 Sustainable  
Furniture Inc.

**Sustainable Furniture Inc. is a proud partner of the University of California cooperative purchasing program through OMNIA Partners, Public Sector**

## **Who is Sustainable Furniture Inc.?**

Sustainable Furniture Inc. is the leader in manufacturing green, sustainable furniture solutions for University dorm rooms, apartments, and many other institutional dwellings. Founded on the premise of sustainability and that quality, modern furniture could be manufactured in the United States, Sustainable Furniture Inc. has innovated a process to renew the furniture's life-cycle with minimal impact on the environment. By reclaiming quality hardwoods, with new responsibly sourced materials, we are able to create compelling new furniture that will literally last a lifetime.

## University of California Award

The University of California works in tandem with OMNIA Partners to create competitively bid contracts for UC campuses and affiliated institutions to use. These contracts streamline your procurement process and help you remain in compliance with UC procurement policies. With this newly awarded agreement, all UC entities can purchase Dorm Furniture and related services from Sustainable Furniture Inc.
