ABOUT TSS

For over 50 years, Technical Safety Services has provided unparalleled service to biotechnology, pharmaceutical, medical device, healthcare, academic research and food production facilities throughout North America.

Across these and other diverse industries, TSS serves to test, certify and calibrate the critical equipment and controlled environments crucial to their operations.

With an ISO 9001 certified quality system and nationwide network of skilled technicians, Technical Safety Services is uniquely positioned to ensure your operation remains productive and in compliance with regulatory standards.

We invite you to make Technical Safety Services your single source service provider and let the expert team at TSS put you back in control of your controlled environment.

SERVICES

OUR COMPREHENSIVE SERVICE AND MISSION CRITICAL SUPPORT INCLUDE:

▶ Cleanroom Testing and Certification

Offering comprehensive services to ensure your cleanroom complies with regulatory standards, TSS specializes in HEPA filter testing, environmental monitoring, and more.

▶ Biosafety Cabinet Testing and Certification

More NSF Accredited technicians than any other testing and certification service in the United States. Experience matters.

▶ Decommissioning

TSS will work with client representatives and regulatory agencies to implement a decommissioning plan that complies with ANSI/AIHA Z9. 11-2008 and satisfies all regulatory agency requirements.

▶ Equipment Calibration

Lab equipment calibration services are offered either on-site or in our ISO 17025 accredited calibration laboratory.

▶ Validation

GMP validation services involve comprehensive project management to ensure your validation results adhere to all regulatory and industry expectations.

▶ Chemical Fume Hood/ASHRAE Testing

Ensure your chemical fume hoods are operating safely and in compliance with OSHA, ASHRAE, and other regulatory standards.

▶ High Purity Water System Services

We test and certify all required points of use throughout your facility with custom tailored service plans to meet your lab water system's compliance requirements.

▶ Decontamination Services

TSS offers a variety of decontamination services tailored to suit your needs. Our engineers will assist you in determining the best type of decontamination for your facility.

▶ Pharmacy Support Services

Make USP<797>/<800> compliance easier with TSS' support. Our engineers have developed specialized Pharmacy Support Services to assist you.

▶ Additional Services Include:

Commissioning | Compressed Gas System Testing | Airflow Visualization Studies

TECHNICAL TRAINING & CERTIFICATION

TSS is certified by the National Environmental Balancing Bureau [NEBB] and is a member of the Institute of Environmental Sciences and Technology [IEST] community. Our experienced field engineers are highly trained professionals that specialize in providing total system service and technical support to each of our clients. Every technician has successfully completed the rigorous written and practical examinations for NSF. Furthermore, TSS provides each technician with a comprehensive training program that includes a multi-disciplined curriculum, supervised field apprenticeship, and recurring follow-up training.

All testing is performed in accordance with established TSS Standard Operating Procedures [SOPs], as well as in compliance with the applicable regulations and standards developed by the following:

- ▶ AABC — Associated Air Balancing Council
- ▶ ABSA — American Biological Safety Association
- ▶ ASHRAE — American Society of Heating, Refrigerating and Air-Conditioning Engineers
- ▶ ASQ — American Society for Quality
- ▶ CDC-NIH — Center of Disease Control – National Institute of Health
- ▶ CETA — Controlled Environment Testing Association
- ▶ FDA — U.S. Food and Drug Administration
- ▶ FS209E — Federal Standard 209E
- ▶ IEST — Institute of Environmental Sciences and Technology
- ▶ ISO — International Organization for Standardization
- ▶ ISPE — International Society of Pharmaceutical Engineers
- ▶ NEBB — National Environmental Balancing Bureau
- ▶ NIST — National Institute of Standards and Technology
- ▶ NSF — National Sanitation Foundation
- ▶ OSHA — Occupational Safety & Health Administration
- ▶ PDA — Parental Drug Association
- ▶ SEFA — Scientific Equipment and Furniture Association
