

SimplifyVMS is our transformational, award-winning, and cloud-based vendor management system (VMS) platform. Our tech stack is the newest in the market, allowing for greater configurability and system innovation. Our solution provides a unified approach towards managing all aspects of non-employee engagement and global services procurement. **SimplifyVMS** provides full support for all aspects of agency workforce management. It also offers end users a single, combined approach to source, procure, manage, and evaluate agency and independent contractors.
