

Stay ahead of restroom cleaning needs

Real-time data from Tork Vision Cleaning makes maintenance easy and efficient

75%
of managers said they reduced complaints as a result of using Tork Vision Cleaning¹

¹ Based on survey results conducted in November/December 2023 of 69 managers using Tork Vision Cleaning in 18 countries globally

The challenges facing the cleaning sector

“The restroom is the first thing people forget about, but the first thing they will complain about if it’s not stocked and clean.”

This is a quote from one of our customers and like many facility managers, you might think ‘valid point’. Our current, extensive research has identified the main challenges facing facility managers:

Resource optimization and efficiency

- Labor shortages and high staff turnover
- The same or greater hygiene expectations
- The need to deploy cleaning staff to different areas for urgent tasks

 **Discover how to target the right areas at the right time**

Quality

- Multiple management tasks add to workload stresses
- Cleaning teams are under pressure to meet KPIs and standards
- Need to maintain restrooms that positively represent the company

 **Find ways to increase quality and avoid complaints**

Sustainable hygiene

- Requirement to make purchases and use processes that meet sustainability targets
- Need to stay within budget
- Expectation to reduce single-use product consumption, plastics, chemicals and waste

 **Have the means to refill exactly when needed, to reduce waste**

Access to intelligent data

- Need to make fact-based decisions in order to save time and money
- Need real insights to show primary areas of concern
- Difficulty keeping track in a changing environment

 **Access data and information to support better informed decisions**

The solution is data-driven cleaning

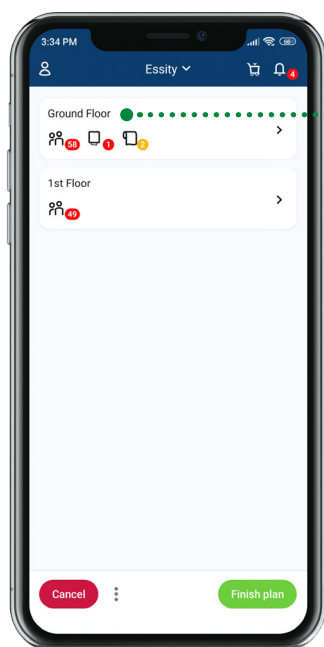

Tork Vision Cleaning uses real-time data from connected dispensers that measure visitor traffic and dispenser refill levels, which you can monitor easily from your desktop, tablet – and the new, user-friendly mobile app. So you can respond efficiently, and take total control of your facility's hygiene.

Real-time traffic analytics and tools, like visitor heatmaps, to identify hot spots and trends

- ✓ Digital cleaning plans provide clear instructions with **always up-to-date information** for cleaners
- ✓ Cleaners can quickly identify urgent tasks, such as specific areas to be cleaned or dispensers to be refilled, **while reducing dispenser checks by 91%²**
- ✓ Cleaners can monitor data and act before problems arise, and so **reduce restroom complaints**
- ✓ Indicators show cleaners when to refill to ensure that **dispensers are stocked 99% of the time³**

Portuguese, Spanish, Swedish

² Based on customer measurements and feedback for dispenser checks over 6 months before vs after installing Tork Vision Cleaning (between June-December 2019). Measured across 16 sites connected to Tork Vision Cleaning, with each dispenser check taking approx. 20 seconds.
³ Measured across nearly 13,000 connected dispensers between June-December 2019, based on time per month that a dispenser is in an empty status against total time per month.

How it works

Sensors placed throughout your building monitor visitor traffic and refill levels.

A gateway collects this data and communicates with the cloud providing real-time information about cleaning needs.

Real-time data such as cleaning stats and KPIs help manage, follow up and optimize resources more efficiently.

Choose the level that works best for you

	Entry level	Refill on demand	Full offer

- ✓ Easy set-up
- ✓ IoT products, connectivity and site health
- ✓ Training and onboarding
- ✓ Reporting
- ✓ Live support and troubleshooting

Entry Level

Uses people counting to drive focus

- Target the right areas at the right times
- Optimize cleaning frequency
- Obtain smarter ways of staffing

Refill on demand

Uses connected dispensers as well as people counting for more efficient refilling and cleaning

- Refill only when products are needed
- Achieve faster resolution times
- Improve efficiency and optimize cleaning staff's time
- Deliver better budgeting and inventory management

Full offer

Support cleaning teams through a needs based approach

- Efficient scheduling of cleaning tasks
- Ensure optimum restroom experiences
- Find better ways of working
- Increase staff satisfaction
- Adapt to changes more easily

IoT connected dispensers and people counters

Tork offers the largest assortment of smart dispensers available on the market including the following ranges:

Tork Elevation
Dispensers with a functional modern design
Great option for busy restrooms

Tork Image Design
Dispensers in brushed stainless steel
Perfect for high-end restrooms

The image above shows a selection of the connected dispensers that are available. All Tork Elevation dispensers are also available in white.

More than smart

 Easy to use certified⁴ Tork dispensers simplify tasks for cleaning staff, while the new mobile app breaks through language barriers with clear icons and a simple traffic light system.

 At-a-glance data helps cleaning staff avoid refilling dispensers too early, reducing product waste.

4 Certified by the Swedish Rheumatism Association, tested according to The Design for All Test, published in the Swedish Design Research Journal, 2011.

Empower cleaning staff and increase efficiency

“My cleaning frequencies now vary from 2 to 7 times per day, providing for a much more efficient and higher quality cleaning than preset rounds.”

Chris Avis
Client Service Director
Blue Fin Building

Help your cleaning teams work smarter, with an insightful and easy-to-use mobile app for data-driven cleaning.

Make the most of your resources – maximize efficiency and deliver consistently high cleaning quality.

Already have a software platform? No problem

- ✓ API Integration feeds our people-counter and/or dispenser data directly into a third-party platform
- ✓ Sensors in buildings and dispensers measure visitor traffic and dispenser refill levels
- ✓ Use your existing software to display our data, in a format that works for you

Tork Vision Cleaning is easy to install, easy to use and easy to maintain - with global customer support on hand whenever you need it
