rates as established by the appropriate department of labor for any increase in rates during the term of the Master Agreement and adjust wage rates accordingly. In instances where supplemental terms and conditions create additional risk and cost for Supplier, Supplier and Participating Public Agency may negotiate additional pricing above and beyond the stated contract not-to-exceed pricing so long as the added price is commensurate with the additional cost incurred by the Supplier. Any supplemental agreement developed as a result of the Master Agreement is exclusively between the Participating Agency and the Supplier (Contract Sales are reported to OMNIA Partners).

All signed Supplemental Agreements and purchase orders issued and accepted by the Supplier may survive expiration or termination of the Master Agreement. Participating Agencies' purchase orders may exceed the term of the Master Agreement if the purchase order is issued prior to the expiration of the Master Agreement. Supplier is responsible for reporting all sales and paying the applicable Administrative Fee for sales that use the Master Agreement as the basis for the purchase order, even though Master Agreement may have expired.

### 1.5 Objectives of Cooperative Program

This RFP is intended to achieve the following objectives regarding availability through OMNIA Partners' cooperative program:

- A. Provide a comprehensive competitively solicited and awarded national agreement offering the Products covered by this solicitation to Participating Public Agencies;
- B. Establish the Master Agreement as the Supplier's primary go to market strategy to Public Agencies nationwide;

- C. Achieve cost savings for Supplier and Public Agencies through a single solicitation process that will reduce the Supplier's need to respond to multiple solicitations and Public Agencies need to conduct their own solicitation process;
- D. Combine the aggregate purchasing volumes of Participating Public Agencies to achieve cost effective pricing.

## **2.0 REPRESENTATIONS AND COVENANTS**

As a condition to Supplier entering into the Master Agreement, which would be available to all Public Agencies, Supplier must make certain representations, warranties and covenants to both the Principal Procurement Agency and OMNIA Partners designed to ensure the success of the Master Agreement for all Participating Public Agencies as well as the Supplier.

### **2.1 Corporate Commitment**

Supplier commits that (1) the Master Agreement has received all necessary corporate authorizations and support of the Supplier's executive management, (2) the Master Agreement is Supplier's primary "go to market" strategy for Public Agencies, (3) the Master Agreement will be promoted to all Public Agencies, including any existing customers, and Supplier will transition existing customers, upon their request, to the Master Agreement, and (4) that the Supplier has read and agrees to the terms and conditions of the Administration Agreement with OMNIA Partners and will execute such agreement concurrent with and as a condition of its execution of the Master Agreement with the Principal Procurement Agency. Supplier will identify an executive corporate sponsor and a separate national account manager within the RFP response that will be responsible for the overall management of the Master Agreement.

### **2.2 Pricing Commitment**

Supplier commits the not-to-exceed pricing provided under the Master Agreement pricing is its lowest available (net to buyer) to Public Agencies nationwide and further commits that if a Participating Public Agency is eligible for lower pricing through a national, state, regional or local or cooperative contract, the Supplier will match such lower pricing to that Participating Public Agency under the Master Agreement.

### **2.3 Sales Commitment**

Supplier commits to aggressively market the Master Agreement as its go to market strategy in this defined sector and that its sales force will be trained, engaged and committed to offering the Master Agreement to Public Agencies through OMNIA Partners nationwide. Supplier commits that all Master Agreement sales will be accurately and timely reported to OMNIA Partners in accordance with the OMNIA Partners Administration Agreement. Supplier also commits its sales force will be compensated, including sales incentives, for sales to Public Agencies under the Master Agreement in a consistent or better manner compared to sales to Public Agencies if the Supplier were not awarded the Master Agreement.

**OMNIA PARTNERS COOPERATIVE PURCHASING AGREEMENT  
FACILITY TECHNOLOGY INTEGRATION & SECURITY SYSTEM SERVICES  
ADDENDUM TO BE SIGNED BY PUBLIC AGENCIES**

This Addendum (“Addendum”) is entered this \_\_\_ day of \_\_\_\_\_, by \_\_\_\_\_, (“Participating Public Agency”) and **Schneider Electric Buildings Americas, Inc.** (“Contractor”) and supplements the terms and conditions of the **Region 4 Education Service Center Cooperative Purchasing Agreement** (“Cooperative Agreement”) entered into on \_\_\_\_\_ between the Contractor and **Region 4 Education Service Center**. The parties to this Addendum, agree to make the additions outlined below and these additions shall be made valid as if they are included in the Cooperative Agreement and this Amendment supersedes any conflicting or supplemental terms in the Cooperative Agreement concerning the subject matter hereof.

1. Taxes. Prices exclude all present or future sales taxes, revenue or excise taxes, value added taxes, import and export duties and any other taxes, surcharges or duties now existing or hereafter imposed by Government authorities upon equipment and/or services quoted by the Contractor. The Participating Public Agency shall be responsible for all such taxes, duties and charges resulting from this agreement. The Contractor is required to impose taxes on orders and shall invoice the Participating Public Agency for such taxes and/or fees according to state and local statute, unless the Participating Public Agency furnishes the Contractor at the time of order with a properly completed exemption certificate(s) acceptable to the authorities imposing the tax or fees.
2. Ethics and Compliance with Law. Each party shall comply in all respects with all applicable legal requirements governing the duties, obligations, and business practices of that party. Neither party shall take any action in violation of any applicable legal requirement that could result in liability being imposed on the other party. In the event the Participating Public Agency has concerns related to ethics, compliance or Contractor’s Code of Conduct (“Trust Charter”), and/or any potential violations of these policies, the Participating Public Agency is welcome to make use of Contractor’s Trust Line. The Trust Line is Contractor’s global helpline for external stakeholders. It is a confidential channel through which the Participating Public Agency can ask questions and raise concerns. Reports can be made using the following link:<https://secure.ethicspoint.eu/domain/media/en/gui/104677/index.html>.
3. Import and Export. The products, software, services, information, other deliverables and/or the technologies embedded therein (hereinafter referred to as “Deliverables”) provided by Contractor under this Contract contain or may contain components and/or technologies from the United States of America (“US”), the European Union (“EU”) and/or other nations. The Participating Public Agency acknowledges and agrees that the supply, assignment and/or usage of Deliverables under this Contract shall fully comply with applicable US, EU and other national and international export control laws and/or regulations. Unless applicable export licenses have been obtained from the relevant authority and Contractor has approved, the Deliverables shall not (i) be exported and/or re-exported to any destination or party (including without limitation to any individual, group and/or legal entity) restricted by the applicable export control laws and/or regulations; or (ii) be used for those purposes and fields restricted by the applicable export control laws and/or regulations. The Participating Public Agency also agrees that the Deliverables will not be used either directly or indirectly in any rocket systems, unmanned air vehicles, nuclear weapons delivery systems, and/or in any design, development, production or use of or related to weapons (which may include, without limitation, chemical, biological or nuclear weapons). If any necessary or advisable licenses, authorizations or approvals are not obtained, whether arising from inaction by any relevant government authority or otherwise, or if any such licenses, authorizations or approvals are denied or revoked, or if the applicable export control laws and/or regulations would prohibit Contractor from fulfilling any order, or would in Contractor’s judgment otherwise expose Contractor to a risk of liability under the applicable export control laws and/or regulations if it fulfilled the order, Contractor shall be excused from all affected obligations under such order and/or this Contract.
4. Cybersecurity.
  - a. The Participating Public Agency's Obligations for Its Systems. The Participating Public Agency is solely responsible for the implementation and maintenance of a comprehensive security program (“Security Program”) that contains reasonable and appropriate security measures and safeguards to protect its computer network, systems, machines, and data (collectively, “Systems”), including those Systems on which it runs the Deliverables provided by Contractor, against Cyber Threats. “Cyber Threat” means any circumstance or event with the potential to adversely impact, compromise, damage, or disrupt Region 4 ESC’s Systems or that may result in any unauthorized access, acquisition, loss, misuse, destruction, disclosure, and/or modification of Region 4 ESC’s Systems, including through malware, hacking, or similar attacks. Without limiting the foregoing, The Participating Public Agency shall at a minimum:
    - i. have qualified and experienced personnel with appropriate expertise in cybersecurity maintain the Participating Public Agency’s Security Program, and have such personnel regularly monitor cyber intelligence feeds and security advisories applicable to The Participating Public Agency’s Systems or The Participating Public Agency’s industry;

- ii. promptly update or patch its Systems or implement other appropriate measures based on any reported Cyber Threats and in compliance with any security notifications or bulletins, whether publicly disclosed on Contractor's security notification webpage at: <https://www.se.com/ww/en/work/support/cybersecurity/security-notifications.jsp> or otherwise provided to The Participating Public Agency;
  - iii. regularly monitor its Systems for possible Cyber Threats;
  - iv. regularly conduct vulnerability scanning, penetration testing, intrusion scanning, and other cybersecurity testing on its Systems; and
  - v. meet the recommendations of Contractor's Recommended Cybersecurity Best Practices, available at <https://www.se.com/us/en/download/document/7EN52-0390/>, as may be updated by Contractor from time to time, and then-current industry standards.
- b. The Participating Public Agency's Use of the Deliverables. Contractor may release Updates and Patches for its Deliverables from time to time. The Participating Public Agency shall promptly install any Updates and Patches for such Deliverables as soon as they are available in accordance with Contractor's installation instructions and using the latest version of the Deliverables, where applicable. An "Update" means any software that contains a correction of errors in a Deliverable and/or minor enhancements or improvements for a Deliverable but does not contain significant new features. A "Patch" is an Update that fixes a vulnerability in a Deliverable. The Participating Public Agency understands that failing to promptly and properly install Updates or Patches for the Deliverables may result in the Deliverables or The Participating Public Agency's Systems becoming vulnerable to certain Cyber Threats or result in impaired functionality, and Contractor shall not be liable or responsible for any losses or damages that may result.
- c. Identification of Cyber Threats. If The Participating Public Agency identifies or otherwise becomes aware of any vulnerabilities or other Cyber Threats relating to the Deliverables for which Contractor has not released a Patch, The Participating Public Agency shall promptly notify Contractor of such vulnerability or other Cyber Threat(s) via the Contractor Report a Vulnerability page ([https://www.se.com/ww/en/work/support/cybersecurity/report-a-vulnerability.jsp#Region\\_4\\_ESCs](https://www.se.com/ww/en/work/support/cybersecurity/report-a-vulnerability.jsp#Region_4_ESCs)) and further provide Contractor with any reasonably requested information relating to such vulnerability (collectively, "Feedback"). Contractor shall have a non-exclusive, perpetual and irrevocable right to use, display, reproduce, modify, and distribute the Feedback (including any confidential information or intellectual property contained therein) in whole or part, including to analyze and fix the vulnerability, to create Patches or Updates for its customers, and to otherwise modify its Deliverables, in any manner without restrictions, and without any obligation of attribution or compensation to The Participating Public Agency; provided, however, Contractor shall not publicly disclose The Participating Public Agency's name in connection with such use or the Feedback (unless The Participating Public Agency consents otherwise). By submitting Feedback, The Participating Public Agency represents and warrants to Contractor that The Participating Public Agency has all necessary rights in and to such Feedback and all information it contains, including to grant the rights to Contractor t such Feedback does not infringe any proprietary or other rights of third parties or contain any unlawful information.
5. Limitation of Liability. NOTWITHSTANDING ANY PROVISION OF THE AGREEMENT TO THE CONTRARY, IN NO EVENT SHALL SUPPLIER, ITS OFFICERS, DIRECTORS, AFFILIATES OR EMPLOYEES BE LIABLE FOR ANY FORM OF INDIRECT, SPECIAL, CONSEQUENTIAL OR PUNITIVE DAMAGES, INCLUDING, BUT NOT LIMITED TO, LOSS OF USE, LOSS OF PRODUCTION, LOSS OF PRODUCT, LOSS OF REVENUE, LOSS OF PROFITS OR LOSS OF DATA DAMAGES, WHETHER SUCH DAMAGES ARISE IN CONTRACT OR TORT AND IRRESPECTIVE OF FAULT, NEGLIGENCE OR STRICT LIABILITY OR WHETHER SUCH PARTY HAS BEEN ADVISED IN ADVANCE OF THE POSSIBILITY OF SUCH DAMAGES. NOTWITHSTANDING ANY OTHER PROVISION OF THE AGREEMENT AND TO THE EXTENT PERMITTED BY APPLICABLE LAW, THE MAXIMUM LIABILITY OF SUPPLIER FOR DAMAGES WITH RESPECT TO THIS CONTRACT OR ANYTHING

DONE IN CONNECTION THEREWITH, SUCH AS THE USE OF ANY PRODUCT COVERED BY OR FURNISHED UNDER THE COOPERATIVE AGREEMENT, WHETHER IN CONTRACT, IN TORT (INCLUDING NEGLIGENCE OR STRICT LIABILITY) OR OTHERWISE, SHALL NOT EXCEED THE CONTRACT PRICE FOR THE SPECIFIC PRODUCT, EQUIPMENT, MATERIAL OR SERVICE WORK PERFORMED. THE PRECEDING SENTENCE SHALL NOT APPLY TO ANY CLAIM FOR BODILY INJURY, OR TO ANY OTHER CLAIM TO THE EXTENT OF SCHNEIDER'S GROSS NEGLIGENCE OR WILLFUL MISCONDUCT.

Except as provided for herein, all other terms of the Cooperative Agreement remain unchanged and in full force and effect.

IN WITNESS WHEREOF, the parties have caused this Addendum to the Cooperative Agreement to be signed by their duly authorized representatives.

### 3.0 SUPPLIER RESPONSE

Supplier must supply the following information for the Principal Procurement Agency to determine Supplier's qualifications to extend the resulting Master Agreement to Participating Public Agencies through OMNIA Partners.

#### 3.1 COMPANY

##### A. Brief history and description of Supplier to include experience providing similar products and services.

Schneider Electric was established in 1836 and has grown into a global specialist in energy management, efficiency, and infrastructure. Our operations span more than 100 countries, with nearly 135,000 employees and \$28.8 Billion in annual revenue. In short, we offer the backing and stability of a large company.

Schneider Electric offers an approach that extends beyond standard performance contracting services. We'll help our client realize their vision and accomplish their highest priority goals in several key areas, including:

**Energy:** Reduce and optimize your utility and energy usage through infrastructure improvements.

**Technology:** Modernize your facility using the latest technology tailored to your needs.

**Funding:** Leverage reallocated funds from your energy savings to fund improvements and explore available energy rebates, and more.

**Facilities/Operations:** Training to sustain optimal equipment performance and solutions that reduce long-term operating and maintenance costs.

**Community Engagement:** Empower stakeholders and educate them regarding behaviors that affect your budget.

**Public Image:** Co-create a marketing vision plan that will help build awareness of your environmental commitment through press releases, community outreach events, specialized signage, and more.

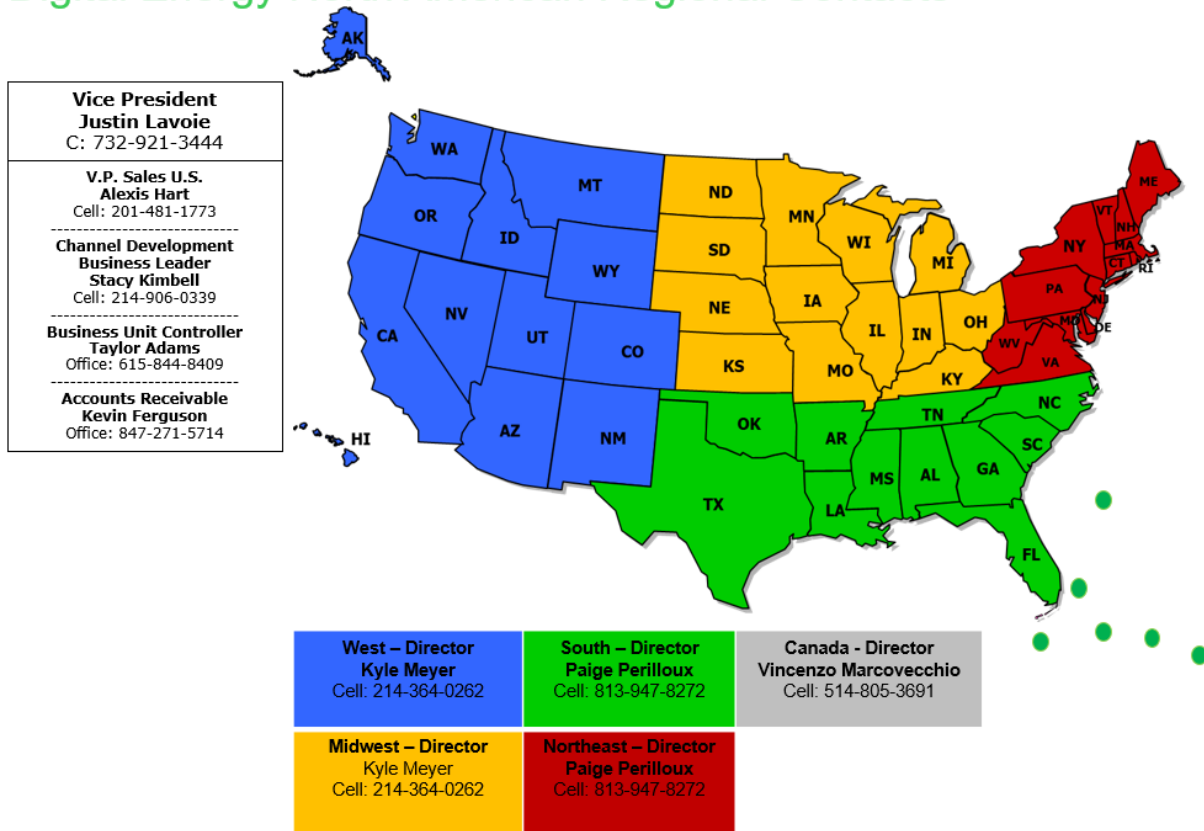

**B. Total number and location of salespersons employed by Supplier.**

Sustainability isn't just a buzzword to us. It is our passion, which is why we want to partner with Region 4 Education Service Center to achieve your environmental and sustainability goals. As your partner, we can help you meet emissions reduction targets or achieve carbon neutrality as part of your performance outcomes.

Climate action is also becoming increasingly pertinent to attracting and retaining students, staff, and research grants, as well as meeting regulatory requirements. This requires deep domain expertise in areas of energy supply, demand-side energy management, and decarbonization to navigate the complexities of an evolving energy and sustainability landscape. From replacing traditional energy supply with renewables to building microgrids, Schneider Electric has more than 2,000 experts in over 10 countries dedicated to help you do just that. Our purpose is to empower everyone to make the most of their energy and resources, bridging progress and sustainability for all. At Schneider, we call this Life is On. (<https://www.se.com/ww/en/purpose/>).

Schneider Electric is the largest advisor of negotiated power purchase agreements (PPAs) in the world with 60% of US market share.

We have also helped our customers save or avoid 800 million tons of CO<sub>2</sub> emissions since 2018.

Schneider Electric is taking sustainability seriously across our own footprint too. Based on six commitments aligned with the United Nations's Sustainable Development Goals and the 1.5°C objective, we have publically pledged to achieve the following milestones:

- By 2025: carbon neutral operations
- By 2030: net-zero operations (no CO<sub>2</sub> offsets)
- By 2040: carbon neutral products
- By 2050: net-zero supply chain (no CO<sub>2</sub> offsets)

In 2021, we were proud to be **awarded #1 Most Sustainable Company in the world** by Global Knights. For more information about our sustainability commitments, visit: <https://www.se.com/us/en/about-us/sustainability/>.

Some of the best ideas come from a fresh perspective. Schneider Go Green, an annual competition for undergraduate and graduate students around the world, provides a platform to do just that. With this university competition, we hope to find bold ideas that can shape our future industry while **inspiring and engaging students** and the next generation to lead sustainability action. For more information on this year's competition, visit: <https://gogreen.se.com/en>.

**F. Describe any diversity programs or partners supplier does business with and how Participating Agencies may use diverse partners through the Master Agreement. Indicate how, if at all, pricing changes when using the diversity program. If there are any diversity programs, provide a list of diversity alliances and a copy of their certifications.**

We take diversity and inclusion to another level within Schneider Electric. As we do business across 130 different countries with over 13,000 sales locations, we know that a changing and diverse workforce is not only a key to our success but it is also a pillar of our core values as a corporation. Our ambition is to offer equal opportunities to everyone everywhere, and we want our employees — no matter who they are, or where in the world they live — to feel uniquely valued, and safe to contribute their best. To ensure that our people reflect the global community in which we operate, we want to have a greater mix of diversities i.e. gender, generation, nationality, LGBT+ and disabilities. But this doesn't happen by chance. Take gender diversity as an example, the mix only truly changes when there are least 30% women in teams dominated by men, and vice-versa. At Schneider Electric, we've experienced this in practice by actively promoting greater diversity within executive (27% women) /senior leadership (22% women) teams. As the balance begins to improve people start to see a path for their own growth and success – this in turns creates an environment of inclusion characterized by greater engagement, performance, and innovation. Here is a quote from our North American CEO:

*"Our policies are designed to support our employees to manage effectively their work-life and family needs at different stages in life. These policies support our diverse workforce and allow our employees to contribute their best and make a difference. The well-being of our staff is our highest priority and we're proud to champion this issue as part of our goal to be best-in-class in every area of our organization."*

**- Annette Clayton, President and CEO, North America Operations, Schneider Electric**

**Diversity & Inclusion- A Core Value for our Employees**

At Schneider Electric, we equally believe in the importance of diversity and inclusion. Our Employee Resource Groups (ERGs) are an essential component of our Diversity & Inclusion strategy as they drive awareness and education about minority/diversity groups, foster development opportunities for our employees in an inclusive environment, and outreach to the minority communities in which we operate. The ERGs also strive to make a stronger connection to business initiatives. We have launched several employee resource groups in recent years including groups focused on Black Professionals, Veterans, LGBT+ and Allies, and Hispanic Professionals. We are also an affiliate partner with the National Society for Black Engineers (NSBE).

We are already making great strides in becoming a best in class employer for diversity and inclusion. And it hasn't gone unnoticed – the company recently earned a spot on the **Forbes' Best Employers for Diversity 2020** and the **World's Most Admired Companies by Fortune**.

We demonstrated our progress toward our inclusivity goals with the announcement that 100 percent of our country presidents, in all markets with 10 employees or more, have endorsed the **UN's Women's Empowerment Principles** (WEPs). We are the first multinational company to achieve this unanimous commitment from our country leaders. Under the WEPs, we'll continue to pursue gender equality in our workplace while also promoting empowerment and advocacy in the markets where we do business.

We have been recognized for the 2<sup>nd</sup> year in a row by the Financial Times as a Diversity Leader for our success in promoting diversity. Schneider electric ranked 27<sup>th</sup> overall and 2<sup>nd</sup> within our industry.

<sup>1</sup> <https://blog.se.com/life-at-schneider-electric/2019/03/24/recognizing-womens-empowerment-as-a-catalyst-for-business-and-change/>

## VENDOR & SUPPLIER DIVERSITY IS PART OF OUR CULTURE

Schneider Electric has historically maintained a strong commitment to Supplier Diversity across the Globe. **Forbes Magazine ranked Schneider Electric as a Top 50 Employer for Diversity in 2021.** Our objective is to ensure that Supplier Diversity is not a one-time event, but rather a strategic part of our contribution to impacting communities, empowering local businesses and playing a key role to creating jobs in the markets where we provide solutions. This is also a key element to the social spear of our triple, bottom line strategy. We actively include local Small Businesses Enterprises (SBEs), Minority and Women Owned Business Enterprises (MBE/WBEs) and Disadvantaged Veteran Business Enterprises (DVBES) in projects whether required or not. The current economic climate dictates that all of us do our part to stimulate local economies, by engaging local participation. This philosophy is extended to our subcontractors and local hire support organizations.

**We will entertain any and all service and work types that can be approved by Region 4 Education Service Center. We will engage firms to achieve our timeline faster, at a better quality, and at a higher impact to Minority and Women owned businesses. Outreach events will be held after selection and during design to increase our local impact and maximize our M/WBE impact for Region 4 Education Service Center.**

Schneider Electric has hosted a number of these types of events in St. Louis, Chicago, Dallas, and Houston to name a few. In 2016 we hosted two separate St. Louis events in support of several projects within the region. Our team worked with several MBE and WBE contractors after the event to guide them on the level of insurance and bonding needed to help grow their businesses.

### Example: "Retrofit Houston" Conference Receives Some Serious Recognition

Recently, Schneider Electric reached out to minority- and women-owned businesses in the greater Houston area via "Retrofit Houston: An MWBE Contractor Opportunity Conference." Schneider Electric designed the conference to attract local contractors to the City of Houston's performance contract project, as well as to educate them about the city's various green initiatives and LEED professional accreditation. The event included

participation from Houston Council Member, Mayor Pro Tem, and Harris County's first Hispanic Sheriff-elect, Adrian Garcia; Houston Council Member, Wanda Adams; the city's Director of Affirmative Action and Contract Compliance, Velma Laws; the Clinton Climate Initiative's Houston Program Manager, Caleb Crow; and approximately 70 minority vendors.

Also in attendance to speak to other opportunities throughout Houston were Houston ISD, Houston METRO, the Houston Port Authority and the Houston Department of Public Works. In recognition of Schneider Electric's extraordinary effort to create awareness about real opportunities for these businesses, we received a proclamation from the Honorable Mayor Bill White's Office, establishing November 18 as "Retrofit Houston Day!" Additionally, in keeping with the event's "green focus," Schneider Electric donated to Houston's "Gift of Trees" program – an effort to plant a million trees throughout Houston within the next three years – on behalf of those who helped host the event.

Schneider Electric has made and continues to make a commitment to secure qualified M/WBEs as subcontractors or sub-consultants. Our approach is much broader than the standard “Good Faith Effort” that typically yields limited, to no results. Our engagement plans typically include the activities below:

- Attendance at the pre-bid/pre-proposal conference.
- Efforts to follow up initial solicitation of interest by contacting M/WBEs to determine with certainty whether these businesses are interested.
- Efforts to identify portions of the work that can be performed by M/WBEs in order to increase participation. If possible, this should include the breakdown of subcontracts into economically feasible units to facilitate participation.
- Efforts that demonstrate that Schneider Electric effectively used the services of available organizations, contractor’s groups, local, state and federal M/WBEs assistance offices, and other organizations that provide assistance and placement to M/WBEs.
- As a socially-conscious and responsible firm, Schneider Electric must engage in outreach, recruitment or other race/gender neutral activities as part of our good faith efforts to achieve the proper utilization of M/WBEs. Schneider Electric takes several affirmative steps in this direction. The steps may include any one or combination of the following:
  - ✓ Include qualified M/WBEs on solicitation lists.
  - ✓ Assure that M/WBEs are solicited whenever they are potential sources.
  - ✓ Divide total requirements, when economically feasible, into small tasks or quantities to permit maximum participation by M/WBEs.
  - ✓ Establish delivery schedules, where the requirements of the work permit, which will encourage the participation of M/WBEs, if doing so will not affect the time-sensitive nature of a particular contract.
  - ✓ Maintain a listing of qualified M/WBEs that can be solicited for supplies, construction and/or services.
  - ✓ Provide listings to all interested parties who request copies of the bidding or proposing documents.
  - ✓ Utilize M/WBE listings.
  - ✓ Conduct pre-bid, pre-solicitation and post-award conferences to ensure that consultants, suppliers and builders are aware of our goal to solicit to M/WBEs.
  - ✓ Provide bidders and offerors with listings of M/WBEs if available.
  - ✓ Provide interested M/WBEs with adequate information about plans, specifications, timing and other requirements of the proposed projects.
  - ✓ Notify M/WBEs of future procurement opportunities so that they may establish bidding solicitations and procurement plans.
  - ✓ Perform analysis to identify portions of work that can be performed by M/WBEs.
- Scrutinize the elements of the total project to develop economically feasible units of work that are within the bonding range of M/WBEs.
- Use the services of outreach programs sponsored by the Minority Business Development Agency and/or the Small Business Administration to recruit bonafide firms for placement on the M/WBE bidders’ list to assist these firms in the development of bid packaging.

**G. Indicate if supplier holds any of the below certifications in any classified areas and include proof of such certification in the response:**

- a. Minority Women Business Enterprise  
 Yes       No  
If \_\_\_\_\_ yes, \_\_\_\_\_ list \_\_\_\_\_ certifying \_\_\_\_\_ agency:  
\_\_\_\_\_
- b. Small Business Enterprise (SBE) of Disadvantage Business Enterprise  
 Yes       No  
If yes, list certifying agency:  
\_\_\_\_\_
- c. Small Business Enterprise (SBE) or Disadvantaged Business Enterprise (DBE)  
 Yes       No  
If yes, list certifying agency: \_\_\_\_\_
- d. Historically Underutilized Business Zone Enterprise (HUBZone)  
 Yes       No  
If yes, list certifying agency: \_\_\_\_\_
- e. Other recognized diversity certificate holder  
 Yes       No  
If yes, list certifying agency: \_\_\_\_\_

**H. List any relationships with subcontractors or affiliates intended to be used when providing services and identify if subcontractors meet minority-owned standards. If any, list which certifications subcontractors hold and certifying agency.**

At Schneider Electric, we constantly look beyond the norm to provide innovative solutions, both in technology and in the way we do business. That's the idea behind the EcoXpert Partner Program – a program unique in its industry offering an esteemed partnership between Schneider Electric and a global, cross-expertise ecosystem of solution providers. Together, we deliver best-in-class automation and digital solutions for efficiency and sustainability to our customers.

However, due to the large volume of Subcontractors and Partners that could be utilized, a listing of the subcontractors and their listed certifications would be shared upon request to the awarded project.

**I. Describe how supplier differentiates itself from its competitors.**

We drive digital transformation by integrating world-leading **process and energy technologies** to realize the full efficiency and sustainability opportunities for your business. We provide **end-point to cloud integration** connecting products, controls, software and services. We enable **lifecycle** solutions from design and build to operate and maintain phases through a **digital twin**. We deliver capabilities to transform from site-to-site to an **integrated company management**. Our integrated solutions are built with safety, reliability and cybersecurity for your homes, buildings, data centers, infrastructure and industries.

We are advocates of **open standards and partnership ecosystems** to unleash the infinite possibilities of a global, innovative community that is passionate about our shared **Meaningful Purpose, Inclusive and Empowered values**.

We are **the most local of global** companies; our unmatched proximity to you, enables us to better understand, anticipate and adapt with agility to support your business continuity with high **ethical** standards in everything we do.

**J. Describe any present or past litigation, bankruptcy or reorganization involving supplier.**

Schneider Electric has one pending matter and three resolved matters that are summarized below. Schneider Electric has addressed these matters in a professional and ethical manner, and we can represent and warrant that there are no such legal actions that would impair our credentials or impair our ability to perform under this Contract, if selected.

**RESOLVED - Medford Township School District, NJ**

Schneider Electric was involved in a dispute with the Medford Township School District, New Jersey ("Medford") arising out of an Energy Services Construction Contract, dated June 29, 2015 (the "Construction Contract"). Schneider had not been paid the balance it is owed under the Construction Contract and filed a demand for arbitration with the American Arbitration Association. On April 16, 2018, Medford filed a Complaint in Superior Court of New Jersey seeking to enjoin the arbitration and alleging claims against Schneider for breach of contract. The Parties later agreed to mediate the matter and have since reached a mutually agreeable settlement.

**RESOLVED - DOJ Investigation**

In December 2020, the U.S. Department of Justice (U.S. DOJ) and Schneider Electric Buildings Americas, Inc. (Schneider) reached a settlement related to a former employee (Bhaskar Patel) who was terminated in 2016 for illegal subcontracting activities for personal gain. This was an isolated incident and the actions of that one individual were in direct violation of Schneider Electric's code of conduct. Upon learning of these issues in 2016, Schneider immediately terminated the rogue employee and implemented new compliance safeguards, including a multi-layered approach to contract management. Schneider remains in good standing as a Federal vendor, and has been awarded an additional \$624 million in contracts since the Government's investigation began in 2016.

**RESOLVED - 2020 City of Atlanta – Department of Watershed Management**

In December of 2017, the City of Atlanta and Schneider entered a Guaranteed Energy Savings Performance Contract (GESPC). Schneider's successful completion of this Project was contingent on the City repairing/replacing equipment and infrastructure. The City failed to perform its obligations in a timely manner leading to project delays and increased costs. After months of negotiation, the City, in December of 2020, terminated the Schneider contract for default. Schneider maintained that it performed in accordance with the terms of the contract and in February of 2021, Schneider brought a claim alleging wrongful termination and seeking a reversal of the Termination for Default. The parties recently reached a settlement wherein the City of Atlanta rescinded the Termination for Default and the Parties agreed that the contract would be Terminated for Convenience.

**PENDING - 2020 United States Department of Agriculture**

In May of 2013, Schneider entered a Task Order with the United States Department of Agriculture ("USDA") to provide energy cost savings to the USDA. The Project was installed, commissioned, and accepted by USDA as of May 2016. Since that time, the USDA has realized the promised savings in each year of performance to date. Despite Schneider's demonstrated commitment to the project, the USDA, in July of 2020, terminated the Task Order in year 8 of the performance period based on maintenance issues related to one ECM. The USDA has refused to try and resolve the matter and so in January of 2021, Schneider

filed a claim against the USDA in the U.S. Court of Federal Claims alleging wrongful termination and seeking to have the Termination reversed.

**K. Felony Conviction Notice: Indicate if the supplier**

- a.  is a publicly held corporation and this reporting requirement is not applicable;
- b.  is not owned or operated by anyone who has been convicted of a felony; or
- c.  is owned or operated by an individual(s) who has been convicted of a felony and provide the names and convictions.

**L. Describe any debarment or suspension actions taken against supplier**

There have been no debarment or suspension actions taken against Schneider Electric.

**3.2 Distribution, Logistics**

**A. Each offeror awarded an item under this solicitation may offer their complete product and service offering/a balance of line. Describe the full line of products and services offered by supplier.**

The Buildings Business of Schneider Electric provides integrated building energy management solutions for all building and customer types including temperature controls, building automation, and security systems.

Reference <https://www.se.com/us/en/all-products/> for a full product offering.

Low Voltage Products and Systems, Residential and Small Business, Industrial Automation and Control, Building Automation and Control, Medium Voltage Distribution and Grid Automation, Critical Power, Cooling, and Racks, and Solar and Energy Storage.

**B. Describe how supplier proposes to distribute the products/service nationwide. Include any states where products and services will not be offered under the Master Agreement, including U.S. Territories and Outlying Areas.**

Schneider Electric is a global organization with manufacturing facilities strategically located around the globe. For Parts Distribution in the United States, we have distribution centers located in Chino, CA. and Mechanicsburg, PA. whereby either location can ship the necessary materials overnight.

To support our Distribution process, Schneider Electric constantly monitors its inventory and usage rates to ensure an efficient and predictable manufacturing process, ensuring products are available when our customers need them. By working closely with our company owned branch locations, we communicate regularly to forecast anomalies and alert our global supply chain whose responsibility is to ensure we have products to support global demand.

<https://www.se.com/us/en/work/support/locator/>  
<https://www.se.com/us/en/locate/5-find-a-system-integrator-ecoxpert>  
<https://www.se.com/us/en/locate/257-us-distributor-locator/where-to-buy>

**C. Describe how Participating Agencies are ensured they will receive the Master Agreement pricing; include all distribution channels such as direct ordering, retail or in-store locations, through distributors, etc. Describe how Participating Agencies verify and audit pricing to ensure its compliance with the Master Agreement.**

Schneider Electric's OMNIA Program Manager is dedicated to training all Schneider Electric affiliates (divisions and authorized vendors) on the OMNIA program.

Each Schneider Electric affiliate will be equipped with approved price list. The approved price list has list pricing and set multipliers. This price list can be provided upon request to the participating agency in order to verify parts and labor pricing.

**D. Identify all other companies that will be involved in processing, handling or shipping the products/service to the end user.**

Schneider Electric maintains approximately 12 branch locations across the USA that provide turnkey solutions to our customers. We also partner with a large quantity of Systems Integrators nationally who are certified by Schneider Electric to deliver SE-based solutions through our EcoXpert Partner Program. EcoXperts deliver innovative and sustainable solutions, through integrated technology and digitization, to our shared customers.

**E. Provide the number, size and location of Supplier's distribution facilities, warehouses and retail network as applicable.**

For Parts Distribution in the United States, we have distribution centers located in Chino, CA. and Mechanicsburg, PA.

### **3.3 Marketing and Sales**

**F. Provide a detailed ninety-day plan beginning from award date of the Master Agreement describing the strategy to immediately implement the Master Agreement as supplier's primary go to market strategy for Public Agencies to supplier's teams nationwide, to include, but not limited to:**

- i. Executive leadership endorsement and sponsorship of the award as the public sector go-to-market strategy within first 10 days**
- ii. Training and education of Supplier's national sales force with participation from the Supplier's executive leadership, along with the OMNIA Partnersteam within first 90 days**

A comprehensive plan will be rolled out, incorporating our internal and Omnia Marketing capabilities to alert Omnia customers of the ability and benefits of procuring our products and services via the Omnia purchasing vehicle. The plan will highlight the types of opportunities and scopes best suited to an SE-provided solution.

**G. Provide a detailed ninety-day plan beginning from award date of the Master Agreement describing the strategy to market the Master Agreement to current Participating Public Agencies, existing Public Agency customers of Supplier, as well as to prospective Public Agencies nationwide immediately upon award, to include, but not limited to:**

- i. Creation and distribution of a co-branded press release to trade publications**
- ii. Announcement, Master Agreement details and contact information published on the Supplier's website within first 90 days**
- iii. Design, publication and distribution of co-branded marketing materials within first 90 days**
- iv. Commitment to attendance and participation with OMNIA Partners at national (i.e. NIGP Annual Forum, NPI Conference, etc.), regional (i.e. Regional NIGP Chapter Meetings, Regional Cooperative Summits, etc.) and supplier-specific trade shows, conferences and meetings throughout the term of the Master Agreement**
- v. Commitment to attend, exhibit and participate at the NIGP Annual Forum in an area reserved by OMNIA Partners for partner suppliers. Booth space will be purchased and staffed by Supplier. In addition, Supplier commits to provide reasonable assistance to the overall promotion and marketing efforts for the NIGP Annual Forum, as directed by OMNIA Partners.**
- vi. Design and publication of national and regional advertising in trade publications throughout the term of the Master Agreement**
- vii. Ongoing marketing and promotion of the Master Agreement throughout its term (case studies, collateral pieces, presentations, promotions, etc.)**
- viii. Dedicated OMNIA Partners internet web-based homepage on Supplier's website with:**
  - OMNIA Partners standard logo;**
  - Copy of original Request for Proposal;**
  - Copy of Master Agreement and amendments between Principal Procurement Agency and Supplier;**
  - Summary of Products and pricing;**
  - Marketing Materials**
  - Electronic link to OMNIA Partners' website including the online registration page;**
  - A dedicated toll-free number and email address for OMNIA Partners**

A comprehensive plan will be rolled out, incorporating our internal and Omnia Marketing capabilities to alert Omnia customers of the ability and benefits of procuring our products and services via our contract with Omnia Partners. The plan will highlight the types of opportunities and scopes best suited to an Schneider Electric-provided solution.

Since Schneider Electric has held an OMNIA Partners/TCPN/National IPA contract for the past 10 years since 2012, our internal teams and many of our existing authorized vendors and their customers are aware of our participation and contract. Based on that, the 1<sup>st</sup> 90 days will consist primarily of updating our internal teams and existing authorized vendors with details around the new contract. We will also be notifying the remainder of our vendors so that they can learn more and choose to participate. Participating public agencies will be notified via our EcoXpert Partners (authorized vendors), who maintain consistent contact.

Schneider Electric has an internal intranet for all of our EcoXpert Partners. We currently have a page dedicated specifically for OMNIA Partners and the program. This page will be updated with current information. Our team of regional sales people also meet with EcoXpert Partners on a monthly basis so the news will be included in their monthly agenda following news of the awarded contract.

**H. Describe how Supplier will transition any existing Public Agency customers' accounts to the Master Agreement available nationally through OMNIA Partners. Include a list of current cooperative contracts (regional and national) Supplier holds and describe how the Master Agreement will be positioned among the other cooperative agreements.**

The Schneider Electric Program Manager is responsible for marketing and advertising our OMNIA partners contract. They will serve as the primary proponent for the utilization of the OMNIA contract. When applicable, OMNIA Partners will be Schneider Electric's primary cooperative contract choice.

**I. Acknowledge Supplier agrees to provide its logo(s) to OMNIA Partners and agrees to provide permission for reproduction of such logo in marketing communications and promotions. Acknowledge that use of OMNIA Partners logo will require permission for reproduction, as well.**

Prior to working on any creative development project, vendors must thoroughly understand the Schneider Electric brand and its design system. Compliance is mandatory on all deliverables created on behalf of Schneider Electric and its branches. Please work with our marketing team for approvals prior to use of logo.

**J. Confirm Supplier will be proactive in direct sales of Supplier's goods and services to Public Agencies nationwide and the timely follow up to leads established by OMNIA Partners. All sales materials are to use the OMNIA Partners logo. At a minimum, the Supplier's sales initiatives should communicate:**

- i. **Master Agreement was competitively solicited and publicly awarded by a Principal Procurement Agency**
- ii. **Best government pricing**
- iii. **No cost to participate**
- iv. **Non-exclusive**

Our commitment to the Omnia program will include a proactive approach to marketing our capabilities to potential Omnia customers, and the benefits of utilizing the Omnia purchasing vehicle to obtain all aspects of superior, sustainable and cost-effective comfort, security, and energy systems for their facilities.

**K. Confirm Supplier will train its national sales force on the Master Agreement. At a minimum, sales training should include:**

- i. **Key features of Master Agreement**
- ii. **Working knowledge of the solicitation process**
- iii. **Awareness of the range of Public Agencies that can utilize the Master Agreement through OMNIA Partners**
- iv. **Knowledge of benefits of the use of cooperative contracts**

Schneider Electric Program Manager in collaboration with OMNIA Partners Sales Enablement Team, have already created a training powerpoint presentation that addresses all of the above key points.

**L. Provide the name, title, email and phone number for the person(s), who will be responsible for:**

- i. Executive Support
- ii. Marketing
- iii. Sales
- iv. Sales Support
- v. Financial Reporting
- vi. Accounts Payable
- vii. Contracts

Chas Reynolds is the Schneider Electric Program Manager and all communications should start with our Schneider Electric Program Manager.

**Executive Support**

James Mylett

M. Describe in detail how Supplier's national sales force is structured, including contact information for the highest-level executive in charge of the sales team.

### Schneider Electric Digital Buildings - US Product Sales

### SE Digital Buildings - Branches

### Schneider Electric Digital Buildings

**I. Explain in detail how the sales teams will work with the OMNIA Partners team to implement, grow and service the national program.**

Our Schneider Electric Program Manager will share monthly updates on internal sales conference calls. They will also utilize our internal marketing emails to update any contract benefits with OMNIA Partners.

**J. Explain in detail how Supplier will manage the overall national program throughout the term of the Master Agreement, including ongoing coordination of marketing and sales efforts, timely new Participating Public Agency account set-up, timely contract administration, etc.**

Our Schneider Electric Program Manager will share monthly updates on internal sales conference calls. They will also utilize our internal marketing emails to update any contract benefits with OMNIA Partners. Schneider Electric Program Manager will serve as the subject matter expert for all sales teams and external inquiries.

**K. State the amount of Supplier's Public Agency sales for the previous fiscal year. Provide a list of Supplier's top 10 Public Agency customers, the total purchases for each for the previous fiscal year along with a key contact for each.**

As an international company that has been in business for over 180+ years, Schneider Electric has relationships with most public agencies in the country. Schneider Electric Program Manager will coordinate with OMNIA Partners Sales Rep on a case by case basis to provide more details.

**L. Describe Supplier's information systems capabilities and limitations regarding order management through receipt of payment, including description of multiple platforms that may be used for any of these functions.**

Schneider Electric is an international company that operates through multiple distribution channels. So we defer to each individual ordering management process.

Schneider Electric utilizes Baan Corporation's ERP system with ACH and EDI 810, 850, 855 capabilities between Schneider Electric and Supplier and/or Schneider Electric and Customer. iPortal, a Schneider-Electric owned web-order platform, provides the customer on-line shopping option along with Customer assistance 24/7/365 via telephone or email.

**M. Provide the Contract Sales (as defined in Section 12 of the OMNIA Partners Administration Agreement) that Supplier will guarantee each year under the Master Agreement for the initial three years of the Master Agreement ("Guaranteed Contract Sales").**

\$ 400,000.00 in year one  
\$ 300,000.00 in year two  
\$ 300,000.00 in year three

**To the extent Supplier guarantees minimum Contract Sales, the Administrative Fee shall be calculated based on the greater of the actual Contract Sales and the Guaranteed Contract Sales.**

N. Even though it is anticipated many Public Agencies will be able to utilize the Master Agreement without further formal solicitation, there may be circumstances where Public Agencies will issue their own solicitations. The following options are available when responding to a solicitation for Products covered under the Master Agreement.

- i. Respond with Master Agreement pricing (Contract Sales reported to OMNIA Partners).
- ii. If competitive conditions require pricing lower than the standard Master Agreement not-to-exceed pricing, Supplier may respond with lower pricing through the Master Agreement. If Supplier is awarded the contract, the sales are reported as Contract Sales to OMNIA Partners under the Master Agreement.
- iii. Respond with pricing higher than Master Agreement only in the unlikely event that the Public Agency refuses to utilize Master Agreement (Contract Sales are not reported to OMNIA Partners).
- iv. If alternative or multiple proposals are permitted, respond with pricing higher than Master Agreement, and include Master Agreement as the alternate or additional proposal.

Detail Supplier's strategies under these options when responding to a solicitation.

As previously mentioned SE has assigned a formal Program Manager to the OMNIA contract. Our sales team is aware of our Program Manager

Project Manager additionally will utilize OMNIA partner sales resources to engage in the conversation and further educate the participating agency on the contract.

The Program Manager will ultimately help to determine from the above 4 options, the best route to take based on his OMNIA contract knowledge. We will work with OMNIA and the participating agency to facilitate the selection.

- ii. ***The successful Offeror will be required to sign Appendix D, Exhibit B, OMNIA Partners Administration Agreement prior to Contract award. Offerors should have any reviews required to sign the document prior to submitting a response. Offeror's response should include any proposed exceptions to OMNIA Partners Administration Agreement on Appendix B, Terms and Conditions Acceptance Form.***

Please reference the exceptions list.

- iii. ***Include completed Appendix D, Exhibits F. Federal Funds Certifications and G. New Jersey Business Compliance.***

Please find the signed Exhibits F and Exhibits G in the additional attachments section of this response.

**iv. Describe how Offeror responds to emergency requests.**

Schneider Electric is a global organization with manufacturing facilities strategically located around the globe. Our west coast distribution center located in Chino, CA. In this location we can and would support a Will Call arrangement should an emergency present itself. Should that location not have sufficient stock, our east coast distribution center in Mechanicsburg, PA can easily ship the necessary materials overnight.

Schneider Electric constantly monitors its inventory and usage rates to ensure an efficient and predictable manufacturing process ensuring products are available when our customers need them. By working closely with our company owned branch locations, we communicate regularly to forecast anomalies and alert our global supply chain whose responsibility is to ensure we have products to support global demand.

**v. Describe Offeror's history and ability to meet service and warranty needs.**

**About Schneider Electric**

As a global specialist in security management and associated systems, Schneider Electric operates in more than 120 countries and offers integrated solutions across multiple market segments. Focused on making facilities safe, reliable, and efficient, the company's 160,000 employees achieved sales of more than 25 Billion US dollars in 2020, through an active commitment to quality, employee development, and client satisfaction.

Schneider Electric Buildings Division is dedicated to working directly with facility owners, design engineers, and contractors to deliver facility solutions in building automation and security integration. The Building's segment is divided into several divisions including Systems Integration and Product Distribution. Schneider Electric understands that to find the right solution to address your unique challenges and priorities requires an understanding of how you do business – in every room of every building and at every location. In turn, we offer solutions to address your most challenging operational issues.

With a solid base in Building Systems and Services, Schneider Electric is regarded as a leading company for systems integration in buildings and has a proven track record of being innovative leaders in our industry. We transform subsystems into complete solutions, which give maximum value to customers offering integrated solutions and technical support for all aspects of buildings including comfort, security, energy, lighting and alarm systems, as well as turnkey precision environments in laboratories and clean rooms.

The working methods we use for production, system development, and service delivery ensure we comply with these standards. We ensure that our suppliers and subcontractors fully meet our quality requirements, in delivering product, services and carrying out our contractual obligations.

Our product lines range from energy efficient Square D power distribution, with PowerLogic® power monitoring, APC critical power solutions and Access Expert / Security Expert Access Control Systems. The Buildings Business of Schneider Electric provides integrated building energy management solutions for all building and customer types including temperature controls, building automation, and security systems. We utilize open standards and communication protocols to ensure our clients the flexibility to obtain the best possible solution for their needs.

## Schneider Electric's Buildings Business

The Buildings Business of Schneider Electric is a leading provider of building management solutions and energy services that deliver measurable business results to customers by enabling them to do more with less energy. With over 120 years of experience in the HVAC, energy and security arenas, Schneider Electric Buildings Business employs more than 8,000 people worldwide, with partners in 80 countries.

## Products and Solutions

Schneider Electric offers a world-class set of product brands that can be custom-tailored to your facility needs. Our global product brands include:

Schneider Electric's success is a direct result of the quality of its employees combined with the culture and philosophy we have developed throughout our nearly 30 years of existence in the United States. Our philosophy of doing business is based on the following goals and values:

**Excellence.** We consistently strive to exceed our clients' expectations. "We Keep Our Promises."

**Innovation.** Practicing creative, lateral thinking to provide innovative solutions that add value to our client's facilities.

**Collaboration.** Partnering with our clients through collaboration. Through team spirit we achieve the best possible results and find the best possible solutions for long-term efficiency.

**Passion.** Being a practical, hands-on company. Our employees have an absolute passion for excellence at all levels.

**Knowledge.** Supplying technically superior and highly reliable solutions. Nearly 80% of our staff is made up of engineers, technicians, and project managers – confirming our commitment to cutting edge, technical innovation.

**Focus.** Focusing on our core business. We specialize in Intelligent Systems Integration and providing a safe, energy efficient facility. Our clients will agree; we are the leaders in our industry.

**Trust.** We work hard at creating a high trust, high self-esteem, and a high excitement work environment. We recognize that our clients value quality people as well as quality products.

### National Qualifications

Schneider Electric proposes local project teams across the nation that possess the experience, skill set and willingness to succeed. This ensures that project delivery is on time and on budget with emphasis on quality beyond the client's expectations. Our branch Systems Integration teams are dedicated to the engineering, installation, commissioning, and servicing of BAS and Security Systems at new and existing buildings.

Schneider Electric will scale the manpower needs of the project based upon actual schedule requirements as the project develops.

### Key Differentiators

Schneider Electric desires to have a long-term partnership with our clients, rather than simply constructing a building and moving on to the next project. We emphasize quality workmanship and do it right the first time so there is no need to redo work that has been completed. In contrast to a world economy and marketplace distinguished by unpredictability, Schneider Electric has achieved steady growth by adhering to a proven formula: stay focused on a clear strategy and insist on exceptional performance in all phases of execution.

- Factory direct branch of Schneider Electric Buildings Business. Schneider Electric is the world's only company exclusively dedicated to providing electricity and automation management solutions. Today, Schneider Electric is the global leader in electrical distribution, building automation, industrial control, power quality and availability, and security.
- Schneider Electric is a true open systems integrator with a strong networking background validated by numerous systems certifications (CCNA, MSCE, etc.)
- Certified energy engineers on staff to assist with energy savings projects through the local utilities. Schneider Electric Building Business can perform an Energy Audit of your building to determine Energy Conservation Measures to improve your bottom line.
- All hardware and software engineering is performed locally in the branch office. The engineering team leverages a vast array of standard libraries of typical systems to maximize efficiency and continuity of design.
- Customer training is available in several locations and can be tailored for a specific site or customer. Training can be conducted in the branch office, our headquarters in Dallas, at our Massachusetts location, or at a specific customer site.
- For a truly integrated building automation and security system, we are the only company that utilizes the same hardware for both. Our network controllers use the same hardware for both BAS and access control, allowing you to save money through consolidation of hardware components, database/server management, service efficiency, and seamless front end management.
- In-House Branch Service Department employs dedicated service managers & technicians who possess in-house fundamental knowledge of all technologies utilized.
- Security engineering and installations are uniform and consistent from project to project. All hardware and software engineering and CAD documentation occurs prior to any installation.
- Provide experienced project management personnel for all projects. We match customer applications and needs with specific skill set of our Project Managers.
- In-House software engineers provide expertise in: Database Integration, Partitions, Mergers, Network Infrastructure, Security, Virus Protections, Data Redundancy and Recovery, Cybersecurity.

### Warranty Service

During the warranty and future service contracts, the relevant Schneider Electric Branch will be readily available for emergency warranty calls and any service agreements and preventive maintenance. Schneider Electric is planning to utilize our Project Manager to establish a warranty and service plan, with adequate knowledgeable staff (field engineers and field technicians from the construction project) to meet our customer's operational staff's needs. Schneider Electric will set up 24/7 on call numbers, procedures, and staff to meet the demanding needs of this facility.

The Service Department will be responsible for the Warranty period of the project and any other Service Agreements, such as 24/7 coverage or preventive maintenance, between the customer and Schneider Electric. The warranty period will be established for 1 year. At this time the turnover meeting will be held, and the following will be reviewed:

- Operations to Service Form
  - A form will be filled out with all pertinent information about the project, site logistics, workstation log in information, etc.
- Risk Analysis and Register
  - Risk register is reviewed, for any risk close out or if new risks arise.
- Project Closing Checklist
  - Project check list is reviewed to ensure all punch lists items are closed out, as-builts and O&Ms are turned in, and to ensure no other deliverable is outstanding. Project financials are also reviewed.
- On-site walk-through with Service Team
  - The Service Team in charge of the warranty for the project and a few members of the project team will do a walk-through of the complete project. This will include meeting with the customer, reviewing all project documentation, learning the location of control rooms, and identifying the location of all controlled equipment, etc.

**vi. Describe Offeror's customer service/problem resolution process. Include hours of operation, number of services, etc.**

### Service Capabilities

The local Branch Service Department is a stand-alone operation within the branch. These resources, as outlined below, are independent of our construction and engineering teams. This point, often overlooked, is the fundamental reason for our success in servicing our customers.

Each relevant office is fully staffed with factory trained technicians on all our products including Building Management and Security. Our team of service specialists can respond to critical system service calls in a 2-hour telephone response time and on-site within 4 hours of returned call. To satisfy the demands of our customers, we keep an inventory of critical spare parts in multiple warehouses and can provide parts quickly in emergency situations.

Schneider Electric can provide an extended warranty on all installations. After expiration of the warranty, Schneider Electric recommends an all-inclusive approach whereby a maintenance contract is executed at a fixed price; however, we also offer a-la-carte Service Programs as needed. Our support program is designed to cover every supplied component for the duration of the agreement including all parts and labor. In doing so, Schneider Electric will supply our client with a single point of responsibility concerning all service issues. It shall be our responsibility to coordinate the resolution of all service issues in a timely and professional manner.

#### **Comprehensive Support Plan Highlights**

- Priority service support with preference to time and response level
- 24-hour support line with live personnel
- Remote system troubleshooting
- Periodic preventive maintenance
- 24-hour access to parts
- Operator training services
- Software and firmware upgrades
- Quarterly system performance reviews with the end user

#### **Branch Service Resource Center (BSRC)**

We offer 24/7 support through our Branch Service Resource Centers (BSRC) which may be contacted via email or toll-free phone. When a service call is made to the toll-free number, a service coordinator is notified and will dispatch resources as needed per the service agreement in place.

#### **Services Support Philosophy**

- It is the philosophy of our service organization to provide our customers with a wide variety of services and offerings to meet their ever-changing business needs in a model that provides them fast response, continuous commissioning, and energy efficiency, with a foreseeable cost impact.
- The response time of our organization is driven by our call center. The ability to report a need and be assured a live representative will get proper resources en-route is the cornerstone of this foundation. Our first line of defense is direct contact with supervisor level personnel who can accurately troubleshoot, assess and dispatch appropriate resources to solve the issue. We assign lead resources to each customer who are most familiar with their day to day issues and needs. We also introduce other members of the team on regular intervals as part of maintenance and commissioning efforts to provide site awareness and familiarization in the event they should be called into duty for emergency response.
- Continuous commissioning is a systematic approach to preventative maintenance that goes above and beyond normal system checks and sensor calibrations. All equipment in the facility is mapped out in a scheduled rotation to ensure that it receives equal attention. Critical devices are examined at a higher frequency to ensure their continued operation. All aspects of the system are documented during this process including conditions of mechanical equipment and the surrounding environments. Abnormalities are noted and addressed on subsequent visits to ensure the inspections remain on schedule. Recommendations are recorded and proposed as they are identified as means to enhance system operation and energy efficiency.

- Through the vehicle of our continuous commissioning and recurring service agreements, we are able to structure a plan for the customer which can define a fixed recurring cost tied to budgeting cycles that allows for all aspects of system service without large unforeseeable impacts on operating costs. The even distribution of the costs can be structured to provide continuing commissioning services, emergency repairs, and system additions and enhancements at a defined and fixed cost.
- vii. Describe Offeror's invoicing process. Include payment terms and acceptable methods of payments. Offerors shall describe any associated fees pertaining to credit cards/p-cards.**

The preferred method of payment is Automated Clearing House (ACH), but wire transfer and Electronic Data Interchange (EDI) are also acceptable. Payment by credit card or p-card is not accepted. Schneider Electric's standard payment terms are Net 30.

**Payment terms:**

1. **Payment Terms for Solutions.** Participating Public Agency or Procuring Party will pay Contractor monthly progress payments on a net thirty (30) days basis from date of invoice for materials delivered (or stored at an off-site storage facility) and services performed. If Contractor provides a Certificate of Substantial Completion, such certificate shall conclusively establish such date. All invoices due and payable to Contractor shall accrue interest at a compounded per annum rate not to exceed 1½% per month (18% per annum) or the maximum rate permitted by law. Acceptance and endorsement by Contractor of an instrument for less than the full amount which Contractor claims to be due shall not be deemed to be an admission of payment in full and any conditions to the contrary which are noted on such an instrument shall not be binding on Contractor. If Participating Public Agency or Procuring Party, does not pay Contractor, through no fault of Contractor, within seven (7) days from the time payment was due, Contractor may, without prejudice to any other remedy it may have, upon seven (7) additional days' written notice to Participating Public Agency or Procuring Party, stop its work until payment of the amount owing has been received and the contract sum shall be equitably adjusted for reasonable costs of shutdown, delay and startup or in the alternative Contractor may terminate this contract for material breach and all monies due Contractor for services performed and materials delivered shall be paid upon demand. Contractor shall be entitled to recover from Participating Public Agency or Procuring Party all costs for collection, including reasonable attorneys' and professionals' fees. To the extent payments are received and as required by law, and upon Participating Public Agency or Procuring Party's request, Contractor will furnish lien waivers as the work progresses.

Contractor reserves a security interest in any goods sold to the extent of the invoiced amount to secure payment of Participating Public Agency or Procuring Party's obligation. In event of payment default, Contractor may repossess such goods and a copy of the invoice may be filed with appropriate authorities as a financing statement to event or perfect Contractor's security interest in the goods. At Contractor's request, Participating Public Agency or Procuring Party will execute any necessary instrument to perfect Contractor's security interest.

2. **Payment Terms for Products.** Terms are net 30 days from date of invoice. Late payments will be subject to interest charges at the rate of two percent (2%) per month. Invoices for pro-rata payments become due on the date of shipment. If at Participating Public Agency or Procuring Party's request, shipments are delayed beyond the scheduled date, payments for the Products will be invoiced to the Participating Public

Agency or Procuring Party, as a percentage of the total Purchase Order price when Contractor was originally prepared to ship. Products held for the Participating Public Agency or Procuring Party shall be at the risk and expense of the Participating Public Agency or Procuring Party. If completion of delivery is delayed more than 30 days after originally scheduled delivery date and not caused solely by Contractor, Contractor reserves the right to ship all Products to the Participating Public Agency or Procuring Party who will accept responsibility for Products including payment. Failure to pay any applicable payment on its due date shall automatically cause all installment amounts to become payable and in addition to Contractor's other lawful remedies, Contractor reserves the right to suspend or cancel the PO. If Participating Public Agency or Procuring Party fails to pay Contractor for the Products, Contractor reserves the right to file in its sole discretion any liens, charges, security interests, or similar encumbrances against the applicable property, building, land, or Products and Participating Public Agency or Procuring Party consents to such filings and registrations.

**Acceptable methods of payment:**

The preferred method of payment is Automated Clearing House (ACH), but wire transfer and Electronic Data Interchange (EDI) are also acceptable. Payment by credit card or p-card is not accepted.

*viii. Describe Offeror's contract implementation/customer transition plan.*

**Lessons Learned**

Through prior migration experience, Schneider Electric will work with the customer team to develop a migration plan tailored to each area of the facility. Schneider Electric has had the opportunity to work with countless security deployments over the years. Based upon our past experiences we have gained a substantial amount of "Lessons Learned" which are shared throughout the organization. Some of the lessons learned include:

- > Never leave an area in an unsecured state
- > Start with the end device and work your way forward
  - This approach helps minimize disruption to the operation of the existing system yet still allows the new system to be brought up.
- > Convert one panel at a time; not an area at a time
  - This is important because not all points in a system are connected to control panels in a logical manner. A single area could be served by panels in different areas of the facility.
- > Conduct initial operator training before any conversion begins
  - No system operator wants to be blind sided with a completely new system without training. The key to a successful migration is to pick a low priority area that still gets adequate traffic to start the migration with. This way, operators can ease into the new system.
- > Schedule critical or high traffic areas to be done after-hours
- > Evaluate site conditions and communicate the deployment plan
- > **Listen, Communicate, Listen**
- **Retrofit**
- > Site investigation is critical to a successful migration plan
- > Understanding of current state and desired state ensures delivered system meets the customer needs. This goes beyond the spec.
- > More than just electronics. Evaluation of mechanical hardware is also critical.

- **New Construction**
  - Coordination with Design Team is critical to a successful implementation plan.
  - Creation of standard construction documents to be deployed to the Design Team early in the process.
- **Team's**
  - Stakeholders must own and support the system deployment.
  - Single point of contact is critical. This will help with communicating schedules to the various departments.
  - Customer schedule of employee enrollment is important for special needs planning.
  - **Schedule, Communication, Schedule, Communication.**

**ix. Describe the financial condition of Offeror.**

See SEBA-Generic PreQ 2021 doc to be added as an attachment.

**Schneider Electric consensus**

25 February 2021 – **Post-Q4 2020 release consensus** based on forecasts for Schneider Electric.

The following brokers contributed (alpha order): *AlphaValue, BofAML, Barclays, Berenberg, Bryan Garnier, Citi, Deutsche Bank, Goldman Sachs, JPMorgan, Liberum, Morgan Stanley, Oddo, RBC Capital Markets, Redburn, Société Générale, UBS, Vertical Research*

The following brokers did not contribute on this occasion (alpha order): *Credit Suisse, Exane BNP, HSBC, Jefferies, Kepler Cheuvreux, Morningstar*

Note: Consensus submissions were gathered in the period 15 – 24 February 2021.

- xi. ***Describe the Offeror's safety record.***

### **Schneider Electric Safety Plan Summary**

#### **1) Statement of Safety and Health Policy**

Schneider Electric considers no phase of operation or administration of greater importance than accident prevention. It is the policy of this company to provide and maintain safe working conditions and to follow operating practices that will safeguard all employees resulting in safe and efficient operation. Schneider Electric Corporate Safety Policy shall be provided upon request.

#### **2) Subcontractors**

All subcontractors will be selected and managed in a manner consistent with the overall Schneider Electric's safety objectives, policies, and procedures embodied in Schneider Electric Corporate Safety Manual.

#### **3) Training**

All operations, service and installation employees will be required to attend Safety training. Schneider Electric shall hold weekly safety tool box meetings with its employees on site and submit a copy of the minutes of each meeting to the GC.

#### **4) Safety and Health Inspections**

Schneider Electric will conduct weekly and monthly safety inspections. During the day-to-day progression of the project, the Project Manager or Designated Competent Person will address any identified safety issues. Schneider Electric's corporate safety manager, who may visit the site before and or during the onsite installation.

#### **5) Accident Reporting**

An Accident Investigation Report will be completed for ALL incidents that cause a loss in personal safety, material, tools, and equipment and for any "near miss" incidents that could have caused a loss of the same. A copy of this report is required to be sent to: Schneider Electric's Safety Manager within 24 hours of incident. The Schneider Electric Safety Manager will complete an After Action Report after investigation of each occurrence.

#### **6) Personal Protective Equipment**

PPE is to be made available to each employee for controlling exposures to applicable hazards. The first and foremost means of protecting employees from injuries or exposures is to eliminate the exposure, the second is Engineering Controls, and the third is PPE. PPE is a means of preventing injury or exposure when exposure elimination and/or Engineering Controls are not possible.

#### **7) Hazard communication program**

All Schneider Electric employees are given mandatory hazardous communication training as new employees and as new hazardous materials are introduced.

Safety is a guiding principle at Schneider Electric. Keeping people safe and healthy is part of Schneider Electric's core mission. We instill a safety culture interrelated with our risk management program that permeates every level of the company and every worksite. Our Injury and Illness Prevention Program and Safety and Health Program, summarized below, are the foundation of this culture.

**Schneider Electric Safety Record**

Shown below is our Experience Modification Rate (EMR), Recordable Injury Rate (RIR), and Days Away, Restricted or Transferred (DART) for the past four years:

Schneider Electric Safety Record					
Year	2021	2020	2019	2018	2017
EMR	0.78	0.93	0.73	0.60	0.54
RIR	0.24	0.22	0.19	0.17	0.35
DART	0.00	0.00	0.08	0.06	0.10

**xii. Provide any additional information relevant to this section.**

- **Schneider Electric’s Experience:** Our experience with successful implementation of similar projects is unsurpassed. We have an extensive track record of experience with Energy Efficiency projects; we understand the level of support needed to ensure a successful project with critical facilities. We have unparalleled experience across the world working with public sector clients delivering design – build projects.
- **Schneider Electric’s Capabilities:** The key personnel on the project team bring extensive experience, in addition to a long history of working together on successful projects. We have one of the lowest turnover rates of employees in the industry. We plan on leveraging our local presence of resources to bring many outstanding projects to OMNIA users.
- **Schneider Electric’s Approach to Design – Build / Performance Contracting:** From our proven ability to finance projects, to our conservative approach of operational savings and energy savings verification, we have the processes to make the project a success, and the resources to ensure long-term performance.
- **Schneider Electric’s Key Relationships:** We were involved in developing the performance contracting / design-build programs for many public sector clients across the United States. During this time, we established key relationships within their organization. We pride ourselves in client satisfaction and education, and often our clients are looked to as subject matter experts on the owner side. Our industry relationships have enabled many successful energy savings programs across the country, and we look forward to leveraging these key relationships to deliver quality projects to you.
- **Schneider Electric’s Innovation:** When it comes to new ideas or unique solutions, we excel across the board. We would be honored to assist the OMNIA users in developing cutting edge technologies like microgrids and cybersecurity solutions to enhance sustainability and resiliency, renewable energy options to offset fossil fuel consumption, and the ability to leverage all solutions to work towards net zero facilities. We can also brand a green effort with agency campaigns and co-develop educational curriculums that will help make OMNIA users a leader across the country when it comes to energy efficiency and sustainability.
- **Schneider Electric’s Commitment:** We stand behind our guarantees if the savings are not achieved, we write a check for reimbursement!

## Tab 4 Qualification and Experience

**i. Provide a brief history of the Offeror, including year it was established and corporate office location.**

Schneider Electric is a public corporation that was established in 1836 by two brothers, Eugène and Adophe Schneider. Starting with our roots in the iron and steel industry, heavy machinery, and ship building, we moved into electricity and automation management. Over the past 185 years, Schneider Electric has grown to be a **global specialist in energy management** with operations in 100 countries, over 135,000 employees, and sales of over \$25 billion in 2020.

Over the past 30 years, Schneider Electric has obtained employees with decades of energy management knowledge and experience through the worldwide acquisitions of a multitude of companies including: Summit Energy, TAC, Andover Controls, Invensys, Square D, Juno Lighting Group, Pelco, APC, and Abacus Engineered Systems.

Schneider Electric offers integrated solutions across multiple market segments, including leadership positions in energy and infrastructure, industrial processes, building automation, and data centers/networks, as well as a broad presence in residential applications. Schneider Electric maintains an active commitment to help individuals and organizations **“Make the most of their energy.”**

Schneider Electric SA  
World Headquarters

**ii. Describe Offeror’s reputation in the marketplace.**

Over the last few years, Guidehouse Insights, a third-party research company, evaluated the top energy companies and ranked Schneider Electric as the #1 Energy Service Company (ESCO), the #1 Intelligent Building Software Provider, and the industry leader in Microgrid Technology and Solutions. We have also been named a Top 10 provider of Energy-as-a-Service (EaaS).

Below is Guidehouse Insights’s ESCO Leaderboard, with Schneider Electric earning the top spot in 2020.

**iii. Describe Offeror's reputation of products and services in the marketplace.**

Over the past 180 years, Schneider Electric has grown steadily through organic growth and strategic acquisitions to become a global leader in digital energy and automation solutions. It's likely that you've seen some of our best-known brands including Square D® for power equipment, EcoStruxure™ for building automation, and APC® for IT power and back-up solutions. These acquisitions have become valued operating units that provide significant cost savings for products and services.

Because of the depth and breadth of our global reach, you can find Schneider Electric products and solutions in every major market sector, including:

Figure X Our solutions digitalize energy and automation in critical infrastructures within universities, hospitals, airports, and municipalities.

**iv. Describe the experience and qualification of key employees.**

Over the past 30 years, Schneider Electric has obtained employees with decades of energy management knowledge and experience through the worldwide acquisitions of a multitude of companies including: Summit Energy, TAC, Andover Controls, Invensys, Square D, Juno Lighting Group, Pelco, APC, and Abacus Engineered Systems.

**v. Describe Offeror's experience working with the government sector.**

Schneider Electric has been on the Department of Energy (DOE)'s Qualified List of Energy Service Companies (ESCOs) for 14 years. We have also been an active DOE ESPC Indefinite Delivery Indefinite Quantity (IDIQ) contract holder since 2008. In that time, we have delivered more than \$500M in performance contracting projects to government agencies, including the Department of Defense, the General Services Administration, the Department of Veterans Affairs, and the US Coast Guard.

First to achieve net zero	35% energy reduction	7,109 tons of CO <sub>2</sub>	Savings of \$35.7 million
As part of the U.S. General Services Administration's National Deep Energy Retrofits program, the Almeric Christian Federal Building in St. Croix, Virgin Islands is using an ESPC to install energy efficiency improvements and renewable energy systems, enabling the building to achieve net zero energy status — the first federal building to achieve 100 percent net zero through an ESPC.	The U.S. Department of Agriculture and the Agricultural Research Service's Western Regional Research Center reduced energy use by 35 percent, achieved federal mandate compliance, and reduced greenhouse emissions by 2,793 metric tons of CO <sub>2</sub> , improving occupant comfort and enhancing indoor air quality in a highly sensitive lab environment.	The General Services Administration Region 7 reduced carbon emissions by 7,109 tons annually and is realizing guaranteed savings of close to \$1 million annually as part of a Schneider Electric ESPC.	United States Coast Guard in Puerto Rico will save a total of \$35.7 million (\$1.2 million annually for the next 23 years) while redirecting \$1 million of annual spend from brown to green power. We combined a Renewable Energy Service Agreement with an ESPC to finance PV panels and guarantee savings.

**vi. Describe past litigation, bankruptcy, reorganization, state investigations of entity or current officers and directors.**

Schneider Electric has one pending matter and three resolved matters that are summarized below. Schneider Electric has addressed these matters in a professional and ethical manner, and we can represent and warrant that there are no such legal actions that would impair our credentials or impair our ability to perform under this Contract, if selected.

**RESOLVED - Medford Township School District, NJ**

Schneider Electric was involved in a dispute with the Medford Township School District, New Jersey ("Medford") arising out of an Energy Services Construction Contract, dated June 29, 2015 (the "Construction Contract"). Schneider had not been paid the balance it is owed under the Construction Contract and filed a demand for arbitration with the American Arbitration Association. On April 16, 2018, Medford filed a Complaint in Superior Court of New Jersey seeking to enjoin the arbitration and alleging claims against Schneider for breach of contract. The Parties later agreed to mediate the matter and have since reached a mutually agreeable settlement.

**RESOLVED - DOJ Investigation**

In December 2020, the U.S. Department of Justice (U.S. DOJ) and Schneider Electric Buildings Americas, Inc. (Schneider) reached a settlement related to a former employee (Bhaskar Patel) who was terminated in 2016 for illegal subcontracting activities for personal gain. This was an isolated incident and the actions of that one individual were in direct violation of Schneider Electric's code of conduct. Upon learning of these issues in 2016, Schneider immediately terminated the rogue employee and implemented new compliance safeguards, including a multi-layered approach to contract management. Schneider remains in good standing as a Federal vendor, and has been awarded an additional \$624 million in contracts since the Government's investigation began in 2016.

**RESOLVED - 2020 City of Atlanta – Department of Watershed Management**

In December of 2017, the City of Atlanta and Schneider entered a Guaranteed Energy Savings Performance Contract (GESPC). Schneider's successful completion of this Project was contingent on the City repairing/replacing equipment and infrastructure. The City failed to perform its obligations in a timely manner leading to project delays and increased costs. After months of negotiation, the City, in December of 2020, terminated the Schneider contract for default. Schneider maintained that it performed in accordance with the terms of the contract and in February of 2021, Schneider brought a claim alleging wrongful termination and seeking a reversal of the Termination for Default. The parties recently reached a settlement wherein the City of Atlanta rescinded the Termination for Default and the Parties agreed that the contract would be Terminated for Convenience.

**PENDING - 2020 United States Department of Agriculture**

In May of 2013, Schneider entered a Task Order with the United States Department of Agriculture ("USDA") to provide energy cost savings to the USDA. The Project was installed, commissioned, and accepted by USDA as of May 2016. Since that time, the USDA has realized the promised savings in each year of performance to date. Despite Schneider's demonstrated commitment to the project, the USDA, in July of 2020, terminated the Task Order in year 8 of the performance period based on maintenance issues related to one ECM. The USDA has refused to try and resolve the matter and so in January of 2021, Schneider filed a claim against the USDA in the U.S. Court of Federal Claims alleging wrongful termination and seeking to have the Termination reversed.

- vii. **Provide a minimum of 5 customer references relating to the products and services within this RFP. Include entity name, contact name and title, contact phone and email, city, state, years serviced, description of services and annual volume.**

## Brunswick County Schools

### Project at a Glance

**Type of Project:**

Performance Contract

**Project Location:**

Bolivia, North Carolina

**Project Cost:**

\$16,957,562

**Annual Savings:**

\$942,087

**Scope of Work:**

- T8 to LED Conversion
- Exterior & Gym Lighting Retrofit
- Building Envelope Weatherization
- HVAC Replacement
- Energy Management System
- Water Conservation Measures
- Plug-Load Controls
- Solar Picnic Tables

**Role of the Responder:**

Energy Services Company

**Construction Dates:**

August 2017 – Ongoing

**Project Term:**

18 Years

**Project Beginning and End dates:**

2017-2036

**Contact Information:**

Sue Rutledge  
Executive Director of Operations  
199 Sessions Drive  
Bolivia, NC 28422  
(910) 253-2900  
srutledge@bcswan.net

### Project Description

Brunswick County Schools maintains over 2 million square feet of facilities for their students. Twelve sites still heated their buildings with fuel oil, an expensive and messy energy source. Schneider Electric converted all of these schools to either natural gas or propane, in order to eliminate their use of fuel oil. Converting to natural gas or propane also gave Brunswick County Schools the opportunity to get various new heating system upgrades and refurbishments.

Brunswick County Schools converted their interior and exterior lighting to LED throughout the district. Much of their energy savings came from a comprehensive lighting upgrade. To expand upon lighting savings, four schools received occupancy sensors in areas where data loggers justified the investment financially.

Brunswick County Schools had been dealing with deferred maintenance on hundreds of units across the district for years. Schneider Electric is replacing 26 gas-fired packaged rooftop units across five different schools, to take these units off the district's deferred maintenance list.

Finally, district administration wanted a way that students could engage with this project. Schneider Electric identified the opportunity to provide solar picnic tables to all three high schools, allowing students to harness solar technology to charge their devices.

Measured Energy Savings: 93.11%  
Non-Measured Energy Savings: 1.63%  
Non-Measured O&M / CCA Savings: 5.26%  
CCA Savings were calculated for the costs of equipment that was at the end of its useful life and replaced through the project. O&M Savings was calculated based on material costs for some equipment replacement. Both CCA and O&M Savings were stipulated.

## West Windsor Plainsboro Board of Education

### Project at a Glance

**Project Location:**  
West Windsor, New Jersey

**Project Cost:**  
\$ 29,648,392

**Annual Savings:**  
Solar PPA - \$311,373  
Energy Savings – \$891,251

**Scope of Work:**

- HVAC Replacement
- Combined Heat and Power
- LED Lighting
- Solar PPA
- Water Fixtures
- Boiler Replacement
- Chiller Replacement

**Construction Dates:**  
Dec 2019 – Dec. 2020

**Contact Information:**  
Dr. Russo  
Assistant Superintendent, Finance/Board  
Secretary  
609-716-5000 Ext5020  
Christopher.russo@ww-p.org

### Project Description

Schneider Electric was asked to develop energy and capital scope in a parallel with a referendum program. Schneider Electric worked with West Windsor Plainsboro to identify facility conditions, then develop detailed scope to help ensure facility conditions matched new construction being built through the referendum.

Schneider Electric developed and aided the district in running an RFP for Solar PPA, to help ensure projected savings would be realized throughout the project financial term. Schneider Electric aided the district in achieving utility interconnection agreements to ensure the most competitive RFP bids possible.

Schneider Electric also conducted a detailed equipment assessment to aid in the referendum and ESPC development. This assessment was carried out by commissioning agents to ensure equipment left in place had sufficient life expectancy to last the term of the financial agreement.

There was no guarantee associated with this project.  
Projected Energy Savings: 65.11%  
Projected O&M Savings: 12.12%  
Projected CCA Savings: 22.74%  
CCA Savings were calculated for the costs of equipment that was at the end of its useful life and replaced through the project or for Solar PPA savings. O&M Savings was calculated based on material costs for some equipment replacement. No savings associated with this project were guaranteed.

## Delran Township Public Schools

### Project at a Glance

**Project Location:**  
Delran, NJ

**Project Cost:**  
\$4,509,565

**Annual Savings:**  
\$283,345

**Scope of Work:**

- Building Automation System Upgrades
- HVAC Retro-commissioning
- LED lighting (interior and exterior)
- Building Envelope
- Walk-In Freezer Controls
- New energy supply contracts
- Solar Power Purchase Agreement
- Roof replacements
- Real time energy dashboards at all 4 schools

**Role of the Responder:**  
Energy Services Company

**Construction Dates:**  
August 2016 – September 2017

**Project Term:**  
15 years

**Project Beginning and End dates:**  
2015 – 2030

**Contact Information:**

52 Hartford Road  
Delran, NJ 08075

### Project Description

In January 2015, Delran began exploring the possibility of an Energy Savings Improvement Program (ESIP). Initially, the District was driven by a desire to reduce energy costs, improve the building automation and mechanical systems, and become more sustainable. By taking a holistic approach in all 4 schools, this Energy Savings Improvement Program will allow Delran to reduce energy costs by 32%, produce 80% of its electric needs through on-site solar, and save taxpayers \$5.6 million over the next 15 years. This project will directly benefit students through a kiosk and energy dashboard system, also providing awareness to the community about preserving the environment.

By partnering with Schneider Electric, Delran has received Sustainable Jersey for Schools “Bronze” Certification and was awarded the 2016 NJ Governor’s Environmental Excellence Award in the Clean Air category.

Energy Savings: 48.1% - IPMVP Option C (88.1%),  
Non-Measured (11.9%)  
O&M/Water/Stipulated Non-Energy Savings: 51.9%

## Virginia Department of General Services

### Project at a Glance

**Project Location:**

Virginia

**Project Cost:**

\$2,812,939

**Annual Savings:**

\$245,892

**Scope of Work:**

- LED Lighting
- Water Conservation
- Condensate Recovery

**Role of the Responder:**

Energy Services Company

**Project Beginning and End Dates:**

October 2017 – June 2018

**Project Term:**

15 Years

**Contact Information:**

Ed Cahill  
Energy Manager  
3001 Stonewall Avenue  
Richmond, VA 23225  
(804) 221-0457  
Edward.Cahill@dgs.virginia.gov

**Project Description**

The Department of General Services contracted with Schneider Electric (SE) to perform an Investment Grade Audit (IGA) of five (5) buildings initially and then added two (2) buildings during the IGA development process. The primary goal for DGS was to reduce the list of deferred maintenance items by implementing low hanging fruit lighting and water savings measures. By implementing this project, DGS will achieve significant savings while improving operations and comfort and will address key maintenance and lighting infrastructure improvement needs.

**Key Facts**

- \$226,116 in Guaranteed Annual Savings
- High priority needs addressed in 7 Downtown Richmond Buildings
  - 780,000 square feet of historical buildings updated
- All LED retrofit both indoor and outdoor lighting
  - Standardized fixture and color to reduce maintenance
- Condensate Recovery System improved cash flow and significantly reduced water consumption

Energy Savings: 7% - IPMVP Option A

O&M/Water/Stipulated Non-Energy Savings: 12%

## Virginia Army National Guard

### Project at a Glance

**Project Location:**

Virginia

**Project Cost:**

\$11,206,684 (2 projects)

**Annual Savings:**

\$174,590

**Scope of Work:**

- Mechanical upgrades including a geothermal system
- DDC controls
- LED Lighting and lighting control
- Building envelope
- PC power management
- Plug load control
- Water conservation
- Advanced electric meters

**Role of the Responder:**

Energy Services Company

**Project Beginning and End Dates:**

October 2011 – December 2012

**Project Term:**

10 Years

**Contact Information:**

CSM Cliff White  
Deputy Facility Maintenance Officer  
Virginia Department of Military Affairs  
434-298-6365

**Project Description**

Virginia National Guard is an existing customer that has initiated eighteen (18) Task Orders for ESPC projects with Schneider Electric totaling nearly \$35,000,000. Because of the remote location of many of their sites and the manual operation of building systems, the National Guard was experiencing high operating cost per square feet of operation.

The Schneider Electric solution consisted of implementing DDC controls with remote communication, comprehensive energy-efficiency retrofits of mechanical equipment including installation of several variable refrigerant flow (VRF) systems, a geothermal heat pump system, and lighting and fixture upgrades.

The much-needed facilities upgrades allow for a better environment for soldiers to prepare and defend the Commonwealth of Virginia and the Nation. The key to success was the ability of the client to leverage state maintenance reserve dollars to get Federal maintenance dollars at 33(state)/67(federal) percentage split.

Energy Savings: 9% - IPMVP Options C  
O&M/Water/Stipulated Non-Energy Savings: 91%

**viii. Provide any additional information relevant to this section.**

We believe our greatest asset is our commitment to our employees and clients. This single trait helps us to stand alone in the competitive market. Specifically as it relates to this opportunity our ability to provide competitive solutions with off the shelf components will enable the Members to realize integrated solutions with minimal disruption to their day-to-day business.

Schneider Electric is an active, certified member of the National Association of Energy Service Companies (NAESCO). Our certificate of accreditation is below:

**Certifications and Credentials**

Region 4 Education Service Center will benefit from working with a company that is an active member of the industry’s leading organizations and initiatives, holding the following certifications and credentials:

Registered Partner & Partner of the Year	LEED Certification	Gold Level Sponsor	Approved Performance Contractor	Approved Performance Contractor	Approved Performance Contractor

As an approved performance contractor for NAESCO, the DOE and the DOD, Schneider Electric has undergone substantial vetting. In short, our credentials prove that we can do what we say we will do—whether it be for the federal government or for another type of facility.

**Awards**

We are honored to be recognized and awarded globally in areas of innovation, sustainability, ethics, and safety. The list below highlights some of our most recent awards, including those we are most proud of. Please visit <https://www.schneider-electric.com/en/about-us/company-profile/awards.jsp> for a complete listing.

	<p><b>Commitment to Customers Earns #1 ESCO Rank from Guidehouse Insights</b></p> <p>Our customers can count on Schneider Electric to address their needs far beyond energy. In fact, our commitment to our customers earned us the #1 spot on Guidehouse Insights 2020 ESCO Leaderboard Grid. The assessment ranked 10 leading ESCOs based on their strategy and execution.</p>
	<p><b>ENERGY STAR Partner of the Year Award Recognizes Ongoing Success with Helping Customers Save Energy and Money</b></p> <p>Schneider Electric has been recognized by the Environmental Protection Agency (EPA) as an ENERGY STAR Partner of the Year for more than a decade, validating our expertise in facility benchmarking and utility data analysis. This means you have an expert team in tracking and assessing energy and water use across your buildings.</p>
	<p><b>Ranked #1 most sustainable company in the world</b></p> <p>Schneider Electric has earned the top spot on the Corporate Knight's list of <b>Global 100 Most Sustainable Corporations in the World</b> in 2021. The top 100 corporations are selected from a pool of nearly 6,000 companies around the world, and Schneider Electric has been a mainstay on this list every year since 2012.</p>
	<p><b>2021 World's Most Ethical Company Designation</b></p> <p>Ethics and responsibility are foundational to our relationships with all customers, partners, suppliers, and communities in which we work. And it shows: Schneider Electric has been recognized multiple years as a <b>World's Most Ethical Company Honoree</b>. To read more about the designation, visit: <a href="https://www.worldsmoethicalcompanies.com/">https://www.worldsmoethicalcompanies.com/</a></p>
	<p><b>Emphasis on Jobsite Safety Nets More Than 200 Safety Awards</b></p> <p>Schneider Electric's focus on prevention saves lives, reduces injuries, and protects our customers from legal liability and negative public relations. The National Safety Council has recognized Schneider Electric with more than 200 awards since 2016, including the Industry Leader Award in 2018. Schneider is also 1 of 3 to simultaneously hold the Robert W. Campbell Award and the Green Cross Award for safety excellence.</p>

## Tab 5 Value Add

- i. Provide any additional information related to products and services Offeror proposes to enhance and add value to the Contract.*

### **Federal Buildings Program Office**

Our Schneider Electric Federal Buildings Program Office works as a control tower between Federal Government Agencies and their legislative updates, like stimulus packages and Executive Orders, and our dispersed local sales offices throughout the country. This enables Schneider Electric system integrators and subject matter experts to have educated conversations with Federal customers, and non-federal customers impacted by legislative priorities, above upgrades and investments they can make in their facilities to make them more sustainable, energy-efficient, resilient, cybersecure and people-centric.

### **Why Schneider Electric?**

Schneider Electric provides future-ready solutions for every size building, from residential and small- and mid-size commercial buildings to large campuses and global enterprises. It's EcoStruxure™ Building portfolio – present in over one million buildings – is the industry's first open innovation platform for buildings. The solutions optimize occupant comfort and productivity, maximize building efficiency, and increase building value. Its secure, end-to-end IP architecture enables the quick connectivity of IoT devices for faster commissioning and changes; provides for edge control and collaboration between building systems and third-party systems and devices, and its mobile apps, analytics, and services enable advanced analysis and condition-based real-time decision-making.

### **Building Management System**

Building management systems (BMS) help you to get a holistic view of building performance by providing an integrated environment across all the building systems. System integration in a building adds value and allows you to respond to occupant needs. As buildings become more connected, there is a growing need for intelligent building technologies that provide data-driven insights to maximize operational efficiency, cut energy waste, and lower overall costs. Today's smart buildings are starting to leverage the Internet of Things (IoT) to connect various systems and devices to a centralized technology backbone. Schneider Electric's BMS solutions enable lifetime efficiency of your building by letting you monitor, control, and optimize performance throughout its lifecycle. Switch to smart building automation and control solutions with Schneider Electric's integrated building management systems and room controllers.

EcoStruxure™ Building Operation software is the edge control heart of the EcoStruxure Building system to monitor, manage and control building systems. With an open integration platform, it securely facilitates the exchange of data from both Schneider Electric and third-party energy, lighting, HVAC, fire safety, security and workplace management systems to create future-ready smart buildings.

EcoStruxure Building Advisor is a cloud-based solution, allowing you to select the right tools for your building maintenance needs. You can access them through a single portal with a complete view of your entire building portfolio, and get more information with just a few clicks. Building Advisor provides peace of mind, ensuring you always have access to continuous monitoring, a comprehensive view of building systems, as well as the identification of faults and inefficiencies to make data driven decisions.

### Building Security

With the need to protect more people and data it is easy to understand why physical access control plays a vital role in the overall security of a building. Both physical and cybersecurity solutions must be in place to help deter workplace violence and prevent crime while safeguarding the occupants, assets and valuable business information. When access control is deployed in unison with cybersecurity solutions, it reinforces complete security for any business enterprise.

Protect your building occupants and assets with Schneider Electric's Access Control Systems, Security Expert or Access Expert. These integrated role-based physical access control and intrusion detection solutions can unify your building's security infrastructure and management systems into an easy to manage, single platform that enables faster, more efficient, and potentially life-saving decision making.

### EcoXpert Training and Certification program

Working with partners we trust is as important to us as it is to our customers. EcoXperts deliver innovative and sustainable solutions, through integrated technology and digitization, to our shared customers.

Our EcoXpert partners are certified in our industry-leading EcoStruxure™ architecture and platform, enabling them to deliver on better-performing buildings for their customers.

Unique in its industry, the EcoXpert program is the only cross-expertise, global ecosystem of partners that deliver on some of our customers' biggest design goals by offering:

- Specialized training to resolve your most critical challenges.
- Connected expertise to enable cost-effective, all-in-one solutions.
- Connected technology with Schneider Electric's industry-leading offer portfolio to deliver best-in-class services and solutions.

### Schneider Electric's Capabilities Overview

Schneider Electric is a leading provider of building management solutions and energy services that deliver measurable business results to customers by enabling them to do more with less energy. With over 120 years of experience in the HVAC, energy and security arenas, Schneider Electric employs more than 143,000 people worldwide. Our people are experienced, trusted energy professionals. We have the engineering, design, project management and energy market experience needed to integrate efficiency and renewable energy to create a comprehensive energy solution that works for the OMNIA contract users.

Schneider Electric specializes in developing, designing, building, and financing energy infrastructure projects for commercial, educational, industrial, federal, and state and local government customers throughout the United States. With our knowledge and understanding of local governments and the environment in which you reside, we are certain that by partnering with us we can deliver a comprehensive program that will not only promote energy conservation, but deliver an infrastructure renewal program that can assist in the achievement of your mission by providing a better environment for staff and taxpayers through the implementation of newer, energy efficient technologies.

Schneider Electric's Energy & Sustainability Services (ESS) Division has enjoyed tremendous success in the performance contracting industry since its inception in 1992. Over the past 29 years we have implemented or are in the process of installing more than 900 performance contracting projects in 29 states throughout America, resulting in over \$3,174,708,432 in facility improvements. A vast majority of the projects completed by Schneider Electric have been managed from or have received managerial resources from Schneider Electric's office in Carrollton, Texas.

Schneider Electric currently has 284 projects under contract agreement. Of these, 62 projects are currently in the installation phase of the process. Additionally, Schneider Electric also has 222 performance contracting projects that are currently under contract with our Performance Assurance Support Services (PASS) department. This means that installation has been completed, and the project is currently in repayment. The PASS department is responsible for performing services such as developing the project-specific M&V plan, on-site and remote monitoring, customer support, troubleshooting, and repairs. The PASS department of Schneider Electric also prepares energy savings reports and identifies and implements additional energy conservation measures for the project.

Schneider Electric has historically had success in every major market that we have entered into and our references are not surpassed by anyone. Since Schneider Electric has an ethical approach that focuses on long-term performance versus short-term success, it is not uncommon for our clients to return time and time again for additional products and services. We have several clients that have executed multiple **separate performance contracts at different entities** where their careers may take them. Our most active clients have done as many as seven different phases over the course of many years with us. Below we will highlight several client sectors that demonstrate our flexibility and capabilities to apply our experiences with choosing a **partner** for this next contract period.

**Mid-Atlantic Region Project Excellence** - Our experience and growth in the Mid-Atlantic Region of the United States has been unparalleled by any other ESCO within the region over the last several years. Our local commitment to coalitions and organizations to promote what Energy Savings Performance Contracting can provide is high on our priority list and we have seen sustained growth because of our commitment.

Given Schneider Electric's Energy Savings Performance Contracting with other State agencies across the United States, including Alabama, California, Texas, Virginia, Washington, North Carolina, Kansas, Missouri, Pennsylvania, Oklahoma, Oregon, Florida, Georgia, Illinois, Indiana, Massachusetts, Michigan, Mississippi, and Wisconsin, we feel very confident on our ability to build on our previous successes and provide creative energy conservation measures and alternative financed programs to the State. With superior technology implementation and a streamlined construction project, every project is developed to ensure timely delivery through our proven processes.

While Schneider Electric's team members have experience executing and managing Energy Savings Performance Contracts under OMNIA.

### **Leader in the East**

As the number #1 ESCO in the Commonwealth of Virginia by contract volume and total projects, Schneider Electric looks to leverage that success, and has focused its attention to the OMNIA contract users. Use of this contract expand the opportunities for alternative financed projects to become standard practices to mitigate risk and better control costs to public sector clients / OMNIA users.

Schneider Electric has built dedicated performance contracting offices in all over the United States including Dallas, Richmond, Virginia, Harrisburg, Pennsylvania, and Raleigh, North Carolina with Sales, Engineering, Construction, and Measurement and Verification support all local within the Mid-Atlantic Region. Our projects receive individualized consultant's post-installation for all measurement, verification and training processes.

**Municipal and County Excellence** - We have continually excelled in this market for the last decade. Our highlight projects include the major cities like Atlanta, Dallas, Houston and Abilene, TX as well as major counties like Ft. Bend County in the Houston Metro area. Each one of these projects selected our Energy and Sustainability Services Group over multiple major competitors and elected to do second phases with us as well. To date, we have completed more than \$357M in the Municipal and County markets across the United States in various states like Alabama, California, Texas, Virginia, Washington, North Carolina, Kansas, Missouri, Pennsylvania, Oklahoma, California, Florida, Georgia, Illinois, Indiana, Massachusetts, Michigan, Mississippi, and Wisconsin.

**Community College Excellence** - Our experience with community colleges across the country should help you understand why our approach fits your needs and how we can deliver you the success that you demand. One of our largest clients within this sector is the Virginia Community College System. We competed against multiple ESCOs and were selected as the sole source solution for the entire state of Virginia's Community Colleges. This includes 315 buildings among **40 different sites and over \$80 million dollars in work** installed within these facilities.

Additional references in this sector include the Dallas County Community College System, which is Texas' largest two-year system as well as the Los Angeles, California Community College system. We were chosen along with other ESCOs to each execute work at a single campus around Los Angeles and to date we are the only ESCO that has been awarded work on other campuses.

**Military Excellence** - The Department of Defense has long been a sustaining client for Schneider Electric. To date we have designed and implemented over **\$32 million worth of work for the Virginia National Guard** over the last decade and have also done millions of dollars' worth of work for the **US Coast Guard-Puerto Rico and Veterans Integrated Service Networks (VISN) in Florida, Massachusetts, and Puerto Rico**. Schneider Electric knows how to work in regimented environments and be held to rigorous quality standards that our nation's military guard units demand. Work with our design and construction teams and you will find a strict discipline and well-polished set of procedures in place to ensure timely well-planned projects that can set the OMNIA contract users up for success long-term.

**State Agency Excellence** - No other ESCO can claim experience like Schneider Electric has with state agencies around the United States. From Virginia to Oregon, from Texas to Pennsylvania, Schneider Electric has consistently competed, won, and delivered projects repeatedly in this sector. With our headquarters located in Dallas, Texas, we have secured seven phases of work with the Texas Health and Human Services Commission (\$70 million), the Texas Parks and Wildlife Commission, and the Texas Department of Public Safety. In Oregon, we competed and were awarded work with the Oregon Department of Corrections, and in Pennsylvania we have done projects with both the Department of Corrections as well as the Pennsylvania State Police. Our core team has executed more than 20 State Agency projects in Virginia including the Virginia Department of General Services.

In the Southeast, we are **the only** Energy Services Company to have been selected and execute performance contracts with two state agencies in Alabama. The first state performance contract ever implemented in Alabama was done by the Alabama Department of Mental Health. This project encompassed the Greil Memorial Hospital site in Montgomery, Alabama. Seven other ESCOs competed for this in an extensive RFP process like the City of

Atlanta is undertaking. We were shortlisted and selected to complete a 20-year project at this site. Schneider Electric has effectively lowered energy usage by **over 45%** at this facility and a complete central plant renovation was executed. While we were installing this project, a second RFP was released by the department for the remaining five (5) hospitals around the state and we were again selected over five other companies to complete this work. To date, Schneider Electric has designed over **\$25 million** worth of work for the Department of Mental Health and expects to see **\$1.7 million per year** in savings to the department as well as renewed facilities and happier patients.

In North Carolina, Schneider was selected to perform the project at North Carolina State University. We were selected over several other firms to complete a performance contract on the campus. We take extreme pride in this project as the state and university trusts us with one of its flagship universities. We were selected for this job, because of our prior experience in similar situations in higher education and our track record of **performing under tight timelines**.

**List of All ECMs that can be implemented through OMNIA's contract**

Following is an extensive list of our scope of services for buildings, water and wastewater.

**Schneider Electric Energy and Sustainability Services: Buildings**

**Heating Systems**

- Boiler Replacement
- High Efficient Modular Boilers
- Burner Replacement
- Boiler Stock Heat Reclaim
- Perimeter Radiation
- High Efficient Domestic Water Heaters
- Gas Line Turbulators
- Steam Trap Retrofits
- Steam Pressure Control
- Temperature Reset Control
- Electric Heating to Gas
- Piping Insulation

**Cooling Systems**

- Chiller Replacements
- Gas Fire Centrifugal Chillers
- CFC Containment Conversions
- Tower Free Cooling
- Commercial Refrigeration
- Cooling Towers
- Thermal Energy Storage Systems
- Reclaim A.C. Heat Rejection

**HVAC Systems**

- Inefficient Air Handling Unit replacement
- Variable Frequency Drives
- Heat Recovery Systems
- Low Leakage Air Dampers
- Variable Air Volume Systems
- Demand Control Ventilation
- Exhaust Fans
- Fan Coil Units
- Motor Replacement
- Unit Heaters/Ventilators
- Computer Room Units

**Water Management Systems**

- Retrofit Flush Valves, Showerheads, Faucets, Toilets
- Automated Water Systems
- Cooling Tower Retrofits
- Ice Machines
- Walk-in Coolers/Freezers
- Domestic Water Waste Heat Recovery

**Lighting Systems**

- Lighting Controls
- Daylight Harvesting
- Occupancy Sensors
- Incandescence to Fluorescent
- LED Exit Signs
- Emergency Lighting
- Ambient Light Control
- Exterior Lighting Retrofit

**Control/Automation Systems**

### Project Financing

To most effectively address your needs, Schneider Electric can assist in structuring the financing necessary to funding your guaranteed energy savings program in several different ways. Funding the project internally, utilizing a tax-exempt municipal lease/purchase, or some combination of the two are the most common approaches. Use of bond proceeds provides yet another avenue, albeit with some disadvantages.

Schneider Electric provides a detail project financing overview during the Investment Grade Audit. Kim Albertson, Finance Manager at Schneider Electric, will review the OMNIA users' current financial situation before identifying the lowest cost, highest value financial method to maximize project benefit. We will qualify local, regional, and national banks, assist in negotiating terms and conditions, and are available as client support throughout the process.

Ms. Albertson's sole function is to work directly with OMNIA contract users to identify the best funding sources, assist in procuring financing, and to work directly between the agency and the lender to ensure a smooth process. Her focus is only on developing the financial parameters of guaranteed energy savings projects and developing relationships with potential lenders for Schneider Electric.

Kimberly Albertson, Manager – Financial Services

### Analysis

Some critical considerations of financing agreements are the payment determination method and the payment frequency. The payment determination method is a simple finance calculation using the principal to be borrowed, the interest rate to be charged, the term, the payment frequency, and whether the payments are to be made in advance or in arrears as inputs.

The payment frequency and whether the payments are in advance or arrears will have a tremendous affect upon the outcome of that calculation. Both of those matters are flexible and can be tailored to meet the needs of the client. Repayment may be structured such that payments do not begin until sufficient savings are generated to make the payment. In this scenario, substantial interest will accrue during the project implementation period, which will reduce the amount of work possible with a given amount of savings potential. If the client has some funds available, the repayment schedule may be structured such that the client makes payments and is then reimbursed by the energy savings. This dramatically reduces the client's interest expense, allowing a larger scope of work or faster payoff.

- One of the most important aspects of any financing package is the interest rate obtained. Our projects have a history of receiving exceptionally competitive rates. Obviously, interest rates for projects depend not only on the strength of the ESCO but also on the quality of the client's credit rating. In addition, interest rates fluctuate and will probably change between the submission of this proposal and execution of an implementation contract.

However, based upon current market conditions and quotations for other projects of a similar nature, we believe that **OMNIA contract users could expect a rate between 2% - 4%** based upon recent information provided to Schneider Electric by financial institutions. This rate is dependent on scope of work, term, and final cost. The following sections provide an overview of the financial options available to OMNIA contract users and provide the methods of financing to be considered.

### Financing Options

Schneider Electric and its clients share a vested interest in securing the best possible funding mechanisms. The less our clients spend on financing, the more they can invest in improving their building environments. Since the method and cost of financing is a critical value to our clients, we invest time & resources to identify the best options to fund our projects.

Our program manager, along with our internal financial expert, will work with your leadership to understand goals for the financial agreement regarding the term, desired cash flow, and what types of debt structure would be preferred. Our financial expert will then evaluate all options available and will work with you to determine the best approach to maximize the impact of the savings while meeting your financial goals.

The financing of an energy project is a separate contract from the actual energy services agreement (ESA). Unlike other Energy Services Companies, **Schneider Electric does not charge our customers or profit from the financing of energy projects.** All financing for our projects comes from independent 3<sup>rd</sup> party lender/investor sources. **Based upon the performance of our past projects and Schneider Electric’s financial strength, many financial institutions remain very interested in providing competitive financial solutions for our projects. The high level of assurance that our projects will perform results in the most attractive financing terms and conditions for our clients.**

### Municipal Leasing

A tax-exempt lease purchase agreement, also known as a municipal lease, is closer to an installment-purchase agreement than a rental agreement. One of the primary benefits of this financing mechanism is that the lessee’s (borrower’s) payment obligation often terminates if the lessee fails to appropriate funds to make lease payments. Because of this provision, neither the lease nor the lease payments are considered debt and payments can typically be made from the energy savings in your operating budget. This treatment provides tax benefits (and thereby a lower interest rate) and does not impact the client’s capital structure. The net result is a scenario less likely to encumber the client’s other available sources of funds (i.e. bonding limits). This is a very common financial structure used by other entities nationwide and has been used by successfully by Schneider Electric in the past.

Program Structure	
Tax Exempt Lease Purchase (TELP)	<ul style="list-style-type: none"> <li>Most common financing vehicle used by ESCO’s</li> <li>2.5 – 4% current interest rate range as example – 15-year repayment term</li> <li>Normally 15year repayment term beginning after construction</li> <li>Flexible repayment schedule- quarterly, monthly, yearly, etc.</li> <li>Repayment subject to annual appropriation</li> <li>Customer owns the equipment as installed and accepted -</li> <li>Lender retains a security interest and files UCC-1 forms</li> <li>Lender included as Loss Payee on Customer’s insurance policies</li> <li>Construction financing- escrow account is set up by the lender – SE invoices approved by customer and payment released by escrow agent on behalf of customer.</li> </ul>

Unlike bond issues, tax-exempt lease purchase financing typically does not require a voter referendum because it is considered an operating, rather than capital expenditure. However, lenders will want to know that the assets being financed are of *essential use*, which will minimize their risk of non-appropriation. Another difference between lease/purchase and bond issues is the financing term. Typically, lease purchases are available for terms up to 15 years, while bond terms can extend much further. Your organization may already be leasing

equipment, especially if your organization has a Master Lease agreement in place with a lending institution.

Performance contracting through lease/purchase provides an effective way to fund efficiency improvements if savings can be easily measured and documented. Savings used to document lease/purchase financing that don't pass Schneider Electric's **real and verifiable** litmus test should be handled cautiously and the risks carefully weighed against the benefits associated.

A popular form of lease purchase structure for use on large projects is Certificates of Participation (COP). Due to cost of issuance, this structure does not always fit into the financial criteria of our clients. During the Investment Grade Audit, OMNIA contract users can review this variation of a lease purchase to determine if it fits into your financial goals. The difference of a COP compared to typical lease financing is the lease is divided by the Lender and sold to multiple investors, as opposed to a standard lease purchase which is typically held by a single investor.

Program Structure	
Certificates of Participation (COP)	<ul style="list-style-type: none"> <li>Form of lease purchase</li> <li>Cost of issuance is higher than lease purchase</li> <li>Generally, 10 to 15 basis points lower than traditional lease purchase</li> <li>Tax exempt interest rates</li> <li>Term can be extended beyond 15 years (15-25)</li> <li>Rated by rating agency, where a lease purchase is generally not</li> </ul>

**Bonds**

Bonds carry a stated interest rate and are typically payable over terms of up to 25 years. Since the payments on bonds are treated as pledged debt, the interest rates associated are typically very low depending on your credit rating. The legal and issuance costs associated with a bond issue are substantial but may be offset by the benefits of lower interest rates on large financings (\$5M+). Often, approval from the constituents being taxed is required to use bonds as a finance mechanism. This can complicate timelines as well as have dramatic effects on your ability for major improvements that may require downtime of critical systems.

**Direct Appropriations**

Historically, cash on hand or direct appropriations have provided an alternative for energy efficiency financing for most entities. Funding these programs internally allows clients to retain all the savings generated by the improvements implemented, immediately realize operating expense reductions, and relieve the project of debt service burden. Using cash also allows clients to apply on-hand dollars to reduce annual operating expenses. This approach has been particularly popular in areas of the country where operating budgets are being stretched tighter each year.

For some entities, the high rates of return generated by funding a performance contract with cash are extremely attractive. Many projects, when funded with cash on hand offer returns of 10%+, unheard of in today's economic circumstances.

### Bundled Financing

Agencies can take advantage of the availability of different financing options, choosing those that best fit their needs. Many times, that means using a combination of options to come up with the smartest strategies for reducing energy costs. Carefully matching financing options, such as utility incentives and energy saving performance contracting, with specific situations can make the difference between a promising project stalled because it lacks adequate funding and a successful project resulting in energy and money savings.

In most instances, the financing of a performance contract is a separate contract from that of the actual performance contract. The client enters into a lease/purchase agreement directly with a financing company of their choice. Securing an attractive interest rate and any accompanying services are the sole responsibility of the client. However, in some states, ESCOs are required to act as the lessor and provide project financing. No ESCO is in business to also be a bank. Thus, what occurs is the ESCO obtains the financing under an “assignment at closing” agreement. This means that the repayment stream is “assigned” to the finance company instantly when the contracts are executed.

We are comfortable with this arrangement and have acted in this role in the past when it proved beneficial to the client. It is important, however, that the client know that this service does not produce additional sales margin or fee-based profit for us. Some industry competitors use this bundling of project financing and implementation to gain profit margin by taking a spread in points on the interest rate. This is not the case with Schneider Electric.

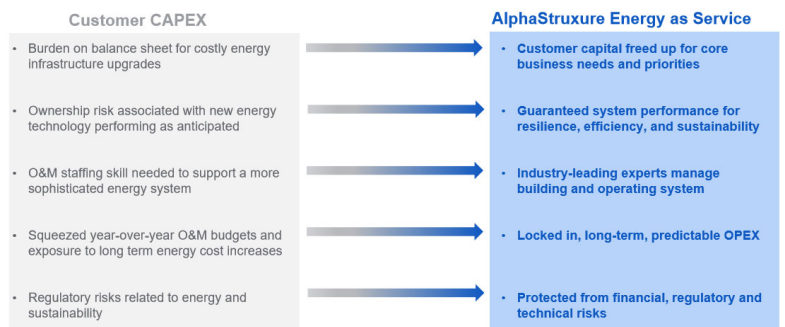

In fact, we prefer to obtain two or three quotes from sources we have experience with who are capable of addressing our client’s needs and have superior track records of client service. We then **let the client choose** which company, rate, and structure they prefer since through an “assignment-at-closing” finance deal the client will end up dealing with the financing company in the end.

### Energy as a Service

OMNIA contract users may also consider an innovative alternative to solving energy challenges through an Energy as a Service (EaaS) approach. EaaS is a long-term agreement that eliminates upfront capital outlay from the host organization, reduces long-term risk, and offers a comprehensive solution to meet host-specified outcomes for sustainability, resilience, reliability, and efficiency.

#### Why Energy as a Service?

Preserve your organization’s capital for core business objectives

An EaaS approach to onsite sustainable and resilient energy empowers organizations to make energy a competitive advantage: preserving capital for core needs and also ensuring energy is an enabler – not a hindrance – of long-term objectives. EaaS eliminates capital outlay as well as the costs associated with the designing, building, operation and maintenance of energy assets. EaaS also removes the complexity and risk of navigating tax incentives and wholesale electricity market optimization. As a result, EaaS delivers long-term, predictable energy savings, increased sustainability, improved reliability, and better resilience

Unlike an Energy Savings Performance Contract where the site pays volumetrically for energy *saved*, an EaaS agreement provides a service to the site who then pays volumetrically for energy *produced*. The onsite energy-producing assets integrated into a digitally-enabled microgrid, are owned, operated and maintained by an expert third-party.

EaaS offers a way for organizations to bring the many benefits of microgrids to their sites while using a familiar, low-risk approach to managing their energy spend.

AlphaStruxure, a Schneider Electric and Carlyle Group joint venture, was created to deliver end-to-end EaaS capabilities, building complex energy systems in a more renewable and sustainable way.

Leveraging deep understanding of the changing energy landscape in North America and the financial pressures commercial and industrial organizations face, AlphaStruxure partners with you to develop a right-sized technical, financial and contractual solution that solves for integrated outcomes important to your organization.

The AlphaStruxure joint venture between Carlyle and Schneider builds on an alliance first established in 2018 to solve the traditional impediments to energy modernization through creative structuring models that deliver distributed generation and advance microgrid capability to end users.

A partnership with AlphaStruxure would provide OMNIA contract users with comprehensive EaaS capabilities, including direct access to strategic capital, unparalleled energy and automation technology while leveraging Carlyle’s project structuring expertise.

We invite the OMNIA contract users team to explore EaaS opportunities for your facility which could address integrated distributed generation technologies beyond Combined Heat and Power to achieve transformational challenges to your energy future.

## Grants, Incentives and State Funding

### Utility Rebate Programs

Schneider Electric actively monitors the various state regulatory agencies that have rulemaking authority for utility rebate programs. We are typically able to use the rebates to reduce the installed cost of the projects, which will improve the overall payback period and allow us to install additional measures within the contract term or possibly reduce the term of the contract. The securing of rebates begins in the development phase where our energy engineers will contact the OMNIA contract user’s specific utility companies. From there, the

typical utility rebate process involves the company performing a pre-site walkthrough, prescriptive/custom form sign off filled out by Schneider Electric and approved by the client, install, and a post site walkthrough to verify the upgrades. From there, the utility company will issue a rebate in the form of a check to OMNIA contract users after installation. Our program manager will guide the OMNIA contract user through this aspect of development to ensure the maximum amount of incentives can be secured.

***3. Competitive Range: It may be necessary to establish a competitive range. Factors from the predetermined criteria will be used to make this determination. Responses not in the competitive range will not receive further award consideration. Region 4 ESC may determine establishing a competitive range is not necessary.***

***4. Past Performance: An Offeror's past performance and actions are relevant in determining whether or not the Offeror is likely to provide quality goods and services; the administrative aspects of performance; the Offeror's history of reasonable and cooperative behavior and commitment to customer satisfaction; and generally, the Offeror's businesslike concern for the interests of the customer may be taken into consideration when evaluating proposals, although not specifically mentioned in the RFP.***

***5. Additional Investigations: Region 4 ESC reserves the right to make such additional investigations as it deems necessary to establish the capability of any Offeror.***

### ACKNOWLEDGMENT AND ACCEPTANCE OF REGION 4 ESC's OPEN RECORDS POLICY

#### OPEN RECORDS POLICY

All proposals, information and documents submitted are subject to the Public Information Act requirements governed by the State of Texas once a Contract(s) is executed. If an Offeror believes its response, or parts of its response, may be exempted from disclosure, the Offeror must specify page-by-page and line-by-line the parts of the response, which it believes, are exempt and include detailed reasons to substantiate the exemption. Price is not confidential and will not be withheld. Any unmarked information will be considered public information and released, if requested under the Public Information Act.

The determination of whether information is confidential and not subject to disclosure is the duty of the Office of Attorney General (OAG). Region 4 ESC must provide the OAG sufficient information to render an opinion and therefore, vague and general claims to confidentiality by the Offeror are not acceptable. Region 4 ESC must comply with the opinions of the OAG. Region 4 ESC assumes no responsibility for asserting legal arguments on behalf of any Offeror. Offeror is advised to consult with their legal counsel concerning disclosure issues resulting from this procurement process and to take precautions to safeguard trade secrets and other proprietary information.

*Signature below certifies complete acceptance of Region 4 ESC's Open Records Policy, except as noted below (additional pages may be attached, if necessary).*

Check one of the following responses to the Acknowledgment and Acceptance of Region 4 ESC's Open Records Policy below:

- We acknowledge Region 4 ESC's Open Records Policy and declare that no information submitted with this proposal, or any part of our proposal, is exempt from disclosure under the Public Information Act.
- We declare the following information to be a trade secret or proprietary and exempt from disclosure under the Public Information Act.

*(Note: Offeror must specify page-by-page and line-by-line the parts of the response, which it believes, are exempt. In addition, Offeror must include detailed reasons to substantiate the exemption(s). Price is not confidential and will not be withheld. All information believed to be a trade secret or proprietary must be listed. It is further understood that failure to identify such information, in strict accordance with the instructions, will result in that information being considered public information and released, if requested under the Public Information Act.)*

### Implementation of House Bill 1295

#### Certificate of Interested Parties (Form 1295):

In 2015, the Texas Legislature adopted House Bill 1295, which added section 2252.908 of the Government Code. The law states that a governmental entity or state agency may not enter into certain contracts with a business entity unless the business entity submits a disclosure of interested parties to the governmental entity or state agency at the time the business entity submits the signed contract to the governmental entity or state agency. The law applies only to a contract of a governmental entity or state agency that either (1) requires an action or vote by the governing body of the entity or agency before the contract may be signed or (2) has a value of at least \$1 million. The disclosure requirement applies to a contract entered into on or after January 1, 2016.

The Texas Ethics Commission was required to adopt rules necessary to implement that law, prescribe the disclosure of interested parties form, and post a copy of the form on the commission's website. The commission adopted the Certificate of Interested Parties form (Form 1295) on October 5, 2015. The commission also adopted new rules (Chapter 46) on November 30, 2015, to implement the law. The commission does not have any additional authority to enforce or interpret House Bill 1295.

#### Filing Process:

Starting on January 1, 2016, the commission made available on its website a new filing application that must be used to file Form 1295. A business entity must use the application to enter the required information on Form 1295 and print a copy of the completed form, which will include a certification of filing that will contain a unique certification number. An authorized agent of the business entity must sign the printed copy of the form. The completed Form 1295 with the certification of filing must be filed with the governmental body or state agency with which the business entity is entering into the contract.

The governmental entity or state agency must notify the commission, using the commission's filing application, of the receipt of the filed Form 1295 with the certification of filing not later than the 30th day after the date the contract binds all parties to the contract. This process is known as acknowledging the certificate. The commission will post the acknowledged Form 1295 to its website within seven business days after receiving notice from the governmental entity or state agency. The posted acknowledged form does not contain the declaration of signature information provided by the business.

A certificate will stay in the pending state until it is acknowledged by the governmental agency. Only acknowledged certificates are posted to the commission's website.

**Electronic Filing Application:** [https://www.ethics.state.tx.us/whatsnew/elf\\_info\\_form1295.htm](https://www.ethics.state.tx.us/whatsnew/elf_info_form1295.htm)

*Appendix C, DOC # 4*

**Texas Government Code 2270 Verification Form**

House Bill 89 (85R Legislative Session), which adds Chapter 2270 to the Texas Government Code, provides that a governmental entity may not enter into a contract with a company without verification that the contracting vendor does not and will not boycott Israel during the term of the contract.

Furthermore, Senate Bill 252 (85R Legislative Session), which amends Chapter 2252 of the Texas Government Code to add Subchapter F, prohibits contracting with a company engaged in business with Iran, Sudan or a foreign terrorist organization identified on a list prepared by the Texas Comptroller.

I, James Mylett, as an authorized representative of

Schneider Electric Buildings Americas, Inc, a contractor engaged by

Insert Name of Company

Region 4 Education Service Center, 7145 West Tidwell Road, Houston, TX 77092, verify by this writing that the above-named company affirms that it (1) does not boycott Israel; and (2) will not boycott Israel during the term of this contract, or any contract with the above-named Texas governmental entity in the future.

Also, our company is not listed on and we do not do business with companies that are on the Texas Comptroller of Public Accounts list of Designated Foreign Terrorists Organizations found at <https://comptroller.texas.gov/purchasing/docs/foreign-terrorist.pdf>.

I further affirm that if our company's position on this issue is reversed and this affirmation is no longer valid, that the above-named Texas governmental entity will be notified in writing within one (1) business day and we understand that our company's failure to affirm and comply with the requirements of Texas Government Code 2270 et seq. shall be grounds for immediate contract termination without penalty to the above-named Texas governmental entity.

I swear and affirm that the above is true and correct.

### FELONY CONVICTION NOTIFICATION

Section 44.034, Texas Education Code, Notification of Criminal History, Subsection (a), states “A person or business entity that enters into a contract with a school district must give advance notice to the district if the person or an owner or operator of the business entity has been convicted of a felony. The notice must include a general description of the conduct resulting in the conviction of a felony.”

Subsection (b) states “A school district may terminate a contract with a person or business entity if the district determines that the person or business entity failed to give notice as required by Subsection (a) or misrepresented the conduct resulting in the conviction. The district must compensate the person or business entity for services performed before the termination of the contract.”

This Notice is Not Required of a Publicly-Held Corporation

#### CRIMINAL HISTORY REVIEW OF CONTRACTOR EMPLOYEES

Offeror shall review §22.0834, Texas Education Code and 19 Texas Administrative Code §§153.1101 and 153.1117 regarding criminal history checks of school contractor employees. The rules define continuing duties related to contracted services, direct contact with students, covered contract employee and other relevant terms within the statute.

Except as otherwise provided herein, Offeror will obtain and certify in writing, before work begins, that the Offeror has received all criminal history record information that relates to an employee, applicant, agent or Subcontractor of the Offeror/Contractor or Subcontractor, if the person has or will have continuing duties related to the contracted services, and the duties are or will be performed on Region 4 ESC's, or Participating Public Agency as applicable to the Texas Education Code, property where students are regularly present or at another location where students are regularly present. Awarded Offer(s) shall assume all expenses associated with the background checks and shall immediately remove any employee or agency who was convicted of, receive probation for, or received deferred adjudication for any felony as outlined below or any misdemeanor involving moral turpitude, from Region 4 ESC's property or other location where students are regularly present.

Offeror/Contractor or sub-contractors may not work on Region 4 ESC's, or Participating Public Agency where the Texas Education Code may be applicable, property where students are present when they have been convicted, received probation, or deferred adjudication for the following felony offenses:

1. Any offense against a person who was, at the time the offense occurred, under 18 years of age or enrolled at a public school;
2. Any sex offense;
3. Any crimes against persons involving:
  - a. Controlled substances; or
  - b. Property; or
4. Any other offense Region 4 ESC, or Participating Public Agency where the Texas Education Code may be applicable, believes might compromise the safety of students, employees or property.

**APPENDIX A**

**DRAFT CONTRACT**

This Contract ("Contract") is made as of \_\_\_\_\_, 2022 by and between Schneider Electric Buildings Americas, Inc ("Contractor") and Region 4 Education Service Center ("Region 4 ESC") for the purchase of Facility Technology Integration and Security System Services ("the products and services").

**RECITALS**

WHEREAS, Region 4 ESC issued Request for Proposals Number R 22-07 for Facility Technology Integration and Security System Services ("RFP"), to which Contractor provided a response ("Proposal"); and

WHEREAS, Region 4 ESC selected Contractor's Proposal and wishes to engage Contractor in providing the services/materials described in the RFP and Proposal;

WHEREAS, both parties agree and understand the following pages will constitute the Contract between the Contractor and Region 4 ESC, having its principal place of business at 7145 West Tidwell Road, Houston, TX 77092.

WHEREAS, Contractor included, in writing, any required exceptions or deviations from these terms, conditions, and specifications; and it is further understood that, if agreed to by Region 4 ESC, said exceptions or deviations are incorporated into the Contract.

WHEREAS, this Contract consists of the provisions set forth below, including provisions of all attachments referenced herein. In the event of a conflict between the provisions set forth below and those contained in any attachment, the provisions set forth below shall control.

WHEREAS, the Contract will provide that any state and local governmental entities, public and private primary, secondary and higher education entities, non-profit entities, and agencies for the public benefit ("Public Agencies") may purchase products and services at prices indicated in the Contract upon the Public Agency's registration with OMNIA Partners.

1) Term of agreement. The term of the Contract is for a period of three (3) years unless terminated, canceled or extended as otherwise provided herein. Region 4 ESC shall have the right to renew the Contract for two (2) additional one-year periods or portions thereof. Region 4 ESC shall review the Contract prior to the renewal date and notify the Contractor of Region 4 ESC's intent renew the Contract. Contractor may elect not to renew by providing three hundred sixty-five days' (365) notice to Region 4 ESC. Notwithstanding the expiration of the initial term or any subsequent term or all renewal options, Region 4 ESC and Contractor may mutually agree to extend the term of this Agreement. Contractor acknowledges and understands Region 4 ESC is under no obligation whatsoever to extend the term of this Agreement.

The anticipated full term of the contract is five (5) years. The Contractor shall have the right to enter local "service" agreements with Participating Public Agencies accessing the contract through OMNIA Partners, so long as the effective date of such agreement is prior to the expiration of the Contract. All local agreements may have a full potential term (any combination of initial and renewal periods) not to exceed five years. Any tasks or project

agreements executed against this Master Agreement during the effective term may survive beyond the expiration of the Master Agreement as established and agreed to by both parties.

- 2) Scope: Contractor shall perform all duties, responsibilities and obligations, set forth in this agreement, and described in the RFP, incorporated herein by reference as though fully set forth herein.
- 3) Form of Contract. The form of Contract shall be the RFP, the Offeror's proposal and Best and Final Offer(s).
- 4) Order of Precedence. In the event of a conflict in the provisions of the Contract as accepted by Region 4 ESC, the following order of precedence shall prevail:
  - i. This Contract
  - ii. Offeror's Best and Final Offer
  - iii. Offeror's proposal
  - iv. RFP and any addenda
- 5) Commencement of Work. The Contractor is cautioned not to commence any billable work or provide any material or service under this Contract until Contractor receives a purchase order for such work or is otherwise directed to do so in writing by Region 4 ESC.
- 6) Entire Agreement (Parol evidence). The Contract, as specified above, represents the final written expression of agreement. All agreements are contained herein and no other agreements or representations that materially alter it are acceptable.
- 7) Assignment of Contract. No assignment of Contract may be made without the prior written approval of Region 4 ESC. Contractor is required to notify Region 4 ESC when any material change in operations is made (i.e. bankruptcy, change of ownership, merger, etc.).
- 8) Novation. If Contractor sells or transfers all assets or the entire portion of the assets used to perform this Contract, a successor in interest must guarantee to perform all obligations under this Contract. Region 4 ESC reserves the right to accept or reject any new party. A change of name agreement will not change the contractual obligations of Contractor.
- 9) Contract Alterations. No alterations to the terms of this Contract shall be valid or binding unless authorized and signed by Region 4 ESC.
- 10) Adding Authorized Distributors/Dealers. Contractor is prohibited from authorizing additional distributors or dealers, other than those identified at the time of submitting their proposal, to sell under the Contract without notification and prior written approval from Region 4 ESC. Contractor must notify Region 4 ESC each time it wishes to add an authorized distributor or dealer. Purchase orders and payment can only be made to the Contractor unless otherwise approved by Region 4 ESC. Pricing provided to members by added distributors or dealers must also be less than or equal to the Contractor's pricing.
- 11) TERMINATION OF CONTRACT
  - a) Cancellation for Non-Performance or Contractor Deficiency. Region 4 ESC may terminate the Contract if purchase volume is determined to be low volume in any 12-month period. Region 4 ESC reserves the right to cancel the whole or any part of this Contract due to failure by Contractor to carry out any obligation, term or condition of the contract. Region

4 ESC may issue a written deficiency notice to Contractor for acting or failing to act in any of the following:

- i. Providing material that does not meet the specifications of the Contract;
- ii. Providing work or material was not awarded under the Contract;
- iii. Failing to adequately perform the services set forth in the scope of work and specifications;
- iv. Failing to complete required work or furnish required materials within a reasonable amount of time;
- v. Failing to make progress in performance of the Contract or giving Region 4 ESC reason to believe Contractor will not or cannot perform the requirements of the Contract; or
- vi. Performing work or providing services under the Contract prior to receiving an authorized purchase order.

Upon receipt of a written deficiency notice, Contractor shall have ten (10) days to provide a satisfactory response to Region 4 ESC. Failure to adequately address all issues of concern may result in Contract cancellation. Upon cancellation under this paragraph, all goods, materials, work, documents, data and reports prepared by Contractor under the Contract shall immediately become the property of Region 4 ESC.

- b) Termination for Cause. If, for any reason, Contractor fails to fulfill its obligation in a timely manner, or Contractor violates any of the covenants, agreements, or stipulations of this Contract Region 4 ESC reserves the right to terminate the Contract immediately and pursue all other applicable remedies afforded by law. Such termination shall be effective by delivery of notice, to the Contractor, specifying the effective date of termination. In such event, all documents, data, studies, surveys, drawings, maps, models and reports prepared by Contractor will become the property of the Region 4 ESC. If such event does occur, Contractor will be entitled to receive just and equitable compensation for the satisfactory work completed on such documents.
- c) Delivery/Service Failures. Failure to deliver goods or services within the time specified, or within a reasonable time period as interpreted by the purchasing agent or failure to make replacements or corrections of rejected articles/services when so requested shall constitute grounds for the Contract to be terminated. In the event Region 4 ESC must purchase in an open market, Contractor agrees to reimburse Region 4 ESC, within a reasonable time period, for all expenses incurred.
- d) Force Majeure. If by reason of Force Majeure, either party hereto shall be rendered unable wholly or in part to carry out its obligations under this Agreement then such party shall give notice and full particulars of Force Majeure in writing to the other party within a reasonable time after occurrence of the event or cause relied upon, and the obligation of the party giving such notice, so far as it is affected by such Force Majeure, shall be suspended during the continuance of the inability then claimed, except as hereinafter provided, but for no longer period, and such party shall endeavor to remove or overcome such inability with all reasonable dispatch.

The term Force Majeure as employed herein, shall mean acts of God, strikes, lockouts, or other industrial disturbances, act of public enemy, orders of any kind of government of the United States or the State of Texas or any civil or military authority; insurrections; riots; epidemics; landslides; lighting; earthquake; fires; hurricanes; storms; floods; washouts; droughts; arrests; restraint of government and people; civil disturbances; explosions, breakage or accidents to machinery, pipelines or canals, or other causes not reasonably within the control of the party claiming such inability. It is understood and agreed that the settlement of strikes and lockouts shall be entirely within the discretion of the party having the difficulty, and that the above requirement that any Force Majeure shall be remedied with all reasonable dispatch shall not require the settlement of strikes and lockouts by

acceding to the demands of the opposing party or parties when such settlement is unfavorable in the judgment of the party having the difficulty.

- e) Standard Cancellation. Region 4 ESC may cancel this Contract in whole or in part by providing written notice. The cancellation will take effect 30 business days after the other party receives the notice of cancellation. After the 30th business day all work will cease following completion of final purchase order.
- 12) Licenses. Contractor shall maintain in current status all federal, state and local licenses, bonds and permits required for the operation of the business conducted by Contractor. Contractor shall remain fully informed of and in compliance with all ordinances and regulations pertaining to the lawful provision of services under the Contract. Region 4 ESC reserves the right to stop work and/or cancel the Contract if Contractor's license(s) expire, lapse, are suspended or terminated.
- 13) Survival Clause. All applicable software license agreements, warranties or service agreements that are entered into between Contractor and Region 4 ESC under the terms and conditions of the Contract shall survive the expiration or termination of the Contract. All Purchase Orders issued and accepted by Contractor shall survive expiration or termination of the Contract.
- 14) Delivery. Conforming product shall be shipped within 7 days of receipt of Purchase Order. If delivery is not or cannot be made within this time period, the Contractor must receive authorization for the delayed delivery. The order may be canceled if the estimated shipping time is not acceptable. All deliveries shall be freight prepaid, F.O.B. Destination and shall be included in all pricing offered unless otherwise clearly stated in writing.
- 15) Inspection & Acceptance. If defective or incorrect material is delivered, Region 4 ESC may make the determination to return the material to the Contractor at no cost to Region 4 ESC. The Contractor agrees to pay all shipping costs for the return shipment. Contractor shall be responsible for arranging the return of the defective or incorrect material.
- 16) Payments. Payment shall be made after satisfactory performance, in accordance with all provisions thereof, and upon receipt of a properly completed invoice.
- 17) Price Adjustments. Should it become necessary or proper during the term of this Contract to make any change in design or any alterations that will increase price, Region 4 ESC must be notified immediately. Price increases must be approved by Region 4 ESC and no payment for additional materials or services, beyond the amount stipulated in the Contract shall be paid without prior approval. All price increases must be supported by manufacturer documentation, or a formal cost justification letter. Contractor must honor previous prices for thirty (30) days after approval and written notification from Region 4 ESC. It is the Contractor's responsibility to keep all pricing up to date and on file with Region 4 ESC. All price changes must be provided to Region 4 ESC, using the same format as was provided and accepted in the Contractor's proposal.

Price reductions may be offered at any time during Contract. Special, time-limited reductions are permissible under the following conditions: 1) reduction is available to all users equally; 2) reduction is for a specific period, normally not less than thirty (30) days; and 3) original price is not exceeded after the time-limit. Contractor shall offer Region 4 ESC any published price reduction during the Contract term.

- 18) Audit Rights. Contractor shall, at its sole expense, maintain appropriate due diligence of all purchases made by Region 4 ESC and any entity that utilizes this Contract. Region 4 ESC reserves the right to audit the accounting for a period of three (3) years from the time such purchases are made. This audit right shall survive termination of this Agreement for a period of one (1) year from the effective date of termination. Region 4 ESC shall have the authority to conduct random audits of Contractor's pricing at Region 4 ESC's sole cost and expense. Notwithstanding the foregoing, in the event that Region 4 ESC is made aware of any pricing being offered that is materially inconsistent with the pricing under this agreement, Region 4 ESC shall have the ability to conduct an extensive audit of Contractor's pricing at Contractor's sole cost and expense. Region 4 ESC may conduct the audit internally or may engage a third-party auditing firm. In the event of an audit, the requested materials shall be provided in the format and at the location designated by Region 4 ESC.
- 19) Discontinued Products. If a product or model is discontinued by the manufacturer, Contractor may substitute a new product or model if the replacement product meets or exceeds the specifications and performance of the discontinued model and if the discount is the same or greater than the discontinued model.
- 20) New Products/Services. New products and/or services that meet the scope of work may be added to the Contract. Pricing shall be equivalent to the percentage discount for other products. Contractor may replace or add product lines if the line is replacing or supplementing products, is equal or superior to the original products, is discounted similarly or greater than the original discount, and if the products meet the requirements of the Contract. No products and/or services may be added to avoid competitive procurement requirements. Region 4 ESC may require additions to be submitted with documentation from Members demonstrating an interest in, or a potential requirement for, the new product or service. Region 4 ESC may reject any additions without cause.
- 21) Options. Optional equipment for products under Contract may be added to the Contract at the time they become available under the following conditions: 1) the option is priced at a discount similar to other options; 2) the option is an enhancement to the unit that improves performance or reliability.
- 22) Warranty Conditions. All supplies, equipment and services shall include manufacturer's minimum standard warranty and one (1) year labor warranty unless otherwise agreed to in writing.
- 23) Site Cleanup. Contractor shall clean up and remove all debris and rubbish resulting from their work as required or directed. Upon completion of the work, the premises shall be left in good repair and an orderly, neat, clean, safe and unobstructed condition.
- 24) Site Preparation. Contractor shall not begin a project for which the site has not been prepared, unless Contractor does the preparation work at no cost, or until Region 4 ESC includes the cost of site preparation in a purchase order. Site preparation includes, but is not limited to: moving furniture, installing wiring for networks or power, and similar pre-installation requirements.
- 25) Registered Sex Offender Restrictions. For work to be performed at schools, Contractor agrees no employee or employee of a subcontractor who has been adjudicated to be a registered sex offender will perform work at any time when students are or are reasonably expected to be present. Contractor agrees a violation of this condition shall be considered a

material breach and may result in the cancellation of the purchase order at Region 4 ESC's discretion. Contractor must identify any additional costs associated with compliance of this term. If no costs are specified, compliance with this term will be provided at no additional charge.

- 26) Safety measures. Contractor shall take all reasonable precautions for the safety of employees on the worksite and shall erect and properly maintain all necessary safeguards for protection of workers and the public. Contractor shall post warning signs against all hazards created by its operation and work in progress. Proper precautions shall be taken pursuant to state law and standard practices to protect workers, general public and existing structures from injury or damage.
- 27) Smoking. Persons working under the Contract shall adhere to local smoking policies. Smoking will only be permitted in posted areas or off premises.
- 28) Stored materials. Upon prior written agreement between the Contractor and Region 4 ESC, payment may be made for materials not incorporated in the work but delivered and suitably stored at the site or some other location, for installation at a later date. An inventory of the stored materials must be provided to Region 4 ESC prior to payment. Such materials must be stored and protected in a secure location and be insured for their full value by the Contractor against loss and damage. Contractor agrees to provide proof of coverage and additionally insured upon request. Additionally, if stored offsite, the materials must also be clearly identified as property of Region 4 ESC and be separated from other materials. Region 4 ESC must be allowed reasonable opportunity to inspect and take inventory of stored materials, on or offsite, as necessary. Until final acceptance by Region 4 ESC, it shall be the Contractor's responsibility to protect all materials and equipment. Contractor warrants and guarantees that title for all work, materials and equipment shall pass to Region 4 ESC upon final acceptance.
- 29) Funding Out Clause. A Contract for the acquisition, including lease, of real or personal property is a commitment of Region 4 ESC's current revenue only. Region 4 ESC retains the right to terminate the Contract at the expiration of each budget period during the term of the Contract and is conditioned on a best effort attempt by Region 4 ESC to obtain appropriate funds for payment of the contract.
- 30) Indemnity. Contractor shall protect, indemnify, and hold harmless both Region 4 ESC and its administrators, employees and agents against all claims, damages, losses and expenses arising out of or resulting from the actions of the Contractor, Contractor employees or subcontractors in the preparation of the solicitation and the later execution of the Contract. Any litigation involving either Region 4 ESC, its administrators and employees and agents will be in Harris County, Texas.
- 31) Marketing. Contractor agrees to allow Region 4 ESC to use their name and logo within website, marketing materials and advertisement. Any use of Region 4 ESC name and logo or any form of publicity, inclusive of press releases, regarding this Contract by Contractor must have prior approval from Region 4 ESC.
- 32) Certificates of Insurance. Certificates of insurance shall be delivered to the Region 4 ESC prior to commencement of work. The Contractor shall give Region 4 ESC a minimum of ten (10) days' notice prior to any modifications or cancellation of policies. The Contractor shall require all subcontractors performing any work to maintain coverage as specified.

33) Legal Obligations. It is Contractor's responsibility to be aware of and comply with all local, state, and federal laws governing the sale of products/services and shall comply with all laws while fulfilling the Contract. Applicable laws and regulation must be followed even if not specifically identified herein.

**OFFER AND CONTRACT SIGNATURE FORM**

The undersigned hereby offers and, if awarded, agrees to furnish goods and/or services in strict compliance with the terms, specifications and conditions at the prices proposed within response unless noted in writing.

**FEDERAL CERTIFICATIONS**  
**ADDENDUM FOR AGREEMENT FUNDED BY U.S. FEDERAL GRANT**

---

**TO WHOM IT MAY CONCERN:**

Participating Agencies may elect to use federal funds to purchase under the Master Agreement. This form should be completed and returned.

---

**DEFINITIONS**

---

**Contract** means a legal instrument by which a non-Federal entity purchases property or services needed to carry out the project or program under a Federal award. The term as used in this part does not include a legal instrument, even if the non-Federal entity considers it a contract, when the substance of the transaction meets the definition of a Federal award or subaward

**Contractor** means an entity that receives a contract as defined in Contract.

**Cooperative agreement** means a legal instrument of financial assistance between a Federal awarding agency or pass-through entity and a non-Federal entity that, consistent with 31 U.S.C. 6302-6305:

- (a) Is used to enter into a relationship the principal purpose of which is to transfer anything of value from the Federal awarding agency or pass-through entity to the non-Federal entity to carry out a public purpose authorized by a law of the United States (see 31 U.S.C. 6101(3)); and not to acquire property or services for the Federal government or pass-through entity's direct benefit or use;
- (b) Is distinguished from a grant in that it provides for substantial involvement between the Federal awarding agency or pass-through entity and the non-Federal entity in carrying out the activity contemplated by the Federal award.
- (c) The term does not include:
  - (1) A cooperative research and development agreement as defined in 15 U.S.C. 3710a; or
  - (2) An agreement that provides only:
    - (i) Direct United States Government cash assistance to an individual;
    - (ii) A subsidy;
    - (iii) A loan;
    - (iv) A loan guarantee; or
    - (v) Insurance.

**Federal awarding agency** means the Federal agency that provides a Federal award directly to a non-Federal entity

**Federal award** has the meaning, depending on the context, in either paragraph (a) or (b) of this section:

- (a)(1) The Federal financial assistance that a non-Federal entity receives directly from a Federal awarding agency or indirectly from a pass-through entity, as described in § 200.101 Applicability; or
- (2) The cost-reimbursement contract under the Federal Acquisition Regulations that a non-Federal entity receives directly from a Federal awarding agency or indirectly from a pass-through entity, as described in § 200.101 Applicability.
- (b) The instrument setting forth the terms and conditions. The instrument is the grant agreement, cooperative agreement, other agreement for assistance covered in paragraph (b) of § 200.40 Federal financial assistance, or the cost-reimbursement contract awarded under the Federal Acquisition Regulations.
- (c) Federal award does not include other contracts that a Federal agency uses to buy goods or services from a contractor or a contract to operate Federal government owned, contractor operated facilities (GOCOs).
- (d) See also definitions of Federal financial assistance, grant agreement, and cooperative agreement.

**Non-Federal entity** means a state, local government, Indian tribe, institution of higher education (IHE), or nonprofit organization that carries out a Federal award as a recipient or subrecipient.

or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of congress, or an employee of a Member of Congress in connection with the awarding of a Federal contract, the making of a Federal grant, the making of a Federal loan, the entering into a cooperative agreement, and the extension, continuation, renewal, amendment, or modification of a Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of congress, or an employee of a Member of Congress in connection with this Federal grant or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying", in accordance with its instructions.

(3) The undersigned shall require that the language of this certification be included in the award documents for all covered sub-awards exceeding \$100,000 in Federal funds at all appropriate tiers and that all subrecipients shall certify and disclose accordingly.

---

**RECORD RETENTION REQUIREMENTS FOR CONTRACTS INVOLVING FEDERAL FUNDS**

---

When federal funds are expended by Participating Agency for any contract resulting from this procurement process, offeror certifies that it will comply with the record retention requirements detailed in 2 CFR § 200.333. The offeror further certifies that offeror will retain all records as required by 2 CFR § 200.333 for a period of three years after grantees or subgrantees submit final expenditure reports or quarterly or annual financial reports, as applicable, and all other pending matters are closed.

---

**CERTIFICATION OF COMPLIANCE WITH THE ENERGY POLICY AND CONSERVATION ACT**

---

When Participating Agency expends federal funds for any contract resulting from this procurement process, offeror certifies that it will comply with the mandatory standards and policies relating to energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act (42 U.S.C. 6321 et seq.; 49 C.F.R. Part 18).

Does offeror agree? YES <sup>DS</sup>  
JM Initials of Authorized Representative of offeror

---

**CERTIFICATION OF COMPLIANCE WITH BUY AMERICA PROVISIONS**

---

To the extent purchases are made with Federal Highway Administration, Federal Railroad Administration, or Federal Transit Administration funds, offeror certifies that its products comply with all applicable provisions of the Buy America Act and agrees to provide such certification or applicable waiver with respect to specific products to any Participating Agency upon request. Purchases made in accordance with the Buy America Act must still follow the applicable procurement rules calling for free and open competition.

Does offeror agree? YES <sup>DS</sup>  
JM Initials of Authorized Representative of offeror

---

**CERTIFICATION OF ACCESS TO RECORDS – 2 C.F.R. § 200.336**

---

Offeror agrees that the Inspector General of the Agency or any of their duly authorized representatives shall have access to any documents, papers, or other records of offeror that are pertinent to offeror's discharge of its obligations under the Contract for the purpose of making audits, examinations, excerpts, and transcriptions. The right also includes timely and reasonable access to offeror's personnel for the purpose of interview and discussion relating to such documents.

Does offeror agree? YES <sup>DS</sup>  
JM Initials of Authorized Representative of offeror

---

**CERTIFICATION OF APPLICABILITY TO SUBCONTRACTORS**

---

Offeror agrees that all contracts it awards pursuant to the Contract shall be bound by the foregoing terms and conditions.

Does offeror agree? YES <sup>DS</sup>

## FEMA SPECIAL CONDITIONS

Awarded Supplier(s) may need to respond to events and losses where products and services are needed for the immediate and initial response to emergency situations such as, but not limited to, water damage, fire damage, vandalism cleanup, biohazard cleanup, sewage decontamination, deodorization, and/or wind damage during a disaster or emergency situation. By submitting a proposal, the Supplier is accepted these FEMA Special Conditions required by the Federal Emergency Management Agency (FEMA).

“Contract” in the below pages under FEMA SPECIAL CONDITIONS is also referred to and defined as the “Master Agreement”.

“Contractor” in the below pages under FEMA SPECIAL CONDITIONS is also referred to and defined as “Supplier” or “Awarded Supplier”.

### **Conflicts of Interest**

No employee, officer, or agent may participate in the selection, award, or administration of a contract supported by a FEMA award if he or she has a real or apparent conflict of interest. Such a conflict would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of these parties, has a financial or other interest in or a tangible personal benefit from a firm considered for award. 2 C.F.R. § 200.318(c)(1); See also Standard Form 424D, ¶ 7; Standard Form 424B, ¶ 3. i. FEMA considers a “financial interest” to be the potential for gain or loss to the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of these parties as a result of the particular procurement. The prohibited financial interest may arise from ownership of certain financial instruments or investments such as stock, bonds, or real estate, or from a salary, indebtedness, job offer, or similar interest that might be affected by the particular procurement. ii. FEMA considers an “apparent” conflict of interest to exist where an actual conflict does not exist, but where a reasonable person with knowledge of the relevant facts would question the impartiality of the employee, officer, or agent participating in the procurement. c. Gifts. The officers, employees, and agents of the Participating Public Agency nor the Participating Public Agency (“NFE”) must neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or parties to subcontracts. However, NFE’s may set standards for situations in which the financial interest is de minimus, not substantial, or the gift is an unsolicited item of nominal value. 2 C.F.R. § 200.318(c)(1). d. Violations. The NFE’s written standards of conduct must provide for disciplinary actions to be applied for violations of such standards by officers, employees, or agents of the NFE. 2 C.F.R. § 200.318(c)(1). For example, the penalty for a NFE’s employee may be dismissal, and the penalty for a contractor might be the termination of the contract.

### **Contractor Integrity**

A contractor must have a satisfactory record of integrity and business ethics. Contractors that are debarred or suspended, as described in and subject to the debarment and suspension regulations implementing Executive Order 12549, *Debarment and Suspension* (1986) and Executive Order 12689, *Debarment and Suspension* (1989) at 2 C.F.R. Part 180 and the Department of Homeland Security’s regulations at 2 C.F.R. Part 3000 (Non-procurement Debarment and Suspension), must be rejected and cannot receive contract awards at any level.

### **Public Policy**

A contractor must comply with the public policies of the Federal Government and state, local government, or tribal government. This includes, among other things, past and current compliance with the:

- a. Equal opportunity and nondiscrimination laws
- b. Five affirmative steps described at 2 C.F.R. § 200.321(b) for all subcontracting under contracts supported by FEMA financial assistance; and FEMA Procurement Guidance June 21, 2016 Page IV- 7
- c. Applicable prevailing wage laws, regulations, and executive orders

### **Affirmative Steps**

Version August 12, 2021

For any subcontracting opportunities, Contractor must take the following Affirmative steps:

1. Placing qualified small and minority businesses and women's business enterprises on solicitation lists;
2. Assuring that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources;
3. Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women's business enterprises;
4. Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, and women's business enterprises; and
5. Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.

### **Prevailing Wage Requirements**

When applicable, the awarded Contractor (s) and any and all subcontractor(s) agree to comply with all laws regarding prevailing wage rates including the Davis-Bacon Act, applicable to this solicitation and/or Participating Public Agencies. The Participating Public Agency shall notify the Contractor of the applicable pricing/prevailing wage rates and must apply any local wage rates requested. The Contractor and any subcontractor(s) shall comply with the prevailing wage rates set by the Participating Public Agency.

### **Federal Requirements**

If products and services are issued in response to an emergency or disaster recovery the items below, located in this FEMA Special Conditions section of the Federal Funds Certifications, are activated and required when federal funding may be utilized.

## **2 C.F.R. § 200.326 and 2 C.F.R. Part 200, Appendix II, Required Contract Clauses**

### **1. REMEDIES**

- a. Standard. Contracts for more than the simplified acquisition threshold, currently set at \$250,000, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate. See 2 C.F.R. Part 200, Appendix II(A).
- b. Applicability. This requirement applies to all FEMA grant and cooperative agreement programs.

### **2. TERMINATION FOR CAUSE AND CONVENIENCE**

- a. Standard. All contracts in excess of \$10,000 must address termination for cause and for convenience by the non-Federal entity, including the manner by which it will be effected and the basis for settlement. See 2 C.F.R. Part 200, Appendix II(B).
- b. Applicability. This requirement applies to all FEMA grant and cooperative agreement programs.

### **3. EQUAL EMPLOYMENT OPPORTUNITY**

When applicable:

- a. Standard. Except as otherwise provided under 41 C.F.R. Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 C.F.R.

§ 60-1.3 must include the equal opportunity clause provided under 41 C.F.R. § 60- 1.4(b), in accordance with Executive Order 11246, *Equal Employment Opportunity* (30 Fed. Reg. 12319, 12935, 3 C.F.R. Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, *Amending Executive Order 11246 Relating to Equal Employment Opportunity*, and implementing regulations at 41 C.F.R. Part 60 (Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor). See 2 C.F.R. Part 200, Appendix II(C).

**b. Key Definitions.**

- i. Federally Assisted Construction Contract. The regulation at 41 C.F.R. § 60-1.3 defines a “federally assisted construction contract” as any agreement or modification thereof between any applicant and a person for construction work which is paid for in whole or in part with funds obtained from the Government or borrowed on the credit of the Government pursuant to any Federal program involving a grant, contract, loan, insurance, or guarantee, or undertaken pursuant to any Federal program involving such grant, contract, loan, insurance, or guarantee, or any application or modification thereof approved by the Government for a grant, contract, loan, insurance, or guarantee under which the applicant itself participates in the construction work.
- ii. Construction Work. The regulation at 41 C.F.R. § 60-1.3 defines “construction work” as the construction, rehabilitation, alteration, conversion, extension, demolition or repair of buildings, highways, or other changes or improvements to real property, including facilities providing utility services. The term also includes the supervision, inspection, and other onsite functions incidental to the actual construction.

**c. Applicability.** This requirement applies to all FEMA grant and cooperative agreement programs.

**d. Required Language.** The regulation at 41 C.F.R. Part 60-1.4(b) requires the insertion of the following contract clause.

During the performance of this contract, the contractor agrees as follows:

**(1)** The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following:

Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

**(2)** The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.

**(3)** The contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the contractor's legal duty to furnish information.

**(4)** The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

**(5)** The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

**(6)** The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

**(7)** In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

**(8)** The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (8) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance:

Provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

The applicant further agrees that it will be bound by the above equal opportunity clause with respect to its own employment practices when it participates in federally assisted construction work: *Provided*, That if the applicant so participating is a State or local government, the above equal opportunity clause is not applicable to any agency, instrumentality or subdivision of such government which does not participate in work on or under the contract.

The applicant agrees that it will assist and cooperate actively with the administering agency and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the equal opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that it will furnish the administering agency and the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the administering agency in the discharge of the agency's primary responsibility for securing compliance.

The applicant further agrees that it will refrain from entering into any contract or contract modification subject to Executive Order 11246 of September 24, 1965, with a contractor debarred from, or who has not demonstrated eligibility for, Government contracts and federally assisted construction contracts pursuant to the Executive Order and will carry out such sanctions and penalties for violation of the equal opportunity clause as may be imposed upon contractors and subcontractors by the administering agency or the Secretary of Labor pursuant to Part II, Subpart D of the Executive Order. In addition, the applicant agrees that if it fails or refuses to comply with these undertakings, the administering agency may take any or all of the following actions: Cancel, terminate, or suspend in whole or in part this grant (contract, loan, insurance, guarantee); refrain from extending any further assistance to the applicant under the program with respect to which the failure or refund occurred until satisfactory assurance of future compliance has been received from such applicant; and refer the case to the Department of Justice for appropriate legal proceedings.

#### 4. DAVIS-BACON ACT

- a. Standard. All prime construction contracts in excess of \$2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. §§ 3141-3144 and 3146-3148) as supplemented by Department of Labor regulations at 29 C.F.R. Part 5 (Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction). See 2 C.F.R. Part 200, Appendix II(D). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week.
- b. Applicability. The Davis-Bacon Act applies to the Emergency Management Preparedness Grant Program, Homeland Security Grant Program, Nonprofit Security Grant Program, Tribal Homeland Security Grant Program, Port Security Grant Program, and Transit Security Grant Program.
- c. Requirements. If applicable, the non-federal entity must do the following:
  - i. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.
  - ii. Additionally, pursuant 2 C.F.R. Part 200, Appendix II(D), contracts subject to the Davis-Bacon Act, must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. § 3145), as supplemented by Department of Labor regulations at 29 C.F.R. Part 3 (Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States). The Copeland Anti-Kickback Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person

employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to FEMA.

- iii. Include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction").

Suggested Language. The following provides a sample contract clause:

Compliance with the Davis-Bacon Act.

- a. All transactions regarding this contract shall be done in compliance with the Davis-Bacon Act (40 U.S.C. 3141- 3144, and 3146-3148) and the requirements of 29 C.F.R. pt. 5 as may be applicable. The contractor shall comply with 40 U.S.C. 3141-3144, and 3146-3148 and the requirements of 29 C.F.R. pt. 5 as applicable.
- b. Contractors are required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor.
- c. Additionally, contractors are required to pay wages not less than once a week.

**5. COPELAND ANTI-KICKBACK ACT**

- a. Standard. Recipient and subrecipient contracts must include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States").
- b. Applicability. This requirement applies to all contracts for construction or repair work above \$2,000 in situations where the Davis-Bacon Act also applies. It DOES NOT apply to the FEMA Public Assistance Program.
- c. Requirements. If applicable, the non-federal entity must include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. § 3145), as supplemented by Department of Labor regulations at 29 C.F.R. Part 3 (Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States). Each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to FEMA. Additionally, in accordance with the regulation, each contractor and subcontractor must furnish each week a statement with respect to the wages paid each of its employees engaged in work covered by the Copeland Anti-Kickback Act and the Davis Bacon Act during the preceding weekly payroll period. The report shall be delivered by the contractor or subcontractor, within seven days after the regular payment date of the payroll period, to a representative of a Federal or State agency in charge at the site of the building or work.

Sample Language. The following provides a sample contract clause:

Compliance with the Copeland "Anti-Kickback" Act.

- a. Contractor. The contractor shall comply with 18 U.S.C. §874, 40 U.S.C. § 3145, and the requirements of 29 C.F.R. pt. 3 as may be applicable, which are incorporated by reference into this contract.
- b. Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clause above and such other clauses as FEMA may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all of these contract clauses.
- c. Breach. A breach of the contract clauses above may be grounds for termination of the contract, and for debarment as a contractor and subcontractor as provided in 29 C.F.R. §5.12."

**6. CONTRACT WORK HOURS AND SAFETY STANDARDS ACT**

- a. Standard. Where applicable (see 40 U.S.C. §§ 3701-3708), all contracts awarded by the non-Federal entity in excess of \$100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. §§ 3702 and 3704, as supplemented by Department of Labor regulations at 29 C.F.R. Part 5. See 2 C.F.R. Part 200, Appendix II(E). Under 40 U.S.C. § 3702, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. Further, no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous, or dangerous.
- b. Applicability. This requirement applies to all FEMA contracts awarded by the non- federal entity in excess of \$100,000 under grant and cooperative agreement programs that involve the employment of mechanics or laborers. It is applicable to construction work. These requirements do not apply to the purchase of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.
- c. Suggested Language. The regulation at 29 C.F.R. § 5.5(b) provides contract clause language concerning compliance with the Contract Work Hours and Safety Standards Act. FEMA suggests including the following contract clause:

Compliance with the Contract Work Hours and Safety Standards Act.

(1) *Overtime requirements.* No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in suchworkweek.

(2) *Violation; liability for unpaid wages; liquidated damages.* In the event of any violation

of the clause set forth in paragraph (b)(1) of this section the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (b)(1) of this section, in the sum of \$27 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (b)(1) of this section.

(3) *Withholding for unpaid wages and liquidated damages.* The Federal agency or loan/grant recipient shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (b)(2) of this section.

(4) *Subcontracts.* The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (b)(1) through (4) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (b)(1) through (4) of this section.

## 7. RIGHTS TO INVENTIONS MADE UNDER A CONTRACT OR AGREEMENT

- a. Standard. If the FEMA award meets the definition of “funding agreement” under 37C.F.R. § 401.2(a) and the non-Federal entity wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that “funding agreement,” the non-Federal entity must comply with the requirements of 37 C.F.R. Part 401 (Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements), and any implementing regulations issued by FEMA. See 2 C.F.R. Part 200, Appendix II(F).
- b. Applicability. This requirement applies to “*funding agreements*,” but it DOES NOT apply to the Public Assistance, Hazard Mitigation Grant Program, Fire Management Assistance Grant Program, Crisis Counseling Assistance and Training Grant Program, Disaster Case Management Grant Program, and Federal Assistance to Individuals and Households – Other Needs Assistance Grant Program, as FEMA awards under these programs do not meet the definition of “funding agreement.”
- c. Funding Agreements Definition. The regulation at 37 C.F.R. § 401.2(a) defines “funding agreement” as any contract, grant, or cooperative agreement entered into between any Federal agency, other than the Tennessee Valley Authority, and any contractor for the performance of experimental, developmental, or research work funded in whole or in part by the Federal government. This term also includes any assignment, substitution of parties, or subcontract of any type entered into for the performance of experimental, developmental, or research work under a funding agreement as defined in the first sentence of this paragraph.

## 8. CLEAN AIR ACT AND THE FEDERAL WATER POLLUTION CONTROL ACT

- a. Standard. If applicable, contracts must contain a provision that requires the contractor to agree to comply with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act (42 U.S.C. §§ 7401-7671q.) and the Federal Water Pollution Control Act as amended (33 U.S.C. §§ 1251-1387). Violations must be reported to FEMA and the Regional Office of the Environmental Protection Agency. See 2 C.F.R. Part 200, Appendix II(G).
- b. Applicability. This requirement applies to contracts awarded by a non-federal entity of amounts in excess of \$150,000 under a federal grant.
- c. Suggested Language. The following provides a sample contract clause.

### Clean Air Act

1. The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. § 7401 et seq.
2. The contractor agrees to report each violation to the Participating Public Agency and understands and agrees that the Participating Public Agency will, in turn, report each violation as required to assure notification to the Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.
3. The contractor agrees to include these requirements in each subcontract exceeding \$150,000 financed in whole or in part with Federal assistance provided by FEMA.

### Federal Water Pollution Control Act

1. The contractor agrees to comply with all applicable standards, orders, or regulations issued pursuant to the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq.
2. The contractor agrees to report each violation to the Participating Public Agency and understands and agrees that the Participating Public Agency will, in turn, report each violation as required to assure notification to the Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.
3. The contractor agrees to include these requirements in each subcontract exceeding \$150,000 financed in whole or in part with Federal assistance provided by FEMA.

## 9. DEBARMENT AND SUSPENSION

- a. Standard. Non-Federal entities and contractors are subject to the debarment and suspension regulations implementing Executive Order 12549, *Debarment and*

*Suspension* (1986) and Executive Order 12689, *Debarment and Suspension* (1989) at 2 C.F.R. Part 180 and the Department of Homeland Security's regulations at 2 C.F.R. Part 3000 (Non-procurement Debarment and Suspension).

- b. Applicability. This requirement applies to all FEMA grant and cooperative agreement programs.
- c. Requirements.
  - i. These regulations restrict awards, subawards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs and activities. See 2 C.F.R. Part 200, Appendix II(H); and 2 C.F.R. § 200.213. A contract award must not be made to parties listed in the SAM Exclusions. SAM Exclusions is the list maintained by the General Services Administration that contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549. SAM exclusions can be accessed at [www.sam.gov](http://www.sam.gov). See 2 C.F.R. § 180.530.
  - ii. In general, an "excluded" party cannot receive a Federal grant award or a contract within the meaning of a "covered transaction," to include subawards and subcontracts. This includes parties that receive Federal funding indirectly, such as contractors to recipients and subrecipients. The key to the exclusion is whether there is a "covered transaction," which is any non-procurement transaction (unless excepted) at either a "primary" or "secondary" tier. Although "covered transactions" do not include contracts awarded by the Federal Government for purposes of the non-procurement common rule and DHS's implementing regulations, it does include some contracts awarded by recipients and subrecipients.
  - iii. Specifically, a covered transaction includes the following contracts for goods or services:
    - 1. The contract is awarded by a recipient or subrecipient in the amount of at least \$25,000.
    - 2. The contract requires the approval of FEMA, regardless of amount.
    - 3. The contract is for federally-required auditservices.
    - 4. A subcontract is also a covered transaction if it is awarded by the contractor of a recipient or subrecipient and requires either the approval of FEMA or is in excess of \$25,000.
- d. Suggested Language. The following provides a debarment and suspension clause. It incorporates an optional method of verifying that contractors are not excluded or disqualified.

#### Suspension and Debarment

- (1) This contract is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such, the contractor is required to verify that none of the contractor's principals (defined at 2 C.F.R. § 180.995) or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2

C.F.R. § 180.935).

- (2) The contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.
- (3) This certification is a material representation of fact relied upon by the Participating Public Agency. If it is later determined that the contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to the Participating Public Agency, the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.
- (4) The bidder or proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions.

## 10. BYRD ANTI-LOBBYING AMENDMENT

- a. Standard. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, officer or employee of Congress, or an employee of a Member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. § 1352. FEMA's regulation at 44 C.F.R. Part 18 implements the requirements of 31 U.S.C. § 1352 and provides, in Appendix A to Part 18, a copy of the certification that is required to be completed by each entity as described in 31 U.S.C. § 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the Federal awarding agency.
- b. Applicability. This requirement applies to all FEMA grant and cooperative agreement programs. Contractors that apply or bid for a contract of \$100,000 or more under a federal grant must file the required certification. See 2 C.F.R. Part 200, Appendix II(I); 31 U.S.C. § 1352; and 44 C.F.R. Part 18.
- c. Suggested Language.

### Byrd Anti-Lobbying Amendment, 31 U.S.C. § 1352 (as amended)

Contractors who apply or bid for an award of \$100,000 or more shall file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, officer or employee of Congress, or an employee of a Member of Congress in connection with obtaining any Federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Each tier shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the recipient who in turn will forward the certification(s) to the awarding agency.

- d. Required Certification. If applicable, contractors must sign and submit to the non-federal entity the following certification.

APPENDIX A, 44 C.F.R. PART 18 – CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements

The undersigned certifies, to the best of his or her knowledge and belief, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.
2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.
3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

**Schneider Electric**

The Contractor Buildings Americas, Inc, certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. In addition, the Contractor understands and agrees that the provisions of 31 U.S.C. Chap. 38, Administrative Remedies for False Claims and Statements, apply to this certification and disclosure, if any.

## 11. PROCUREMENT OF RECOVERED MATERIALS

- a. Standard. A non-Federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with Section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. See 2 C.F.R. Part 200, Appendix II(J); and 2 C.F.R. §200.322.
- b. Applicability. This requirement applies to all contracts awarded by a non- federal entity under FEMA grant and cooperative agreement programs.
- c. Requirements. The requirements of Section 6002 include procuring only items designated in guidelines of the EPA at 40 C.F.R. Part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds \$10,000 or the value of the quantity acquired by the preceding fiscal year exceeded \$10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.
- d. Suggested Language.
  - i. In the performance of this contract, the Contractor shall make maximum use of products containing recovered materials that are EPA-designated items unless the product cannot be acquired—
    1. Competitively within a timeframe providing for compliance with the contract performance schedule;
    2. Meeting contract performance requirements; or
    3. At a reasonable price.
  - ii. Information about this requirement, along with the list of EPA- designated items, is available at EPA's Comprehensive Procurement Guidelines web site, <https://www.epa.gov/smm/comprehensive-procurement-guideline-cpg-program>.
  - iii. The Contractor also agrees to comply with all other applicable requirements of Section 6002 of the Solid Waste Disposal Act.”

## 12. ACCESS TO RECORDS

- a. Standard. All recipients, subrecipients, successors, transferees, and assignees must acknowledge and agree to comply with applicable provisions governing DHS access to records, accounts, documents, information, facilities, and staff. Recipients must give DHS/FEMA access to, and the right to examine and copy, records, accounts, and other documents and sources of information related to the federal financial assistance award and permit access to facilities, personnel, and other individuals and information as may be necessary, as required by DHS regulations *and* other applicable laws or program guidance. See DHS Standard Terms and Conditions: Version 8.1 (2018). Additionally, Section 1225 of the Disaster Recovery Reform Act of 2018 prohibits FEMA from providing reimbursement to any state, local, tribal, or territorial government, or private non-profit for activities made pursuant to a contract that purports to prohibit audits or internal reviews by the FEMA administrator or ComptrollerGeneral.

Access to Records. The following access to records requirements apply to this contract:

- i. The Contractor agrees to provide Participating Public Agency, the FEMA Administrator, the Comptroller General of the United States, or any of their authorized representatives access to any books, documents, papers, and records of the Contractor which are directly pertinent to this contract for the purposes of making audits, examinations, excerpts, and transcriptions.
- ii. The Contractor agrees to permit any of the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed.
- iii. The Contractor agrees to provide the FEMA Administrator or his authorized representatives access to construction or other work sites pertaining to the work being completed under the contract.
- iv. In compliance with the Disaster Recovery Act of 2018, the Participating Public Agency and the Contractor acknowledge and agree that no language in this contract is intended to prohibit audits or internal reviews by the FEMA Administrator or the Comptroller General of the United States.

### 13. CHANGES

- a. Standard. To be eligible for FEMA assistance under the non-Federal entity's FEMA grant or cooperative agreement, the cost of the change, modification, change order, or constructive change must be allowable, allocable, within the scope of its grant or cooperative agreement, and reasonable for the completion of project scope.
- b. Applicability. FEMA recommends, therefore, that a non-Federal entity include a changes clause in its contract that describes how, if at all, changes can be made by either party to alter the method, price, or schedule of the work without breaching the contract. The language of the clause may differ depending on the nature of the contract and the end-item procured.

### 14. DHS SEAL, LOGO, AND FLAGS

- a. Standard. Recipients must obtain permission prior to using the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials. See DHS Standard Terms and Conditions: Version 8.1 (2018).
- b. Applicability. FEMA recommends that all non-Federal entities place in their contracts a provision that a contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre-approval.
- c. "The contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre-approval.

## 15. COMPLIANCE WITH FEDERAL LAW, REGULATIONS, AND EXECUTIVE ORDERS

- a. Standard. The recipient and its contractors are required to comply with all Federal laws, regulations, and executive orders.
- b. Applicability. FEMA recommends that all non-Federal entities place into their contracts an acknowledgement that FEMA financial assistance will be used to fund the contract along with the requirement that the contractor will comply with all applicable Federal law, regulations, executive orders, and FEMA policies, procedures, and directives.
- c. "This is an acknowledgement that FEMA financial assistance will be used to fund all or a portion of the contract. The contractor will comply with all applicable Federal law, regulations, executive orders, FEMA policies, procedures, and directives."

## 16. NO OBLIGATION BY FEDERAL GOVERNMENT

- a. Standard. FEMA is not a party to any transaction between the recipient and its contractor. FEMA is not subject to any obligations or liable to any party for any matter relating to the contract.
- b. Applicability. FEMA recommends that the non-Federal entity include a provision in its contract that states that the Federal Government is not a party to the contract and is not subject to any obligations or liabilities to the non-Federal entity, contractor, or any other party pertaining to any matter resulting from the contract.
- c. "The Federal Government is not a party to this contract and is not subject to any obligations or liabilities to the non-Federal entity, contractor, or any other party pertaining to any matter resulting from the contract."

## 17. PROGRAM FRAUD AND FALSE OR FRAUDULENT STATEMENTS OR RELATED ACTS

- a. Standard. Recipients must comply with the requirements of The False Claims Act (31 U.S.C. §§ 3729-3733) which prohibits the submission of false or fraudulent claims for payment to the federal government. See DHS Standard Terms and Conditions: Version 8.1 (2018); and 31 U.S.C. §§ 3801-3812, which details the administrative remedies for false claims and statements made. The non-Federal entity must include a provision in its contract that the contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to its actions pertaining to the contract.
- b. Applicability. FEMA recommends that the non-Federal entity include a provision in its contract that the contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to its actions pertaining to the contract.
- c. "The Contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to the Contractor's actions pertaining to this contract."

**Offeror agrees to comply with all terms and conditions outlined in the FEMA Special Conditions section of this solicitation.**

**P.L. 1995, c. 127 (N.J.A.C. 17:27)**  
**MANDATORY AFFIRMATIVE ACTION LANGUAGE**

**PROCUREMENT, PROFESSIONAL AND SERVICE**  
**CONTRACTS**

During the performance of this contract, the contractor agrees as follows:

The contractor or subcontractor, where applicable, will not discriminate against any employee or applicant for employment because of age, race, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation. The contractor will take affirmative action to ensure that such applicants are recruited and employed, and that employees are treated during employment, without regard to their age, race, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation. Such action shall include, but not be limited to the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the Public Agency Compliance Officer setting forth provisions of this non-discrimination clause.

The contractor or subcontractor, where applicable will, in all solicitations or advertisement for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to age, race, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation.

The contractor or subcontractor, where applicable, will send to each labor union or representative of workers with which it has a collective bargaining agreement or other contract or understanding, a notice, to be provided by the agency contracting officer advising the labor union or workers' representative of the contractor's commitments under this act and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

The contractor or subcontractor, where applicable, agrees to comply with any regulations promulgated by the Treasurer pursuant to P.L. 1975, c. 127, as amended and supplemented from time to time and the Americans with Disabilities Act.

The contractor or subcontractor agrees to attempt in good faith to employ minority and female workers trade consistent with the applicable county employment goal prescribed by N.J.A.C. 17:27-5.2 promulgated by the Treasurer pursuant to P.L. 1975, C.127, as amended and supplemented from time to time or in accordance with a binding determination of the applicable county employment goals determined by the Affirmative Action Office pursuant to N.J.A.C. 17:27-5.2 promulgated by the Treasurer pursuant to P.L. 1975, C.127, as amended and supplemented from time to time.

The contractor or subcontractor agrees to inform in writing appropriate recruitment agencies in the area, including employment agencies, placement bureaus, colleges, universities, labor unions, that it does not discriminate on the basis of age, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation, and that it will discontinue the use of any recruitment agency which engages in direct or indirect discriminatory practices.

The contractor or subcontractor agrees to revise any of its testing procedures, if necessary, to assure that all personnel testing conforms with the principles of job-related testing, as established by the statutes and court decisions of the state of New Jersey and as established by applicable Federal law and applicable Federal court decisions.

The contractor or subcontractor agrees to review all procedures relating to transfer, upgrading, downgrading and lay-off to ensure that all such actions are taken without regard to age, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation, and conform with the applicable employment goals, consistent with the statutes and court decisions of the State of New Jersey, and applicable Federal law and applicable Federal court decisions.

The contractor and its subcontractors shall furnish such reports or other documents to the Affirmative Action Office as may be requested by the office from time to time in order to carry out the purposes of these regulations, and public agencies shall furnish such information as may be requested by the Affirmative Action Office for conducting a compliance investigation pursuant to Subchapter 10 of the Administrative Code (NJAC 17:27).

**C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM****Public Agency Instructions**

This page provides guidance to public agencies entering into contracts with business entities that are required to file Political Contribution Disclosure forms with the agency. **It is not intended to be provided to contractors.** What follows are instructions on the use of form local units can provide to contractors that are required to disclose political contributions pursuant to N.J.S.A. 19:44A-20.26 (P.L. 2005, c. 271, s.2). Additional information on the process is available in Local Finance Notice 2006-1 ([http://www.nj.gov/dca/divisions/dlgs/resources/lfns\\_2006.html](http://www.nj.gov/dca/divisions/dlgs/resources/lfns_2006.html)). Please refer back to these instructions for the appropriate links, as the Local Finance Notices include links that are no longer operational.

1. The disclosure is required for all contracts in excess of \$17,500 that are **not awarded** pursuant to a “fair and open” process (N.J.S.A. 19:44A-20.7).
2. Due to the potential length of some contractor submissions, the public agency should consider allowing data to be submitted in electronic form (i.e., spreadsheet, pdf file, etc.). Submissions must be kept with the contract documents or in an appropriate computer file and be available for public access. **The form is worded to accept this alternate submission.** The text should be amended if electronic submission will not be allowed.
3. The submission must be **received from the contractor and** on file at least 10 days prior to award of the contract. Resolutions of award should reflect that the disclosure has been received and is on file.
4. The contractor must disclose contributions made to candidate and party committees covering a wide range of public agencies, including all public agencies that have elected officials in the county of the public agency, state legislative positions, and various state entities. The Division of Local Government Services recommends that contractors be provided a list of the affected agencies. This will assist contractors in determining the campaign and political committees of the officials and candidates affected by the disclosure.
  - a. The Division has prepared model disclosure forms for each county. They can be downloaded from the “County PCD Forms” link on the Pay-to-Play web site at <http://www.nj.gov/dca/divisions/dlgs/programs/lpcl.html#12>. They will be updated from time-to-time as necessary.
  - b. A public agency using these forms **should edit them to properly reflect the correct legislative district(s)**. As the forms are county-based, **they list all legislative districts** in each county. **Districts that do not represent the public agency should be removed from the lists.**
  - c. Some contractors may find it easier to provide a single list that covers all contributions, regardless of the county. These submissions are appropriate and should be accepted.
  - d. The form may be used “as-is”, subject to edits as described herein.
  - e. The “Contractor Instructions” sheet is intended to be provided with the form. It is recommended that the Instructions and the form be printed on the same piece of paper. The form notes that the Instructions are printed on the back of the form; where that is not the case, the text should be edited accordingly.
  - f. The form is a Word document and can be edited to meet local needs, and posted for download on web sites, used as an e-mail attachment, or provided as a printed document.
5. It is recommended that the contractor also complete a “Stockholder Disclosure Certification.” This will assist the local unit in its obligation to ensure that contractor did not make any prohibited contributions to the committees listed on the Business Entity Disclosure Certification in the 12 months prior to the contract (See Local Finance Notice 2006-7 for additional information on this obligation at [http://www.nj.gov/dca/divisions/dlgs/resources/lfns\\_2006.html](http://www.nj.gov/dca/divisions/dlgs/resources/lfns_2006.html)). A sample Certification form is part of this package and the instruction to complete it is included in the Contractor Instructions. NOTE: This section is not applicable to Boards of Education.

## DOC #4, continued

**C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM****Contractor Instructions**

Business entities (contractors) receiving contracts from a public agency that are NOT awarded pursuant to a “fair and open” process (defined at N.J.S.A. 19:44A-20.7) are subject to the provisions of P.L. 2005, c. 271, s.2 (N.J.S.A. 19:44A-20.26). This law provides that 10 days prior to the award of such a contract, the contractor shall disclose contributions to:

- any State, county, or municipal committee of a political party
- any legislative leadership committee\*
- any continuing political committee (a.k.a., political action committee)
- any candidate committee of a candidate for, or holder of, an elective office:
  - of the public entity awarding the contract
  - of that county in which that public entity is located
  - of another public entity within that county
  - or of a legislative district in which that public entity is located or, when the public entity is a county, of any legislative district which includes all or part of the county

The disclosure must list reportable contributions to any of the committees that exceed \$300 per election cycle that were made during the 12 months prior to award of the contract. See N.J.S.A. 19:44A-8 and 19:44A-16 for more details on reportable contributions.

N.J.S.A. 19:44A-20.26 itemizes the parties from whom contributions must be disclosed when a business entity is not a natural person. This includes the following:

- individuals with an “interest” ownership or control of more than 10% of the profits or assets of a business entity or 10% of the stock in the case of a business entity that is a corporation for profit
- all principals, partners, officers, or directors of the business entity or their spouses
- any subsidiaries directly or indirectly controlled by the business entity
- IRS Code Section 527 New Jersey based organizations, directly or indirectly controlled by the business entity and filing as continuing political committees, (PACs).

When the business entity is a natural person, “a contribution by that person’s spouse or child, residing therewith, shall be deemed to be a contribution by the business entity.” [N.J.S.A. 19:44A-20.26(b)] The contributor must be listed on the disclosure.

Any business entity that fails to comply with the disclosure provisions shall be subject to a fine imposed by ELEC in an amount to be determined by the Commission which may be based upon the amount that the business entity failed to report.

The enclosed list of agencies is provided to assist the contractor in identifying those public agencies whose elected official and/or candidate campaign committees are affected by the disclosure requirement. It is the contractor’s responsibility to identify the specific committees to which contributions may have been made and need to be disclosed. The disclosed information may exceed the minimum requirement.

The enclosed form, a content-consistent facsimile, or an electronic data file containing the required details (along with a signed cover sheet) may be used as the contractor’s submission and is disclosable to the public under the Open Public Records Act.

The contractor must also complete the attached Stockholder Disclosure Certification. This will assist the agency in meeting its obligations under the law. **NOTE: This section does not apply to Board of Education contracts.**

\* N.J.S.A. 19:44A-3(s): “The term “legislative leadership committee” means a committee established, authorized to be established, or designated by the President of the Senate, the Minority Leader of the Senate, the Speaker of the General Assembly or the Minority Leader of the General Assembly pursuant to section 16 of P.L.1993, c.65 (C.19:44A-10.1) for the purpose of receiving contributions and making expenditures.”

DOC #6

**Certification of Non-Involvement in Prohibited Activities in Iran**

Pursuant to N.J.S.A. 52:32-58, Offerors must certify that neither the Offeror, nor any of its parents, subsidiaries, and/or affiliates (as defined in N.J.S.A. 52:32 – 56(e) (3)), is listed on the Department of the Treasury’s List of Persons or Entities Engaging in Prohibited Investment Activities in Iran and that neither is involved in any of the investment activities set forth in N.J.S.A. 52:32 – 56(f).

Offerors wishing to do business in New Jersey through this contract must fill out the Certification of Non-Involvement in Prohibited Activities in Iran here:

[http://www.state.nj.us/humanservices/dfd/info/standard/fdc/disclosure\\_investmentact.pdf](http://www.state.nj.us/humanservices/dfd/info/standard/fdc/disclosure_investmentact.pdf).

Offerors should submit the above form completed with their proposal.

DOC #7

**NEW JERSEY BUSINESS REGISTRATION CERTIFICATE  
(N.J.S.A. 52:32-44)**

Offerors wishing to do business in New Jersey must submit their State Division of Revenue issued Business Registration Certificate with their proposal here. Failure to do so will disqualify the Offeror from offering products or services in New Jersey through any resulting contract.

<https://www.njportal.com/DOR/BusinessRegistration/>

DOC #8

**EEOAA EVIDENCE**

Equal Employment Opportunity/Affirmative Action  
Goods, Professional Services & General Service Projects

**EEO/AA Evidence**

Vendors are required to submit evidence of compliance with N.J.S.A. 10:5-31 et seq. and N.J.A.C. 17:27 in order to be considered a responsible vendor.

**One** of the following must be included with submission:

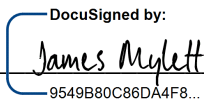

- Copy of Letter of Federal Approval
- Certificate of Employee Information Report
- Fully Executed Form AA302
- Fully Executed EEO-1 Report

See the guidelines at: [http://www.state.nj.us/treasury/contract\\_compliance/pdf/pa.pdf](http://www.state.nj.us/treasury/contract_compliance/pdf/pa.pdf) for further information.

I certify that my bid package includes the required evidence per the above list and State website.

DOC #9  
MCBRIDE-PRINCIPLES

**STATE OF NEW JERSEY DEPARTMENT OF THE TREASURY  
DIVISION OF PURCHASE AND PROPERTY**

33 WEST STATE STREET, P.O. BOX 230  
TRENTON, NEW JERSEY 08625-0230

**MACBRIDE PRINCIPALS FORM**

**BID SOLICITATION #:** \_\_\_\_\_

**VENDOR/BIDDER:** \_\_\_\_\_

Schneider Electric  
Buildings Americas, Inc

**VENDOR'S/BIDDER'S REQUIREMENT  
TO PROVIDE A CERTIFICATION IN COMPLIANCE WITH THE MACBRIDE PRINCIPALS  
AND NORTHERN IRELAND ACT OF 1989**

Pursuant to Public Law 1995, c. 134, a responsible Vendor/Bidder selected, after public bidding, by the Director of the Division of Purchase and Property, pursuant to N.J.S.A. 52:34-12, must complete the certification below by checking one of the two options listed below and signing where indicated. If a Vendor/Bidder that would otherwise be awarded a purchase, contract or agreement does not complete the certification, then the Director may determine, in accordance with applicable law and rules, that it is in the best interest of the State to award the purchase, contract or agreement to another Vendor/Bidder that has completed the certification and has submitted a bid within five (5) percent of the most advantageous bid. If the Director finds contractors to be in violation of the principals that are the subject of this law, he/she shall take such action as may be appropriate and provided by law, rule or contract, including but not limited to, imposing sanctions, seeking compliance, recovering damages, declaring the party in default and seeking debarment or suspension of the party.

I, the undersigned, on behalf the Vendor/Bidder, certify pursuant to N.J.S.A. 52:34-12.2 that:

**CHECK THE APPROPRIATE BOX**

The Vendor/Bidder has no business operations in Northern Ireland; or

**OR**

The Vendor/Bidder will take lawful steps in good faith to conduct any business operations it has in Northern Ireland in accordance with the MacBride principals of nondiscrimination in employment as set forth in section 2 of P.L. 1987, c. 177 (N.J.S.A. 52:18A-89.5) and in conformance with the United Kingdom's Fair Employment (Northern Ireland) Act of 1989, and permit independent monitoring of its compliance with those principals.

**CERTIFICATION**

I, the undersigned, certify that I am authorized to execute this certification on behalf of the Vendor/Bidder, that the foregoing information and any attachments hereto, to the best of my knowledge are true and complete. I acknowledge that the State of New Jersey is relying on the information contained herein, and that the Vendor/Bidder is under a continuing obligation from the date of this certification through the completion of any contract(s) with the State to notify the State in writing of any changes to the information contained herein; that I am aware that it is a criminal offense to make a false statement or misrepresentation in this certification. If I do so, I will be subject to criminal prosecution under the law, and it will constitute a material breach of **my** agreement(s) with the State, permitting the State to declare any contract(s) resulting from this certification to be void and unenforceable.

# Schneider Electric is leading the digital transformation of energy management and industrial automation in North America

40

states in the U.S.

Operates across 40 states in the U.S.

100

years in business

100+ years in business in U.S. and Canada; 75 years in Mexico

19,000+

employees

19,000+ U.S. employees with 40+ manufacturing facilities, R&D centers, sales offices and distribution centers

- Operates across 10 provinces in Canada
- Operates across eight states in Mexico and six countries in Central America
- 2020 marks Schneider Electric's 75th anniversary in Mexico – seven decades contributing to the sustainable construction of the country and continuing work to help build a sustainable future
- 2,000+ employees in Canada with 29 sites, four R&D centers, and three manufacturing facilities
- 12,000+ Mexico and Central America employees in nine manufacturing plants, R&D center, sales and distribution offices, Energy & Sustainability (ESS) office, software office and logistics center

- U.S. manufacturing hubs feature a best-in-class Smart Factory in Lexington, KY, with several more opening this year including in El Paso, TX; Columbia, MO; Columbia, SC; Lincoln, NE; Smyrna, TN; and Seneca, SC
- Schneider Electric's first smart distribution center is launching in Athens, TX
- Lexington, Kentucky smart factory was named a 4th industrial revolution (4IR) advanced lighthouse by the World Economic Forum in September 2020
- Schneider Electric in Mexico has its own Smart Factory in Apodaca, Nuevo Leon
  - Awarded by the Ministry of Economics of Nuevo León state, Mexico with "Tecnos NL 4.0", a prize for companies that show great performance and demonstration of Industry 4.0 model
- \$36 million in electrical equipment donated to Habitat for Humanity since 2000
- Total market value of assets under Schneider Electric management (AuM) have grown to reach 3.8 million, up 46% year-over-year by the end of September 2020

# Schneider Electric enables customers to make the most of their energy and resources

What our customers on average achieve

What a typical medium sized refinery can achieve

20%

reduction in electrical instrumentation

in the first year, reducing CAPEX

12%

reduction in carbon emissions

the equivalent of taking 190,000 cars off the road, reducing OPEX with Schneider Electric solutions

- #1 builder of microgrids in the world, with over 300 successful projects deployed across the U.S., cutting energy usage up to 30% and modernizing ports, including:
  - U.S. Coast Guard and Marine Corps Air Station Miramar
  - Connecticut Seaboard
  - Oncor
  - Montgomery County, Maryland
  - Schneider Electric's Boston HQ
  - The Port of Long Beach – the 2nd busiest port in the U.S. and largest container terminal in America
  - 10 microgrids at JFK Airport Terminal to help deliver 100% renewable energy
  - Fort Huachuca Army Base – \$63M in energy savings, 23% reduction in energy costs

- Schneider Electric Square D products are found in four out of 10 US homes
- Helped design and currently managing net zero building for Deloitte (Amsterdam) and the R.W. Kern Center (Hampshire College, MA)
- Reducing electric consumption through digitalization and saving millions for:
  - Edwards Air Force Base; Nemours Children Hospital, Orlando; University of Rochester Medical; PNC Arena, Raleigh; Delran School District, New Jersey; and T-Mobile Arena, the first LEED certified arena in Las Vegas
  - Penn Medicine – up to 5% projected low-voltage CapEx savings
  - United Therapeutics – one of the largest net zero commercial buildings in the U.S. and certified LEED Platinum
  - University of Notre Dame – 20% reduction in energy consumption
  - Boston Scientific – 51% reduction in energy related faults, 40% reduction in avoidable cost related to faults, and 49% reduction in faults causing improper zone conditions
  - Shedd Aquarium – Harmonizing the habitats of 1500+ species plus 50% savings in energy by 2020, enough to power 750 homes annually

- University of Iowa – \$900K in energy savings, average of 17% of 705 HVAC-related work orders completed were predictive maintenance orders
- Guardian Glass – ~\$50k in energy credits to date, \$1.5 M expected cost savings in 10 years
- CSN Henderson Health Science Building – 5% decrease in energy usage each year, cut energy bills in half
- United Parcel Service – A new 104,000-pieces-per-hour-rated smart facility, the fourth-largest one UPS has in the world
- Saint-Gobain – 14% reduction in utility costs at North Carolina facility
- Rainwater Management Solutions – enabling users to reduce up to 50% of labor time, reduce downtime, speed up operation and maintenance, and reduce human error for customers using rainwater capture systems
- Tili Group digitizes its production with EcoStruxure Plant for 19% operational efficiency and 5% reduction in yearly costs

# Globally, Schneider Electric products and solutions are in:

- One million buildings worldwide (70%)
- 40k water and wastewater installations in 150 countries
- 40% of the world's hospitals
- 20 of the largest oil and gas companies
- 11 of the top brands within food & beverage
- 10 of the world's top electric utilities
- 10 of the biggest automotive and battery manufacturers globally
- 10 of the world's largest airports
- Nine of the 10 largest mining, metals and minerals
- Eight of the top 10 packaging machine builders
- Four of the top hyper-scale cloud providers
- Three of the top five hotel chains
- Energy management & automation provider for 10 out of the top 20 largest metros, worldwide
- And recognized as a 2018 and 2019 Preferred Quality Supplier by one of the top semiconductor manufacturers

# Schneider Electric

## Sustainability Commitments

- Committed to achieving 100% carbon neutral by 2030 while doubling energy productivity and reaching our goal of securing 80% of our energy through renewable sources by 2020
- 75% of our global sales are under the Green Premium ecolabel, created to help customers achieve their sustainability goals
- Avoiding 100,000 metric tons of primary resource consumption through product recycling and takeback programs
- Partnering with Walmart to reduce its supply chain emissions by one billion metric tons by 2030, and to make renewable energy more accessible to suppliers under the Project Gigaton effort
- Partnering with The Carlyle Group to form “AlphaStruxure,” a joint venture that delivers energy-as-a-service, and clean, resilient energy systems at zero cost to customers
- #1 largest corporate consultant on renewable energy purchasing, with 60% U.S. market share of corporate renewable energy advisory services

- Launching GreenStruxure, a joint venture between Schneider Electric and Huck Capital, that delivers modular, standardized microgrids and Energy as a Service solutions to medium-size commercial, industrial, and governmental buildings in the U.S.
- Our mission is to proactively lead clients to cost-effective, sustainable energy on a foundation of integrity and trust
- Ball Enhances the Can's Sustainability with Renewable Energy – 50% reduction of Scope 2 greenhouse gas emissions, plus 100% of North American energy load will be replaced with solar and wind by the end of 2021
- DaVita Kidney Care – 100% of DaVita's North America electricity replaced with renewable energy, 625,000 MWh of clean energy generated each year
- Sprint Reduces Carbon Footprint via VPPA – Approximately 30 percent renewable energy for its total electricity portfolio, project will create nearly 200 jobs and provide enough renewable energy to power the equivalent of more than 54,000 U.S. homes by 20%
- Clorox Achieves 50% of Renewable Energy Goal – estimated to avoid approximately 140,000 metric tons of CO2 emissions each year
- Digital Realty Adds Sustainable Energy Solutions for Texas Customers – the agreement expands the company's use of renewables by ~160,000 MWh per year

- 2000+ experts from energy supply, sustainability, and resource efficiency serving 2700+ Energy & Sustainability Services clients globally, with 250k+ managed sites around the world
- 60k+ users and 8.7M invoices tracked for Resource Advisor, and 750k connected points tracked for clients
- Have advised on over 100 utility-scale PPA purchases totaling over 7k+ megawatts across North America, Europe, India, Australia and Latin America for a total of more than 8,000 megawatts of wind and solar power.
- We've committed to 100% electric fleet vehicles and 100% renewable electricity through The Climate Group's EV100 and RE100 programs
- Launched first of its kind climate change advisory services to provide "ambition to action" blueprint for businesses to reach climate and sustainability goals through unique strategic planning and implementation partnership

# Schneider Electric Sustainability Recognition

- Ranked world's most sustainable corporate, according to Corporate Knights 2021 Global 100
- Ranked fourth in The Gartner Supply Chain Top 25 for 2020
- Won the RE100 Leadership Award in 2020 Clean Energy Trailblazer category
- Recognized by RE100 as the most ambitious company, seizing opportunities across the clean energy transition and going above and beyond in the transition to 100% renewable electricity
- Ranked 11th by the Labrador Agency in 2020 for transparency and quality of information given to shareholders and external stakeholders
- Won an award in the Multinational Companies Categories of the Circulars 2019 Awards for our commitment to the circular economy
- Ranked among the "Global 100" in most sustainable companies by Corporate Knights in 2019, for the 7th year running, coming 29th overall and #1 in its category

- Ranked #1 Energy as a Service provider by Navigant, 2019
- 2019 Energy Star Sustained Excellence partner of the year
- Awarded Top software product and project of the year, as rated by Energy Manager Today, 2014 2015, 2019
- The only Leader in both energy & sustainability management software, as rated by Verdantix, 2014/2015/2016/2018

# Innovation Recognition

Won the Industrial Energy Efficiency Award in 2020 for the new SM AirSeT switchgear, a green and digital medium voltage technology 2020, up from #11 in 2019 and #12 in 2018

AlphaStruxure was selected by World Economic Forum as one of the most transformative energy innovations in the last decade

Ranked #4 by Gartner Global Supply Chain in 2020, up from #11 in 2019 and #12 in 2018

# People Recognition

- Ranked #48 by Universum for Most Attractive Employers 2020
- Included in the Bloomberg Gender equality performance index for 2020, for the third year in a row
- One of Forbes Magazine's America's Best Employers for Diversity 2020
- Ranked one of the best companies to work for in 2020 by Glassdoor
- Ranked on Fortune's 2021 World's Most Admired Companies List for Fourth Year in a Row -- ranking #3 in the electronics industry sector

Life Is On

# Fact sheet

Leading the digital transformation of energy management in North America

[se.com/us](https://se.com/us)

# What's found in 4 out of 10 U.S. homes, 70% of buildings, and 40 U.S. states?

## Schneider Electric, the most local of global Fortune 500 companies

### Who is Schneider Electric?

Schneider Electric™ is working to answer two big questions that affect every American.

- How can we use energy and resources more efficiently?
- How can U.S. manufacturing become more globally competitive?

It turns out that the answer involves digitalization. That's where Schneider comes in.

Our solutions digitalize energy and automation in the critical infrastructure — hospitals, airports, wastewater facilities, and beyond — that keeps the country running.

### Schneider, by the numbers

### How Schneider is transforming American energy, manufacturing, and infrastructure

Our products are found in **4 out of 10 U.S. homes** as well as **70% of buildings, 33,000 wastewater facilities, and 50% of hospitals** around the world.

We're providing EV charging infrastructure for **new electric truck fleets** from Paccar, manufacturer of Peterbilt and Kenworth trucks.

We've built **300+ microgrids**, more than any other company — including many for communities facing natural disasters.

Our core offer, EcoStruxure™, makes digitized infrastructure possible, and our customers have avoided **120 million tons of carbon emissions** using it.

Schneider is going **carbon neutral by 2025**, and we're helping thousands of other organizations achieve their own sustainability goals.

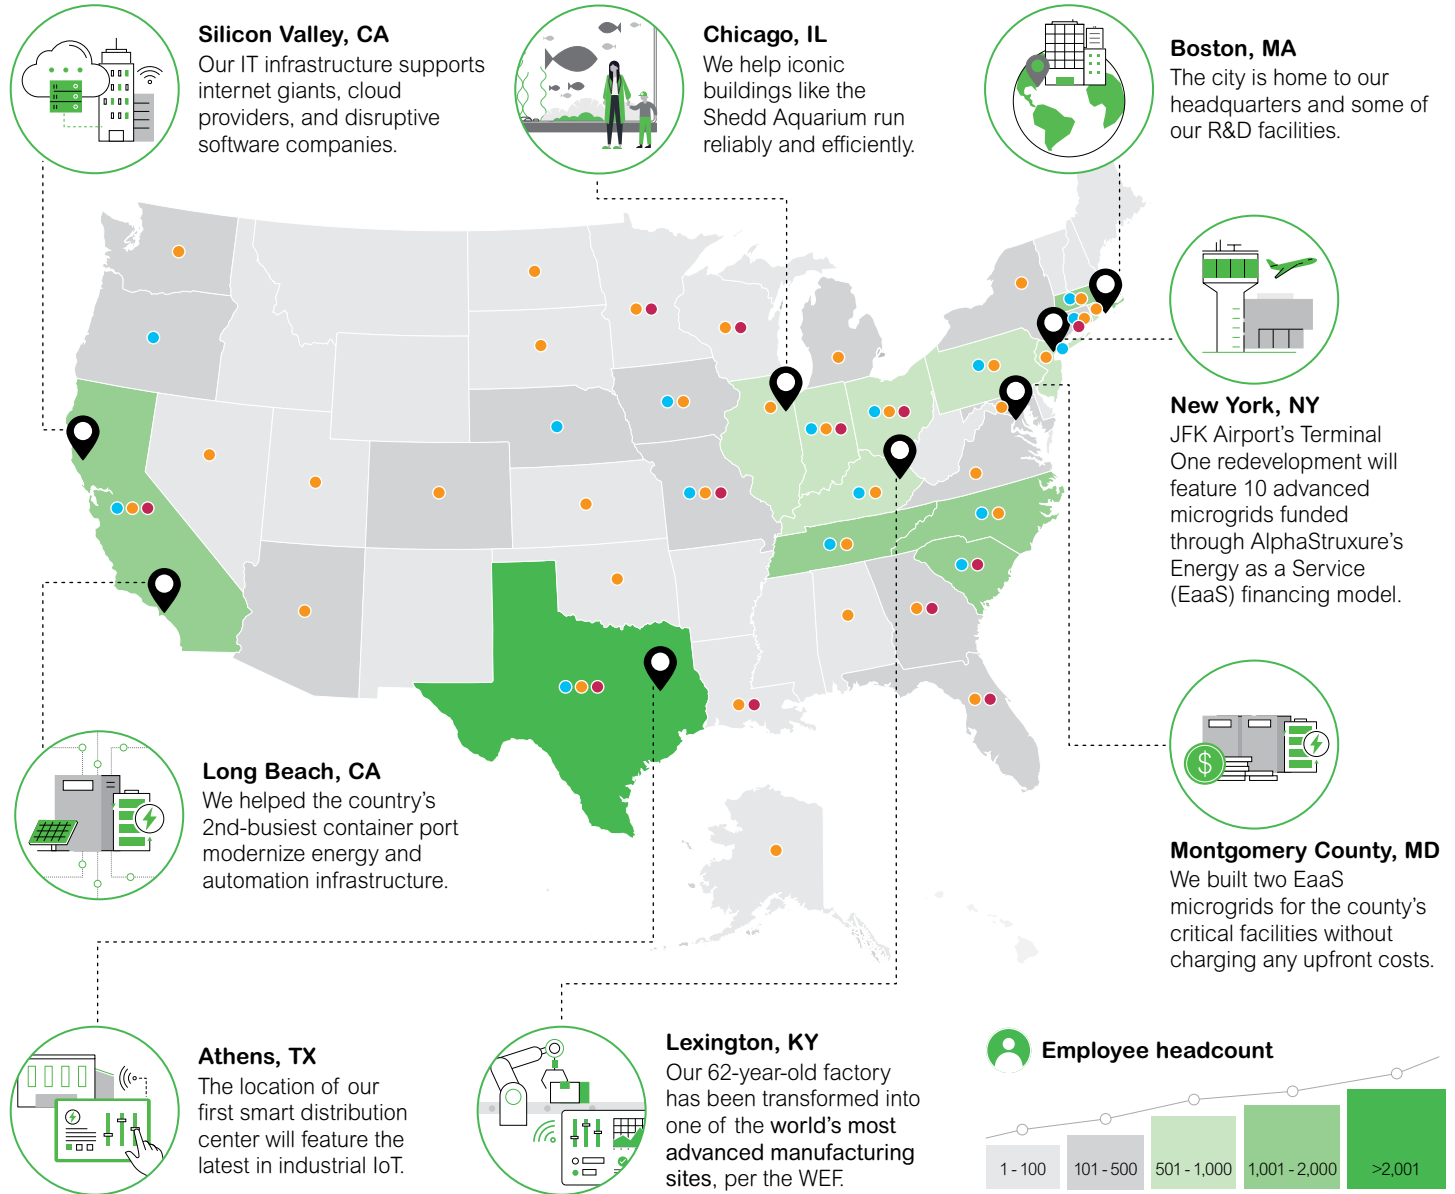

Schneider is the **world's largest corporate consultant on renewable energy purchasing**, with a 60% market share in the U.S.

We take care of our people with **flexible work and family leave** policies, and we're a Forbes Top Employer for both **Diversity and Women**.
