CARE[™]

COMPREHENSIVE ASSET REVIEW for ELEVATORS

Decades of Elevator Industry Experience

✓ WHY CHOOSE VDA?

Consultants at VDA have years of technical expertise maintaining and building elevators prior to becoming consultants—true consultants versus inspectors, advocating on your behalf.

Our expert technical know-how elevates our working partnership between you and the elevator contractors. We bring tangible resolution to root cause and corrective action. VDA looks at the quality of maintenance being provided under contract versus settling on data.

CARE CAN ALSO INCLUDE:

Quality Control Evaluations

Report on service provider guarantees, liquidated damages and bonuses

Report of callback resolution time and uptime percentage per unit

✓ WHY CARE?

- Ensures your elevator contractor is fulfilling the obligations of their maintenance agreement and providing your elevators the CARE they need
- Works to develop a partnership between Owners/Managers and Contractors
- Enriches equipment's reliability, safety, compliance, and longevity
- Mitigates shutdowns, violations/penalties, and unexpected invoices
- Provides pathway and investment strategy towards equipment's intended lifecycle
