

# Stay ahead of restroom cleaning needs

Real-time data from Tork Vision Cleaning makes maintenance easy and efficient

Boost cleaning quality and reduce complaints with the world's leading solution for data-driven cleaning. Visitor counts and refill levels in connected dispensers are monitored and real-time data delivered to your desktop, laptop or the new, user-friendly app. So cleaners can make sure hygiene products are topped up on time and keep your restroom users happy.

**75%**

of managers said they reduced complaints as a result of using Tork Vision Cleaning<sup>1</sup>

**6 in 10**

managers said they improved quality using Tork Vision Cleaning<sup>1</sup>

**93%**

of managers recommend using Tork Vision Cleaning<sup>1</sup>

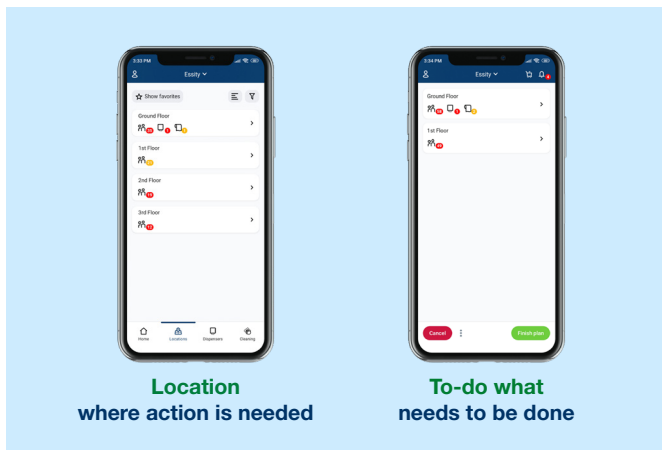

## Manage cleaning resources more efficiently

- Cleaners can quickly identify urgent tasks, such as specific areas to be cleaned or dispensers to be refilled
- Digital cleaning plans provide clear instructions with **always up-to-date information** for cleaners
- Cleaners can monitor data and **act before problems arise**, and so reduce restroom complaints

## Deliver better restroom results

- Real-time traffic analytics and tools, like the visitor heatmap, help to identify hot spots and trends
- Insights can be used for proof of performance, to inform audits and aid long-term planning
- Keep dispensers stocked 99% of the time<sup>2</sup>
- Reduce dispenser checks (by cleaning staff) by 91%<sup>3</sup>

**Location**  
where action is needed

**To-do what**  
needs to be done

## Designed for professionals

- New, user-friendly mobile app for managers and staff
- Easy to install and integrate with your existing IT systems
- Easy to maintain equipment, including simple battery changes and site health performance<sup>4</sup>
- Easy to use certified Tork dispensers for cleaning staff
- The new mobile app breaks through language barriers with easy-to-understand icons and a traffic light system
- At-a-glance data helps cleaning staff avoid refilling dispensers too early, reducing product waste
- More than 100,000 IoT devices in use globally<sup>5</sup>

“My staff love it and we are using our time more efficiently because we no longer need to check each dispenser physically. It is an awesome benefit not to have to do that anymore.”

**Jake Allgeier**  
Park Services Manager Kentucky  
Kingdom and Hurricane Bay

## The time to go digital is now

Contact your local Tork representative for more information or visit:

1 Based on survey results conducted in November/December 2023 of 69 managers using Tork Vision Cleaning in 18 countries globally

2 Measured across nearly 13,000 connected dispensers between June-December 2019, based on time per month that a dispenser is in an empty status against total time per month

3 Based on customer measurements and feedback for dispenser checks over 6 months before vs after installing Tork Vision Cleaning (between June-December 2019).

4 Measured across 16 sites connected to Tork Vision Cleaning, with each dispenser check taking approx. 20 seconds

5 Error tracking such as gateway and battery monitoring

6 Installed sensors, people counters and gateways at customers globally
