

Cooperative Purchasing Program

Contract Awardee: DLT

Contract Number: R190902 | Contract PoP: 1/1/2020-12/31/2024

OMNIA Partners stands as the foremost nationwide cooperative purchasing program for:

State and Local Public Agencies

K-12 School Districts and Higher Education

Simplify, Streamline, and Save on AWS Cloud Solutions and Services

As a trusted AWS partner since 2011, TD SYNEX Public Sector combines extensive expertise in AWS cloud solutions with a deep understanding of license acquisition, delivering essential IT solutions tailored for the specific needs of state and local government entities. With specializations in key AWS cloud solutions, we stand as your primary partner for a wide range of AWS products and offerings designed to address the unique challenges of the public sector.

About OMNIA

OMNIA Partners, Public Sector is the nation's largest and most experienced cooperative purchasing organization dedicated to public sector procurement. OMNIA's immense purchasing power and world-class suppliers have produced a comprehensive portfolio of cooperative contracts and partnerships, making OMNIA Partners the most valued and trusted resource for organizations nationwide.

Through the economies of scale created by OMNIA Partners, our participants now have access to an extensive portfolio of competitively solicited and publicly awarded agreements. The lead agency contracting process continues to be the foundation on which we are founded. OMNIA Partners is proud to offer more value and resources to state and local government, higher education, K-12 education and non-profits.

- Planning & Performance
- Student Management

Information Systems

- Analytics
- Data Modernization

Learning Management System

- Remote & Virtual Learning

Security & Compliance

- Ransomware Mitigation

Student Experience

- Contact Center

State & Local Government

Health and human services (HHS) agencies can use big data analytics and machine learning on AWS to leverage the information they already have to make well-informed, more confident decisions by building connections that may have otherwise gone unnoticed.

Justice and public safety customers can use AWS to help them tackle public safety data needs like records management systems, body worn camera solutions, and next generation 911 technology.

Digital government solutions on AWS can span open data initiatives, traffic analysis, citizen service improvements, and IoT-based smart city projects, such as early flood warning systems, predictive analytics for road maintenance, and efficient trash pickup.

Elections administrators, political campaigns, and civic organizations can leverage AWS to provide underlying elections infrastructure in a secure, cost-effective, and scalable way.

Local governments can create data lakes to connect disparate homeless management information system data, potentially revealing patterns that can help care providers rapidly create and tune interventions to the unique needs of groups experiencing homelessness.

AWS offers a business continuity solution that minimizes downtime and data loss by providing fast, reliable, cloud-based disaster recovery. The solution continuously replicates applications from physical, virtual, or cloud-based infrastructure to a low-cost staging area that is automatically provisioned in any target AWS Region of choice.

TD SYNnex Public Sector does not hold any contract vehicles. The names of the legal entities that hold various federal and state contracting vehicles - DLT Solutions, LLC, Tech Data Government Solutions, LLC and TD Synnex Corporation - will remain the same at this time and will continue to operate under their respective contracting vehicles.
