

Pallet Buyback Program

Turn cost into revenue

At Trinity, we have a commitment to zero landfill waste – ensuring that 100% of our wood pallets are either repaired or recycled and turned into mulch.

With sustainability top-of-mind, we help customers receive best-in-class service, pricing, and access to buyback programs nationwide.

Benefits

With our pallet buyback program, you can generate national revenue by selling Trinity your repairable pallet cores. We manage everything so that you don't have to, from core evaluation, pickup, accurate accounting and quick payment.

Generate More Revenue

Don't put your broken pallets into the dumpster or have them picked up. Generate revenue with Trinity's pallet buyback program. Get paid for your broken pallets, with corporate visibility, nationwide.

Maintain Supply

We maintain a network of over 350 pallet yards. Supplying our yards with the raw material to rebuild their pallets provides a steady supply of pallets for your company during times of shortages.

Track Revenue

Trinity connect gives you instant access to easily track your pallet buyback revenue. Save time and money with a unilateral view of your pallet buyback revenue.

Zero Landfill Waste

100% of our wooden pallets are either repaired and recycled or turned into mulch. This is an environmentally friendly practice and is in line with your company's culture of sustainability.

It's easy to get started

Just let us know how many broken pallets you have and how often you want your recycled pallets picked up. Your dedicated sales representative will help you maximize the credits you get back for your pallets.
