Re: RFP 35-22 Distribution of General Lab Supplies

Dear Sir or Madam:

On behalf of Thomas Scientific, LLC ("Thomas"), and regarding the above referenced Request for Proposals ("RFP"), I am pleased to submit our offer for your consideration. Thomas' response fully meets the requirements of Region 14 ESC and NCPA as outlined in the RFP for a distributor capable of providing access to a broad array of general laboratory products. Thomas Scientific accepts the terms and conditions of the RFP without exception.

Thomas Scientific has been a trusted supplier to federal, state, and local governments since its formation in 1900. We are the third largest, and fastest growing domestic distributor of laboratory and safety products. Thomas provided critical supplies to states and local governments throughout the U.S. over the past two years in support of their emergency response efforts to combat the COVID-19 pandemic. Thomas Scientific also provided critical materials to DHS/HHS during 2020 as part of the federal government's pandemic response where we shipped viral test media to all fifty states. According to contract information published in the Federal Procurement Data System, and as reported by 24/7 Wall St., Thomas Scientific (#24) was listed as one of the top thirty (30) companies that received the largest COVID-19 related government contracts.¹

In addition to a comprehensive discount schedule for Participating Entities, Thomas agrees to provide the goods requested through the RFP in addition to absorbing the cost of standard ground transportation for catalog products. Non-catalog and/or special order items, expedited shipments requiring air service, special packaging and/or dry-ice, and lift-gate/white glove delivery services will be prepaid and added to a Participating Entity's invoice. NO HAZARDOUS MATERIALS FEES OR FUEL SURCHARGES shall apply to any shipments. No minimum order shall apply to receive free freight. This should represent significant savings for your Participating Entities

NCPA Administrative Agreement

SALES ORGANIZATION CHART

- Define your standard terms of payment.

Thomas Scientific standard payment terms are Net 30 days, except where statutory terms are different than our standard terms.

- Who is your competition in the marketplace?

Thomas' primary competitors in the marketplace are Fisher Scientific and Avantor (VWR). Both Fisher and VWR are manufacturers in addition to distributors and therefore are vertically integrated sources of supply. Thomas Scientific is the only major "pure-play" distribution company. In addition, Thomas Scientific's workforce is 100% domestic whereas Fisher and VWR have significant personnel offshore to support U.S. customers.

- Provide Annual Sales for last 3 years broken out into the following categories:

- Cities / Counties
- K-12
- Higher Education
- Other government agencies or nonprofit organizations

- Provide the revenue that your organization anticipates each year for the first three (3) years of this agreement.

\$250,000 in year one

\$500,000 in year two

\$800,000 in year three

These estimates are conservative and based off Thomas Scientific's limited understanding of the acceptance of NCPA's contracts within the local government & higher education markets.

- What differentiates your company from competitors?

Please see the attachments:

- 1. Thomas Scientific at a Glance – Who we are.*
- 2. Thomas Values and Culture – Why we are different.*

Quite simply, Thomas Scientific is different from its competitors because of our people. We are a Team of experienced industry leaders who share a passion for lab products distribution. Our Company has been around since 1900 and is three years older than Fisher Scientific. Thomas Scientific has spent most of its history as a small family-owned east coast business. We became what we are today after the business was sold to the Carlyle Group in 2017 and came under the leadership of Charles Simmons, CEO.
