

# Compliant, efficient access to the Uber platform

## A trusted, publicly awarded cooperative contract

Through our cooperative agreement with OMNIA Partners, agencies can quickly adopt Uber for Business to manage on-demand rides and deliveries. The competitively solicited, publicly awarded contract is available nationwide, giving administrators tools to manage users, ensure compliance, and generate audit-ready reports.

## How governments leverage Uber for Business

### Save travelers time and money

Streamline in- and out-of-state travel with automatic discounts and compliance controls that reduce unneeded rental and parking expenses.

### Enable better access to services

Support justice systems, seniors, and community programs with reliable, on-demand rides that reduce no-shows and expand your agency's reach—no app required.

### Respond when it matters most

Move people, meals, and supplies where they're needed before and after disasters with the world's largest mobility and delivery network.

### Optimize fleet operations

Augment limited or underutilized vehicles with on-demand rides. Reduce maintenance costs and ensure every trip is right-sized for the mission.
