Unicon, Inc.	John Harper	jharper@unicon.net	Thank you for the opportunity to respond to the Request for Proposal (Solicitation Number 25-06) for Technology Services for Texas Region 4. We have carefully reviewed the outlined requirements and are pleased to submit our response to this proposal. Unlike other consulting companies, Unicon specializes solely in the education industry. At Unicon, we understand the critical importance of having the right people in place to execute based on the needs throughout your district. Our specific expertise in supporting K-12 districts and our previous work with Region 4 in the development of the TalentED Dashboards, as well as our long history in working on the Texas Education Exchange positions Unicon to not only deliver the services as outlined, but a strategic partner for Region 4. Our depth of understanding for existing systems, infrastructure, and organization needs makes Unicon the right choice for this work.
ThunderCat Technology LLC	Jean Kim	jkim@thundercattech.com	Unicon will partner with Region 4 as we execute services to ensure there is clarity in our work as it provides sustainability and extensibility for the region. Our teams work collaboratively to deliver services to ensure it aligns with your goals and objectives.

Spacestor Inc	Emily Nagle Grundy	emily.naglegrundy@spacestor.com	Spacestor delivers technology-enabling workspace solutions that make IT usable and secure at the point of work: powered acoustic video pods (Teams/Zoom-ready), AV/IT-ready furniture with integrated power/data & cable management, and device-deployment smart lockers—backed by site survey, installation, training, and warranty services. Our offer maps to Categories D, E, and F (Professional/Consulting, Managed/Support, Emerging Tech). We support public-sector needs (safety, sustainability, auditability), manufacture primarily in the U.S., and have recent K-12, higher-ed, and government deployments (e.g., Langley AFB, SCAD). We provide the environment that accelerates adoption and reduces IT support load.
