

# SPECIAL EDUCATION SUPPLY LIST

Stock up on products that are easy to transport, easy to clean, and can be used in any environment.

Make sure your students have what they need to succeed! Learning setbacks due to COVID mean that it's more important than ever to provide a variety of support to the students who need it.

Being able to interact with students, whether through AAC devices or other means of communication, is key to making sure they succeed. Low-tech and non-digital tools can also help supplement lessons and increase learning.

Recently, many schools have placed an increased focus on mental health and wellbeing as well. For students who have difficulty with emotions or concentration, taking a movement break or playing with sensory tools can allow both the brain and body to refocus.

Whether you're planning a sensory space or restocking classroom essentials, find all the products you need at School Health.
