

SOLUTIONS FOR Higher Education

MOVE FORWARD

Solutions for Higher Education

For colleges and universities, parking and transportation are key to keeping people moving – whether that be students going to class, faculty and staff heading to the office, or visitors coming for a meeting or event. And there is much more that goes into keeping these people moving than meets the eye.

From selling thousands of permits in a single day to enforcing dozens of lots and garages to maintaining hardware, gates, handhelds, and more, parking staff at colleges and universities have a lot on their plates. And they must manage it all while also providing quality customer service and a seamless experience.

At T2, our mission is to streamline the parking, mobility, and transportation experience with technology solutions that help organizations manage resources, achieve goals, and empower consumers with choices. OMNIA Partners, Public Sector (Higher Education) welcomes T2 Systems as a provider of comprehensive parking management solutions. The partnership with OMNIA Partners leverages competitively solicited and publicly awarded contracts to provide exceptional savings to public sector agencies across the country.

CREATE A SEAMLESS EXPERIENCE

Tailor the parking and transportation experience for your campus with a comprehensive suite of parking solutions. Our unified parking management software puts the tools you need at your fingertips to manage permits, enforcement, PARCS, events, and multi-space meters. Our state-of-the-art dashboard allows you to make critical operational decisions whenever you need to and from wherever you are.

“We were trying to find a one-stop shop, one platform where we could input all the data, get the information we need, and grow from there. The ease of product integration is why we went with Flex.”

Director, Transportation and Parking Services

Solutions for Higher Education

BENEFITS

Operate More Efficiently

Long lines during permit sales, inefficient enforcement, employees bogged down by data entry, the inability for customers to pay citations immediately – we help universities alleviate the myriad challenges they experience on their campuses.

Provide a Smooth Journey

From impossible-to-lose virtual permits to mobile and contactless payment options to easy online permit sales and citation payments, our capabilities enable you to make every trip a smooth journey for your students, staff, and visitors.

Make Data-Driven Decisions

Our solutions integrate seamlessly with one another and with third-party systems, bringing all your data together onto a single platform to help you answer questions about your operation, make informed decisions, and create action plans for the future.

“There are a lot of manual processes that we used to do that we don’t have to do now, and it’s way more efficient. A lot of the processes have been cut in half, so it’s allowed us to have a much cleaner and more efficient reconciliation.”

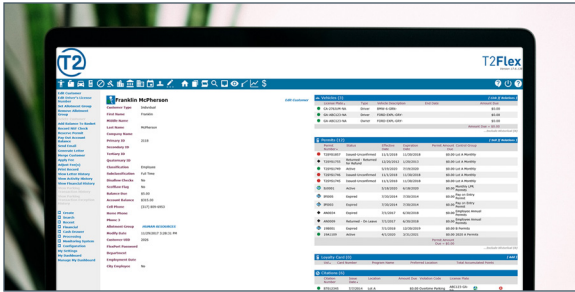

Director, Transportation
Brown University

“As we implemented T2 Flex, we were able to use historical data to make predictions and provide extremely close forecasts. We’ve built up a lot of trust and credibility over time.”

Assistant Director, Transportation Services
Texas A&M University

WHAT WE OFFER

ROBUST PERMIT MANAGEMENT

Take complete control over who is parking in your facilities and when and where they can park with T2's powerful permit management capabilities.

The depth of and breadth our solution is unmatched: we offer the most configurable permit options in the industry – from yearly, monthly, or daily to full-time, commuter, visitor, or even bicycle – allowing you to find just the right setup for your operation.

EFFICIENT ENFORCEMENT WITH LPR OPTIONS

Bring your entire parking enforcement process into one centralized system, simplifying your operation to create efficiencies. Our enforcement solution can be tailored to fit your specific needs. It utilizes the latest software and mobile technology to put real-time information in your enforcement officers' hands and ensure your parking assets are used appropriately.

Plus, with options for mobile or fixed license plate recognition, you can increase your enforcement efficiency by 10- to 20-fold.

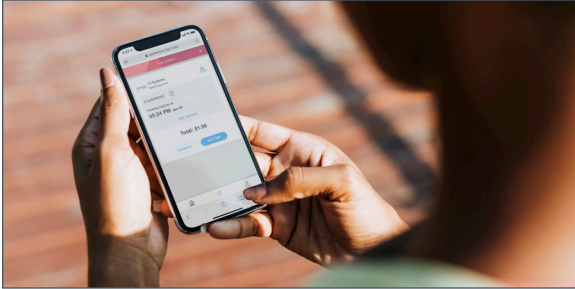

RELIABLE ACCESS & REVENUE CONTROL

T2 offers a reliable, comprehensive PARCS solution created and designed specifically for your operation. Our solution empowers you with the right software, hardware, and analytics capabilities to effectively manage permit parking access and ensure the accurate capture and reporting of revenue.

Over 125 T2 customers are using PARCS solutions to manage 2,000+ PARCS lanes and process hundreds of millions of dollars in transaction revenue.

Solutions for Higher Education

WHAT WE OFFER

CONTACTLESS CAPABILITIES

Consumers want payment options, and in today's marketplace contactless is front of mind, because it is fast, convenient, and helps create peace of mind.

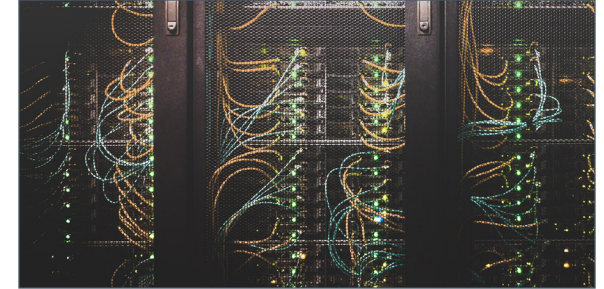

T2 delivers a variety of contactless capabilities – from online permit sales to mobile payments to LPR solutions – that help you operate efficiently, maintain high safety standards, and protect payment data.

SEAMLESS INTEGRATIONS

As a technology provider, T2 Systems delivers proven and tested technologies while providing an open system that allows our customers to share data between the various solutions and systems they use.

Our software solutions seamlessly integrate with your external systems, such as payroll, enterprise systems, and databases, and other third-party parking providers via T2's open API platform to improve your oversight and reconciliation capabilities.

INDUSTRY-LEADING HOSTING

Our industry-leading hosting environment, backed by over a decade of experience, offers superior reliability and performance and can help your organization experience a cost savings of roughly 30 percent.

Additionally, T2 has invested in becoming a Payment Card Industry (PCI) Level 1 Service Provider, providing peace of mind that you are protected from external threats and data loss.

The T2 Difference

WELCOME TO THE FAMILY

Parking, mobility, and transportation are about people. People getting from point A to point B; products being transported by people; services being delivered by people. So for T2, selling you a solution is just the beginning of a long-term relationship with you at the heart of our family.

What starts with a sale often grows from a business relationship into a trusted network of friends and family. Working together, we help each other solve problems and capitalize on opportunities. That's the T2 Community.

Customer Community

The T2 Customer Community is a source for collaboration to help define and develop next generation functionality across our solution portfolio and share peer-to-peer best practices.

Account Management

When you join T2, you receive a dedicated contact who will be available to help you find the best solutions for your operation and assist with all your T2 needs.

Support

The T2 Support team provides you with 24/7/365 access to our hardworking team of T2 experts, who will work with you and follow up with you until we get a satisfactory resolution to your issue.

Training & Education

From free, online tutorials and documentation to paid hands-on training both online and in-person, T2 is here to help you better understand your solutions and improve your operation.

UNIVERSITIES EXPERIENCING THE T2 DIFFERENCE

About T2

T2 SYSTEMS WAS FOUNDED IN 1994 WITH ONE SIMPLE GOAL: MAKE PARKING BETTER.

We immediately established a leadership position in the parking industry and continue to pave the way in new technologies that help you seamlessly manage parking, mobility, and transportation services.

Today, we provide the most comprehensive solutions available to process transactions and leverage data to make informed decisions. Our unified parking management platform puts all the tools you need to be efficient and effective at your fingertips, with one place to manage your T2 solutions, including Permits, Enforcement, PARCS, Pay Stations, and more.

With a strong track record of delivering projects that generate real return for our customers, and by delivering a quality experience for parking patrons, T2 continues to focus on helping our customers make every trip a smooth journey.

In 2021, T2 Systems was acquired by Verra Mobility (NASDAQ: VRRM), a leading provider of smart mobility technology that makes transportation safer, smarter, and more connected.
