NCPA Registered Vendor Quotation Number

RFP responders are requested to agree to a quotation number registration program to provide consistency and faster service for our facility awarded vendors, agency members and participants. The process will require Facility Contract holders to register and receive a NCPA Vendor Registered Quotation Number that must be prominently displayed on each proposal(s) that you present to the agencies. The system will track Facility transactions from the initial proposal stage to the completion of each project. NCPA has assembled an experienced Facilities Management Team that stands ready and willing to assist its vendors in providing quality services to the awarded vendor's organization. Failure to receive the Vendor Registered Quotation Number can result in potential delays to your services and the only acceptable proposals need to have a NCPA Vendor Registered Quotation Number.

NCPA Registered Vendor Quotation Number Process

Green Initiatives

We're committed to helping to build a cleaner future!

According to the U.S. Census Bureau, the world population is expanding at a mind-boggling rate. The world reached 1 billion people in 1800; 2 billion by 1922; and over 6 billion by 2000. It is estimated that the population will swell to over 9 billion by 2050. That means that if the world's natural resources were evenly distributed, people in 2050 will only have 25% of the resources per capita that people in 1950 had.

The world has a fixed amount of natural resources - some of which are already depleted. So as population growth greatly strains our finite resources, there are fewer resources available. If we intend to leave our children and grandchildren with the same standard of living we have enjoyed, we must preserve the foundation of that standard of living. We save for college educations, orthodontia, and weddings, but what about saving clean air, water, fuel sources and soil for future generations?

As our business grows, we want to make sure we minimize our impact on the Earth's climate. So we're taking every step we can to implement innovative and responsible environmental practices throughout NCPA to [reduce our carbon footprint](#), reduce waste, energy conservation, ensure [efficient computing](#) and much more. To that effort, we ask respondents to provide their companies environmental policy and/or green initiative.

In addition, contractors must be required to pay wages not less than once a week.
