

# Critical supply chain talent for the parts of your business that need it most

Supply chain talent is hard to find. In today's competitive business environment, working with an established logistics industry leader like Schneider gives your organization the boost it needs to reach its full potential. Leverage Schneider's consulting services and our extensive expertise in logistics and engineering to drive your supply chain forward and reduce costs.

## Why Schneider?

Our industry-leading consulting teams specialize in:

- › Transportation and logistics engineering, network optimization, data science and analytics.
- › Strategic planning, continuous improvement, operations and process analysis.
- › Designing and implementing customized solutions that are tailored to your organization's needs.
- › Supporting a diverse range of industries from automotive to consumer-packaged goods, heavy manufacturing to retail, and chemical.
- › Geographies beyond North America including South America, Europe and Asia.

## Our expert teams help you reduce costs in your business

### Network visualization

Understand current-state network and gain insights at a glance.

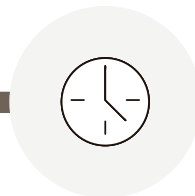

### Supply chain diagnostics

Discover opportunities for cost savings.

### Data analytics

Enhance reporting of operational metrics for better visibility and decision making.

### Implementable solutions

Save time, money, and hassle putting solutions to work right away.

### Continuous improvement

See returns year after year by aligning with the best in the industry.
