teknion: the smart choice for office design

TEKNION FURNITURE CONNECTS PEOPLE, TECHNOLOGY AND SPACES—DELIVERING INTEGRATED, SUSTAINABLE DESIGN FOR A HEALTHIER, MORE PRODUCTIVE WORLD.

QUALITY

Teknion is a leading international designer, manufacturer and marketer of mid- to high-end office systems and related furniture products.

SELECTION

Our integrated product portfolio includes several lines of systems furniture, mobile furniture, architectural wall systems, seating, storage and filing, freestanding casegoods and accessories.

SUSTAINABILITY

Teknion embraces change and its innate possibilities, integrating sustainable principles and practices into the design, manufacturing and marketing of our products.

FLEXIBILITY

Teknion products perform independently and in concert, combining in virtually unlimited configurations.

desking and benching

With Teknion's desking solutions, you get all the advantages of freestanding and systems furniture—in one product. Our desking products maximize space in open plans and enclosed offices with equal finesse.

A "ONE-TO-ONE" RELATIONSHIP

Each customer experience is unique. We tailor our relationships to meet the precise needs and value criteria of your office space.

systems

Teknion's innovative, integrated furniture has been at the forefront of the modern office for more than three decades. Adaptive and supremely functional, our office systems let you divide space, control privacy and enhance ergonomics without sacrificing comfort or aesthetics.

Value Proposition

COMPETITIVE PRICING

Compare our features. Compare our prices. Teknion delivers outstanding overall value, offering the best initial price to buy, maintain and own your new office furnishings.

routes

Teknion's Routes collection, designed in partnership with PearsonLloyd, is a stylish and simple "toolbox" of intuitive furnishings that are as playful as they are practical. Comprising desks, tables, chairs, screens and accessories – all with their own individual character – Routes is designed to allow teams to create flexible, utility-driven and engaging workspaces quickly and efficiently, breaking with convention and introducing a sense of play into the world of work.

kiosk

A transformative shift is underway at the office. The advent of hybrid work models now requires a workplace more agile and adaptable than ever and an environment more welcoming and inclusive, one that invites people to come together to work. Teknion introduces Kiosk, a collection of freestanding modules that define work hubs and distribute collaborative tools across the office. Suitable for training, meeting, work spaces or lounge areas, Kiosk stands at the intersection of furniture and architecture.

Value Proposition

DESIGN LEADERSHIP AND COMMITMENT

As an industry leader, Teknion contributes to the world of office furniture with knowledge, education and, of course, award-winning products.

casegoods

You can use Teknion casegoods as stand-alone units or integrate them with other Teknion office products. Our components are flexible enough to accommodate a variety of tastes and budgets. You can even customize them for a distinctive appearance.

tables and collaborative spaces

Tables are increasingly important in today's evolving office environment. Teknion's integrated table designs are durable enough to withstand continuous use, so they're perfect for training facilities, conference centers, A/V rooms, presentation areas, call centers and cafeterias.

Value Proposition

CUSTOMIZATION

We have the largest dedicated customization department in the industry, able to meet your requirements—no matter how complex.

Value Proposition

LOW-RISK PRODUCTS

We offer practical, adjustable, multiple-use products, making experimentation and integration affordable.

filing and storage

Filing and storage systems are the key to an organized office. Don't make them look like an afterthought! Our solutions keep everything from briefcases and paper documents to your pens and keys easily accessible—and easy on the eyes.

social spaces

Zones is a comprehensive series of furniture products designed to challenge convention and change the way people work. The collection includes seating, tables, screens, easels and accessories, as well as semi-private enclosures that can be used to establish an intimate collaborative setting or a private retreat.

Value Proposition

SUSTAINABILITY

Teknion is committed to minimizing its impact on the planet and helping you meet your environmental goals. Our dedication to sustainability is reflected in our design, manufacturing and operations. We continually evaluate our progress, so we can achieve our goal of total sustainability.

With its exclusive focus on social applications, our Studio TK brand is changing the culture of work, creating spaces that are responsive to all the ways that people work—and all that their work demands.

AUTHORIZED DEALER NETWORK

We support government and education requirements with a highly skilled, trained and certified dealer network. Visit teknion.com/locations/locations-dealers to find a dealer near you.

seating

Office workers usually spend more time seated than in any other position. That's why comfortable, adjustable seating is so imperative. Fortunately, we've got your back—and your bottom. Our chairs are designed to adapt to myriad shapes, sizes and personal preferences, as well as the demands of every type of job.

architectural interiors

Reconfigurable wall systems integrate seamlessly to define and enclose space, affording both acoustic privacy and visual accessibility. We also offer freestanding glass-front booths for short-duration privacy from the open plan.

*Above: Within
Right: Tek Vue*

FAST LEAD TIME

We offer an average lead time of just 30–90 days.

pod

POD (Privacy on Demand) is a family of products that are designed for occasional, short-duration privacy from the open plan. It supports technology and helps shape an environment where people want to work and where they feel comfortable and connected. Consisting of Tek Booth and Tek Room, both solutions work together to create a diverse range of small-scale private environments.

Value Proposition

HEIGHT ADJUSTABILITY

The human body is built to move. It follows that the human-centered workplace should provide people with the opportunity for physical activity; with a choice among working postures as well as workspaces. Alert, engaged and healthy workers are most often those who are afforded a stimulating and inspiring work environment that encourages movement—to sit, stand and walk around.

height adjustable tables

Infuse movement into your work space. The Height-Adjustable Bench provides each individual user the freedom to control their movement while working. Sit/stand height-adjustability allows users to frequently alternate their body posture throughout the work day.

ergonomic accessories

The Ergonomic Accessories collection includes monitor arms, keyboard trays, technology support holders, lighting products—all designed to work in tandem to give you more cohesive and efficient workspaces, and also enhance wellness and reduce the risk of discomfort and injury.

Value Proposition

UNTETHERED

Untethered is a product portfolio of mobile worktools equipped with battery packs to power your phone and laptop through an entire day. While pulling power from the active battery, the backup is being charged and ready to pick up when you need it. Like the ebike which gives you the power to go further and carry more, Untethered can extend your reach, your day, and your office.

Value Proposition

DEDICATED SERVICE TEAM

Our nationwide customer service team includes specialists who work exclusively with government and education agencies. They'll answer your questions, help manage your projects and take care of special requests. Email valerie.windrim@teknion.com or call 877-TEKNION, ext. 5618.

the teknion advantage

Teknion can support your projects through expertise and integration for improved workplace well-being. www.wellcertified.com

Teknion products can support your project's pursuit of LEED. Refer to our Environmental Data Sheets for details on materials and recycled content.

All of Teknion's major product lines have been tested and verified by SCS GLOBAL SERVICES for indoor air quality.

Teknion products are level™ certified, ensuring that a product's manufacture meets ANSI/BIFMA e3 sustainability standards. www.levelcertified.org
