

Parcel Spend Intelligence

Visibility to Savings and Insights

TransImpact 

The Ultimate Tool for Power and Control

One single parcel can generate at least 10 different pieces of actionable data across multiple carrier invoices. But do you know everything that's hidden in your data?

Parcel Spend Intelligence analyzes the data that inundates logistics systems and uncovers the problems that are costing you money. Intuitive, meaningful dashboards and actionable insights give you the power to lower costs, gain control of your carrier relationships, and delight customers.

25+ Actionable Insights to elevate soft-cost savings opportunities.

Multi-Carrier Compatible (>15 carriers and counting).

Post Audit Recovery refund service included.

KPIs and trends with customized automated alerts.

International and Domestic Mapping.

Clients keep 100% of the savings realized, paying for the subscription.
