

TD INDUSTRIES SAFETY PROTOCOLS

Ensuring the safety of you and your facility

TD Industries is taking proactive steps to help ensure the safety of all those within your facility, and to minimize disruption to your business. To keep you informed, TD has developed a detailed action plan for business continuity and to enhance safety precautions. Some of these include:

	<p>Ongoing communication regarding health, safety, sanitation and hygiene on the jobsite</p>		<p>Alternate methods of service including off-peak repairs, additional filter change-outs by customer request, and other means to prevent the spread of this virus</p>
	<p>Require all Partners to wear face coverings on all job and facilities sites to lessen the exposure to and spread of COVID-19</p>		<p>Hands-free approval process on all work orders and contracts through TD's no-touch service call center</p>
	<p>Mandatory temperature checks for all TDPartners prior to leaving their home and will adhere to addition temperature checks where enforced</p>		<p>Maintenance of adequate stock of Personal Protection Equipment (PPE) including no sharing of PPE</p>
	<p>Additional cleaning protocols for all facilities</p>		<p>6-ft minimum perimeter between all persons, where possible</p>
	<p>Guidelines for proper tool cleaning</p>		<p>Monitoring of geographic health regulations including:</p> <ul style="list-style-type: none"> • Texas Department of Health Services • Arizona Department of Health recommendations • Denver Department of Health Services • CDC & World Health Organization

The full list of TD Action Protocols can be found at the link provided below.

TD is committed to providing timely updates to our people, based on changing conditions. Currently, TD is considered an essential service business and we will continue to operate under the guidelines of our local jurisdictions.
